STATUS REPORT ON READINESS FOR ASSESSMENT

INSTRUCTIONAL PROGRAMS

OVERVIEW

The purpose of this report is to ascertain the readiness of departments to develop and implement assessment plans for each instructional program offered in the department. The objective is to complete the five-column assessment cycle over the period of August 2003-August 2004. The five-column assessment cycle is based on the Nichols assessment model for instructional programs, as demonstrated during the Institutional Effectiveness (Assessment) Workshops conducted by Dr. James (Jim) Nichols on May 21 and 22, 2003.

In order to complete a full assessment cycle by August 2004 – “to close the loop” – academic departments must be organized and prepared to engage in assessment activities as the 2003-2004 academic year opens in August (2003).

Inventory of Assessment Measures
Some departments responded to the inventory of assessment measures in conjunction with a study of in-place assessment measures and practices conducted by the Office of Planning, Assessment and Research (OPAR), October 2001-March 2002. Responses on the inventory checklists and supporting documentation should be helpful in completing this status report on “readiness” for assessment. Copies of the submitted inventories and documentation are maintained in OPAR.

Submission of the Status Report on Readiness for Assessment
The status report on “readiness” for assessment is to be completed and copies should be submitted to the following offices by June 30, 2003:

~Office of the Provost
~Office of the Responsible Dean
~Office of Planning, Assessment and Research
