CLARK ATLANTA UNIVERSITY

SUMMER NANOSCHOLARS PROGRAM

The Summer Nanoscholars Programs is a six-week research experience from June 7 through July 17, 2009. Interested students should be undergraduates (rising sophomores, juniors or seniors) majoring in a natural or physical science and have an interest in nanoscale materials and processes. Preference will be given to students planning to attend graduate school in a natural or physical science.

Participants' Package Includes:

- Personalized research project
- Graduate student mentor
- \$3,000 stipend
- Round-trip transportation
- Room and board

RESEARCH AREAS

- Biomaterials
- Biotechnology
- Catalysis
- Drug delivery
- Nanocomposites
