Raphael Moffett  
**2008 – Ed.D., Educational Leadership**

*"The Clark Atlanta University Educational Leadership program provided me with the opportunity to find my purpose and helped me understand what it means to be a leader who is student centered, value driven, and quality based. The faculty was knowledgeable and supportive and consistently reminded me that being a critical thinking change agent was the highest priority for any leader in education. Unequivocally, I owe a great deal of my professional training and success to my mentors in the Clark Atlanta University Educational Leadership program."*
