

January 22, 2021

Dear CAU Student-Scholars,

We are pleased to announce that beginning spring semester, the University has entered into an agreement with Morehouse Healthcare (an affiliate of Morehouse School of Medicine) to provide health and wellness care to students in the medical school's new Atlanta University Center Consortium (AUCC) Student Health and Wellness Center. MSM's new AUCC Student Health and Wellness Center will replace the University's current on-campus Student Health Center, which during the spring semester will focus on supporting COVID-19 safety protocols for CAU students, faculty, and staff.

"Providing excellent health and wellness services to students at CAU and throughout the Atlanta University Center is part of our commitment to supporting their well-being and academic success," said Dr. George T. French, Jr., CAU President and Chair of the AUCC Council of Presidents. "Our partnership with the AUCC Student and Wellness Center enables our students to have access to a wider range of primary care, behavioral health, imaging, and specialty healthcare services right in the Atlanta University Center perimeter."

The new multi-specialty AUCC Student Health and Wellness Center, located at 455 Lee Street SW, will bring together comprehensive health services and counseling services in a centralized and spacious state-of-the-art environment, staffed by MSM doctors, residents, and other medical professionals. There will be a range of primary, behavioral health, and specialty care services, including annual preventive care, treatment for acute illnesses, sexual and reproductive health care, immunizations, travel clinic, an in-house medication dispensary, diagnostic labs and imaging, and referrals to specialists.

Students have access to health education and health promotion programs offered year-round at the AUCC Student Health and Wellness Center. Areas of interest to students include stress management, alcohol, drugs, nutrition, healthy relationships and sex, physical and mental wellness.

All currently enrolled full-time students at the University who were billed for the student health center fee are permitted to use the AUCC Student Health and Wellness Center. Fees for services will be billed to students' insurance, and, like all healthcare facilities, students may have to pay a nominal co-pay when services are rendered.

The AUCC Student Health and Wellness Center is open Monday to Friday from 8:30 am until 5:00 pm. Evening and weekend (Saturday) hours will also be available in the future. The Center is located on the AUC Shuttle Service Line, and there is a free parking deck adjacent to it. Please visit www.msm.edu/Current_Students/student-health/index.php for more information about the Center and the services offered.

If you have additional questions about CAU Student Health Services, please contact the Office of Student Services and Campus Life at (404) 880-8040 between 9:00 am and 5:00 pm EST, or via email at studentaffairs@cau.edu.

Best regards,
