Related Institutional Goals

The 2000 - 2001 strategic institutional priorities are related to the following institutional goals:

1.0 To enhance and maintain an environment which fosters intellectual, social and cultural curiosity and creativity and the development of morally sound value systems among students, faculty, administrators and staff.

4.0 To implement a comprehensive approach for continuous academic program review and assessment to improve quality and determine resource requirements and new directions through a plan of external visiting committees.

5.0 To enhance the role of research with an improved research infrastructure and evaluation plan that recognizes the importance of research and teaching to the mission of the University.

6.0 To implement an integrated and centralized program for faculty and staff to address personal and professional development.

7.0 To continue to institute modern management techniques, taking into account the new information systems, the improvement of human work environments, and the effective energy efficient utilization of space.

8.0 To plan and execute a capital campaign to provide the resources necessary to meet the University's goals.

11.0 To prepare a systematic plan for attracting a student body or increasing quality and size and an improved academic support plan to improve student retention.

14.0 To provide a state-of-the-art telecommunication and distance learning infrastructure using multimedia technology to facilitate excellence in teaching, research and service.
