The Clark Atlanta University 2004-2006 Graduate Catalog herein incorporates the appropriate academic programs, policies and resources of the University. This Catalog, as well as other official supplements, is not a contract. While the provisions of the catalog ordinarily will be applied as stated, Clark Atlanta University reserves the right to revise information, including but not limited to academic requirements for graduation, without providing actual or constructive notice to individual students. Changes made by a school or department will be available in the appropriate Dean’s office.

Every student is responsible for the completion of his/her academic program, and for meeting all degree requirements. It is the individual student's responsibility to keep abreast of the current graduation requirements and any changes in his/her particular degree program.

Copies of the Catalog may be obtained from the Clark Atlanta University Office of Admissions.

Greetings and welcome to what I sincerely hope will be one of the most productive periods of your life—your years as a student at Clark Atlanta University. Our extended family of students, alumni, faculty and staff open our arms to you, as you become an heir to our proud legacy of excellence and achievement.

I commend you on your outstanding decision to obtain your degree from Clark Atlanta. We are working to make the University Student-Centered and Quality-Driven. You will find our academic programs are first-rate and our faculty is committed to uncompromising standards of excellence. Our institution is fully accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (SACS) and our programs in Business Administration, Education, Library and Information Studies, and Social Work are all professionally accredited. A recently-constructed state-of-the-art classroom building, the Carl and Mary Ware Academic Center (see inside cover), is a beacon, both symbolically and substantively, of our commitment to high quality and technologically sophisticated teaching and learning.

At Clark Atlanta, our mottoes, “Culture for Service” and “I’ll Find A Way or Make One,” are not composed of idle words; they are an inescapable mandate embraced, adhered to and perpetuated by all those who have come before you. We believe that the tireless pursuit of these ideals forges a path toward enlightenment and a life of distinction. As President, I invite you into the venerable order of Clark Atlanta University’s matriculating students and distinguished alumni. Be advised though, membership has a cost—and the price is an unwavering commitment to strive for excellence in all your endeavors at this institution.

Sincerely,

Walter D. Broadnax
President
CLARK ATLANTA UNIVERSITY

HISTORY

Clark Atlanta University is a comprehensive, private, urban, coeducational institution of higher education with a predominantly African-American heritage. It offers undergraduate, graduate, and professional degrees as well as certificate programs to students of diverse racial, ethnic, and socioeconomic backgrounds. It was formed by the consolidation of Atlanta University, which offered only graduate degrees and Clark College, a four-year undergraduate institution oriented to the liberal arts.

The first President of Clark Atlanta University was Dr. Thomas W. Cole, Jr., who served concurrently as the President of both Atlanta University and Clark College prior to consolidation. President Cole served Atlanta University as Provost and Vice President for Academic Affairs, and as Professor and Chairperson of the Department of Chemistry.

In November 1987, after more than a year of discussion, the Boards of Trustees of Atlanta University and Clark College authorized an exploration of the potential advantages of closer working arrangements between the two institutions, including their consolidation into one university. In April 1988, the joint committee delivered its report titled CHARTING A BOLD NEW FUTURE: PROPOSED COMBINATION OF CLARK COLLEGE AND ATLANTA UNIVERSITY to the two Boards for ratification. The report recommended that the two schools be consolidated into a single institution. On June 24, 1988, the Boards of both Clark College and Atlanta University made the historic decision to consolidate the two institutions, creating Clark Atlanta University. The new and historic University inherits the rich traditions of two independent institutions, connected over the years by a common heritage and commitment; by personal, corporate and consortia relationships; and by location.

Atlanta University, founded in 1865, by the American Missionary Association, with later assistance from the Freedman’s Bureau, was, before consolidation, the nation’s oldest graduate institution serving a predominantly African-American student body. By the late 1870s, Atlanta University had begun granting bachelor’s degrees and supplying black teachers and librarians to the public schools of the South. In 1929-30, it began offering graduate education exclusively in various liberal arts areas, and in the social and natural sciences. It gradually added professional programs in social work, library science, and business administration. At this time, Atlanta University affiliated with Morehouse and Spelman Colleges in a university plan known as the Atlanta University System. The campus was moved to its present site, and the modern organization of the Atlanta University Center emerged, with Clark College, Morris Brown College, and Interdenominational Theological Center joining the affiliation later. The story of the Atlanta University over the next twenty years from 1930 includes many significant developments. The Schools of Library Science, Education, and Business Administration were established in 1941, 1944, and
PURPOSE STATEMENT

Clark Atlanta University is dedicated to preserving and disseminating the heritage of peoples of African descent. Our growth and survival are predicated upon self-knowledge and self-respect, both of which are rooted in a knowledge of history. In pursuit of its mission, Clark Atlanta University accepts the mandate of its parent institutions: Atlanta University's motto, "I'll Find a Way or Make One," and Clark College's motto, "Culture for Service." Rooted in its African-American heritage, impacted by present and projected trends, destined to shape the future, the purposes of Clark Atlanta University are:

1. To maintain a repository of knowledge and an environment which fosters maximum intellectual, social, and cultural development of students, faculty, administrators and staff.

2. To engage in the exploration of innovative ideas through research and teaching, new programs, and educational experiments both within and across disciplinary lines, so that the University shall be at the leading edge of American education and so that its graduates shall be informed, visionary, culturally sensitive, politically engaged, and socially responsible individuals with an understanding of their heritage and a strong commitment to advancing social justice.

3. To provide through experimentation, research, and social and cultural analysis new solutions to the physical and social problems of humankind.

4. To provide excellent education for those students who have proved they are high achievers and for those students who have the capacity for achieving excellence despite previous adverse circumstances.

5. To provide an increasingly diverse population with competent teachers and role models at all levels of education.

6. To promote artistic and creative expressions and to emphasize their importance in shaping intellect, values, and culture.

7. To provide members of the larger community with opportunities for continuing education which are consistent with the overall mission of the University.

*Revised: May 9, 2003
MISSION STATEMENT

The mission of Clark Atlanta University is to provide a quality undergraduate, graduate and professional education to a student body that is predominantly African-American and also diversified by students from various other racial, ethnic, cultural, and socioeconomic backgrounds. As an institution grounded in the liberal arts, the University is committed to the development of productive and creative students who excel in their chosen careers and who become responsible citizens in their communities and the world.

To achieve its mission the University attracts and maintains a dedicated faculty that meets high professional standards in teaching, scholarship, research, and service. The University also provides an educational environment in which its students thrive, learn, and develop their potential for leadership and responsible citizenship, and the pursuit and creation of knowledge.

The University maintains an historic relationship with the United Methodist Church and emphasizes sound ethical and moral principles that promote personal integrity and understanding of others.

*Approved by the Board of Trustees, February 20, 2004.

VISION STATEMENT

Consistent with our heritage and commitment to excellence, Clark Atlanta University (CAU) offers an education that fosters a global perspective, critical and analytical thinking and concern for the welfare of others. The University is committed to teaching, research and service, undergirded by high moral and ethical values and respect for individual worth. CAU produces graduates who will contribute to improving the human condition in a global society and to undertaking research that will expand the boundaries of current knowledge. We discharge our responsibilities with integrity, civility, sensitivity and compassion while promoting diversity, ensuring justice and freedom and improving quality services to others.

CAMPUS CULTURAL CREED

Clark Atlanta University is committed to academic excellence, building character and service to others. The University will achieve its mission by cultivating an environment of honesty, kindness, mutual respect, self-discipline, school loyalty, trust, academic integrity and communal pride. As a member of this scholarly community, I make the following pledge:

• I will work to promote academic honesty and integrity.
• I will work to cultivate a learning environment which opposes violence, vulgarity, lewdness and selfishness;
• I will embrace the concept of mutual respect by treating others the way I want them to treat me;
• I will support a campus culture of diversity by respecting the right of those whose views and experiences differ from my own;
• I will honor and care for the sanctity of my body as the temple of God;
• I will commit myself to service so that I can make a difference in the world and a difference for more than just myself;
• I will celebrate and contribute to the “spirit of greatness” left by those who preceded me, and I will work to leave this a better place for those who follow me.

As a member of this community, I am committed to conducting myself in ways that contribute to a civil campus environment, which encourages positive behavior in others. I accept the responsibility to uphold these noble ideals as a proud member of the Clark Atlanta University family.

GRADUATE ADMISSIONS

Admission to the University is granted to applicants who hold a baccalaureate degree from a regionally accredited college or university. The applicant’s record must show promise of ability to do graduate work and must include a sufficient degree of concentration in the chosen field of work to satisfy both the proposed school and the faculty of the proposed department of study.

Students may enter the University three times during the year: August, January, or June on the dates specified in the University Calendar.

APPLICATION

All students seeking admission must submit an application and a nonrefundable fee of $40.00 (international students $55.00) made payable to Clark Atlanta University. This fee is neither refundable nor transferable to another term, regardless of the admission decision. Fees should be remitted by cashier’s check, or money order payable to Clark Atlanta University. Former students must also submit the application; however, they are not required to submit the application fee. Applicants may secure application forms and other information concerning admission from the Office of Admissions or via the University’s website at www.cau.edu.

</table>

Note: School of Business Administration Fall Admissions Deadline is April 1. Students are admitted in the fall semester only, and early applications are encouraged.

ADMISSIONS PROCEDURE

Before any action can be taken on an application, the following must be submitted to the Office of Admissions:

a) Application for Admission

b) Processing fee of $40.00 (international students $55.00)

c) Official final transcripts from each undergraduate and graduate institution attended

d) Official GRE Report of Scores or GMAT Preadmission Report (if applicable)

e) Three letters of recommendation (two former instructors, one employer or supervisor)

f) Dean of Students Certification Form

g) Supplemental Documents (applicants for Ph.D., D.A., Ed.S., Ed.D., M.S.L.S., S.L.S. and specified M.A. degree programs): letter of intent which discusses career goals, reasons for applying to Clark Atlanta University and qualifications for admissions. Contact the program office for your intended area of study for additional information.

h) The Test of English as a Foreign Language TOEFL (International Students only)

GRADUATE RECORD EXAMINATION

With the exception of the School of Business Administration, applicants for admission are required to take the General Test of the Graduate Record Examination and to have their scores reported by the Educational Testing Service. The Graduate Management Admission Test (GMAT) is required for admission to the School of Business Administration. Although current test scores are preferred, reports up to five years old are accepted.

Arrangements to take the GRE must be made directly with Educational Testing Service at least three weeks before the desired test date (six weeks if registering to take the examination outside the United States). Applications for the GRE and GMAT examinations are obtainable from the Educational Testing Service, Box 955, Princeton, NJ 08540.

Domestic candidates from families with extremely low incomes may qualify for a waiver of GRE test fees. Such applicants should contact the Office of Financial Aid to determine whether their institution participates in the GRE Fee Waiver Program and whether they qualify. Fee waivers are not available directly from the Educational Testing Service.

TYPES OF ADMISSION STANDING

Admission to an Academic Degree Program

A minimum undergraduate or previous graduate GPA required for unconditional admission is set by each school or department as stated under the degree program in this catalog. In addition, students must have completed all specified course or degree prerequisites as indicated.

Conditional Admission to an Academic Degree Program

In some schools of the University, a student who does not meet the GPA or prerequisite requirements for a given academic program of study may be “conditionally” admitted to a program based upon the favorable recommendation of the school or department. Specific conditions, outlined in writing to the student at the time of admission, will be designated for remedying the deficiency and advancing to unconditional standing. Conditional admission to doctoral programs is not permitted.
Students admitted to conditional status will be expected to take a full course load and meet the same requirements as students admitted to unconditional status. Upon the successful completion of nine credit hours with a GPA of 3.0 or better, the student will be admitted to unconditional status. Where the conditional status is based on deficiencies in prerequisite courses, the students will be admitted to unconditional status once the deficiencies have been satisfied. The Graduate Studies Office will monitor all students admitted to conditional status.

Special Admissions (Nondegree)
Any individual, upon the satisfactory demonstration of appropriate prerequisite courses, training or knowledge, may be admitted as a special student to take courses for audit or credit independent of a degree program after having received the favorable recommendation from a school or department. Such individuals may not accumulate more than twelve (12) semester credit hours as a special student. Courses taken as a nondegree student may be used toward admission with the approval of the department/school. Nondegree admission is a separate process from cross-registration (see section on cross-registration).

Part-time Study
During the academic year, students who take fewer than nine credit hours are classified as part-time, except those who are engaged in writing the thesis or dissertation. During the summer, students who take fewer than six credit hours are classified as part-time, except those who are engaged in writing the thesis or dissertation.

Continuing Education
Any individual may apply for activities offered through the continuing education program without presentation of a transcript or letters of recommendation. Some activities may carry specific prerequisites as determined by the instructor.

Enrollment of Students Outside the AUC
Students from colleges and universities outside the AUC may take graduate courses at Clark Atlanta University. These students must present written verification of enrollment at another approved institution, and show evidence of having completed any prerequisites for courses. It is the responsibility of the student to secure acceptance at his/her home institution for the transfer of academic credit.

Note: Where “department/school” is used above, it is to be understood that where departments exist they shall make the recommendation.

INTERNATIONAL STUDENTS
Clark Atlanta University encourages enrollment of students from other countries. In addition to meeting the regular requirements for admission (with allowances for differences abroad in secondary school curricula), the applicant must demonstrate a reasonable proficiency in the English language. The University requires a minimum score of 500 on the paper examination or 173 on the computerized examination of the Test of English as a Foreign Language (TOEFL). Applicants from other countries may be admitted for either the first semester (August), second semester (January) or Summer Session (June). In order to ensure ample time for enrollment for a specific term, the application for admission and all supporting documents must be on file by the deadlines established for application to the University for the term for which admission is sought. Students from other countries are required to submit documents in English certified by appropriate officials. Clark Atlanta is unable to provide financial assistance to international students. Therefore, prospective students must be prepared to bear the expense of correspondence, processing fees, and other costs associated with application for admission to Clark Atlanta University. Before the University forwards a “Certificate of Eligibility” Form I-20 and other materials, an applicant must submit to the University funds sufficient to cover the expenses for one year.

Application for International Exchange
All students requiring an institutional certification of educational expenses for an Exchange Control Permit should request this as needed from the Office of International Student Services.

Immigration and Naturalization Service (INS)
The Immigration Office, which serves Clark Atlanta University, is located in Atlanta, Georgia. However, most student papers are processed through the INS Data Processing Center in London, Kentucky, or the INS Regional Service Center in Dallas, Texas. Information and assistance concerning the filing of documents with the INS should be requested of the Office of International Student Services.

It is important for international students to be aware of the types of documents which must be maintained and the requirements of the Immigration and Naturalization Service for maintaining legal status during their matriculation at Clark Atlanta University.

Passport: A travel document issued by a competent authority (usually the government of the student’s country of citizenship) showing the bearer’s identity, origin, and nationality, which is valid for entry into a foreign country. A student’s passport or travel document must be kept valid at all times.
Visa: A visa to enter the United States as a nonimmigrant is a stamp or label affixed on a page of the passport. It enables the passport bearer to request the immigration officer at the port of entry to grant admission to the United States under conditions specified for the type of visa the bearer holds. D/S: This notation signifies “duration of status.” It means that the student is eligible to remain in the U.S. until the completion of one or more academic programs so long as he/she is attending the school he/she was authorized to attend, is maintaining a full course of study, and is not engaging in illegal employment. If any of these conditions is not met, the student is no longer in legal status.

VISA TYPES FREQUENTLY FOUND AT CLARK ATLANTA UNIVERSITY

Permanent Resident: An immigrant is an alien who has been lawfully admitted to the United States for permanent residence. The word “immigrant” is interchangeable with “permanent resident,” or “PR.” Immigrants have the same legal rights and civil liberties that are held by U.S. citizens, with some exceptions.

F-1 Student
F-2 Dependent of Student (spouse or minor child)
J-1 Exchange Visitor (may be student, faculty, or researcher)
J-2 Dependent of Exchange Visitor (spouse or minor child)

FORMS FREQUENTLY USED AT CLARK ATLANTA UNIVERSITY

Form I-94. Arrival/Departure Record. This is a small card issued to all nonimmigrants upon entry into the U.S. It is stapled in the passport and contains the bearer’s name, date of birth, country of citizenship, admission number, visa status, and authorized length of stay.

Certificate of Eligibility (Form I-20). This document is issued to an admitted student who has shown proof of financial support for his studies to allow him/her to obtain a student (F-1) visa or to change from another visa status to student (F-1) status. Students are to retain a copy of this form for travel. It must be revalidated annually for travel of the student, or for travel of F-2 dependents of students. The Form I-20 also contains any notations of permission to accept or continue part-time employment or practical training.

Form IAP-66. Certificate of Eligibility for Exchange Visitor status (J-1). This form is issued by the Exchange Visitor’s program sponsor indicating the term of appointment, length of stay, program definition, and financial arrangements. It is also necessary for temporary visits outside the U.S. by the J-1 student, for J-2 dependents, and for extension of the exchange visitor’s stay.

Form I-538. This form is an application by a nonimmigrant student (F-1) for extension of stay, permission for practical training, or permission to accept or continue part-time employment.

Form I-506. This form is an application for change of nonimmigrant status. A nonimmigrant who entered the U.S. as a tourist (B-2) and has been accepted to Clark Atlanta University must apply to the Immigration and Naturalization Service for a change to student (F-1) status within the first thirty (30) days of attendance.

Form I-34. Affidavit of Support. Students should confer with the Associate Dean of Student Affairs for information regarding securing and/or completion of any of the forms listed above.

MAINTENANCE OF STATUS

Nonimmigrant students must register for and complete a full course of study during the academic year (Fall and Spring semesters) in order to maintain their student status. Any student registering for less than a full course of study must have a letter on file with the Associate Dean of Student Affairs, from his/her academic adviser, department chair, or a physician explaining the need for a reduced load. Students entering Clark Atlanta University after attending another academic institution in the United States must file a notification of transfer with the Immigration and Naturalization Service within thirty days of matriculating at Clark Atlanta University. Students should see the Associate Dean of Student Affairs to complete this process.

Students on nonimmigrant visas may engage in on-campus employment that will not displace a U.S. resident. However, these students are not eligible to participate in the Federal College Work-Study Program.
REGISTRATION

A new student should not present him/herself for registration without having received an admission letter from the Office of Admissions. No provision is made to accommodate students who arrive unofficially or without having made previous arrangements.

Registration and Enrollment are the processes by which one is enrolled as a student at the University. Registration includes advisement and course entry and results in a schedule of courses. Enrollment includes payment of tuition and other charges, and completion and filing of informational forms for various purposes during a prescribed time period. Following are the responsibilities of the student:

1. To become familiar with the University Calendar appearing in the Catalog and a number of other media throughout the University. Familiarity with the Calendar facilitates adherence to the registration process, which helps to assure that a student’s name will be entered on the correct class rolls.

2. To complete registration according to regulations. Academic credits may not be earned unless the student is officially registered for classes using the student Web Registration process.

3. To consult the academic advisor and secure appropriate signatures on required forms. This will ensure that proper course sequences are being followed for the student’s curriculum.

To be classified as a student at the University, one must be enrolled in at least one course or program, e.g., Co-Op, Internship, Practicum. A student who drops all courses must also complete withdrawal procedures or be subject to the University’s policies and procedures with regard to dropping, adding, and withdrawing from classes.

In all cases in which a student has not completed registration by the end of the specified registration date, a late registration fee will be charged.

REGISTRATION POLICY

1. Registration is the process that results in a student’s schedule of classes for a specific term. This means that the student has properly reserved a seat in a set of courses. Students must use the Web Registration process to register for all classes.

2. Students are required to complete registration before classes begin. All students are required to pick up registration materials, have registration forms approved by the department chairperson or advisor, and register for courses by the end of the Late Registration period as defined in the University Calendar. If not completed by the designated date, course registration will be cancelled by the University, and the student will not be considered as currently enrolled.

3. Students will have the opportunity to add and drop courses, using the Web Registration process at the beginning of each term during the specified dates. The last day for Add/Drop is specified in the University’s Calendar. Course adjustments after this date shall not be permitted. After this period students are allowed to withdraw from courses through the end of the withdrawal period as listed on the University’s Calendar.

4. Students who are not properly registered and enrolled will not be permitted to attend classes or take examinations.

DROPPING/ADDING OR WITHDRAWING FROM COURSES

Students may drop or add courses during the designated drop/add period on the Academic Calendar. Students must consult with their faculty advisor prior to making any changes in their class selections. The dropping and adding of courses must be done using the Web Registration system.

Course withdrawal begins after the end of the drop/add period, and the official date to complete course withdrawals for each term is found in the Academic Calendar. Students who wish to withdraw from an individual course must obtain a Course Withdrawal form from the Office of the University Registrar. The form must be complete with all appropriate signatures as required and submitted to the Office of the University Registrar prior to the official deadline for withdrawal. When a student is authorized to withdraw from a course, a final grade of “W” is assigned regardless of his/her performance in the course prior to the official date of withdrawal. Course withdrawal does not carry any refund of tuition and/or fees. When students are cross-registered at other AUC institutions, the CAU withdrawal policy will apply. When a student is cross-registered through the ARCHE program, the “host” school policy applies.

WITHDRAWAL FROM THE UNIVERSITY

To withdraw from the University, the student must obtain a Withdrawal Form from the Office of the University Registrar. In addition to any requirement of the individual school’s policy, the student must obtain the necessary and appropriate signatures as required by the form. The University Registrar’s signature is affixed to the form upon completion and then returned to this office for final processing. The “official” withdrawal date is the date on which the University Registrar signs the form. A final grade of “W” is assigned for all courses when students withdraw from the University.
CROSS-REGISTRATION

Cross-registration at the Atlanta University Center (AUC). Graduate students of CAU may cross register for courses at Morehouse School of Medicine. All students wanting to cross register must pickup a cross-registration form from their department. Completely fill out the information requested, specifically indicating the subject/course to be taken at the “host” institution. Once the form is complete, the student must get the approvals of his/her advisor and the other required signatures as indicated. The student must then turn it in to the Office of the University Registrar in order to be registered for the class. All cross-registration forms must be submitted by the end of the Add/Drop period each term. Forms submitted after this date will not be accepted.

Cross-registration Outside the AUC. Students from colleges and universities outside the AUC may take both undergraduate and graduate courses at Clark Atlanta University through the Atlanta Regional Consortium for Higher Education (ARCHE) affiliation. These students must apply for ARCHE cross-registration through their “home” institution. Their “home” institution must approve this application before they will be allowed to register at CAU. This application must show evidence that the student has completed the appropriate prerequisites for the courses to be taken at CAU. It is the responsibility of the student to secure acceptance at his/her home institution for the transfer of academic credit. Once students submit the application to their “home” institution, the application is forwarded to CAU for acceptance and registration. CAU has the right to deny cross-registration to any student based upon the rules and regulations governing registration and enrollment at CAU.

A CAU student may cross register at a participating ARCHE school. The CAU student must follow the same guidelines as stated above. An ARCHE school has the right to deny cross-registration to any CAU student based upon the rules and regulations governing their registration and enrollment. CAU students must be in Good Academic Standing in order to be approved for cross-registration.

STUDENT RECORDS

Privacy of Student Records
Release of information is governed by the guidelines of the Family Education Rights and Privacy Act (The Act). Within certain limits students have the right to prohibit the release of personal data without their permission.

FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA)

Clark Atlanta University, like other institutions of higher education, accumulates and maintains records concerning the characteristics, activities and accomplishments of its students. Because the University recognizes students’ right of privacy, a policy regarding the confidentiality of the information which becomes a part of their permanent records and governing the conditions of its disclosure has been formulated and adopted. This policy reflects a reasonable balance between the obligation of the University for the protection of the rights and privacy of students and its responsibility to society.

Students have the right upon request to the proper official to know of the existence and content of all materials that are in their official records kept by the University and to inspect and review such records except personally signed confidential documents placed in the file before January 1, 1975.

Students shall have the opportunity for a hearing by appropriate officials to challenge the content of their University records, to ensure that the records are accurate, not misleading or otherwise in violation of the privacy or other rights of students and to provide an opportunity for the correction or deletion of any inaccurate or misleading or otherwise inappropriate data contained therein.

The information listed below is considered "directory information” and may be released without permission from students. Students, however, do have the right to direct that any request must be filed in writing with the Office of the University Registrar.

**Directory Information includes:**

- a. name
- b. address
- c. telephone listing
- d. date and place of birth
- e. major field of study
- f. participation in officially recognized activities and sports
- g. weight and height of members of athletic teams
- h. dates of attendance
- i. degrees received
- j. most recent previous educational institution attended
- k. honors, awards and citations received

Students who desire that any or all of the above information not be released must complete a Request to Prevent Disclosure of Information Form in the Office of the Registrar within five (5) working days after the close of the official registration period. All other information is considered confidential and may be released only under specific conditions. A full copy of the University’s policy may be obtained in the Office of the University Registrar.

**Telephone Requests.** In response to telephone requests, the University releases only students’ enrollment status and previously published directory data. If callers require additional data, students must provide written authorization for release of such information. A copy of each authorization will be filed in the student’s permanent record.
**Effective March 15, 2004, currently enrolled students may request and pay for transcripts online using the secured website. Students who are not currently enrolled must submit a written request via the mail or in person. Fax and/or mail requests for transcripts will not be accepted or processed.**

**Financial Hold.** Students with outstanding financial obligations to the University or with delinquent Perkins Loan payments may be denied release of a transcript. Notice of financial holds will be given to students upon application for transcript. A new request for transcript must be made after the financial hold has been cleared.

**Change of Name and Address.** Every student is responsible for notifying the Office of the University Registrar of any change of name and address. Failure to do so can cause serious delay in the handling of student records and in notifying students in emergencies. Address changes must be submitted in writing and only the student may change his/her address. Name change requests must also be submitted in writing and be accompanied by official documentation of the change. This documentation may be one of the following: marriage license, social security card, or official legal disposition of the change. A copy of this document must be filed in the student’s official record.

**OFFICE OF VETERANS AFFAIRS**

The University is approved by the Georgia Department of Veterans Services (State Approving Agency) for the enrollment of veterans, service personnel, reservists, and dependents of deceased or disabled veterans who are eligible for educational assistance from the Veterans Administration.

Individuals desiring additional information should write, telephone, or visit the Office of the University Registrar, Trevor Arnett Hall, Room 102, CAU, 404-880-8938.

The Office of the University Registrar assists all veterans, spouses of veterans, and their dependents with the certification of educational benefits. Services are available on a self-referral basis. Veterans Services include:

- Montgomery G.I. Bill (active duty, Chapter 20)
- Montgomery G.I. Bill (selected reserved, Chapter 106)
- Survivors and Dependents Educational Assistance (Chapter 35)
- Restored Entitlement Program for Survivors (REPS)
- Educational Assistance Test Program (Section 903)
- Educational Assistance Pilot Program (Section 903)
- Post Vietnam Era Educational Assistance (VEAP)
FINANCIAL AID

The Office of Student Financial Aid at Clark Atlanta University administers and coordinates the awarding of student financial aid and assists students in identifying support to pay for their college education. As the majority of funds administered by the Office of Student Financial Aid come from federal and state sources, Clark Atlanta has adopted the same philosophy for awarding aid as the Department of Education.

STUDENT RIGHTS AND RESPONSIBILITIES

What Students Have the Right to Know:

- The cost of attendance.
- The financial assistance available from federal, state, and institutional sources.
- Procedure and deadlines for submitting applications for financial aid.
- How financial aid recipients are selected.
- How financial eligibility is determined, including resources the aid office considered available to the student.
- When and how financial aid funds are disbursed.
- An explanation of each type of award the student receives.
- The refund policy for students who withdraw.
- For any federal or state student loan received: the interest rate, the total amount to be repaid, when repayment begins, the length of the repayment period, and the cancellation or deferment provisions of the loan.
- For any Federal Work-Study job: a description of the job, the hours a student is eligible to work, the rate of payment, and how and when payment is made.
- The criteria used to determine satisfactory academic progress for financial aid purposes.
- How to appeal a decision by the Office of Financial Aid concerning an award.

What Students Have Responsibility to Do:

- Read directions thoroughly, complete all forms accurately, and comply with all deadlines.
- Submit any additional information or documents required by the Office of Financial Aid or other agency if applicable.
- Contact the Financial Aid Office if an award letter is not received within three weeks of submitting all required documents.
- Read, understand, and keep copies of any forms the student is required to sign.
- Repay any student loans that are received.
- Attend an entrance interview and exit interview if federal or state loans are received while attending Clark Atlanta University.
- Notify the Office of Financial Aid of any change in enrollment status or financial status, including any scholarships or grants received from outside sources.

HOW TO APPLY FOR FINANCIAL AID

a. Complete FAFSA. To receive financial aid at Clark Atlanta University, all students must complete the Free Application for Federal Student Aid (FAFSA) each school year. The FAFSA may be obtained from most high school counselors’ offices and most college financial aid offices. Students may also obtain a FAFSA from the Financial Aid Office at Clark Atlanta University campus. Students who have access to the Internet should complete the FAFSA on the Web at www.fafsa.ed.gov. Students who received federal financial aid in the previous school year may receive a Renewal Application. The Renewal Application may also be completed on the Internet. We strongly recommend that students apply using the Internet.

When completing the FAFSA, you must list Clark Atlanta University’s name and school code “001559” in the section that asks you to list the school you plan to attend. The address for Clark Atlanta University is 223 James P. Brawley Drive, S.W., Atlanta, GA 30314. If you use the paper application, mail the completed application to the Central Processor. Use the envelope attached to the application. If you apply on the Internet, remember to print and mail the signature page.

b. Review SAR for Accuracy. If you applied on the Internet, you should receive a Student Aid Report (SAR) in about 10 days. If you mail the paper application, you should receive a Student Aid Report in 2 to 3 weeks after you mail your FAFSA to the processor. Review your SAR to make sure the information is correct. If the information is incorrect, make the corrections on the SAR and return it to the processor. If Clark Atlanta University is listed in the school section, the Financial Aid Office will receive the information on your SAR. If the information is not correct, your application will be delayed.

c. Special Instructions. If the information on your SAR states that “Your application has been selected for a review in a process called verification,” you must send signed copies of your and your parents’ (if dependent) federal 1040 tax returns to the financial aid office. You will also have to
NOTE: The University’s review of documentation may result in an adjustment to the aid award. Thus, it is in the student’s best interest to notify the Office of Financial Aid regarding changes in information originally reported on the Free Application for Federal Student Aid (FAFSA).

SATISFACTORY ACADEMIC PROGRESS POLICY FOR FINANCIAL AID RECIPIENTS

Federal regulations and Clark Atlanta University policies require that students receiving financial assistance maintain satisfactory academic progress (SAP). In general, “satisfactory academic progress” means progressing toward successful and timely completion of degree requirements.

The programs affected by the SAP requirements include federal, state, and University aid. Students receiving funds from any of these sources must demonstrate and maintain SAP or face financial aid probation and/or denial of aid from all sources. Students receiving scholarships based upon merit must comply with the academic requirements associated with the scholarship.

GRADUATE AND PROFESSIONAL STUDENT POLICY

Students enrolled in various graduate schools must comply with the guidelines established by the school or department. Each school within the University may set its own required standards for continuation in a program of study. However, the minimum standard of a 3.0 GPA and a 90% completion rate must be maintained. Please refer to the handbook of the school/department for details regarding academic requirements.

GOOD ACADEMIC STANDING

To be in good academic standing, a student must have a cumulative grade point average of 3.0 or higher (on a 4.0 scale). Individual schools or programs may have officially published higher standards.

A student shall be placed on Academic Probation when the cumulative GPA at the end of any semester falls below 3.0. The duration of probation is one semester. At the end of this semester, the student’s cumulative GPA must be 3.0 or better in order to remain in the program, unless otherwise stipulated by the individual school.

To maintain satisfactory academic progress for financial aid eligibility, a student must maintain a cumulative GPA of 3.0. A student failing to meet this grade requirement remains in satisfactory academic status for financial aid during the immediate/following semester in which the cumulative GPA of 3.0 must be earned. After this semester, if dismissal is successfully appealed, the readmitted student retains eligibility for financial aid as long as the conditions of readmission are met.
Dismissal: Academic Dismissal is required in either one of the two following circumstances:

1. A student shall be dismissed from the University and a program of study at the end of any semester in which the full-time student has earned all C’s or below.
2. A student shall be dismissed from the university and the program of study after having earned a cumulative GPA of less than 3.0 in two consecutive terms of registration, including summer semester.

Satisfactory Progress: A student who is in good academic standing in the one semester of probation is considered to be making satisfactory academic progress. The number of credit hours attempted or completed is not a determinant of satisfactory progress (however, any student who has a cumulative record of withdrawals and unresolved “Incomplete” grades from 50% of his/her registered courses is not making satisfactory academic progress, is ineligible for financial aid, and is subject to dismissal).

Appeal Procedure for Satisfactory Academic Progress Policy
Students may appeal a denial for financial aid if they had unusual circumstances that prevented them from performing satisfactorily. A letter of appeal describing the situation may be submitted to the department Chairperson/Program Coordinator. A recommendation from the department Chairperson/Program Coordinator is sent to the Graduate Dean to determine whether the student is eligible to continue receiving financial aid.

HOW FINANCIAL AID ELIGIBILITY IS DETERMINED

The guiding principle about financial aid at Clark Atlanta University is that the primary responsibility for meeting the cost of higher education rests with the student and family to the extent that they are able to pay. The difference between the costs of education and the calculated ability of a family to meet those costs is the eligibility for financial assistance. The process used to determine each individual family’s ability to pay is known as expected family contribution (EFC). It is derived from a formula developed by Congress called Federal Methodology. The formula calculates the EFC based on the information reported by the family on the Free Application for Federal Student Aid (FAFSA).

DEPENDENCY STATUS

For financial aid purposes, students are considered either dependent or independent. Again, these guidelines were established by Congress. For the 2004-2005 award year, students are considered an independent student for federal and state programs if they meet one of the following criteria:

- Were born before January 1, 1980;
- Are a veteran of the U.S. Armed Forces;
- Are an orphan or ward of the court;
- Have a legal dependent other than spouse for whom they provide over half their support;
- Will be enrolled in a graduate or professional educational program for the 2004-2005 academic year;
- Are married at the time the FAFSA is completed.

COST OF ATTENDING CLARK ATLANTA UNIVERSITY

The cost of attending Clark Atlanta University for an academic year (2 semesters) may vary from student to student, depending on the level of enrollment, dependency status, and the amount each individual requires for personal and living expenses. These estimated expenses make up the Cost of Attendance or Student Budget as determined by Federal Guidelines. This cost is an estimate of education-related expenses that a student may incur at Clark Atlanta University. It includes, but is not limited to, the amount the student must pay directly to the University to register for classes and room and board.

Aid for students enrolled for less than full time may be prorated according to the actual number of hours of enrollment. Students attending less than half-time (less than 6 hours per semester) may be eligible for reduced amounts of certain types of financial aid.

The Office of Financial Aid uses standard budgets for all students based on enrollment status. The budgets (cost of attendance) include tuition, fees, living expenses, transportation, and books and supplies. If special circumstances exist (such as expenses related to a catastrophic loss or unusual medical bills), a student may request special treatment of the information he/she must report on the FAFSA. NOTE: Credit card bills, prior debts, automobile payments, maintenance and other personal discretionary expenses are not grounds for special treatment.

THE FINANCIAL AID AWARD

The primary objective of the Office of Financial Aid is to assist as many students as possible by using a combination of available funds. Students who comply with published priority deadlines for application completion will be awarded first and will be eligible for all available funds. Students who apply after the published priority deadlines may be awarded, but funds will be limited. An application is complete when the Financial Aid Office receives all required documents. Financial assistance is awarded to cover educational expenses only. The priority deadline for applying for financial aid is April 1. Therefore, students should complete the FAFSA at least 4 weeks before April 1 to ensure that the Financial Aid Office receives their Student Aid Report (SAR) by the priority date.
AID AWARDED BASED ON HOURS OF ENROLLMENT

In determining the amount of the student’s award, the financial aid staff assumes that he/she will be enrolled full-time (at least 9 hours per semester) for fall and spring unless he/she indicates otherwise. The aid award is subject to adjustment should the hours of enrollment change during the year. Adjustments to the student’s award may occur up to two weeks after the drop/add period for the semester in which the hours are affected. NOTE: Award revision may affect the billing statement from Student Accounts.

UNDERSTANDING THE ONLINE AWARD NOTIFICATION

The online financial aid notification represents an offer that is based upon provided information and funds available to the University at the time of the award. The availability of funds from federal and state programs is subject to Congressional and state appropriations and to changes in federal and state legislation.

Total Cost of Education represents the estimated cost of educational expenses for the award period (including tuition, fees, books and supplies, room, board, and miscellaneous). This is an estimate. Where one lives and what he/she pays for transportation and personal expenses could cause the actual cost to be higher or lower.

Expected Family Contribution (EFC) includes parent and student contributions, which are determined from information provided by the student and his/her family on the FAFSA, plus other resources that may be available, such as veteran benefits and private scholarships.

Annual financial aid awards are usually divided into semester amounts and will be applied to the student’s bill according to the way they are listed on the award letter.

The student may accept or decline any portion of the award online. Please note that if any portion of the award is declined, Clark Atlanta University will not replace it with other funds.

By accepting the award notification, the student is certifying that he/she understands and accepts his/her rights and responsibilities as an aid recipient at Clark Atlanta University as outlined in this publication. The student must notify the Financial Aid Office if he/she does not accept the award as listed on the online award notification.

FEDERAL WORK STUDY/LOAN OPTION

Most financial aid awards include student loans and/or work study employment. If the student wishes to exchange a loan for employment or employment for a loan, he/she should contact the financial aid advisor. Adjustments will be contingent upon the student's eligibility according to program regulation and on the availability of funds.

EXTERNAL SCHOLARSHIPS AND RESOURCES

Financial aid recipients must notify the Office of Financial Aid if any awards are extended to them from sources other than Clark Atlanta University. Receipt of external awards may result in a revision of financial aid from Clark Atlanta University. It is also the student’s responsibility to notify the Office of Financial Aid of any special instructions or billing information regarding external scholarships. No credit will be entered on the student’s account before the check arrives. It is also the Office of Financial Aid’s policy to divide external scholarships equally between fall and spring semesters unless specified by the donor.

CHANGES IN FINANCIAL SITUATIONS

The student’s financial aid situation may change after submission of the Free Application for Federal Student Financial Aid (FAFSA). It is the student’s responsibility to notify the Office of Financial Aid of any changes to the information originally reported on the FAFSA. In the event of substantial change in family circumstances (loss of employment, death, unexpected medical bills which are unusually high, etc.), the student may notify the Office of Financial Aid and request a reevaluation of his/her award. The request must be in writing with appropriate documentation and it should describe the substantial changes in detail, specifying dollar amounts. Any award adjustment is contingent upon the student’s eligibility according to program regulations and the availability of funds. The decision of the Office of Financial Aid is final.

Note: The student should maintain a file containing all financial aid correspondence and information, all bills from the Student Accounts Office, and all promissory notes for loans accepted. It is possible that some of the financial aid received will be subject to federal income tax, particularly scholarships and grants that exceed the cost of tuition and related expenses. Keeping complete and accurate records now may save the student time later.

FUNDING FOR SUMMER SESSION AND STUDY ABROAD

Depending upon the program and the student’s final aid award, financial aid may be available to regularly enrolled students who choose to attend summer school or study abroad. Students planning to study abroad should meet with their financial aid advisor as far in advance as possible. Students who receive full eligibility of aid fall and spring semesters will not have eligibility for summer. The priority deadline for applying for summer financial aid is April 15. Contact the Office of Financial Aid for application information.

TYPES OF FINANCIAL AID AVAILABLE

1. Grants and Scholarships
   Gift assistance (free money) does not have to be earned or repaid. Unless otherwise noted, awards from the following programs will appear as credits on the student’s account once the financial aid award package is finalized (and if the student is eligible for the funds). A FAFSA must be completed for all aid.
Federal

- Federal Pell Grant
  Undergraduate students, first baccalaureate degree only: Eligibility for Pell Grant is based upon the federal eligibility formula. Once the FAFSA has been processed, the student will receive a Student Aid Report (SAR). He/she should verify that Clark Atlanta University (school code 001559) is listed in the school section. This is his/her indication that CAU has received the ISIR and can determine his/her eligibility for financial aid. The student should review the SAR for accuracy and follow any instructions. The amount of Federal Pell Grant may range from $0 to $4,500, per academic year, subject to Congressional appropriations, and the student’s enrollment status.

- Federal Supplemental Educational Opportunity Grant (SEOG)
  Undergraduate students, first baccalaureate degree only: FSEOG is awarded to on-time filers with Pell Grant eligibility. Funds are limited. The FAFSA is the application used to determine eligibility.

State

- Georgia Tuition Equalization Grant (GTEG)
  Undergraduate only. These grants are for Georgia residents as defined by the State agency and are not based on need. Any Georgia resident who is regularly enrolled full time is eligible to receive the GTEG and must apply by completing the Georgia Grant Application in order to receive the grant. GTEG awards will reduce other full-tuition awards the student receives (i.e., tuition discounts or waivers, academic scholarships, etc.). Applications are available in the Office of Student Financial Aid and must be submitted by the deadline that is established by the State. The GTEG credit will appear on the student’s account after the Office of Financial Aid has certified his/her GTEG eligibility.

- Helping Outstanding Pupils Educationally (HOPE)
  Undergraduates only. In addition to the criteria for GTEG, students must have and maintain a 3.0 cumulative grade point average. Eligibility and the amount of the award is determined by the state.

- Governor’s Scholars
  For undergraduate Georgia residents, scholars are selected by the Georgia Student Finance Authority. Students must submit applications to the State Agency. Note: Students from states outside of Georgia should contact the appropriate state agencies for information concerning state grant awards and eligibility requirements.

University Grants and Scholarships

Clark Atlanta University grants and scholarships for undergraduates are awarded through the Office of Undergraduate Academic Services. Interested applicants must complete a FAFSA and contact the Office of Undergraduate Academic Services at 404-880-8000 ext. 8186.

Tuition Waivers

Eligible Clark Atlanta University faculty and staff may receive tuition scholarship waivers valued at full tuition less the amount of any other designated tuition award or federal and state grant awards. This benefit is also available to spouses, sons, and daughters of eligible University employees. Contact the University’s Office of Human Resources for an application and procedures. Tuition waivers will appear as a credit on the student’s account once the approved application has been processed. The FAFSA must be completed before the waiver can be received.

2. Employment

Federal Work-Study (FWS) is an employment program awarded to undergraduate and graduate students based on federal eligibility using the information provided on the FAFSA. The amount of the FWS is the amount the student is eligible to earn for the academic year. FWS is not available to be applied to institutional charges. Students are paid FWS earning based on the actual hours worked each pay period.

Many departments depend on student employees to assist with the effective operation of departments. Students gain valuable work experience and skills, which contribute to a student’s overall education and development. Work-Study students are given the opportunity to interview for a variety of jobs.

Placement in a position allows a student to begin receiving income from work-study to meet educational expenses. Students should expect to receive paychecks on the 15th of each month. The average work-study employee works 15 hours per week and typically earns between $2400-$3000 per academic year.

FWS awards will not appear as credits on the bill from student accounts. EMPLOYMENT IS AN AWARD FOR WHICH A STUDENT MUST WORK. Employment opportunities may be available both on and off campus.

3. Loan Programs

Funds from federal, state and private organizations must be repaid. Some loans require interest payments while the student is in school; others begin repayment after the student ceases to be enrolled at a postsecondary institution at least half-time. Note: Loan awards typically increase as the student progresses toward degree completion. Some of the loans may be disbursed to the student in the form of checks that should be endorsed and used to pay any charges owed the University. Most loan funds will be credited directly to the student’s account after completion of the promissory note and other required documents. Both types of loans are subject to cancellation if the student does not endorse checks promptly or if he/she fails to complete the required documents in a timely manner.
When a student decides to take out a student loan, he/she is making a commitment to repay it. Repayment is mandatory whether or not the education program is completed. All first-time borrowers must participate in loan counseling provided by the Office of Financial Aid and Student Loan and Collections.

Before leaving Clark Atlanta University, all borrowers must have an exit interview to discuss repayment, deferment and cancellation provisions.

**Federal**

- **Federal Perkins Loan**
  Graduates and undergraduates. Awards are based on financial need as demonstrated by the information provided on the FAFSA and the availability of funds. Preference will be given to undergraduate students who demonstrate exceptional need and who meet on-time filing priority deadlines.

- **Federal Stafford Loan (Subsidized)**
  Low-interest loans may be made to eligible undergraduate and graduate students enrolled at least half-time, by banks, credit unions, and other commercial lenders who participate in the program. Students are not required to pay interest on the loan if they continue to be enrolled at least half-time. Students must demonstrate financial eligibility as determined by the information provided on the FAFSA. The interest rate on their loan could change each year of repayment but, by law, it will never exceed 8.25%.

  Eligibility for loans will be based on the information received on the Student Aid Report. Students do not have to complete a separate loan application but will have to complete a promissory note agreeing to repay the loan. At the time a Federal Stafford Loan is taken out, the student may be charged an origination fee up to 3%, which will be deducted proportionately from each loan disbursement made to him/her. The fee is allowed by law and is used to reduce the federal government’s cost of subsidizing this loan program. In addition, the student’s lender may charge an insurance premium of up to 1% of the loan principal.

- **Federal Stafford Loan (Unsubsidized)**
  Unsubsidized Stafford Loan Funds are available to students meeting all Stafford program requirements other than demonstrated need (students must apply for need-based aid prior to being considered for subsidized loan). An origination fee may be charged and the student may have to pay interest during in-school and deferment periods unless other arrangements are made with the lender. Interest accrues during the in-school period but payment of interest may be deferred upon request.

- **Federal PLUS Loan**
  A PLUS loan is a loan made to credit-worthy parents of eligible dependent undergraduate students. Although the University requires the student to file a FAFSA, PLUS loans are not based on need and may be used to replace the expected family contribution if the student also receives need-based financial aid. The student should contact the Office of Financial Aid for application information.

  **Note:** If a parent is denied the PLUS Loan, the dependent student can apply for an Unsubsidized Stafford Loan provided the parent submits a copy of the denial notice to the Office of Financial Aid. The amount of Unsubsidized Stafford may be significantly less than the amount a parent could borrow from the PLUS loan. The student should contact the Financial Aid Office for details and loan limits.

**HOW FINANCIAL AID PAYMENTS ARE MADE TO STUDENTS**

To complete enrollment for a term, students are required to satisfy their financial obligations to the University.

- **a. Billing and Registration**
  The billing statement mailed by the student accounts office will list the charges for tuition, fees, room and board for students living in campus housing, plus any other amounts owed the University. Some of the financial aid the student is eligible to receive for the semester may appear as a credit on his/her account if all documents were received by the Office of Financial Aid at least two weeks before the bill was produced. For student loans, the amount credited to the account may be less than the amount that appears on the award letter. This difference results from the loan origination fees deducted from the loan by the lender.

- **b. Credit**
  Financial aid awarded may appear on the student’s invoice after he/she registers for classes. This aid will not be applied to the student’s account until he/she has met all eligibility requirements and enrollment is complete. Listed are examples of aid that will be automatically applied to the student’s account:

  - Federal Supplement Educational Opportunity Grant (SEOG)
  - Federal Plus Loan (pending receipt of funds from your lender)
  - Federal Perkins Loan**
  - Georgia Tuition Equalization Grant (GTEG) and HOPE Scholarships***
  - CAU Tuition Waiver/Scholarship
  - Stafford Loans (If lender is one of the following: Chase or EdSouth)

Loans that are awarded to students based on their eligibility may appear as a credit on their bill. This will allow students to complete registration. If they fail to submit a completed promissory note or the funds are not received by CAU, the loan will be removed from their account. Once the loan is removed from the account, students will be responsible for paying the amount owed CAU at that time.
WITHDRAWALS AND CANCELLATIONS

Students who officially withdraw from the University during the first four weeks of a semester may be entitled to a partial refund of tuition. While a refund of institutional charges may be appropriate, students receiving federal and state funds may not receive a refund. A refund caused by federal and state aid will be returned to the appropriate federal or state program.

FEDERAL RETURN OF FUNDS POLICY (previously known as the Refund and Repayment Policy) became effective the 2000-2001 academic year. This policy affects any student who completely withdraws for the semester and has Title IV Federal Financial Aid.

If the Financial Aid Office posts federal aid to the student’s account and he/she withdraws from all classes, the Financial Aid Office may be required to remove some or all federal aid from his/her account and return it to the source. The amount of federal aid that will be removed depends on the date on which he/she withdraws during the semester. This policy deals with federal aid only and does not affect the student’s charges. Students should contact the Student Accounts Office at (404) 880-8033 for further information on how their charges may be affected if they withdraw from all classes.

The federally mandated Return of Funds Policy governs the return of Title IV funds disbursed to students who complete the official withdrawal process. Federal Work-Study funds are excluded from this policy. Title IV funds include:

- Federal Stafford Subsidized and Unsubsidized Loans,
- Federal PLUS Loans,
- Federal Perkins Loans,
- Federal Pell Grants, and
- Federal Supplemental Educational Opportunity Grants (SEOG).

During the first 60% of the enrollment period (semester or term), a student earns federal funds in direct proportion to the length of time he/she remains enrolled. The period of time during which a student is enrolled determines the percentage of aid earned by him/her. A student who remains enrolled beyond the 60% point earns all aid for the term.

The percentage of the period that the student remained enrolled is determined by dividing the number of days the student attended by the number of days in the term. Calendar days are used in the determination of percentages. Breaks of five days or longer are excluded in the calculations. If the amount of Title IV funds disbursed is greater than the amount of Title IV funds earned by the student, a return of Title IV funds is necessary. Both the University and the student are responsible for returning a percentage of the unearned aid.
Once the Return of Funds is calculated, the proceeds must be returned in the following order:

- Unsubsidized Federal Stafford Loan
- Subsidized Federal Stafford Loan
- Federal PLUS Loan
- Federal Perkins Loan Program
- Federal Pell Grant Program
- Federal Supplemental Educational Opportunity Grant
- Other Title IV Programs (except Federal Work Study)

Students receiving a Federal Stafford Loan have a legal obligation to contact their lending institution at the time of withdrawal or nonwithdrawal or non-enrollment. In addition, federal regulations require that the institution forward directly any monies owed back as repayment on the Federal Stafford Loan. In such cases, a student’s account will be debited for the required amount, and the funds will be mailed to the lender by the University. If a student plans to return during the academic year, a new loan application must be submitted.

**NOTE:** Any student leaving the University for any reason is advised to contact the Office of Student Accounts, Student Loan and Collections, and Office of Financial Aid to ensure that all financial matters are handled properly.

Financial aid applications must be renewed each year!!

Clark Atlanta University does not discriminate on the basis of sex, race, color, age, religion, sexual orientation, national or ethnic origin, or physical handicap.

---

**ENROLLMENT SERVICES AND STUDENT AFFAIRS**

The Division of Enrollment Services and Student Affairs is the primary support area of Clark Atlanta University that is charged and organized with the responsibility for developing and implementing services, activities, and experiences that complement the student’s academic experience as well as enhance their adjustment to and participation in university life. Hence, its purview is broad and concerned with nonacademic and academic aspects of university life. Enrollment Services and Student Affairs functions and activities involve fostering personal and social development, orienting new students to the University; offering opportunities for leadership development; providing residential facilities management, services and programs; assisting with postgraduation planning; academic advisement services; enrollment support and retention services; recruitment and admissions of new and transfer undergraduate and graduate students, providing a variety of student financial aid/planning services, and a registration and financial enrollment process that is hassle free and conducted in a highly technological environment.

The Division consists of the following areas: Undergraduate and Graduate Admissions, Registration and Records, Veterans Affairs, Student Financial Aid, International Students and Americans with Disabilities Act, University Counseling Center, Career Planning and Placement Center, Student Health Center, Residential Life, Student Activities, Student Center, Physical Fitness Center, Recreational and Intramural Sports, Academic Advising Center, Enrollment Support and Retention Services, Campus Ministry, Campus Volunteer Office, Student Judicial Matters, and Student Government Association.

**GENERAL PRINCIPLES CONCERNING STUDENT WELFARE**

Certain regulations have been formulated at the University which are deemed to be in the best interests of students and the institution. They are published in full in the current Student Handbook, copies of which are issued to new students at the beginning of each semester. Students are urged to read carefully these regulations so that they may make informed decisions as members of the University community.

The failure of any student to cooperate with members of the University community in their efforts to maintain a wholesome environment, or the inability to demonstrate sincerity of purpose and to profit from the experiences and contacts provided by the University, are sufficient reasons to withdraw from the student privileges of the graduate experience at the University.
OFFICE OF THE DEAN OF STUDENT AFFAIRS

The Office of the Dean of Student Affairs in the Division of Enrollment Services and Student Affairs is the organizational division within Clark Atlanta University which is charged with responsibility for developing and implementing services, activities, and experiences that complement students’ academic experiences as well as enhance their adjustment to and participation in university life. The office’s purview is broad and is concerned with nonacademic aspects of university life. The Office of Student Affairs functions and activities involve fostering personal and social development, orienting new students to the University, offering opportunities for leadership development, assisting with post-graduation planning, and providing career development services. Through its services and programs, The Office of Student Affairs promotes student development, enhances students’ intellectual development, assists students in overcoming personal, physical, or educational problems and seeks to ameliorate environmental conditions that may negatively influence their welfare.

OFFICE OF THE ASSOCIATE DEAN OF STUDENT AFFAIRS

The Associate Dean of Student Affairs is principally responsible for the student service units of Student Affairs administration and student judicial affairs as they relate to the Student Code of Conduct, Men’s Initiative Program, facilities, students’ access to essential services and operations related to enrollment, as well as assists all University students and parents with the resolution of other issues. The Office of the Associate Dean of Student Affairs also provides services and assistance to international students and students with disabilities.

INTERNATIONAL STUDENT SERVICES

As a service to students studying in the institution while holding nonimmigrant visas, the Department of International Student Services provides specific and relevant information and programs. Within the University, the program serves as a liaison between nonimmigrant visa holders and the University departments which educate or wish to employ them. Outside of the University, the Associate Dean of Student Affairs serves as liaison between students and the U.S. Immigration and Naturalization Service, the U.S. Information Agency, the U.S. and Georgia Department of Labor, sponsoring agencies, and foreign governments. Through International Student Services, students and employees can receive information on changes in immigration regulations, tax laws, social security requirements affecting non-immigrants, social activities on campus and within the Atlanta community, and notice of upcoming seminars of interest to the international community.

It is the University’s desire that students from other countries develop friendships among their American counterparts rather than being isolated from the CAU community. Accordingly, the Department of International Student Services encourages international students to participate in regular University activities as well as those designed specifically for them. When appropriate, international students are invited to participate in activities by sharing practices from their cultures, countries, and religions in order to demonstrate the diversity of the campus community and to help American students learn about the countries and cultures of their fellow students.

The Department of International Student Services monitors the course load of students on nonimmigrant visas to ensure that they are enrolled in a full course of study during the academic year and to maintain records of F-1 students as required by the Code of Federal Regulations. Students requiring additional information should contact the Department of International Student Services.

STUDENT CENTER

The primary functions of the Student Center are to provide convenient services that meet the needs of the student population, promote programs and activities that are responsive to the developmental, physical, social, and educational needs of the student body and university community. It also maintains a clean, safe and relaxing environment for all constituents and provides competitive rates and excellent service to external organizations and individuals interested in renting or reserving banquet space and conference rooms for professional and personal functions and events. The hours of operation are 7:00 a.m. – 10:00 p.m., Sunday – Saturday; Office hours are 9:00 a.m. – 5:00 p.m., Monday – Friday.

FITNESS CENTER

The Fitness Center is a great place for students to interact and stay physically fit. It features a cardio/weight room with state of the art exercise equipment and an aerobics studio. The Fitness Center is located in lower Pfiiffer Hall. Only currently enrolled students, faculty and staff may utilize the facility. Students are required to present their current student I.D. each visit. The hours of operation are Monday - Friday, 10:00a.m. - 8:00p.m. and Saturdays, 10:00a.m. - 6:00p.m. Students may use University recreational facilities and areas, provided that such use does not conflict with University-scheduled programs and activities. These areas may be used daily except on Sunday when they are usually closed. When using these areas, students are expected to exercise discretion in conduct at all times and must leave facilities and areas clean and in order. Users will be charged for breakage beyond ordinary wear and tear.

CAREER PLANNING AND PLACEMENT SERVICES

CAU’s Career Planning and Placement Center (CPPC) is vital unit of the University and collaborates in projects with the Atlanta University Center’s Career Planning and Placement Services office. CPPC services provide assistance to students in their search for permanent, internships, cooperative education, summer and/or part-time employment. Assistance is provided to students in
Commuter Student Services

Services are provided for commuter students to access information for off-campus housing and to receive guidance regarding environmental issues surrounding selection of an off-campus residence. A list of resources and rental books are available to students.

STUDENT ACTIVITIES

Student Activities provide students with educational experiences beyond the classroom. Participation in substantive program activities affords students a variety of enjoyable and enriching experiences which will augment classroom instruction and better equip them to exercise their personal and citizenship responsibilities. Through clubs and organizations as well as cultural, social, recreational, leadership programming, and student life programs, student activities make available to students opportunities for leadership development and self-realization. All organizations on campus are nonprofit. There are more than 110 clubs and organizations. Some of the clubs and organizations include: Greek letter organizations, NAACP, Pre-Alumni Council, State and Academic Clubs.

Student Government Association

Functioning under the name Clark Atlanta University Student Government Association (CAUSGA), student government ultimately is involved with the quality of student and University life. Its functions are varied; they provide a forum for the expression of student ideas, serve as intermediary between the student and the University community, promote intellectual dialogue, and secure student enrichment.

The CAUSGA concerns itself with a wide range of activities and responsibilities, and its purposes are intimately related to all facets of campus life: (1) to promote the individual and collective interests of the student body; (2) to further the democratic process through student representation in institutional governance; (3) to cultivate student leadership and encourage student participation in all phases of institutional governance; (4) to convey students’ views to the University faculty and administration; (5) to coordinate and develop student activities; (6) to promote good relations and communications among the students, the faculty, and the administration; and (7) to promote school spirit and traditions.

Chartered Organizations

Clark Atlanta has over (110) chartered organizations and numerous special interest clubs. Because many special interest clubs reflect academic concerns, students find that involvement in such organizations enhances their understanding of their fields of study. All student organizations provide valuable insights into leadership skills, group dynamics and social interactions.
The University requires that students submit proof of immunization (measles, rubella, mumps, diphtheria, tetanus), and results of a current tuberculin skin test or chest x-ray. This information is required for all first-time entering students, transfers and international students prior to enrolling. Persons born prior to 1957 are considered immune and are therefore exempt from the immunizations requirement. However, these persons must submit results of a tuberculin skin test or chest x-ray. Further, it is necessary that any illness be reported promptly to the Student Health Center, the residence director, or appropriate dean’s office. In cases of emergencies, families are notified promptly. Students are urged to seek assistance before their illness becomes incapacitating.

**Hours of Operation.** All non-emergency visits to the Student Health Center should be made when the student has no scheduled classes. Emergency medical care is available 24 hours a day when school is in session.

- **Student Health Center Hours:**
  - Monday through Friday: 8:00 a.m. - 12:00 midnight
  - Saturday and Sunday: 10:00 a.m. - 1:00 p.m.
  - Emergencies: Midnight - 8:00 a.m.

- **Physician’s Center Hours:**
  - Monday and Friday: 8:00 a.m. - 1:00 p.m.
  - Tuesday, Wednesday and Thursday: 8:00 a.m. - 12:00 noon
  - Emergencies: 24 hours a day

* The Student Health Center is closed when the University is not in session.

**Outpatient Service.** Office treatment is provided free except for a minimal fee for medications. If the student’s condition is such that outside consultation or treatment by a specialist is necessary, the Student Health Center staff makes referrals; however, the student bears all financial responsibility for such services. In cases of accidental injury, coverage is provided by the student’s accident insurance or the University Athletic Department’s budget as appropriate. The Student Health Center is not responsible for fees (medical) or expenses deriving from treatment rendered by any outside physicians.

**Inpatient Service.** The Student Health Center is equipped with semiprivate rooms for around-the-clock nursing care when necessary. Meals also are provided. Upon written request by the student, notices will be sent to instructors informing them of the student’s confinement (see “Illness Excuse Regulation” below).

**Illness Excuse Regulation.** A written statement informing an instructor that the student is to be excused from class due to illness will be issued only under the following circumstances:

1. A student has been hospitalized for treatment or confined to the Student Health Center.
2. A student has been ill at home or hospitalized and presents a document from a physician verifying the illness.

Students who are too ill to attend classes are advised to report in person to the Student Health Center for evaluation and disposition. Except for unusual circumstances, absence excuses will not be given to students who do not present documentation from a licensed health care provider or who have not visited the Student Health Center.

Eligibility for Treatment. Only full-time students of Clark Atlanta University are eligible for treatment. All students coming to the center for any medical needs must present their University identification card at the time of visit and must have the required health documents on file.

Insurance Coverage. All resident and international students are insured for the period for which premium has been paid, including interim vacations. Coverage begins at midnight on the date of enrollment in the program and terminates at the close of the school term.

Dining Services

We kick off each semester with a delicious menu of dining options that will help to make your academic experience even more enjoyable. We have designed facilities to accommodate all of your dining needs with food variety, customer service and added convenience. The University provides the following five (5) unique meal plans that are available to all students:

- **Panther Platinum:** 21 meals a week plus 25 flex dollars - This ultimate plan is designed for people who like to dine frequently on campus. “Best Value”

- **Panther Gold:** 14 meals a week plus 50 flex dollars – A traditional meal plan that allows a student some flexibility. Students can choose any 14 of the 21 meals served during the seven-day period.

- **Panther Silver:** This plan is designed to allow a choice of any 10 meals of the 21 served during the seven-day period. Excellent for students that will not be on campus during the weekends!

- **Block 50:** This flexible plan is designed for students who desire to choose any 50 meals throughout the entire semester. Excellent for commuter students!

- **Block 25:** This plan is also used for the student who occasionally dines on campus and may choose any 25 meals throughout the semester.

In addition to providing a student and retail dining program, the CAU Dining Services also provides an impressive Catering Department. From the simple to the elaborate, a full range of catering services is available to students and campus organizations.

If you would like to earn extra income while attending CAU, a job with CAU Dining Services may be just what you are looking for! Flexible hours, competitive wages, and benefits of working close to “home” are just a few perks. Interested applicants should contact the dining services office for details.

We pride ourselves on bringing you a variety of great tasting foods that are convenient and delivered with unsurpassed service. We look forward to serving you!

Student Publications

The Student Publications at the University consist of the Panther Newspaper and Yearbook. The publications provide an avenue for students to document student life and to voice their opinions. The skills that are acquired often are applied in a work environment upon graduation. Involvement with publications provides a fun-filled and intellectually enriching environment where the students learn and grow in their overall college experience.

UNIVERSITY COUNSELING CENTER

The University Counseling Center (UCC) is a comprehensive counseling and assistance facility providing personal, psychological, academic, career and student development services and resources to all CAU students. The center offers individual and group counseling, drug and alcohol prevention counseling, and an array of personal/social development programs.

To meet its charge, the UCC staff consists of a director, psychologist, counselors, and support staff who serve both undergraduate and graduate students during their matriculation through Clark Atlanta University. The UCC staff has been carefully selected to provide students with a counseling center which is responsive to their individual needs and which coordinates and implements programming aimed at fostering the students’ total development.

The UCC is open Monday through Thursday, 9:00 a.m. to 7:00 p.m. and Friday 9:00 a.m. to 5:00 p.m. Students may make their own appointments, or may be referred by University administrators, faculty, staff, or other interested parties. All services are confidential.

Campus Security

Although the University has implemented measures for the safety and protection of students and other members of the University community, the effectiveness of the measures depends on each person’s assuming the responsibility for self-protection. The Clark Atlanta University Public Safety Department consists of police officers and public safety officers who patrol on foot and in vehicles providing for the safety of campus members and protection of University property. Students are
expected to be knowledgeable of and to observe all rules designed to protect persons and property.

Security measures that must be followed at all times include:
- carrying student I.D. card and presenting it upon request
- following the procedures for evacuation of residence buildings using panic doors
- observing the regulations governing conditions for residence hall visitation
- declining requests to transfer keys to unauthorized users
- keeping residence hall room doors locked
- attending crime prevention and safety awareness programs

ORIENTATION

The Orientation Program is designed to assist students with their transition to the University. Students are introduced to the CAU culture and traditions, and receive academic advisement. The Orientation Program helps prepare students for their first semester as well as subsequent years at Clark Atlanta University.

Recreation and Intramural Sports

A diverse program of recreational and intramural sports activities provided for students, faculty, and staff includes 1) extramural sports with structured tournaments, contests and meets (i.e., flag football, 5 on 5 basketball, softball, tennis, double dutch and kickball); 2) outdoor recreational programs and activities that provide students with opportunities to experience new challenges (white water rafting, rock climbing, snow skiing); and 3) fitness programs that provide opportunities in personal exercise and aerobics. A current schedule of activities can be obtained for the Student Center Management Office or the Recreation Room located in the Student Center.

RELIGIOUS LIFE

Although Clark Atlanta University is not a church-administered institution, it enjoys a close relationship with the United Methodist Church, which is among the University’s financial supporters. Clark Atlanta does not seek to convert students to Methodism. However, through the University’s ministry, students can find avenues to seek a faith that will provide relevance to modern life and current issues.

Many opportunities are available on campus for formal and informal worship. Increasingly, new means are employed to make worship more meaningful to students, such as the use of film, classical and modern music, dance, drama, and graphic arts. In addition, serious discussions of ethical and philosophical questions are encouraged through organized “rap sessions” in the residence halls and through various other channels.

Worship also takes the form of service to other human beings. The University ministry guides students to religious and social agencies off campus which need their talents. Opportunities for useful service are almost unlimited in Atlanta.

Athletics and Recreational Facilities

The University’s Intramural and Intercollegiate Athletics programs afford students an opportunity to enjoy and distinguish themselves in sports, as well as provide excellent athletic competition. For the enjoyment of the student body, faculty, and community, varsity teams in football, tennis, basketball, baseball, volleyball, and track and field compete with teams from the various colleges throughout the area. The University holds membership in the Southern Intercollegiate Athletic Conference and the National Collegiate Athletic Association.

Students may use University recreational facilities and areas provided that such use does not conflict with University-scheduled programs and activities. These areas may be used daily except on Sunday when they are usually closed. When using these areas, students are expected to exercise discretion in conduct at all times and must leave facilities and areas clean and in order. Users will be charged for breakage beyond ordinary wear and tear.

RIGHTS AND STANDARDS FOR PERSONAL CONDUCT

Clark Atlanta University endorses academic freedom – freedom to teach and freedom to learn; freedom to think, freedom to speak, freedom to write, and freedom to publish. The institution also endorses American citizenship freedoms, including freedom of peaceful assembly, freedom of the press, and freedom to petition for redress of grievances.

Clark Atlanta University seeks constructive changes and works with faculties and student government associations in order to make necessary revisions in programs and procedures. It respects the right of students to criticize, dissent, and protest.

But academic freedom is not academic license. Therefore, in the interest of ensuring the education which students are here to receive, the University does not tolerate the use of physical obstruction which infringes upon the freedom of others, denies the opportunity for teachers to teach and for students to learn, and interferes with the right of speakers to speak and listeners to listen. The University maintains that the rights and freedoms of students do not include the right to hamper and restrain the movements of others; to interfere with school operations, including the conduct of classes and performance of office work; to obstruct movement into, through, and out of school buildings; to disrupt school operations; to seize and occupy school buildings; and to injure persons, or to damage and destroy property.
The University affirms that there is no place in this free school – dedicated as it is to support the basic principle that free inquiry and free expression are fundamental and indispensable rights which should be enjoyed by all members of the academic community – for dissent which expresses itself through the use of physical force and/or physical obstruction. Therefore, students who use physical force will be held fully responsible and appropriately disciplined in accordance with the "Code of Student Conduct," as published in the Student Handbook.

Clark Atlanta University exists under provisions of Georgia law and each student, whether or not a resident of the State of Georgia, is required to abide by those provisions. Possession of alcoholic beverages, drugs, and firearms by minors is in violation of Georgia law and Clark Atlanta University policy.

Upon matriculation at Clark Atlanta University each student becomes a citizen of the University community, entering voluntarily into a liberal agreement based on freedom and responsibility. All regulations have been established as basic requirements for the orderly functioning of the University community and are based on the assumption that students require minimum regulations.

Major offenses include the utilization of University facilities for sexual misconduct; the illegal use and/or sale of narcotics; theft; gambling; sexual assault; and the possession of firearms and/or explosives. Students found guilty of any of these offenses will be suspended or permanently dismissed.

DUE PROCESS

A student accused of a serious offense is notified in writing of the specific charge before the case is considered. He or she is notified in writing of the time and place of the review of the case and has reasonable time and opportunity to prepare a defense. The student also may testify and present evidence in his/her behalf in accordance with the procedures set forth in the "Code of Student Conduct."

POLICY ON DRUG-FREE ENVIRONMENT

Clark Atlanta University does not permit or condone the illicit or unauthorized possession, use, consumption, sale or distribution of illegal drugs and/or alcohol by its students and employees on its property or as part of its activities. This policy applies to all full-time and part-time students; and all full-time and part-time permanent and temporary employees, including faculty, administration, all exempt and nonexempt staff and any student employees and interns.

Students who violate this policy will be subject to appropriate disciplinary action consistent with local, state and federal law, which may include counseling, a reprimand and warning, disciplinary probation, suspension, expulsion and referral to the proper law enforcement authorities for prosecution.

Employees who violate this policy will be subject to appropriate disciplinary action consistent with local, state and federal law, which may include counseling, mandatory participation in an appropriate rehabilitation program, being placed on strict probation, unpaid suspension from employment, termination of employment and referral to the proper law enforcement authorities for prosecution.

All disciplinary procedures and appeals presently applicable to students and employees will continue to be available for violations of this policy.

The purpose of this policy is to produce a workplace and campus environment that discourages the unauthorized or illegal use of drugs and alcohol by students and employees. The University has prepared and made available information that is important for each student and employee to read and understand regarding the legal penalties and the health risks that are associated with alcohol and drug abuse.

ACADEMIC SERVICES AND SUPPORT

Academic Services provides support to the University's academic programs. These services are provided through support facilities such as the library, computer facilities, and instructional resources facilities. Academic programs are further enhanced by interinstitutional agreements, affiliated organizations, continuing education and the Summer School.

ROBERT W. WOODRUFF LIBRARY

The Robert W. Woodruff Library of the Atlanta University Center serves the historically black institutions of Clark Atlanta University, Interdenominational Theological Center, Morehouse College, and Spelman College.

The Robert W. Woodruff Library, built in 1982, is approximately 220,000 square feet on three levels. It seats approximately 1,500 readers, including 136 closed carrels for research and intensive study by faculty and graduate students, 468 open study carrels, and facilities for the disabled. The Virginia Lacy Jones Exhibition Hall seats approximately 500 for special events.

The Library has a staff of 21 FTE librarians and 64 FTE support staff. Librarians offer an active program in orientation and instruction and work closely with faculty to develop print and electronic collections. Holdings include 374,968 volumes, 54,038 bound periodicals and a growing number of electronic resources.

The Library’s electronic resources are accessible in the Library on 250 public workstations and are also accessible remotely. The Archives and Special Collections Department is noted for its extensive holdings of materials on the

The Library participates in resource sharing programs. Membership in ARCHE (the Atlanta Regional Consortium of Higher Education) provides faculty and students with access to the collections of nineteen area libraries.

The Woodruff Library provides access to materials for teaching, study and research shelved in the Library and to an increasing array of electronic information. The Library has a well-developed computer telecommunications infrastructure that allows the library staff and users to obtain information electronically.

CAU ART GALLERIES

The University owns approximately 500 works of art, including what is perhaps the most extensive collection of contemporary African American art in existence. The art collections have grown through gifts and by virtue of the purchase of prizes offered from 1942 to 1970 by the Atlanta University Annual Exhibitions. In addition to the prestigious African-American Collection, the University’s art collections include works by other representative American artists and a collection of African art and Africana. A portion of the collections is displayed regularly in the Catherine Waddell Gallery located in Trevor Arnett Hall. The gallery and many works in the collection are the gift of Mr. Chauncey Waddell of New York, a former trustee of the Atlanta University.

The African-American Art Collection

The African-American Collection came into being as a result of annual art competitions inaugurated by Hale Woodruff. The purpose of the exhibitions, which continued from 1942 to 1970, was to afford black American artists, who had at the time few opportunities to exhibit, a forum in which to display their work. Purchase prizes were awarded in various categories and the University (then Atlanta University) gradually came into possession of a considerable collection. Close to 900 black artists from all over the country participated in the annual exhibitions during those years. The works of some 155 of them became part of the present collection.

Each year the annual exhibition was awaited with great anticipation by both black artists nationwide and the Atlanta arts community. For the artists, the Annuals established aesthetic criteria by which they judged themselves as “having made it” or “having arrived.” It became the equivalent of having one’s work shown in a reputable museum. According to Margaret Burroughs, founder of the DuSable Museum of Chicago and cofounder of the National Conference of Artists, “We would not have developed to where we are without the Atlanta Annuals.”

Overall the Annuals brought to the permanent collection 291 paintings, prints and sculptures by such leading artists as Charles White, Jacob Lawrence, Elizabeth Catlett, Ellis Wilson, William Artis, Lois Mailou Jones, John Wilson and many others. Through periodic purchases and gifts of benefactors and artists, the University also acquired works by Henry Ossawa Tanner, William H. Johnson, Romare Bearden, William Edouard Scott and Archibald Motley, Jr.

Given its historical significance and volume (it is the largest collection of art by black Americans spanning the years 1942-1970), the Collection has become a celebrated community and national patrimony.

The Contemporary Art Collection

The University is the grateful recipient of valuable gifts in its contemporary collection. Chauncey Waddell, a former Trustee of Atlanta University, presented to the University a collection of 80 works by notable Euro-American artists, including Eugene Higgins, Will Barnet, John Marin, Isabel Bishop, I. Rice Periera and Edwin Dickinson. These works are exhibited at the University and have been lent to a number of museum exhibitions.

The African Art Collection

A sturdy collection of African art from a variety of donors makes it possible for the University to present to the visitor examples of the art of West Africa along with some significant pieces of innovative East African art. A few objects of Central African art are also held by the University.

The “Art of the Negro” Murals

Housed in the atrium of Trevor Arnett Hall are the “Art of the Negro” murals painted by Hale Woodruff in 1952. Consisting of six panels on canvas, the murals depict the cultural art history of Africa and other tribal art forms which subsequently impacted upon Western art. Explicit attention is given to the emergence and presence of the visual artists in the African diaspora. The “Art of the Negro” series is considered among the more outstanding murals in the American art tradition.

A portion of the collections is displayed regularly in the Catherine Waddell Gallery of Trevor Arnett Hall. The gallery and many works in the collection are the gift of Mr. Waddell.

THE INSTRUCTIONAL MEDIA CENTER

The Instructional Media Center, housed in Trevor Arnett Hall, provides audiovisual services for CAU faculty, staff and students. Services include provision of educational media resources (software and hardware) materials for design, production, presentation and instructional applications; Audio Visual training; workshops; consultation; previewing of media materials; and video documentations.
CONTINUING EDUCATION

Continuing education at Clark Atlanta University offers an opportunity for persons to continue or resume their educational interests on a full- or part-time basis in a variety of credit and noncredit areas. These activities include short courses, seminars, conferences, and workshops, many of which carry academic credit or Continuing Education Units (CEU’s).

SUMMER SCHOOL

The courses offered by the University, graduate and undergraduate, are of the same standards as those offered in the regular session and carry the same credit. The Summer School operates on an eight-week session plan. A schedule of courses is published for the Summer School with full information on admissions, programs, costs and financial aid. Inquiries should be made to the Director of the Summer School.

OAK RIDGE ASSOCIATED UNIVERSITIES

Since 1980, students and faculty of Clark Atlanta University have benefited from its membership in Oak Ridge Associated Universities (ORAU). ORAU is a consortium of colleges and universities and a contractor for the U.S. Department of Energy (DOE) located in Oak Ridge, Tennessee. ORAU works with its member institutions to help its students and faculty gain access to federal research facilities throughout the country; to keep its members informed about opportunities for fellowship, scholarship and research appointments; and to organize research alliances among its members.

Through the Oak Ridge Institute for Science and Education, the DOE facility that ORAU operates, undergraduates, graduates, postgraduates, as well as faculty enjoy access to a multitude of opportunities for study and research. Students can participate in programs covering a wide variety of disciplines including business, earth sciences, epidemiology, engineering, physics, pharmacology, ocean sciences, biomedical sciences, nuclear chemistry, and mathematics. Appointment and program length range from one month to four years. Many of these programs are especially designed to increase the number of underrepresented minority students pursuing degrees in science- and engineering-related disciplines. A comprehensive listing of these programs and other opportunities, their disciplines, and details on locations and benefits can be found in the ORISE Catalog of Education and Training Programs, which is available at http://www.orau.gov/orise/resgd.htm, or by calling either of the contacts below.

ORAU’s Office of Partnership Development seeks opportunities for partnerships and alliances among ORAU’s members, private industry, and major federal facilities. Activities include faculty development programs, such as the Ralph E. Powe Junior Faculty Enhancement Awards, the Visiting Industrial Scholars Program, consortium research funding initiatives, faculty research, and support programs as well as services to chief research officers.

For more information about ORAU and its programs, contact:

Ronald Mickens, Fuller E. Callaway Distinguished Professor of Physics
Monnie E. Champion
ORAU Corporate Secretary (865-576-3306) or
Visit the ORAU Home Page (http://www.orau.org)

INSTITUTES AND CENTERS

Recognizing that problem-solving strategies cannot be studied adequately by a single discipline, the University has established centers and institutes to stimulate University-wide interdisciplinary scholarship and public service. Each center is designed to encourage innovative and collaborative basic and applied research and training through selected and interdisciplinary themes.

An institute provides support service for heterogeneous assortments of projects and serves as a formal link between the academic community and the professional community in the areas of focus. A center focuses on a more specialized field and is generally a subsidiary of an institute.

Institutes and centers do not offer credit courses or degree programs, nor do they have faculty exclusively of their own; faculty members may hold joint appointments in a school and an institute as a result of their substantial commitment to the institute’s programs.

Institutes and centers respond to graduate teaching and research initiatives from the AUC consortium faculties and initiate projects of their own design. They respond to private corporations, foundations, and federal agencies in defining problems, proposing solutions, conducting research, and demonstrating the feasibility of alternative courses of action.

Activities of institutes and centers include applied and basic research, seminars, conferences, workshops, community dialogues, and continuing education programs.

Center for Materials Research

This center is engaged in applied and basic research consistent with national needs and interests. It conducts theoretical and experimental studies of structure and mechanical and physical properties of materials, especially the syntheses and characterization of polymers with unusual and novel properties.

Center for Computational Science

Researchers in this center are engaged in (1) the application of numerical functional analysis in applied and basic research to solve cases of deterministic and random operator equations, (2) the formulation of mathematical models, and (3) the
analysis of problems that arise in the physical, biological, and social sciences and engineering.

**Biotechnology Research Center**
This center is engaged in studies of carcinogenesis as provoked by industrial and agricultural agents; cellular, molecular and genetic dimensions of normal development/function of the immune system; plant responses to environmental insults as revealed through adaptive stress systems; and genetic engineering (molecular cloning and host-specific expression) of selective genes of a range of organisms. Current studies involve molecular dissection of DNA-specific control sites, gene dosage responses, and biotechnical methodologies focusing on restriction enzymes, host-plasmid adaption in vitro site-specific mutagenesis and altered host expression of foreign genes (i.e., nitrogen fixation genes).

**Center for Basic and Applied Energy Research**
This center provides multidisciplinary studies of fusion processes, bio-solar production of hydrogen gas, production of fuels and valuable chemicals, catalysts for fuel cells, hazardous waste research, biological testing of low-level radioactive wastes, and energy policy research.

**Institute for Community Development (ICD)**
The programs of the Institute for Community Development focus on community leadership development and training, social services policy analysis, housing, and community and family issues related to the practice of social work.

**Alcohol and Drug Abuse Program**
The goals of this program are to provide students with a well-rounded social work education in either of two specialty tracks: (1) clinical practice, and (2) policy, planning and administration, which provides a specialization in alcoholism and drug abuse. This program has published Alcoholism and Blacks, which has been widely disseminated.

**Community Mental Health Program**
This program was established for the purpose of enhancing the educational opportunities and experiences of students in community mental health. The program expands the mental health component of the School of Social Work generic curriculum by making special mental health resources available to the School of Social Work faculty and students.

**Demonstration Program in Child Abuse**
This program concentrates its demonstration prevention efforts in the central city of Atlanta and more specifically in the three central city census tracts predominantly populated by blacks and which have documented high incidence of child abuse and neglect. The overall goal of this project is to establish a community and minority group action program to prevent child abuse and neglect by focusing energy and effort in community information and referral services to family-supporting services and self-help programs.

**The Center on Aging**
The Center on Aging is a multidisciplinary nondegree-granting program. Among its offerings is a program in social gerontology, which offers a certificate for social service and health practitioners currently employed in the field of aging who wish to upgrade their understanding of aging and human development and their positions in the field. In addition, a concentration is available in social gerontology as a cognate for students majoring in traditional disciplinary or professional degree programs at the University.

**Institute for Criminal Justice (ICJ)**
Major goals of the institute are (1) to increase knowledge about minorities in the criminal justice system, (2) to expand the number of qualified black professionals employed in the criminal justice system of the United States, and (3) to contribute to the continued growth and development of criminal justice practitioners through training programs, seminars, and workshops for in-service personnel.

The research capacity of the institute is one of the most significant parts of the program. Its national and regional research efforts include:

1) a computerized clearinghouse for the collection, storage, and dissemination of data relevant to crime, criminals, and the criminal justice system, with emphasis on data regarding minorities;

2) extensive needs assessments to determine areas that are lacking in service, areas in which further research should be conducted and the direction such research should take;

3) projects that have impact upon crime, victims, or employment within the criminal justice system. Current research projects include “Race and Crime” and “Black Ex-Offenders in the Labor Market.”

The public service component of the institute responds to the needs of local and state criminal justice agencies and to the community at large. Current activities include programs designed to improve community organization against crime, improve services to assist victims and witnesses, and increase use of better trained city police officers.

An advisory committee which assists with planning and designing programs to fill identified community needs includes representatives from twenty-six (26) public (city, county, and state) and private organizations in such areas as law
enforcement, courts, corrections, probation and parole, private industry, and community organizations.

**Center for International Business**
In response to the widespread interest in international trade and its vast potential for small business, the Center for International Business was founded at the School of Business Administration. Through classroom instruction, research, and community service activities the program provides assistance to small business to expand opportunities and develop export capabilities, and education to enable students and faculty to heighten their awareness of the importance of the international business sector. The instructional program is management oriented and offers a multidisciplinary seminar. International finance, marketing, and general management aspects of corporate business and industry are stressed.

The research program initiates projects to enhance international business and industrial management. Students participate with faculty and consultants from business as well as academic communities. The community service activities are informational in nature and include major seminars, minicourses, directories, and referral service.

**The Comprehensive In-Service Training Project (CIT)**
This is a demonstration project funded by the Bureau of the Education of the Handicapped (BEH) for the University. CIT and the Atlanta Public Schools work cooperatively to expand the skills of regular classroom personnel and paraprofessionals in working with handicapped children. Preparation of parents to work effectively in the home and classroom settings is also emphasized.

**The Center for Career Development (CCD)**
The Center for Career Development, housed in the School of Business Administration, is a resource center devoted to furthering the career development of minorities in management. Its research and training activities focus on issues facing minorities in various career stages, ranging from the beginning undergraduate to the experienced manager.

**The Southern Center for Studies in Public Policy (SCSPP)**
The Southern Center for Studies in Public Policy (SCSPP) was created in 1968 as a research, training, teaching and community outreach organization to enable the University to more effectively provide needed services to minority and low-income communities. It has served as a mechanism by which faculty and students may develop competence in the formulation, assessment and implementation of public policies which impact persons of low income and persons of color in the South. Its many research, evaluation and technical assistance projects have been in employment and training, housing, leadership skills development, human services planning, rural, political and economic development program evaluation, and transportation. The SCSPP combined with the Voter Education Project to establish the Georgia Service Center for Elected Officials to provide research and technical assistance to newly elected black officials in Georgia. It also assisted in the formation of the Georgia Association of Black Elected Officials (GABEO) and published a biannual technical assistance manual, The Georgia Guide for Elected Officials. It publishes the annual Georgia Legislative Review, an analysis of the Georgia General Assembly’s activities on issues of particular interest to minorities and low-income Georgians. The Center also provides assistance to leaders of community-based organizations through research and workshops on a variety of public policies and providing student interns.

**Center for Theoretical Studies of Physical Systems (CTSPS)**
The CTSPS is a consolidating and expanding of research capabilities in physics by conducting research through interdisciplinary clusters. Led by principal investigators or group leaders, each cluster involves researchers who are members of other clusters as well as visiting scientists, research associates, graduate, undergraduate and high school students. The CTSPS has two parallel outreach programs which involve students. The first exposes high school students to college-level experiments in physics and the rudiments of calculus. The second is a summer program which teams high school students with University mentors to work on research projects. Here they are introduced to the whole spectrum of computer physics. Through an MIF grant, the Center has built a sophisticated computing facility at the University.

**ACADEMIC STANDARDS AND REQUIREMENTS**

**ACADEMIC STANDARDS**

**Full-Time Study**
Full-time study is defined as registration or completion of no less than nine (9) semester credit hours per semester during the fall and spring semesters and six (6) during the summer term. Individual schools may have a higher minimum full-time enrollment requirement.

Students who have completed their residency, all course credit hour requirements, research credit hour requirements, who are engaged on a full-time basis in research activities requiring faculty supervision and are registered for a minimum of three (3) semester credit hours of research or thesis or dissertation consultation are classified as full-time students. Students who are registered for a three (3) semester credit hour research, thesis, or dissertation consultation must fill out a “Certification of Full-Time Status” application with their major department and it must be submitted to the Office of the University Registrar for certification.”
A grade of “P*” may be given for passing work in certain specified seminars or supervised experience, and for noncredit courses which are accepted in lieu of certain University requirements for the master’s degrees, such as French for Graduate Students, German for Graduate Students, and Spanish for Graduate Students. This grade indicates that the student has presented enough work to warrant the awarding of a passing grade. A grade of “P*” is used for noncredit courses. A grade of “P*” or “F*” is not computed in the grade point average.

A grade of “F” indicates failure and carries no credit, but is counted in computing the grade point average until the course is repeated and a passing grade earned. A student who earns an “F” in a required course must repeat the course and earn a passing grade.

A mark of “I” indicates that the student who desires course credit has not submitted all the evidence required for a qualitative grade and has made satisfactory arrangement with the teacher involved to complete the remaining portion of the work before the end of the next semester if the student is in residence during the semester immediately following the semester or summer session in which the mark of “I” was given. If the student is out of residence during the succeeding semester, the “I” must be removed within twelve months of the date on which it was given. If “I” is given during the summer session to a student who is attending the University only during summer sessions it must be removed within twelve months of the ending date of the summer session in which it was given.

The faculty member must submit to the department chairperson a statement stipulating (a) why the “I” is given, (b) the grade earned on the work completed, and (c) the percentage of the final grade dependent upon missing work. If the “I” is not changed by the faculty member by the end of the next semester in which the student is enrolled or within twelve (12) months (whichever is earlier), the staff of the Office of Records and Registration will change the “I” to “F.”

A mark of “IP” (in progress) may be given for passing work in certain specified seminars or supervised experience, and for noncredit courses which are accepted in lieu of certain University requirements for the master’s degrees, such as French for Graduate Students, German for Graduate Students, and Spanish for Graduate Students. This grade indicates that the student has presented enough work to warrant the awarding of a passing grade. A grade of “IP” is used for noncredit courses. A grade of “IP” is not computed in the grade point average.

A grade of “AU” (audit) is used when the student wishes to register for a course but does not desire to earn credit in it. The student must make arrangement at the time of registration with the teacher involved for the awarding of a mark of “AU.” An “AU” once entered on the student’s official record may not be changed. Courses in which a student receives a mark of “AU” yield no academic credit. No stigma is attached to the mark “AU.”

Students who have completed their research work but are engaged in writing a thesis or dissertation must register for at least one (1) semester hour of thesis or dissertation consultation each semester inclusive of the summer term until the thesis or dissertation has received final approval. Students registered for less than three (3) semester hours for thesis or dissertation consultation are not classified as full-time students.

Students holding a teaching or research assistantship, engaged in college work-study, or awarded a guaranteed student loan are required to be enrolled as full-time students.

Except in the School of Business Administration, any student carrying a load beyond twelve (12) semester hours must have the approval of the dean. In the School of Business Administration, a student carrying a load beyond fifteen (15) semester hours must have the approval of the dean.

**Part-Time Study**

With the exception of students engaged primarily in research as noted above, students enrolled for less than the minimum required semester credit hours are classified as part-time students.

**Class Attendance**

Requirements for class attendance are determined by schools, departments, and/or faculty members.

**Transfer Credits**

Transfer credits may be accepted as follows: master’s and specialist’s degree programs—maximum of up to one-fourth of the maximum semester hours required in the given program may be acceptable.

Doctoral Degree Programs – maximum of up to one-third of the maximum semester hours required in the given program may be acceptable. Credit for work earned at another institution must be determined prior to the qualifying examination and approved by the department chair and/or dean of the school. When credit earned elsewhere is permitted, a part of the qualifying examination is devoted to the testing of the student’s mastery of the subjects involved. It is through the qualifying examination that transfer credit is validated.

**Grading System**

1. The graduate grading system at the University uses the following grades: A, B, C, P, F, I, P*, F*, AU, IP, T, and W.

A grade of “C” must be offset by a grade of “A” in a course or courses acceptable to the dean or department chair totaling the same number of or more graduate credit hours.
Persons not enrolled in a degree program may be admitted to classes as auditors provided they submit the appropriate application, receive the written permission of the dean of the school and the department chair, and pay the required fees. Regularly enrolled students may also audit courses with the consent of individual instructors and payment of required fees. Auditors do not receive degree credit. A mark of “AU” may be earned. Auditors are not permitted to take a credit examination on work audited. However, courses previously audited may be later taken for credit.

The mark of “W” indicates that a student officially withdrew from a course not later than the date of midterm of any academic term published in the catalog. Students withdrawing after midterm are given a grade of “F.”

2. The minimum standard for graduate work leading to a degree is a B average. The grade scale for graduate courses is: 4.0-A, 3.0-B, 2.0-C, below 2.0-F. The grade point average (GPA) is computed by dividing the total number of semester hours carried into the total number of quality points earned.

3. When a student accumulates nine (9) graduate semester hours of “C’s” not offset by “A’s” in an academic year program, or fifteen (15) hours in a two-year program, he or she will not be retained by the University.

4. No consideration will be given to plus or minus appended to a grade.

5. A student may be dismissed from the University for unsatisfactory performance on the recommendation of any department or school of the University. The University Registrar certifies all dismissals.

6. Student appeals must proceed from the faculty member to the department chairperson, school dean, Dean of Graduate Studies, and Vice President for Academic Affairs, respectively.

MINIMUM ACADEMIC STANDING

1. A student must maintain a cumulative grade point average of 3.00 in order to be in good standing. A student whose cumulative grade point average falls below 3.00 with the results of a given semester is placed on academic probation in the following semester of enrollment.

2. Individual schools and departments with the approval of the Dean of Graduate Studies and their school dean may establish additional grade-point requirements which will be published in the appropriate Student Handbook.

DEGREE REQUIREMENTS

In addition to the following general requirements, each school and department may prescribe specific requirements in accordance with its program goals and objectives. Students should consult the entries under the appropriate school and department.

GENERAL REQUIREMENTS FOR THE MASTER’S DEGREES

The following requirements must be fulfilled before a student is eligible to receive a master’s degree.

1. Residency–The minimum residence requirement is two semesters of full-time enrollment. The residency requirement for some master’s degree programs may be satisfied by a combination of semesters of part-time study in accordance with written policy of the department or school.

2. Semester Hours/Transfer Credits Requirement–At least thirty (30) semester hours of graduate work at the University are required. Regulations governing transfer credits are as follows:
   a. Transfer credits up to one-fourth of the maximum required in a given program may be acceptable; however, individual schools or departments may have further restrictions.
   b. Credits must have been earned in graduate level courses at an accredited university.
   c. A grade of A or B is required (P grade not acceptable).
   d. Credits must be no more than four (4) years old at the time of admission to the degree program.
   e. The courses to be transferred must be appropriate for courses in the curriculum of the degree to be earned.
   f. The department may require an examination as a demonstration of knowledge of the appropriate materials and skills.
   g. It is the responsibility of the department and the school to ascertain that all of the above conditions have been met.
   h. Students who wish to receive credit for graduate work done at another institution during the course of their Clark Atlanta program must receive prior approval of the School Dean.
Graduate Catalog 2004-2006 61

The schools certify candidates to the Office of Graduate Studies. Applications for graduation must be made on forms provided for this purpose. These forms may be obtained from the Office of the University Registrar, and applications must be on file on or before the date stated in the University Calendar.

Additional qualitative and specific requirements for the degree may be prescribed by any department or by any faculty of the schools of the University.

GENERAL REQUIREMENTS FOR THE SPECIALIST’S DEGREES

Programs of study at the sixth-year level are offered by the School of Education leading to the Specialist in Education degree (Ed.S.) and by the School of Library and Information Studies leading to the Specialist in Library Service (S.L.S.). Minimal requirements are listed below:

1. Admission:
   a. Documents to be filed with the Director of Admissions:
      1) letter of intent which indicates the desired area of study and describes the applicant’s professional goals and qualifications for admission to the program
      2) completed application form
      3) three letters of recommendation, including at least two from professors in the applicant's major field of graduate study
      4) transcripts of all undergraduate and graduate work
      5) master's degree from an accredited institution
      6) qualification for the fifth-year certificate in the area in which the applicant plans to study for the Specialist's degree
      7) grade point average of 3.0 in the most recently completed degree program

2. Residency: The minimum residence requirement is two semesters of full-time enrollment.

3. Semester Hours/Transfer Credits Requirements: Regulations governing the transfer of credits are the same as for the master’s degree.

4. Time Requirement: Regulations governing the time required for completion of the specialist’s degree are the same as for the master’s degree.

5. Research Requirement: Completion of a research project is required. The student’s report must furnish evidence of intellectual mastery of a specified area of investigation and provide proof of high skill in research and scholarship.

Prior to the semester in which graduation is expected, students must file an application for graduation in the Office of the Registrar to facilitate the University's preparation for granting the degree upon the certification by the school dean during the semester by the date published in the Catalog. This application is valid only for the semester for which it is designated. Specific requirements prescribed by the various schools and departments are listed under their individual entries in this or other official publications.
6. **Final Examination:** The final oral examination includes a defense of the research project.

   The department concerned determines whether a written examination will also be required.

   The final examination should be administered no later than five weeks before the Commencement at which the degree is to be conferred.

7. **Application for Degree:** Prior to the semester in which graduation is expected, students must file an application for graduation with the Dean of Graduate Studies to facilitate the University’s preparation for granting the degree upon the certification by the school dean that all requirements for the said degree have been met, or will be met during the semester by the date published in the catalog. This application is valid only for the semester for which it is designated. The deadline is published in the catalog.

   Specific requirements prescribed by the various schools and departments are listed under their individual entries in this or other official publications.

### GENERAL REQUIREMENTS FOR THE DOCTORAL DEGREES

The doctoral degree is awarded for high quality of academic achievement. The mere fulfillment of quantitative requirements in terms of courses and hours and time in residence does not qualify a student to receive the degree. Minimal University requirements are:

1. **Admission:**
   a. Documents to be filed with the Director of Admissions:
      (1) letter of intent which indicates the desired area of study (biology, chemistry, educational administration, international affairs and development, social work, guidance and counseling, political science, humanities, chemistry or systems science) and provides a description of basic philosophy and life goals, a statement which reveals how the chosen area of study will facilitate the achievement of those goals, and reasons for selecting Clark Atlanta University
      (2) completed application form
      (3) three letters of recommendation, including at least two from professors in the applicant’s major field of concentration
      (4) transcripts of all undergraduate and graduate work

   b. Prerequisites:
      (1) a baccalaureate degree from a regionally accredited American institution, or from a foreign institution of comparable quality
      (2) a grade point average of 3.0 in the most recently completed degree program; conditional admission may be granted to students, with less than a 3.0 average but who otherwise show excellent promise
      (3) an undergraduate transcript showing sufficient preparation of advanced work in the relevant major or minor fields; undergraduate preparation must be broad enough to provide an adequate foundation for graduate work

2. **Residency:** The minimum residence requirement is three semesters of full-time enrollment, two of which must be contiguous academic year semesters.

3. **Semester Hours/Transfer Credits Requirement:**
   a. Students must earn a minimum of forty-two (42) graduate semester hours of credit for the doctorate.
   b. Regulations governing transfer credits are as follows:
      (1) Transfer credits up to one-fourth of the student’s graduate program may be acceptable; however, individual schools or departments may have further restrictions.
      (2) Credits must have been earned in graduate level courses at an accredited university.
      (3) A grade of “A” or “B” is required (“P” grade not acceptable).
      (4) Credits must be no more than four (4) years old at the time of admission to the degree program.
      (5) The Office of Admissions is responsible for verifying the date, grade and accreditation status of the credits submitted for transfer.
      (6) The courses must be appropriate for the curriculum of the degree to be earned.
      (7) The department may require an examination as a demonstration of knowledge of the appropriate materials and skills.
      (8) Each department is responsible for verifying to the Dean that the courses are appropriate for the degree curriculum and that, when necessary, appropriate tests have been administered and passed.
      (9) Students who wish to receive credit for graduate work done at another institution during the course of their Clark Atlanta program must receive prior approval of the School Dean.
4. **Time Requirements:**
Doctoral candidates must complete all degree requirements within five (5) years from the end of the semester by which they have passed all required departmental and/or academic unit examinations and have their dissertation topics formally approved. From the time of matriculation doctoral candidates must complete all degree requirements within a maximum of ten (10) years.

5. **Candidacy for the Degree:**
A student is formally admitted to candidacy upon application duly submitted and approved by both the chairperson of the student's major department and the dean of the school concerned. As prerequisites for consideration for admission to candidacy, the student must have passed a qualifying examination administered by the major department and have submitted a dissertation proposal that has been accepted and approved by the major department and the dean.

Students who have completed all requirements for admission to candidacy for a degree in their school and department must submit an application for admission to candidacy to the Dean of Graduate Studies no later than the last week of the semester before the one in which all work for the degree is to be completed, or no later than the deadline date published in the catalog. Admission to candidacy is upon the recommendation of the dean of the school and the certification of the University Registrar. Admission to the University or a school does not constitute admission to candidacy for a degree.

The Office of the University Registrar certifies to the respective school that according to the student’s official transcript he or she has met the program’s requirements for candidacy filed officially with the Dean of Graduate Studies.

Prior to the semester in which graduation is expected, students must file an application for graduation with the Dean of Graduate Studies to facilitate the University’s preparation for granting the degree upon the certification by the school dean that all requirements for the said degree have been met, or will be met during the semester by the date published in the catalog. This application is valid only for the semester for which it is designated. The deadline is published in the catalog. Specific requirements prescribed by the various schools and departments are listed under their individual entries in this or other official publications.

6. **Qualifying Examination:**
The qualifying examination must be undertaken at least one academic year prior to the time when the degree is expected to be conferred and not earlier than the completion of two academic years of graduate work.

The preparation and administration of the examination covers the subjects and courses of the student’s major and minor fields and is a rigid test of his/her competence and knowledge in the field of the doctoral study. In addition, the examination is an inquiry into the student’s mastery of bibliography and powers of bibliographic criticism. Further, the examination gives particular attention to subjects or courses taken in other institutions for which transfer credit has been proposed. The examination is given at least twice during the academic year at times specified by the individual departments.

A Qualifying Examination Committee appointed for each prospective doctoral candidate in addition to preparing and administering the examination recommends subsequent programs of study, if any, to be undertaken and also inquires into the feasibility of the proposed dissertation. The proposal must indicate that the dissertation will be concerned with a well-defined problem which will lend itself to a study of reasonable length and scope and which represents a synthesis and evaluation of materials and is not a mere compilation of data.

7. **Research Tools:**
Students must demonstrate competence in two foreign languages, or such other research tools as designated by their major department. The foreign language and/or research tool requirement must be satisfied prior to admission to candidacy.

Reading knowledge of the foreign languages is tested by the Foreign Language Department of the School of Arts and Sciences. These examinations measure the ability to read selected passages from the literature of the major subject.

8. **The Dissertation:**
Upon approval of the dissertation proposal, the candidate is assigned a committee to supervise the dissertation. A committee includes a chairperson and at least two other faculty members.

The candidate must complete a dissertation which provides well-written evidence of the intellectual mastery of a specified area of original investigation and abundant proof of high skill in research and scholarship.
The mandatory format, deadlines and components of all dissertation manuscripts are specified in the official Clark Atlanta University Thesis and Dissertation Guide, which is available in the Office of Graduate Studies.

9. The Final Examination:
The final oral examination includes a defense of the dissertation. The department determines whether a written examination will also be required. The final examination should be administered no later than five weeks before the Commencement at which the degree is to be conferred.

GRADUATE STUDIES

GRADUATE STUDIES OFFICE
Kresge Hall, Room 101
Telephone: 404-880-8742/8736

MISSION

In keeping with the University’s purpose of engaging in the exploration of innovative ideas through research and teaching, new programs, and educational experiments, graduate programs at the University are designed to search for truth, to transmit knowledge, to encourage creative research and to serve society. The University has a special commitment to these three functions: teaching, research, and public service, all of which are focused strongly on the attainment of a society – American and global – which is responsive to the human needs of all its citizens. This commitment is reflected in a twofold obligation of the University therefore to identify, to nourish, and sometimes modify that which among its traditions is or can be meaningful in the world of today and tomorrow while it discovers and develops the new, the perhaps as yet undreamed of, which a new age requires.

PROGRAMS

The University offers thirty-seven (37) graduate and professional degree-granting programs in fifteen (15) departments in the School of Arts and Sciences; four (4) departments in the School of Education; the School of Business Administration, the School of Library and Information Studies; and the School of Social Work. The University offers, in cooperation with other colleges and universities in the Atlanta University Center, a limited number of graduate courses which are open to qualified juniors and seniors and five-year accelerated B.S./M.S. programs in selected disciplines.

Courses leading to the Doctor of Philosophy (Ph.D.) degree are offered in biology, chemistry, counseling and human development, international affairs and development, political science, and social work planning and administration and system science. The Doctor of Education (Ed.D.) degree is offered in educational leadership; and the Doctor of Arts (D.A.) degree is offered in the humanities. The Educational Specialist (Ed.S.) degree in counseling and human development, curriculum, educational leadership and exceptional student education is offered in the School of Education. The Specialist in Library Service degree is offered in the School of Library and Information Studies.
The School of Arts and Sciences is committed to the educational mission of Clark Atlanta University and utilizes its resources in the achievement of this mission. This it does by creating and maintaining a cultural and academic milieu in which students and faculty may fully develop their individual potentialities as human beings, leaders, scholars, teachers, and productive members of society. In this environment, the four Divisions of the School provide the highest quality in instructional programs designed to achieve the specific goals which are peculiar to their mission.

The Division of Natural and Mathematical Sciences offers instructional programs which afford students opportunities for rigorous learning and research experiences necessary for productive careers in teaching and/or research and which prepare them also for more advanced study in their fields of interest. These programs are structured to provide students with the motivation and opportunities to become competent support personnel in educational institutions, in industry, in governmental agencies and laboratories. Within the Division, accelerated BS/MS degree programs are offered in Biology, Chemistry, Computer and Information Sciences, Mathematical Sciences, and Physics. Descriptions of these programs are provided under the respective departmental listings in the undergraduate catalog.

The Division of Social Sciences provides its students with the knowledge, skills, tools and sensitivities to recognize, resolve or ameliorate problems caused by the increasing pace of social and political change. It prepares superior students to assume leadership roles in social and governmental agencies, in educational institutions, and in the communities in which they live and work. It focuses attention upon the problems of black, poor and oppressed peoples and attempts to foster in students the desire to seek solutions to these problems. It places special emphasis upon a black perspective in identifying and dealing with problems arising from the crucial pressures of our complex and changing society.

The Division of the Humanities serves as a catalyst to all divisions and departments within the School of Arts and Sciences. In addition, it provides cultural and academic experiences designed for the promotion of scholarship and the training of competent scholars in African and African-American, English, French and Spanish cultures, especially literature and languages. The humanities curricula relate African-American experiences not only to the broader experiences of black people, but to those of other ethnic groups as well. In these instructional programs students are trained for careers as college and high school teachers of African and African-American Studies, English, History, Humanities and Foreign Languages. These programs seek to provide students with the tools and motivations for scholarly research while preparing them for study toward more advanced degrees and for leadership roles in higher education and in their communities. For those students who aspire to careers in the creative arts, the Division of Humanities endeavors to provide the knowledge, skills and stimuli essential to the realization of their creative aspirations.

The Division of Communication Arts enables undergraduate students to examine the mass media’s impact on social, economic, political, and cultural aspects of society. Through courses which explore the nature, influence, and potential of the media, the division provides students a critical and technical understanding of the media which can apply in their everyday lives. The curriculum prepares students for careers in the mass media as well as in entertainment, politics, personnel management, advertising, education, business, public relations, public service, and civil service. Currently there are no graduate programs in this division.

Graduate Programs of Study
The degrees conferred by the School of Arts and Sciences are:

1. Master of Arts in
   - African and African-American Studies
   - Africana Women's Studies
   - Criminal Justice Administration
   - English
   - Foreign Languages
   - History
   - International Affairs and Development
   - Political Science
   - Sociology

2. Master of Public Administration

3. Master of Science in
   - Biology
   - Chemistry
   - Computer and Information Science
   - Mathematics
   - Physics

4. Doctor of Arts in Humanities (with concentrations in)
   - African and African-American Studies
   - Africana Women’s Studies
   - English
   - Foreign Languages
   - History
The Department of African-American Studies/Africana Women’s Studies offers two master’s degree programs: the Master of Arts in African-American Studies and the Master of Arts in Africana Women’s Studies. In addition, the department offers course work leading to the Doctor of Arts in Humanities with a concentration in African-American Studies and in Africana Women’s Studies. The African-American Studies degree program was conceived in the spirit of W.E.B. DuBois, who pioneered in this field at Atlanta University, and was established in its present form in the late 1960s. It is designed for students with professional interest in a comprehensive understanding of African-American or African culture in its broadest sense. Thus, the program has as its purpose to provide professionals with the extended knowledge needed for work in their target communities, and to equip educators with knowledge of and sensitivity to the teaching of African and African-American cultures.

The program provides focus as well as breadth through the interdisciplinary area studies approach. Because of the long tradition of African and African-American studies at the University, pertinent courses are offered in many departments, particularly English, Foreign Languages, History, Political Science, and Sociology. Courses which are interdisciplinary in nature, or which are not available through specific departments are offered in the program itself. Arrangements may also be made when indicated with other departments in the University with the consent of the Chair of the department.

PROGRAM CURRICULA

The M.A. in African-American Studies offers a wide range of possible areas of concentration. Individual attention to the needs and objectives of each student is thus part of the fabric of the Program and is one of its outstanding features. On the doctoral level, a concentration in African-American Studies is offered as a concentration in the Doctor of Arts in the Humanities Program.

ADMISSION REQUIREMENTS

The program admits graduates of fully accredited four-year colleges who meet the requirements of the School of Arts and Sciences, and who have completed an undergraduate major in a humanities, social science or a professional field.
which provides a discipline content compatible with the focus of the program. Applicants with less than a 3.00 grade point average in their undergraduate major may be admitted at the discretion of the Program Advisory Committee for one semester on probation, with specified requirements to be met.

AFRICAN-AMERICAN STUDIES
DEGREE REQUIREMENTS

1. The successful completion of twenty-four (24) hours of course work with a 3.0 average or better, and presentation of an acceptable thesis on an appropriate topic including an oral defense of the thesis. Students receive six (6) hours of credit upon successful completion of the thesis. The thesis topic must be approved by the student's major adviser/chair of the thesis committee and the remaining thesis committee members. consisting of the following:

   a) a core of six credit hours of CAAS 501, and one course chosen from CENG 530, CHIS 680 or 681, CPSC 591, CPSC 598 or CPSC 600;

   b) eighteen (18) credit hours of a coherent group of courses which provide a particular knowledge of the African-American content of a specific discipline or problem (worked out in consultation with the department chair);

2. Passing a reading examination in French or Spanish, or a passing grade in one of the approved reading courses in French or Spanish offered at the University.

3. The passing of a comprehensive examination, including sections on African-American culture and the student's area of concentration, plus an oral defense of the written examination.

4. Students must successfully complete a writing assessment administered by the Center for Academic Achievement.

5. Residency: There is a one-year residence requirement for the Master of Arts degree.

THE AFRICAN-AMERICAN CONCENTRATION WITHIN THE DOCTOR OF ARTS IN HUMANITIES PROGRAM

Persons entering this concentration should have a good knowledge of African-American history and culture, as reflected in the ability to pass the African-American culture section of the master's comprehensive examination. The requirement for the concentration consists of: 24 hours of African-American Studies courses which may include courses in African-American literature (listed in the English Department); courses in African-American history (listed in the History Department); and electives in Political Science and/or Sociology. At least nine of the hours should be in seminars.

COURSE DESCRIPTIONS

CAAS 501: Africa and the African Diaspora. 3 credits
Introduction to research methods and basic and current concepts of culture and value systems as applied to Africa and African-derived cultures of the Americas. Various cultures of the Diaspora are viewed as exemplars.

CAAS 535: African and African-American Folklore. 3 credits
A survey of the principal characteristics of African-American folklore in its social, historical, and aesthetic contexts.

CAAS 550: African and African-American Music. 3 credits
A study of the principal characteristics of African-American music with pertinent references to music on the Continent.

CAAS 550: African and African-American Music. 3 credits
A study of the aesthetic tradition and the social context of African-American art.

CAAS 560: African-American Art. 3 credits
A study of the basic forms and styles of traditional African art and a look at colonial and post-independence styles and trends.

CAAS 601: Directed Study.* Fall, 2-3 credits
Readings and other research based on a corpus suited to the research needs and interests of the individual student.

CAAS 602: Directed Study.* Spring, 2-3 credits
Readings and other research based on a corpus of works suited to the research needs and interests of the individual student. (May be repeated for credit.)

CAAS 630: Seminar in Selected African-Americans. 3 credits
Men and women of historical importance in the shaping of the African-American destiny or culture such as Frederick Douglass, W.E.B. DuBois, Alain Locke are studied in detail.

CAAS 640: Seminar in Comparative Black Literature. 3 credits
Selected research problems comparing and contrasting traditions in Francophone, Afro-Hispanic and African-American literature. Prerequisites: a reading knowledge of French; consent of the instructor. Reading knowledge of Spanish recommended (Cross-referenced with CFRE 640 and CSPA 640, ENG 524).
2. Research Tool: Candidates for the Master of Arts degree are required to show proficiency in a foreign language as evidenced by passing an examination or course given by the University, or they may elect to take and pass a University-approved course or examination in social science statistics or computer science. Courses taken to satisfy the research tool requirement cannot be used to satisfy the twenty-four (24) semester hour course requirement for the M.A. degree.

3. Thesis: Students must submit an acceptable M.A. thesis in the form of a scholarly presentation of a research problem. The thesis topic must be approved by the student’s major advisor/chair of the thesis committee and the remaining thesis committee members.

4. Final Examination: The candidate must pass a final examination which is the oral defense of the thesis.

5. Comprehensive examination. The student must pass an oral defense of a written exam in the major and minor field of study.

6. Residency: A one-year residency requirement for the Master of Arts degree must be satisfied.

7. Students must satisfactorily complete a writing assessment administered by the Center for Academic Achievement.

**THE AFRICANA WOMEN’S CONCENTRATION IN THE DOCTOR OF ARTS IN HUMANITIES PROGRAM**

Minimum requirements for the Doctor of Arts degree:

1. Prerequisites: Prerequisites are a master’s degree and an overall academic average of B or better in graduate-level courses.

2. Semester Hours: Candidates for the D.A.H. degree must satisfactorily complete twenty-four (24) semester hours of approved course work in Africana Women’s Studies beyond the master’s degree. An additional 12 hours are awarded for the dissertation.
COURSE DESCRIPTIONS

CAWS 490: Introduction to Women’s Studies. 3 credits
A survey course which introduces the history, trends, basic ideas, scholars, problems, and content of Women’s Studies programs. Open to undergraduate students.

CAWS 500: Political Theory (Identical to CPSC 543). 3 credits
An in-depth analysis of the major schools of thought in the field of political theory from the classical period to the present with emphasis on theories about women and politics. Particular attention is given to Third-World theories about women in politics.

CAWS 501: Feminist Theory (Identical to CPSC 606). 3 credits
Examines and analyzes the various theoretical, strategic and political positions which characterize the literature and the study of women-related issues. Special emphasis is given to the study of black feminist theory.

CAWS 502: Africana Feminist Theory. 3 credits
A critical examination and analysis of the historical and current theories about the role and status of women of African descent. Open to advanced undergraduates with permission of instructor.

CAWS 503: Feminist Methodology. 3 credits
A variety of research, resources, techniques, and approaches to women’s studies are reviewed and assessed.

CAWS 504: Comparative Third-World Women. 3 credits
An examination of the social, political, psychological and economic conditions of African-American, Caribbean, and African women, with a view towards identifying and comparing similarities and differences among the three groups of women.

CAWS 505: Women in the Labor Market. 3 credits
An examination of occupational and economic conditions, constraints, and patterns of female wage earners in America; black, white, rural, urban, poor, middle class, and women at various educational levels are discussed.

CAWS 506: Women and Development. 3 credits
Emphasis is on the role, priorities and systematic problems associated with female participation in the development process. This is a required course for all students in the AWS and IAD programs.

CAWS 507: Rural Women. 3 credits
A cross-cultural look at the lifestyles, socioeconomic, and political conditions and concerns of rural African, Caribbean and African-American women. Prerequisite: CAWS 506.

CAWS 508: Urban Women in Africa and the Caribbean. 3 credits
A cross-cultural analysis of the concerns and conditions of African and Caribbean women who live in urban areas.

CAWS 509: Africana Women and Public Policy. 3 credits
A review of public policy issues which impact on the status and conditions of Africana women. The degree and results of their participation in government policymaking is also examined. Prerequisite: a course in public policy analysis.

CAWS 510: Africana Women in International Affairs. 3 credits
A survey of the degree and level of Africana women’s involvement in foreign policy making, diplomatic missions, international agencies and organizations. Positions held, career advancement patterns, and issues championed by these women are examined and analyzed. Prerequisites: CAWS 409 and CAWS 506.

Interdisciplinary Elective Courses:

CAWS 517: Women in Politics Seminar (Identical to CPSC 517). 3 credits
A study of the roles, activities and problems confronting women participating in the political system. The discrete subject of the Seminar will vary from semester to semester.

CAWS 537: The African Novel (or CENG 530). 3 credits
A study of modern African novels written in English with attention to their social contexts.

CAWS 538: Caribbean Women and Work. 3 credits
A study of the motives and conditions under which Caribbean women work in the formal and informal economics of their states.

CAWS 539: Third-World Women and Development (or CPSC 539). 3 credits
The history, status and role of Third-World women in development are the focus. Governmental policies and practices toward women as well as movement and activities of Third-World women are examined.

CAWS 540: Caribbean Women Writers. (Identical to ENG 592) 3 credits
A study of the writings of Caribbean women writers, their topics, perspectives, and motivation for writing.

CAWS 542: Seminar on Comparative Politics (Identical to CPSC 542). 3 credits
Designed for advanced students concentrating in Comparative Politics. Focus is on readings and research on selected topics and problems in comparative politics.
CAWS 549: Women in Contemporary Africana Fiction (or CENG 590). 3 credits
Examination of the status of women in modern African/African-American fiction including fiction of women throughout the African diaspora with comparisons to their actual status in these societies.

CAWS 591: The Black Aesthetic 3 credits
Analysis of the concept of a black worldview and culture, including readings in the Western and African aesthetics as well as black American critical writings.

CAWS 600: Seminar on Africana Women's Studies. 3 credits
A team-taught course designed to highlight the history, cultural diversity, contributions, and approaches to Africana Women’s Studies.

CAWS 601: Directed Research. * 3-6 credits
CAWS 602: M.A. Thesis Research. * 1-6 credits

CAWS 615: Race, Sex, and Class. 3 credits
An examination of the causes and consequences of social and economic cleavages based on race, sex, and class. Emphasis is on the effects of these on African peoples generally and women specifically.

CAWS 617: Feminist Criticism. 3 credits
An exploration and assessment of historical and contemporary concepts, issues, and concerns from a critical, feminist perspective.

CAWS 615: Internship. ** 3-9 credits
Students may do supervised internships in the U.S. and abroad in a women’s program, department, or project.

* May be repeated for credit.
**May be repeated for credit up to 9 hours.

ENGLISH DEPARTMENT
Haven-Warren Hall, Room 100
Telephone: 404-880-8169

The mission of the Department of English is to prepare students to demonstrate mastery of the English language in both written and oral discourse and to interpret and appreciate the human condition through the study of literature (poetry, fiction, drama and the essay). The department’s mission supports the mission of the University in that it seeks to prepare students to become “productive, creative, and socially responsible” citizens in their country and in the world. Thus, the department expects its students, specifically majors, to engage in research that will contribute to the body of knowledge about the use of the English language and the critical interpretation of literary texts. With information and skills, English majors are expected to strive for and achieve excellence and to devote their lives to enhancing humanity. In addition to its service role, the Department of English, in conjunction with the School of Education, African-American Studies and the Doctor of Arts in Humanities programs, prepares students with a concentration in English.

To support its mission, the Department of English is committed to providing an academic environment that will promote the following objectives:

1. To create strategies for students to achieve competency in reading, writing, and speaking standard English;
   To provide opportunities for students to enhance their knowledge of literary masterpieces of English and American Literature;
2. To assist students in cultivating an awareness of and a responsiveness to the literatures of diverse cultures, such as African-American, Asian, Caribbean and Native American;
3. To foster an understanding within students of the virtues of self-discipline, responsibility, leadership, and social justice;
4. To provide opportunities for students to do research in the areas of writing, linguistics and literature.

ADMISSION REQUIREMENTS
The Department of English admits graduates of fully accredited four-year colleges who meet the requirements of the School of Arts and Sciences and have completed twenty-four (24) semester hours of undergraduate English above the
sophomore level with an average of B or above. Occasionally, applicants are admitted with less than twenty-four (24) hours of B work, conditionally, for a probationary semester and with an individualized program formulated for them.

PROGRAMS OF STUDY
The Department of English offers the following programs of study: (1) the conventional Master of Arts Program with major courses in English, American and Africana literatures, literary criticism and linguistics. The department also cooperates with the Curriculum Department of the School of Education to prepare students for the Master’s of Education with a concentration in English. Students must enroll in the School of Education and divide their courses approximately equally between secondary education and English. The department cooperates with the African-American Studies and the Doctor of Arts in Humanities (D.A.H.) programs to prepare students who wish to concentrate in English for the M.A. degree in African-American Studies or the D.A.H. degree.

REQUIREMENTS FOR THE MASTER'S DEGREE
Common requirements for the conventional Master of Arts Program are:

- One academic year in residence (at least)
- Passing of a reading examination in French, German, or Spanish, or passing a University noncredit course in one of these languages
- A minimum of thirty (30) semester hours with an average of B or better
- A written comprehensive examination
- A thesis

Specific Course Requirements:
Conventional Master of Arts Program (30 credits)
Thirty semester credit hours are required. Twenty-seven (27) credits may be fulfilled from the credit hour courses listed below. The remaining three (3) credits may be fulfilled by taking one of the two electives listed.

CENG 580: Modern Linguistics

Or

CENG 581: History of the English Language
CENG 502: Pro-Seminar: Materials and Methods of Research
CENG 560: Literary Theory
1 Course: Major Author
2 Courses: British
1 Course: African-American
2 Courses: American

Electives
English 561: Comparative Literature

Or
1 Course: Caribbean/African/ Commonwealth

The Department of English/School of Education Cooperative Program
Thirty-nine (39) semester credit hours are required; six (6) of which may be fulfilled by electives or by completing a six-credit-hour thesis. A minimum of fifteen (15) semester hours in professional education are required from the courses listed below:

CENG 512: American Literature I or equivalent
CENG 513: American Literature II or equivalent
CENG 580: Modern Linguistics

Or

CENG 581: History of the English Language
CENG 500: History in the Secondary School
CENG 502: Pro-Seminar
CENG 522/544 or 561: (Major Authors)
CENG 560: Literary Theory and Criticism
CENG 561: Comparative Literature

REQUIREMENTS FOR THE DOCTOR OF ARTS DEGREE IN THE HUMANITIES WITH A CONCENTRATION IN ENGLISH
In addition to the courses required in the program’s core and pedagogy components, a candidate for the degree with a concentration in English is required to complete thirty (30) hours in English, including CENG 516: Major Authors and CENG 509: Genres of Literary Expression, and fifteen (15) hours composed of three (3) hours from each of five of the six areas listed below. Three additional hours may be selected from any of the courses listed for the Department of English, except that students whose transcripts do not show sufficient graduate study in literary criticism must take CENG 560.

Areas and Courses for Graduate Study in English
I. African and Caribbean Literatures
   CENG 530: The African Novel
   CENG 531: African Poetry in English
   CENG 532: Africana Critical Traditions
   CENG 533: The Caribbean Novel
   CENG 534: Caribbean Poetry

II. African-American Literature
   CENG 520: Ideas and Forms in African-American Literature
   CENG 521: African-American Poetry: From Dunbar to the Present
   CENG 522: The African-American Novel
   CENG 523: Poetry of the Harlem Renaissance
   CENG 524: Comparative Black Literature (or CAAS 530)

III. American Literature
   CENG 510: Early American Literature
CENG 509: Genres of Literary Expression. 3 credits
Studies in rotation of the formal parameters and evaluative criteria which define a given genre: the novel, biography and autobiography, drama and poetry (open only to students in the Doctor of Arts in Humanities Program).

CENG 510: Early American Literature. 3 credits
Studies literature from the beginnings of The United States to the Civil War.

CENG 511: American Poetry. 3 credits
Studies major works of American poetry, concentrating primarily on poetry after the Civil War.

CENG 512: American Romantics. 3 credits
Studies in the literary and cultural currents of American Romanticism from Freneau to Dickinson (1750-1830). Course also includes American Renaissance Authors such as Emerson, Hawthorne and Melville and abolitionists Frederick Douglass and Frances E.W. Harper.

CENG 513: American Realism and Naturalism. 3 credits
Studies in American Realism and Naturalism as major novelists from Samuel L. Clemens to Richard Wright (1835-1940).

CENG 514: The American Novel. 3 credits
Studies the intellectual and aesthetic history of the American Novel from Hawthorne to Faulkner and J.D. Salinger.

CENG 515: Contemporary American Literature. 3 credits
Studies in values, themes, styles, and genres in contemporary American literature.

CENG 516: Major Authors. 3 credits
An intensive and inclusive study of preeminent authors writing in English, with emphasis on their uniqueness and debt to the literary environment and traditions in which their works occurred.

CENG 520: Ideas and Forms in African-American Literature. 3 credits
Surveys African-American writings from conceptual and historical perspectives to determine to what extent this literature is uniquely African-American.

CENG 521: African-American Poetry: From Dunbar to the Present. 3 credits
Study of major poets from Dunbar to Lee, including Giovanni, Sanchez and other modern poets, within their cultural, historical, and literary contexts.

CENG 523: Poetry of the Harlem Renaissance. 3 credits
Study of poetry of the period 1919-1934, which considers relevant white poets, and critics, major black poets and critics and some minor black poets.

REQUIREMENTS FOR THE MASTER'S DEGREE

All degree applicants must complete the following requirements:

2. A reading knowledge of an additional foreign language (French or Spanish), demonstrated by:
   a. Passing a University examination, or
   b. Passing a one-semester graduate proficiency course in one of the two languages.

3. Passing both oral and written comprehensive examinations in the area of specialization.

4. Course work of six (6) hours may be substituted for the thesis.

Most graduate courses in the Department are conducted in the target language. Students entering the program must be able, therefore, to understand the spoken language, participate in class discussions, and write papers in French or Spanish. If a student’s proficiency in the four basic skills is so minimal that his/her classroom performance is seriously impaired, he/she may be asked to withdraw.

Requirements for the Doctor of Arts Degree in Humanities with a Concentration in Romance Languages

This is an interdisciplinary program and degree applicants must complete twenty-four (24) hours in the Humanities and Pedagogy core components (including all other requirements – as prescribed in the section titled Doctor of Arts in Humanities), as well as twenty-four (24) hours in Romance languages. In addition, degree applicants must pass both oral and written comprehensive examinations in the concentration, show evidence of mastery in the use of two research tools, which may be satisfied by proficiency in one foreign language and proficiency in computer science, statistical measurement or other applicable research tool. Finally, a dissertation that conforms to the requirements of the Council of Graduate Schools in the United States must be submitted to (and approved by) the University.
CFRE 515: French Civilization to 1789.  3 credits
Study of French civilization from its origins through the Revolution of 1789. Special emphasis will be placed on the feudal society, the Renaissance period and the “sicle de Louis XIV,” starting with the absolute monarchy and the development of new ideas. Course includes an extensive audiovisual component. Students should be able to work independently on the Internet.

CFRE 516: French Civilization to the Present.  3 credits
Study of French civilization from the Consulate to the present with major emphasis on current political, social and cultural institutions. Course includes an extensive audiovisual component. Students should be able to work independently on the Internet.

CFRE 517: French Poetry.  3 credits
Emphasizes the development of poetic schools from the Middle Ages through the twentieth century.

CFRE 518: French Prose.  3 credits
Traces the development of novelistic trends from Chretien de Troyes through the “nouveau roman.”

CFRE 519: French Drama.  3 credits
Studies of the development and evolution of the French theatre in France from the medieval period through the present.

CFRE 615: Francophone Colonial Civilization.  3 credits
Exploration of Creole cultures of Haiti, Martinique, Guadeloupe, French Guiana, Reunion, and Mauritius, and acculturation in former French West Africa and French Equatorial Africa, along with the impact on European French culture of contact with the peoples indigenous to or imported into these areas.

CFRE 638: Francophone Literature.  3 credits
Historical survey of the literature and literary productions of Haiti, Martinique, Guadeloupe, French Guiana, and Francophone Africa.

CFRE 640: Seminar in Comparative Black Literature.  3 credits
(Cross-referenced with CENG 640, and CSPA 640) Selected research problems comparing and contrasting traditions in Francophone, Afro-Hispanic and African-American literature.
CSPA 509/510: Directed Readings in Spanish.  3-6 credits
In-depth study and investigation of a particular period or writer of interest to an individual student. The supervising instructor in consultation with the department chairperson must approve all special study projects in advance. This course may be repeated.

CSPA 511: Spanish Phonetics and Pronunciation.  3 credits
Study of Peninsular and Latin American pronunciation, intonation and phonetics with intensive practice in reading and speaking, and the perfecting of a genuine Spanish diction through the aid of phonetic transcription and authentic Spanish videos and audio texts.

CSPA 513: Advanced Spanish Grammar and Composition.  3 credits
Acquisition of fundamental grammatical principles of Spanish and the most difficult idiomatic and literary expressions of the language, along with extensive oral and written compositions.

CSPA 514: Advanced Spanish Prose.  3 credits
Designed to sharpen the student’s sensitivity to stylistic nuances in literary texts, this course complements CSPA 513 by placing emphasis on grammatical structure and stylistics within the framework of literary analysis and criticism.

CSPA 515: History of Peninsular Civilization.  3 credits
Study of the political, social, economic and cultural history of Spain from the Middle Ages to the present, including the Spanish slave trade and the Golden Age. Course includes an extensive audio-visual component. Students should be able to work independently on the Internet.

CSPA 516: History of Latin American Civilization.  3 credits
Study of the political, social, economic, and cultural history of Latin America from pre-Columbian times to the present, including the contributions of black Latin Americans and the struggle of indigenous groups. Course includes an extensive audiovisual component. Students should be able to work independently on the Internet.

CSPA 517: Spanish Poetry.  3 credits
Emphasizes development of poetic schools from the Middle Ages through the twentieth century.

CSPA 518: Cervantes.  3 credits
Study of the development of Cervantes as a consummate prosaist; linguistic, philosophical, and literary commentary on Don Quixote and significant minor works.

CSPA 559/560: Methods of Teaching Foreign Language.  3-6 credits
Intensive study of the most recently developed methods and techniques of foreign language instruction.

CFRE 650: Applied Linguistics.  3 credits
An in-depth appreciation of the analysis of research in linguistics and its applicability to the teaching of foreign languages and procedures for adapting specific research methodologies.

CFRE 716: Comparative Romance Culture and Civilization.  3 credits
Comparative study of Romance societies from their origins to the present with major emphasis on political, social and cultural institutions. This study will also include points of convergence from linguistic and cultural perspectives.

CFRE 717: Romantic to Modern Poetry.  3-6 credits
This course will treat the development of poetic trends, movements and philosophies in France in the nineteenth and twentieth centuries. Particular attention will be paid to Victor Hugo.

CFRE 718: Modern Prose.  3 credits
This is an in-depth study of the nineteenth and twentieth century novel. The choice of novelists will vary according to the desire of the instructor. Students should expect to read voluminous works of both centuries, and be prepared to critique articles written about the works.

CFRE 719: Classical to Modern Drama.  3 credits
This is a serious study of the French theatre from 1550 to the present. Students should expect to read several plays per week, and be prepared to identify the stylistic nuances of the various literary movements as they relate to this genre.

CFRE 761/762: French Seminar.  3-6 credits
The examination, documentation, resolving and presentation of research problems in a specific field.

CFRE 801/802: Thesis/Dissertation Consultation.  1 credit

CFRE 805/806: Thesis/Dissertation Research.  Variable credit

Course Descriptions - Spanish

CSPA 056/506: Spanish for Graduate Students.  3 credits
Designed to prepare graduate students for meeting the foreign language reading and translation skills necessary for easy comprehension of scholarly articles in their subject area. The class meets three hours weekly for one semester (may be audited for 0 credit under CSPA 056). One does not need any prior knowledge of Spanish to be enrolled in this course.
CSPA 620: Afro-Hispanic Literature. 3 credits
Study of the “tema” Negro and of the black writers of Latin American prose and poetry. Particular attention will be paid to Afro-Antillean literature.

CSPA 622: Galdos, The Generation of 1868 and Naturalism. 3 credits
Study of the works of Clarín, Valera, Alarcon, Pereda, Palacio Valdes, Pardo Bazan and Blasco Ibáñez.

CSPA 623: The Generation of 1898. 3 credits
Study of the novel, poetry, drama and essays of Ramon del Valle-Inclán, Antonio Azorín, Jacinto Benavente, Miguel de Unamuno, Pío Baroja, and Antonio de Machado.

CSPA 625: The Twentieth-Century Latin American Novel. 3 credits
Examination of the evolution of the Spanish American novel in the twentieth century; special attention to experimentation and innovation in novelistic technique and “magic realism” in recent works of Julio Cortázar, Gabriel García Marquez and Isabel Allende.

CSPA 628: Hispanic Minorities in the United States. 3 credits
Study of the heritage, values, special concerns and the contribution to American culture of Hispanic Americans, and an examination of population growth in Hispanic communities throughout the United States.

CSPA 632: Hispanic Writers of the United States. 3 credits
Literature as group movement, periodicals as forums, as well as the works of individual writers studied.

CSPA 640: Seminar in Comparative Black Literature. 3 credits
(Cross-referenced with CENG 640 and CFRE 640) Selected research problems comparing and contrasting traditions in Francophone, Afro-Hispanic and African-American literature.

CSPA 650: Applied Linguistics. 3 credits
An in-depth appreciation of the analysis of research in linguistics and its applicability to the teaching of foreign languages and procedures for adapting specific research methodologies.

CSPA 671: Comparative Romance Culture and Civilization. 3 credits
Comparative study of Romance societies from their origins to the present with major emphases on political, social, and cultural institutions. This study will also include points of convergence from linguistic and cultural perspectives.

CSPA 716: Comparative Romance Culture and Civilization. 3 credits
Comparative study of Romance societies from their origins to the present with major emphases on political, social, and cultural institutions. This study will also include points of convergence from linguistic and cultural perspectives.

CSPA 717: Romantic to Modern Poetry. 3 credits
Development of poetic trends, movements and philosophies in Spain in the nineteenth and twentieth centuries.

CSPA 718: Modern Prose. 3 credits
This is an in-depth study of the nineteenth- and twentieth-century novel. The choice of novelists will vary according to the desire of the instructor. Students should expect to read voluminous works of both centuries, and be prepared to critique articles written about the works.

CSPA 719: Classical to Modern Drama. 3 credits
This is a serious study of the Spanish theatre from 1550 to the present. Students should expect to read several plays per week, and be prepared to identify the stylistic nuances of the various literary movements as they relate to this genre.

CSPA 761/762: Spanish Seminar. 3-6 credits
The examination, documentation, resolving and presentation of research problems in a specific field.

CSPA 801/802: Thesis/Dissertation Consultation. 1 credit
CSPA 805/806: Thesis/Dissertation Research. Variable credit

HISTORY DEPARTMENT
McPheeters-Dennis Hall, Room 26
Telephone: 404-880-8239

The Department of History offers courses leading to the degrees of Master of Arts and Doctor of Arts in the Humanities. The degree programs are designed to train students in historical methodology, research techniques and writing, and to impart historical knowledge with special emphasis on the United States, Africa, and African-Americans. Graduate students writing theses and dissertations are strongly encouraged to utilize the rich primary source collection in the archives of the University library. The programs prepare students for careers in academia, research, government service, and related professions.

Students may concentrate in any combination of United States, Africa, and African-American history. The department collaborates with other departments and schools within the University. In particular, it cooperates with the School of Education in the preparation of teachers of history for the public schools.

ADMISSIONS REQUIREMENTS
Students beginning graduate work in the Department must have completed at least four courses in history, or its equivalent, not including the social science general education requirements of the undergraduate institution, with an average of B or better. In special cases, students may be admitted provisionally and meet prerequisites by taking additional courses on the graduate level, taking courses in one of the undergraduate colleges in the Atlanta University Center, or meeting other conditions prescribed by the Department.
COURSE DESCRIPTIONS

CHIS 563: The African-American in the United States to 1877. 3 credits
Study of the social, economic, political and cultural development of African Americans in the United States.

CHIS 564: The African-American in the United States Since 1877. 3 credits
A continuation of CHIS 563.

CHIS 565: African-American History for High School Teachers. 3 credits
Surveys history of African-Americans, explores classroom problems, and assesses teacher-student bibliographic material (offered on demand).

CHIS 566: Contemporary African-American History. 3 credits
Reading and research seminar exploring selected aspects of post-World War II developments among African-Americans (offered on demand).

CHIS 574: Post-Industrial America. 3 credits
Examination of the evolution of American society after World War II.

CHIS 575: Intellectual and Cultural History of the United States. 3 credits
Study of selected aspects of American thought and cultural development with attention to changing racial ideologies.

CHIS 576: Social and Economic History of the United States. 3 credits
Survey of significant social and economic trends and problems with emphasis on the treatment of black people in urban centers.

CHIS 602: Black Metropolis. 3 credits
Reading seminar concerned with the movement of black people to urban centers.

CHIS 603: Seminar in African-American History:
The Antebellum Period to 1877. 3 credits
Research seminar on selected pre-Civil War aspects of African-American history.

CHIS 604: Seminar in African-American History: Post-Civil War Period. 3 credits
Research seminar on selected post-Civil War aspects of African-American development.

CHIS 605: Independent Study. 1-3 credits
Designed to give students under the supervision of the instructor an opportunity to pursue in-depth areas not covered in seminars or classes (offered on demand).

CHIS 606: The Black Woman in American History. 3 credits
Research seminar analyzing the role of women in the historical development of the United States with emphasis upon the black woman.

Requirements for the Degree of Doctor of Arts in the Humanities with a Concentration in History

Students studying for the degree of Doctor of Arts in the Humanities with a concentration in history are required to complete twenty-four (24) hours in history as shown below:

1. Completion of a historical methodology and research course.

2. Completion of eighteen (18) hours selected from courses in any combination of the following areas, or any combination of areas:

   United States History
   African History
   African-American History

3. Students with no previous graduate level African-American history courses are required to take three (3) hours in that area.

All other requirements described in the section on the Doctor of Arts in the Humanities must be completed by students concentrating in history.
Doctor of Arts in Humanities

The requirements of each concentration within the Doctor of Arts in Humanities Program are described in the listing of the relevant department. The core curriculum courses are described here.

ADMISSION REQUIREMENTS

See University requirements and specific departments and programs.

Degree Requirements

See University requirements and specific departments and programs.

PROGRAM DESCRIPTION

The Doctor of Arts in Humanities Program is an interdisciplinary program representing the terminal degree requirements for the Departments of African-American Studies and Africana Women’s Studies, English, History, and Foreign Languages. Candidates for the Doctor of Arts in Humanities degree must complete a minimum of forty-eight (48) semester hours beyond a master’s degree in an appropriate discipline. The program consists of course work, research, a teaching internship and a doctoral dissertation. The areas of concentration are African-American Studies, Africana Women’s Studies, English, History, and Romance Languages. The general requirements for the degree are:

1. Core Component. Completion of twelve (12) semester hours from the following interdisciplinary core courses:

   - Humanities 675: Humanistic Inquiry (3)
   - Humanities 676: The Person in History and Literature (3)
   - Humanities 677: Literature and Popular Culture (3)
   - Humanities 678: Ideas and Exemplars (3)

2. Pedagogy Component. Completion of twelve (12) semester hours of higher education in the Humanities including an internship in teaching.

3. Completion of twenty-four (24) semester hours in an area of concentration listed above. For courses and the requirements in each concentration see their listings in the catalog.

4. Evidence of proficiency in the use of two research tools which may be satisfied by reading proficiency in two foreign languages, or by reading proficiency in one foreign language and proficiency in computer science, statistical measurement, or other applicable research tools.
5. The dissertation requirement will conform to the following statement of the Council of Graduate Schools in the United States.

The formal research dissertation or project may take several acceptable forms. The evaluation and synthesis of academic or disciplinary knowledge, comparative studies, creative intellectual projects, expository dissertations, or significant research in teaching problems and the organization of new concepts of coursework are applicable. Evaluation and synthesis of materials and academic content that may be valuable in college teaching but which have not yet been reviewed is also acceptable. Such research or independent investigation should be closely related to academic subject matter and demonstrate the scholar’s mastery of academic content and research skills as attributes of effective teaching. The internship is not a substitute for an independent research project for the degree.

Admission to candidacy and residence requirements may be found under “General Requirements for Doctoral Degrees.” A maximum of six (6) semester hours beyond the master’s degree may be accepted for transfer credit. The requirements of each concentration within the Program are described in the listing of the relevant department. The core curriculum courses are described below:

THE HUMANITIES COMPONENT

CHUM 675: Humanistic Inquiry. 3 credits
Introduces fundamental concepts and methods of humanistic studies generally and those which are basic to various disciplines in humanities, including literary criticism and historiography.

CHUM 676: The Person in History and Literature. 3 credits
Examines the concept of “person” as a reflection of the ontological, ethical, and political premises of various cultures and epochs, and how concepts of personhood are embedded in historical and literary texts.

CHUM 677: Literature and Popular Culture. 3 credits
Addresses fundamental questions about the nature of contemporary culture by examining the structures, myths, and genres of contemporary popular culture, including the role of cultural diversity in defining popular culture.

CHUM 678: Ideas and Exemplars. 3 credits
Investigates the contexts and processes in which seminal ideas are created in a particular ethos, and the principles determining their transformation in subsequent epochs and diffusion.

CHUM 681: Higher Education in the United States. 3 credits
Considers the history, present status, curricular models and projections of higher education including significant trends in the operation and development of higher education institutions.

CHUM 682: Teaching and the Humanities. 3 credits
Examines the principles governing college programs in humanities and various course designs, materials and strategies for achieving the ends of humanistic education.

THE PEDAGOGY COMPONENT

CHUM 683–684: The Internship. 3 credits
Entails practical experience in applying the pedagogical principles, research, and methods studied in CHUM 681–682. In some cases, the internship requirements may be satisfied by one semester, in which case an additional content course may be taken in lieu of a second semester of internship. Whenever possible, the internship will be based in one of the required undergraduate core curriculum courses in Humanities or in one of the humanities disciplines.
DOCTOR OF PHILOSOPHY DEGREE

To earn the Ph.D. degree, a student must take a minimum of seventy-two (72) credit hours including twenty-seven (27) credit hours of graduate courses (all of the core courses and two or more advanced courses required for specialization in one of the major areas of concentration), and pass the qualifying examination for admission into candidacy. In addition, a dissertation resulting from forty-five (45) credit hours of original research conducted under the supervision of the major advisor and the Dissertation Committee must be submitted and successfully defended. Continuous enrollment in departmental seminars and proficiency in two research tools (foreign language, biostatistics or computer applications) are also requirements for the doctoral degree.

As part of the comprehensive training program, each candidate is required to serve as a Teaching Assistant in an undergraduate course for at least one semester.

COURSE DESCRIPTIONS

CBIO 501-502: Biology Seminar.  Every Semester, 0 credit
One weekly meeting to hear research reports from faculty, invited speakers and degree candidates. Required of all students.

CBIO 504: Molecular Genetics.  Fall, 3 credits
Prokaryotic and bacteriophage gene structure, function and regulation. Molecular details of DNA isomerization, replication, RNA transcription and translation. Also covers genetic code, rRNAs and tRNAs, molecular mechanisms of transposition, mutation, repair and recombination in DNA.

CBIO 505: Microbial Physiology.  Spring, 3 credits
Studies of living processes in prokaryotic cells. Topics of discussion on recent literature include cell structure and function, metabolism and regulatory networks, membrane transport, stress response, mechanisms of resistance to antibiotics and cellular differentiation.

CBIO 506: Cell Biology.  Spring, 3 credits
Cellular structure, biosynthesis and function of eukaryotic cells.

CBIO 509: Methods and Techniques in Biology.  Fall, 3 credits
Laboratory course covering techniques such as absorption and fluorescence spectroscopy, ultracentrifugation, diffusion, sedimentation, electrophoresis, spectrometry, x-ray diffraction, nuclear chemistry and chromatography.

CBIO 511: Protein Biochemistry.  Fall, 3 credits
 Discusses the structure and cellular functions of proteins.
DEPARTMENT OF CHEMISTRY
Thomas W. Cole, Jr., Research Center for Science and Technology,
Room 2025, Telephone: 404-880-6850

ADMISSIONS REQUIREMENTS

The Department of Chemistry requires of every student admitted to the graduate program a minimum of thirty-two (32) semester hours, or the equivalent, in chemistry. One year of physics and one year of calculus also are required. Students lacking any of these prerequisites may be admitted conditionally.

PROGRAMS OF STUDY

The Department of Chemistry offers programs of course work and research leading to the Master of Science (M.S.) degree in analytical, organic, inorganic, physical, and polymer chemistry, and biochemistry, and the Doctor of Philosophy (Ph.D.) degree in Chemistry in these subdisciplines. In addition, the department offers an M.S. degree in industrial chemistry.

MASTER OF SCIENCE DEGREE IN CHEMISTRY

Students entering the department are required to take basic examinations during the week of registration in order to ensure that they begin graduate work at a level commensurate with their background. The examination is based upon the subject matter covered by the following courses: general chemistry, qualitative analysis, organic chemistry, physical chemistry, and mathematics through calculus.

A candidate for the Master of Science degree must complete a minimum of thirty (30) semester hours in a program of study and research approved by the chair of the department in consultation with the student and his/her major professor. Minimum departmental requirements are the following:

1. Required courses. Satisfactory completion of a minimum of twenty-four (24) semester hours of approved course work and six (6) semester hours of thesis research.

   All students are required to complete the following courses:
   CCHE 512 (Instrumentation)
   CCHE 521 (Advanced Inorganic Chemistry)
   CCHE 531 (Mechanistic Organic Chemistry)
   CCHE 532 (Organic Synthesis)
   CCHE 541 (Thermodynamics)
   CCHE 542 (Quantum Mechanics)

   For Biochemistry majors, required courses include:
   Advanced Biochemistry (CCHE 551 and CCHE 552)
A medicinal industrial chemistry option may be satisfied by completing, in addition to the above, the following courses:

CCHE 551: Advanced Biochemistry I
CCHE 552: Advanced Biochemistry II

For business administration courses, see the School of Business Administration listings.

DOCTOR OF PHILOSOPHY DEGREE IN CHEMISTRY

Applicants for the Ph.D. degree must request that results from a recent Graduate Record Examination be forwarded to the University, and must meet all other general admission requirements. Applicants that enter the program with a M.S. degree must have earned a minimum graduate GPA of B. Minimum departmental requirements are:

1. Course work and Research. Students entering at the B.S. level must complete a minimum of twenty-four (24) credit hours in their field of interest plus advanced courses, a minimum of six (6) credit hours, as designated by the area of study. A minimum of forty-two (42) credit hours of research is also required. Students entering with an M.S. degree may, upon approval of the department, transfer course credits per University regulations. A student must maintain an overall B average. In addition to the University requirement, departmental requirement is that the core courses must be passed with a grade of B or better. The student, however, may petition the department to balance up to six (6) hours of C grades by A grades.

2. Foreign Language Competence. Demonstrate competence in one foreign language, or such other research tool as designated by the department. Evidence of proficiency in German, French, Russian, or other approved language or proficiency in computer science (evidenced by passing an approved examination or satisfactory completion of an approved course).

3. Thesis Writing and Defense. Students must deliver an oral defense of their thesis before the thesis committee and open to the public. The defense shall be held only after the approval of the thesis by the major advisor.

4. Approval of the thesis by the University.

MASTER OF SCIENCE DEGREE IN INDUSTRIAL CHEMISTRY

Pursuing the Master of Science degree in Industrial Chemistry requires completion of a minimum of thirty-five (35) semester hours of course work and research approved by the chair of the Department in consultation with the student and the Director of the Industrial Chemistry Program. The general requirements relative to the basic examination, language examination, comprehensive examination, final examination, and acceptance of the thesis are the same as those outlined under the heading Master of Science in Chemistry. Minimum departmental requirements consist of the following:

Completion of twenty-nine (29) hours of approved course work and six (6) hours of internship in the chemical industry or, for students who do not participate in the internship program, completion of thirty-five (35) hours of approved course work and six (6) hours of thesis research, including these required courses:

CCHE 512 (Instrumentation)
CCHE 521 (Advanced Inorganic Chemistry)
CCHE 531 (Mechanistic Organic Chemistry)
CCHE 532 (Organic Synthesis)
CCHE 541 (Thermodynamics)
CCHE 542 (Quantum Mechanics)
CCHE 561 (Topics in Industrial Chemistry)
CCHE 562 (Scale-up for Chemists)
CCHE 571 (Polymer Chemistry)
Business Administration Elective
4. Presentation and oral defense of an independent research proposal by the end of the second year for persons entering with a B.S. degree and by the end of the third semester for persons entering with the M.S. degree.

5. Passing an oral defense of the dissertation before the dissertation committee and open to the public. The examination shall be given only after the approval of the dissertation as ready for defense by the dissertation advisor.

6. Acceptance of a research dissertation by the Department and the School of Arts and Sciences.

OTHER REQUIREMENTS ARE FOUND IN GRADUATE STUDENT HANDBOOK.

COURSE DESCRIPTIONS

CCHE 412: Instrumental Methods. 4 credits
A lecture and laboratory course covering the theory, design, practical uses and applications of typical spectroscopic and chromatographic instrumentation. Particular focus is on the application of the instrumentation for chemical analysis. (This course is numbered 512 for graduate students). (Three [3] lecture hours and four [4] lab hours per week)

CCHE 421: Advanced Inorganic Chemistry. 3 credits
This is an introduction to the descriptive chemistry of the elements. The topics covered in this course include: Brønsted and Lewis acids and bases, electronic and molecular structure and coordination chemistry. (Three [3] lecture hours per week)

CCHE 431 AND 432: Advanced Organic Chemistry I and II. 4 credits each

CCHE 431: Advanced Organic Chemistry I. This course is a study of the advanced topics in carbon chemistry. The topics covered include: Critical evaluation of modern organic theory mechanisms and rearrangements. It also includes a detailed study of important organic reactions and their application to selected laboratory experiments. (Three [3] lecture hours and one [1] laboratory hour per week) Prerequisites: CCHE 231 and 232.

CCHE 432: Methods of Structure Determination. This course covers the theory and techniques used in the determination of the structure of organic compounds. The topics covered include separation techniques as well as the use of UV/VIS, IR, NMR, ESR, Raman and mass spectroscopy to elucidate structures of organic compounds. (Three [3] lecture hours and one [1] laboratory hour per week) Prerequisite: CCHE 431.

CCHE 441: Mathematical Methods in Chemistry. 3 credits
A study of the mathematical methods used in physical chemistry, including applications of linear algebra and differential equations. (Three [3] lecture hours per week) Prerequisites: CCHE 341 and 342.

CCHE 451 and 452: Biochemistry. 3 credits each
CCHE 451 (dual numbering with CBIO 491): Introduction to the structure and function of biological molecules, proteins, carbohydrates, lipids and nucleic acids. (Three [3] lecture hours per week) Prerequisites: CCHE 231 and 232; CBIO 111 and 112.

CCHE 452 (dual numbering with CBIO 492): Basic metabolic pathways governing the function of cells and tissues (intermediary metabolism). Fundamentals of enzymatic catalysis, including kinetics and mechanism. (Three [3] lecture hours per week) Prerequisites: CCHE 231 and 232; CBIO 111 and 112.

CCHE 508: Graduate-level Seminar in Chemistry. 1 credit
This is a one-hour lecture/seminar course. One year (two semesters) of the course generates one hour of credit. Required of all graduate students.

CCHE 511: Environmental Chemistry. 3 credits
An examination of the origins, transport, reactions, effects, ultimate fate of hazardous waste in the environment. This course is designed to develop a working level knowledge of: (1) chemistry fundamentals; and (2) the basic principles and concepts of environmental chemistry: including (a) geochemistry; (b) atmospheric chemistry; c) environmental microbiology; and (d) waste treatment. (Three [3] lecture hours per week)

CCHE 512: Instrumental Methods. 4 credits
A lecture and laboratory course covering the theory, design, practical uses and applications of typical spectroscopic and chromatographic instrumentation. Particular focus will be on the application of the instrumentation for chemical analysis. (This course is numbered 412 for undergraduate students). (Three [3] lecture hours and four [4] lab hours per week)

CCHE 521: Advanced Inorganic Chemistry. 3 credits
Treatment of bonding and structure, oxidation-reduction and acid-base theory, and correlation with chemical reactivity, and ligand field theory. (Three [3] lecture hours per week)

CCHE 523: Coordination Chemistry. 3 credits
Ligand field theory, spectral interpretations, stability considerations, synthetic methods, unusual oxidation states, other topics of current interest. (Three [3] lecture hours per week)
CCHE 524: Physical Methods in Inorganic Chemistry. 3 credits
Application of NMR, IR, UV-VIS, Raman spectroscopy to inorganic chemistry. (Three [3] lecture hours per week)

CCHE 531: Mechanistic Organic Chemistry. 3 credits
Treatment of bonding, resonance, inductive and steric effects and discussion of reactive intermediates, nucleophilic substitution and elimination reactions from a mechanistic point of view. (Three [3] lecture hours per week)

CCHE 532: Organic Synthesis. 3 credits
The chemistry of aromatic, heterocyclic and alicyclic compounds with emphasis on mechanisms. This course will teach students the disconnection approach for the synthesis of complex organic molecules. The course will present modern methods for carbon-carbon bond formation and apply these methods to prepare target molecules. (Three [3] lecture hours per week)

CCHE 533: Physical Organic Chemistry. 3 credits
Molecular orbital calculations, frontier molecular orbital theory and organic reaction mechanisms, stereochemistry of organic molecules containing centers, planes and axes of chirality. (Three [3] lecture hours per week)

CCHE 541: Thermodynamics. 3 credits
A rigorous treatment of basic theories and methods in chemical thermodynamics and equilibria including phase equilibria, chemical reactions, real solutions, surface effects, and some applications to macromolecules. (Three [3] lecture hours per week)

CCHE 542: Quantum Chemistry. 3 credits
Concepts and general principles of wave mechanics, with mathematical discussion of the hydrogen atom and harmonic oscillator. Introduction to matrix mechanics, angular momentum operators, and applications to small molecules. Variational and perturbation techniques are discussed. (Three [3] lecture hours per week)

CCHE 545: Statistical Mechanics. 3 credits
Statistical methods as applied to thermodynamics: molar partition function of mono-, di-, and poly-atomic molecules and their applications to the interpretation of chemical phenomena. (Three [3] lecture hours per week)

CCHE 544: Molecular Spectroscopy. 3 credits
Introduction and discussion of the fundamentals of rotational, vibrational, Raman, and electronic spectra. Development of the quantum mechanical treatment of these phenomena. (Three [3] lecture hours per week)

CCHE 546: Kinetics. 3 credits
A rigorous treatment of reactions in the gas phase and in solution. Complex reactions, some reaction mechanisms in solution, analysis of and measurement of rates in fast reactions. (Three [3] lecture hours per week)

CCHE 547: Magnetic Resonance. 3 credits
Treatment of basic theory of NMR and EPR including the Bloch equation, Fourier transform NMR and spin relaxation mechanisms, discussion of theoretical and experimental determination of NMR parameters, applications, and solid state experiments. (Three [3] lecture hours per week)

CCHE 551-552: Advanced Biochemistry I and II. 3 credits each
CHE 551: Advanced Biochemistry I. A study of the chemistry of carbohydrates, lipids, proteins, enzymes, and other compounds of biological significance and their applications to biological systems, enzyme kinetics. (Three [3] lecture hours per week)

CHE 552: Advanced Biochemistry II. Bioenergetics of metabolic reactions, metabolism of carbohydrates, lipids, proteins, nucleotides, Protein synthesis, Membrane transport and Biochemical genetics. (Three [3] lecture hours per week)

CCHE 561: Topics in Industrial Chemistry. 3 credits
Introduction to topics in chemical product development. Laboratory synthesis; scale-up to pilot plant and manufacturing; process control; process and equipment design; quality control and environmental issues; product marketing; and chemical industry management issues. Lectures will be given by personnel from a variety of areas of the chemical industry: energy inorganic chemicals; polymers; pharmaceuticals; surfactants; soaps; and detergents, etc. (Three [3] lecture hours per week)

CHE 562: Scale-up for Chemists. 3 credits
This course is designed to acquaint the student with the principles of chemical production scale-up and manufacture. Topics such as material and energy balance; transport phenomena involving momentum and energy transfer and unit operations of heat and mass transfer; and process and equipment design. (Three [3] lecture hours per week)

CCHE 563: Catalysis. 3 credits
Principles of catalysis, classification of catalyst systems, catalyst characterization, absorption of molecules on catalyst surfaces as prerequisite for catalytic reactions, kinetics of catalytic reactions, catalysis by metals, organometallic and inorganic compounds, selected examples of catalyzed industrial reactions, applications of catalysis to solving environmental problems.
CCHE 571: Introduction to Polymer Chemistry. 3 credits
Synthesis, including radical and ionic polymerization and polycondensation reactions, structure-property relationships, characterization and rheological properties of polymeric materials.

CHE 572: Techniques in Polymer Chemistry. 3 credits
A course designed to introduce students to experimental polymer chemistry, synthesis using ionic, free-radical and condensation polymerizations, molecular weight measurements by viscosity, osmometry, gel permeation and light scattering, spectroscopic characterization of polymers, measurements of thermal transitions. (Two [2] lecture hours and two [2] laboratory hours per week)

CHE 573: Physical Polymer Science. 3 credits
Course deals with interrelationships among polymer structure, physical properties, and useful behavior of polymers. Topics to be covered include chain structure and configuration, solution and phase behavior, glass-rubber transition behavior, rubber elasticity, polymer viscoelasticity and flow, mechanical behavior of polymers, etc. (Three [3] lecture hours per week)

CCHE 618. Topics in Analytical Chemistry – Environmental Monitoring. 3 credits
Advanced topics in analytical and environmental chemistry including separations, spectroscopy and mass spectrometry. Elements and operational principles of ISO 14001 Environmental Management System and ISO 9001/2 Quality Management System and chemical principles and operational characteristics of chemical instruments as applied to environmental monitoring with EPA established protocols. (Three [3] lecture hours per week)

CCHE 621: Topics in Inorganic Chemistry. 3 credits
In-depth treatment of areas of inorganic chemistry of current interest. (Three [3] lecture hours per week.)

CCHE 631: Advanced Organic Synthesis. 3 credits
Chemio-, regio-, and stereo selective methods for the efficient synthesis of multifunctional organic compounds utilizing the concepts of structural and reactivity equivalency. (Three [3] lecture hours per week)

CCHE 632: Stereochemistry. 3 credits
Organic molecules containing centers, planes and axes of chirality in terms of their absolute and relative configurations and such topics of prochirality, conformational analysis, resolution and introductory asymmetric synthesis. (Three [3] lecture hours per week)

CCHE 633: Photochemistry. 3 credits
A course on general theory and concepts in organic photoreactions. The course will cover electronic orbitals, chemical dynamics, potential energy surfaces, photophysical radiation less transitions, mechanistic photochemistry and photo reactions. (Three [3] lecture hours per week)

CCHE 637: Advanced Topics in Organic Chemistry. 3 credits
In-depth treatment of areas of organic chemistry of current interest. (Three [3] lecture hours per week)

CCHE 639: Organometallic Chemistry. 3 credits
An introduction to the synthesis, structure, bonding, and reactivity of organometallic complexes. (Three [3] lecture hours per week)

CCHE 644: Topics in Physical Chemistry. 3 credits
In-depth treatment of areas in physical chemistry of current interest. (Three [3] lecture hours per week)

CCHE 651: Physical Biochemistry. 3 credits
Survey of various spectroscopic techniques and hydrodynamic, non-hydrodynamic and electric charge methods for determination of size, shape, and molecular weight of biomacromolecules with discussion of selected topics such as relaxation spectrometry, solutions of macromolecule, and X-ray diffraction. (Three [3] lecture hours per week)

CCHE 652: Topics in Biochemistry. 3 credits
In-depth treatment of areas of biochemistry of current interest, including immunology, signal transduction, and carcinogenesis. (Three [3] lecture hours per week)

CCHE 653: Protein Biochemistry. 3 credits

CCHE 654: Enzymology. 3 credits
In depth treatment of enzyme regulation, kinetics and formal model of catalysis, the anatomy of enzymes, allosteric enzymes, selected topics may be selected based on mutual interests of students and instructor. (Three [3] lecture hours per week)

CCHE 655: Membrane Biochemistry. 3 credits
A consideration of biological membranes, membrane transport, membrane structure, excitabile membranes and sensory systems and signal transduction, membrane proteins, lipid metabolism. Other topics may be selected based on mutual interests of students and instructor.

CCHE 657: Advanced Topics in Organic Chemistry. 3 credits
In-depth treatment of areas of organic chemistry of current interest. (Three [3] lecture hours per week)
funded initiatives. These projects provide opportunities for student participation in research/design efforts and related laboratory work. The department has linkages with several research institutions, government research laboratories and industry that facilitate student summer internships, job placement and doctoral studies.

The CIS Department has made concerted efforts to establish a competitive research and training base by enhancing its computer science academic program, research faculty and infrastructure. Major research initiatives include the establishment of the Army Center of Excellence in Information Science, a National Science Foundation High Performance Computing Laboratory, a DOD-Sponsored Computer Security Laboratory, and a Web-based Interactive Training Lab sponsored by Intel. Under the auspices of these programs, several research projects are being conducted in the areas of Computer Security, Data Mining, High Performance Computing, and Image Processing. These projects are conducted by faculty members leading teams of graduate and undergraduate students. Student participation in research and development activities is an integral part of the student training process. All students are required to complete research/design projects, thus emphasizing the importance and interrelationship among research, design and education.

ADMISSION REQUIREMENTS

The department will consider an applicant who has:

(a) At least a baccalaureate degree or its equivalent from an approved college or university and is prepared for advanced study as shown by her/his previous scholastic records;

(b) Completed at least twenty-one (21) semester hours of courses above the sophomore level in the area of pursuit;

(c) Submitted the results of the general and advanced sections of the Graduate Record Examination (GRE) and three letters of recommendation by professionals, two of which are related to the area to be pursued; and

(d) Satisfied any additional requirements listed by the School of Arts and Sciences and the University.

The department may waive one or more requirements if an applicant demonstrates superior performance ("B" grade or above) in CIS 509: Introduction to Information Systems, or completion of the sequence of CCIS 571, CCIS 573, and CCIS 574.
Requirements for the M.S. Degree in Computer Science
The program requires a minimum of thirty (30) semester hours of course work, including:

(a) Twelve (12) hours of graduate core courses (CCIS 672, CCIS 673, CCIS 674, and CCIS 691);

(b) Three (3) hours of a research/design project from the sequence CCIS 803-815, leading to a technical report and a final comprehensive examination on its contents; and

(c) Fifteen (15) hours of concentration electives, including a graduate thesis (if applicable). Concentration electives are available in Computer Networks and Communications, Computer Organization, and Information Systems.

The core concentrations are listed below:

<table>
<thead>
<tr>
<th>Computer Networks &amp; Communications</th>

Thesis Requirement
A student writing a graduate thesis must complete CCIS 821 as continuation of the research/design project mentioned in (b) above, leading to a graduate thesis and final examination on its contents.

Course Description
CCIS 500: Applications Software. 3 credits
For nonmajors, emphasizing hands-on training in the use of Microsoft Office Suites, including application-oriented projects in word processing, spreadsheets, database design, and presentations design. Prerequisite: graduate standing.

CCIS 503: Business Application Tools. 3 credits
Business tools for data analysis, spreadsheet and elementary database management; programming with SAS, SPSS-X, Lotus 1-2-3, DBASE III+, etc.

CCIS 509: Introduction to Information Systems. 3 credits
Study of Information Systems at an introductory level. Topics include data structures, hardware concepts, software engineering, programming languages, and operating systems.

CCIS 511: Data Communications. 3 credits
Introduction to data communication techniques, data link control, multiplexing and communication networking. Prerequisites: CCIS 121, CCIS 227, CCIS 473.

CCIS 513: Local Area Networks. 3 credits
Study of design and analysis techniques for local area networks. Topics include polling, random access and ring networks and medium access control protocols. Prerequisites: CCIS 121, CCIS 227, CCIS 473, CCIS 511.

CCIS 515: Computer Networks. 3 credits
Study of computer network design and hardware/software considerations, including layered (OSI) and hierarchical (DOD) approaches. Prerequisites: CCIS 473, CCIS 511, CCIS 513.

CCIS 519: Information Assurance Tools. 3 credits
Study of commercial off-the-shelf and research tools relevant to information assurance. Topics include: firewalls, password cracking, system administration tools, intrusion detection and prevention, and wireless security. Prerequisites: CCIS 473, CCIS 511, CCIS 513, CCIS 515.

CCIS 521: Introduction to Information Security. 3 credits
Provides a comprehensive overview of the concepts relevant to information security. Concepts include development of security policy, malicious code, general purpose protection of resources, trusted systems, and cryptography. Prerequisites: CCIS 473, CCIS 474, CCIS 511, CCIS 513, CCIS 515, CCIS 519.
CCIS 523: Human-Computer Interface.  
Study of human factors involved in interaction with computers. Topics include terminal emulation, split-screen technology, menu-driven input, command-line processing and response-time considerations. Prerequisite: Consent of the department.

CCIS 527: Distributed Systems.  
Study of design, implementation and management of distributed systems, including protocol issues above the network layer of the ISO hierarchy, naming, security, reliability, resource sharing and remote execution. Prerequisites: CCIS 473, CCIS 511, CCIS 513, and CCIS 515.

CCIS 571: Introduction to Algorithms.  
Study of algorithm design, using appropriate data structures. Topics include algorithms for sorting, searching and graph traversal and complexity issues. Prerequisite: CCIS 123, or approval of department.

CCIS 572: Introduction to Computer Architecture.  
Study of logical organization of computer hardware and functional components. Prerequisites: CCIS 105, CCIS 106, CCIS 121, CCIS 123, CCIS 200, CCIS 472.

CCIS 573: Introduction to Operating Systems.  
Study of basic operating system structures and designs, including process management, resource management and implementation. Prerequisites: CCIS 121, CCIS 473.

CCIS 574: Introduction to Database Systems.  
Study of basic concepts of data bases, query processing and other topics of interest. Prerequisites: CCIS 123, CCIS 474.

CCIS 575: Introduction to Artificial Intelligence.  
Introductory study of intelligent problem solving and search algorithms, inference systems, machine intelligence and knowledge organization. Prerequisite: CCIS 123.

CCIS 576: Programming Languages and Compilers.  
Overview of syntactic, semantic and pragmatic principles of programming. Parsing, translation and compiler construction. Prerequisites: CCIS 221, CCIS 123.

CCIS 671: Algorithm Design and Analysis.  
Study of algorithm design and analysis techniques. Topics include designing algorithms for sorting, order statistics, set manipulation, graphs, fast Fourier transforms and mathematical manipulations. An introduction to NP completeness theory. Prerequisites: CCIS 471, CCIS 571.

CCIS 672: Computer Organization.  
Advanced study of logical organization of functional components of computers, including processors, control units and memory. Topics also include interconnection networks, memory hierarchies, array and pipeline machines. Prerequisites: CCIS 472, CCIS 572.

CCIS 673: Operating Systems Design.  
Advanced study of major issues in operating systems including resource management, concurrent programs and duality of operating systems. Prerequisite: CCIS 473, CCIS 573.

CCIS 674: Database Design.  
Advanced study of database design including data models, relational interfaces, relational database design, query optimization, crash recovery and concurrency control. Concepts are reinforced via design projects. Prerequisite: CCIS 474, CCIS 574.

CCIS 675: Artificial Intelligence.  
Advanced study of problem solving, theorem proving, knowledge representation, expert systems, learning and natural language processing. Prerequisite: CCIS 475, CCIS 575.

CCIS 676: Theory of Programming Languages Design.  
Study of features of modern programming languages and issues of modular, concurrent, functional, logic and object programming. Topics also include exception handling and software reuse. Prerequisite: CCIS 476, CCIS 576.

CCIS 681: Computability Theory.  
Introduction to computability theory including recursive function theory, Turing machines and self-modifying programs. Prerequisites: CCIS 1123, CCIS 471, CCIS 571.

Study of parallel algorithms and architecture. Topics include design and analysis of parallel algorithms for sorting, searching, graphs, mathematical manipulations and numerical problems. Prerequisites: CCIS 671 and CCIS 672.

CCIS 687: Intelligent Machines/Robotics.  
Cohesive study of intelligent machines involving computers, robots and sensor systems and experiments with robots and computers. Prerequisite: CCIS 675.

CCIS 689: Knowledge-Based Systems.  
Study of expert systems development and rule-based programming. Topics include knowledge representation, utilization and acquisition. Prerequisite: CCIS 675.
CCIS 691: Software Engineering. 3 credits
Study of the concept of software process as a framework for developing large software systems with emphasis on various management issues. Topics include alternative models for the software process. Prerequisite: CCIS 321 or graduate standing.

CCIS 701: Logic Circuit Design. 3 credits
Study of the design of switching and sequential circuits, including timing, structure, realization and modular logic design and related problems of physical design and modeling. Prerequisite: CCIS 121, CCIS 472, CCIS 572.

CCIS 702: VLSI Design. 3 credits
Study of VLSI systems design, emphasizing quantitative characterization, analysis and computer techniques. Prerequisite: CCIS 701.

CCIS 703: Microprocessor Design. 3 credits
Introductory study of the concept, design and operation of microprocessors. Topics include architecture, programming, comparative microprocessor evaluation, system design techniques and applications. Prerequisite: CCIS 472, CCIS 572, CCIS 701, CCIS 702.

CCIS 709: Signal Processing. 3 credits
Study of digital signal theory, including modulation, sampling, coding and filtering. Topics include the application of digital signal processing to communications, process control and voice and image recognition. Prerequisite: consent of the department.

CCIS 711: Image Processing. 3 credits
Study of image-processing fundamentals; major topics include digitization and processing of gray scale images, and image compression, enhancement, restoration and segmentation. Prerequisites: CCIS 709 and CMAT 321.

CCIS 725: Pattern Recognition. 3 credits
Introduction to theory and application of decision-theoretic and syntactic methods of pattern recognition. Topics include deterministic and statistical algorithms, cluster seeking and automatic learning of decision functions and grammars. Prerequisite: CMAT 321.

CCIS 800: Practical Training. 3 credits
Advanced practical training with government laboratories and industry via cooperative education and internship programs. To receive credit for this course, a student must register prior to undertaking the proposed work. Prerequisite: consent of the department.

CCIS 801: Topics in Computer Science. 3 credits
Advanced study of a topic of current interest in the department, leading to a publishable technical report. Note: May be repeated for credit. Prerequisite: consent of the department.

CCIS 803: Research/Design Project in Systems Software/Hardware. 3 credits
Prerequisites: CCIS 672 and 673.

CCIS 805: Research/Design Project in Data Base. 3 credits
Prerequisite: CCIS 674.

CCIS 807: Research/Design Project in Distributed Systems/Networking. 3 credits
Prerequisite: consent of instructor.

CCIS 809: Research/Design Project in Software Engineering. 3 credits
Prerequisite: CCIS 691.

CCIS 811: Research/Design Project in Artificial Intelligence. 3 credits
Prerequisite: CCIS 675.

CCIS 815: Research/Design Project in Information Systems. 3 credits
Prerequisite: CCIS 521.

CCIS 821: Thesis Research. 3 credits

MATHEMATICAL SCIENCES
McPheeters-Dennis Hall, Room 138
Telephone: 404-880-8272

The Department of Mathematical Sciences offers programs of study leading to the degrees: Bachelor of Arts in Mathematics, Bachelor of Science in Mathematics, Master of Science in Mathematics, Master of Science in Applied Mathematics, and Master of Science in Teaching Mathematics.

Applicants for graduate study at the first-year graduate level should have a background in mathematics that includes a course in modern algebra and at least one in introductory analysis beyond the calculus. Students without such background may be admitted, but they are required to take appropriate courses to remove deficiencies.

Students admitted to the graduate programs have available to them excellent computer facilities. They may also work with a faculty member of their choice in specialized areas available in the department.
DEGREE PROGRAMS

The current degree programs are:
- Master of Science (M.S.) in Mathematics
- Master of Science (M.S.) in Applied Mathematics
- Master of Science in Teaching Mathematics (MST)
- Ph.D. in System Science

ADMISSION REQUIREMENTS

The department considers an applicant if he/she:

1. Has at least a baccalaureate degree or its equivalent from an accredited college or university and is adequately prepared for advanced study;

2. Has completed at least twenty-one (21) semester hours above the sophomore level in the area of pursuit;

3. Has submitted the results of the general and advanced sections of the Graduate Record Examination and three letters of recommendation by professionals, two of whom are related to the area to be pursued;

4. Has satisfied any additional requirements listed by the School of Arts and Sciences and the University.

PROGRAMS OF STUDY

Curricula are planned to provide educational opportunities to students matriculating with varying levels of preparation. Thus, courses are organized into several levels: accelerated pregraduate, beginning graduate, core and advanced.

Beginning graduate courses provide regular graduate students with the requisite background to pursue core and advanced courses. However, each such course carries full graduate credit and may be waived if there is verified evidence of sufficient knowledge of its contents.

Degree programs require completion of specified core and advanced courses. While core courses provide standard training, the advanced courses provide specialized training via research or the choice of a concentration.

REQUIREMENTS FOR THE M.S. DEGREE

M.S. degree programs require completion of a research tool and thirty (30) semester hours of course work. In addition, any requirements listed by the School of Arts and Sciences and the University must also be satisfied.

1. Research Tool
   This requirement can be met by completing an approved course or examination in a foreign language or computer programming

2. Course Work
   This requirement consists of a minimum of thirty (30) semester hours of graduate level courses, which include all core and certain specified advanced courses. Normally, students must complete each beginning graduate course (unless waived) before taking a core or advanced course.

Students who wish to write a thesis as part of their graduate program are required to take twenty-four (24) semester hours of course work and complete a thesis for six (6) additional hours.

The core requirements are:

**Master of Science in Mathematics**

</tbody>
</table>

A minimum of twenty-four (24) hours of course work must be in mathematics, and a maximum of six (6) may be earned by writing a master’s thesis. Only students with superior achievement and keen interest in a topic will be encouraged to write a thesis. A thesis is not required.

For information on the MST or Ph.D. degree in System Science consult the chair of the department. Advanced courses are selected in the area of interest of the student with departmental advisement.

COURSE DESCRIPTIONS

**CMAT 501: Calculus and Linear Algebra.**

3 credits

For nonmathematics students who are deficient in the tools of calculus and linear algebra.

**CMAT 521-522: Real Analysis I, II.**

6 credits

Theory of Lebesgue measure and integration, Banach and Hilbert spaces, product measure and product integration.
PHYSICS DEPARTMENT
McPheeters-Dennis Hall, Room 102
Telephone: 404-880-8797

The Department of Physics offers a Master of Science degree. Entering students have the opportunity to make up for any lack of specialized undergraduate preparation by enrolling in appropriate upper-level undergraduate courses offered by the department.

ADMISSION REQUIREMENTS

In addition to general requirements of the School of Arts and Sciences, candidates must fulfill the following prerequisites:

1. B.A. or B.S. degree, with a major in one (1) of the physical sciences from an accredited institution.

2. An overall academic grade point average of “B” or better.

3. Completion at the undergraduate level of the following courses: General Physics, Mechanics, Electricity and Magnetism, Optics, Modern Physics/Quantum Mechanics, Calculus (one year), and Differential Equations.

Programs of Study

The department offers two (2) distinct options leading to the Master of Science (M.S.) degree: one in pure physics and one in applied physics. Each requires a minimum of thirty (30) hours of course work.

The M.S. degree program in Pure Physics provides the basic course work and research skills necessary for persons who might pursue a Ph.D. degree in Physics. In addition to the basic core courses, students are required to take at least three (3) hours of electives approved by the chair of the department. Certain courses offered by the Departments of Chemistry and Mathematical Sciences may satisfy the elective requirement.

The M.S. degree program in Applied Physics equips individuals with tools and techniques necessary for solving Applied Physical problems arising in business, government, and industry. In addition to the basic core courses, students are required to take at least nine (9) hours of electives from among the following selections: CPHY 550, CPHY 565, CPHY 570, and CPHY 605-606. Other courses may be selected from the offerings of the applied physics curriculum.

CMAT 523-524: Complex Variables I, II. 6 credits
Theory and applications of functions of a complex variable; topics include analytic functions, contour integration, harmonic functions, conformal mapping and analytic continuation.

CMAT 525-526: Algebra I, II. 6 credits
Abstract algebra covering the basic theory of groups, fields, rings and modules; advanced topics include Sylow theorems, Galois theory and category theory.

CMAT 527-528: Topology I, II. 6 credits
Study of topological concepts including metric and topological spaces, continuity, connectedness, completeness, compactness and product spaces.

CMAT 541-542: Principles of Applied Mathematics I, II. 6 credits
Study of various techniques of applied mathematics including Green’s functions, string vibration, integral and differential operators in Hilbert spaces, spectral analysis and Laplace transform.

CMAT 601-602: Probability Theory and Stochastic Processes I, II. 6 credits
Probability theory including central limit theorem and ergodic theory. Also included is study of stationary processes, independent increment processes and Gaussian processes.

CMAT 605: Partial Differential Equations. 3 credits
Study of techniques for solving partial differential equations, including distributions, Sobolev spaces and Hilbert space methods.

CMAT 607: Introduction to Numerical Methods. 3 credits
Study of numerical algorithms for the solution of algebraic, differential and integral equations including error analysis.

CMAT 608: Advanced Numerical Methods. 3 credits
Study of advanced techniques of numerical analysis including finite difference and finite element approximations for elliptic and parabolic equations. Also included are various functional analytic techniques.

CMAT 609: Introduction to Control Theory. 3 credits
Control theory including the calculus of variations, Hamilton-Jacobi theory and Pontryagin’s maximum principle; topics include stochastic control depending on interest.

CMAT 610: Foundations of Mathematics. 3 credits
Study of basic concepts and ideas in the philosophy and foundations of mathematical sciences, topics varying with the needs of students.

CMAT 675 – 676: Thesis Seminar I, II. 6 credits
Study of a research topic leading to the completion of a graduate thesis.
DEGREE REQUIREMENTS

Master of Science (Thesis)

In addition to the general requirements specified by the School of Arts and Sciences and the University, students will be required to fulfill the following:

1. Completion of at least twenty-one (21) hours of graduate level course work in Physics courses numbered CPHY 501-602. An additional six (6) hours of credit may be taken in research courses.
2. Completion of thesis and a final oral examination, focusing upon its contents.
3. Completion of a research tool.
   A reading knowledge of French or German; or proficiency in computer science, which cannot be used to satisfy the twenty-four (24) hour course requirements for the M.S. degree.

Master of Science (Non-Thesis)

In addition to the general requirements specified by the School of Arts and Sciences and the University, students will be required to fulfill the following:

1. Completion of at least twenty-four (24) hours of graduate-level course work in physics.
2. An additional nine (9) hours with a grade of “B” or better of graduate study beyond the required thirty (30) semester hours, and an exit exam. The additional courses must be approved by the department. Consult the department chair for specific requirements.
3. Completion of a research tool.
   A reading knowledge of French or German; or computer science, which cannot be used to satisfy the thirty (30)-hour course requirements for the M.S. degree.

Basic core courses for the Master of Science in Physics consist of the following: CPHY 501, CPHY 503, CPHY 515-516, CPHY 531-532, CPHY 601-602, and CPHY 603-604. Students are advised to take at least one (1) course in computer science.

COURSE DESCRIPTIONS

CPHY 501: Classical Mechanics. 3 credits
Dynamics of particles and rigid bodies; the Lagrangian and Hamiltonian formulation; Poisson brackets, Hamilton-Jacobi Theory, classical scattering theory, theory of small oscillation.

CPHY 503: Electrodynamics. 3 credits
Maxwell’s equations and applications; electrostatics, dielectrics, magnetostatics, scalar and vector potentials; conservation laws; multiple moments and multiple radiation; dispersion; special relativity.

CPHY 504: Modern Optics. 3 credits
Concepts of Modern Optics starting with Maxwell’s equations including topics such as reflection and refraction, wave propagation in anisotropic media, diffraction, interference, lasers, holography, and the theory of optical wave-guides. Prerequisite: CPHY 322 (Electromagnetic Theory).

CPHY 515-516: Quantum Mechanics I and II. 6 credits
Nonrelativisitic quantum mechanics; representation of dynamical variables as operators or matrices; theory of angular momentum; motion in a centrally symmetric field; perturbation theory; identical particles and spin; theory of classic collisions; semiclassical treatment of radiation.

CPHY 520: Thermodynamics and Statistical Mechanics. 3 credits
Review of first, second, and third laws; irreversible processes; microcanonical, canonical and grand canonical ensembles; the density matrix; Bose and Fermi systems. Kinetic theory and the Boltzmann transport equation.

CPHY 531-532: Mathematical Methods I and II. 6 credits
Vector analysis, orthogonal curvilinear coordinates; the calculus of variations; functions of a complex variable; ordinary and partial differential equations, hypergeometric functions; orthogonal functions; integral transform methods; Green’s functions and integral equations.

CPHY 540: Solid State Physics. 3 credits
Brillouin zone treatment of metals, semiconductors and insulators; approximation methods of determining properties of real solids; comparison between theory and experiment for selected solid state phenomena.

CPHY 545: Atomic and Nuclear Physics. 3 credits
Quantum theory of atomic and nuclear processes. Hartee-Fock approximation, fine and hyperfine structure, atomic collision; nucleon-nucleon potentials and scattering, shell and collective models, correlation in nuclear matter.

CPHY 550: Physics of Fluids. 3 credits
Basic processes in liquids, gases, magneto-fluids and plasmas; Navier-Stokes equation, non-Newtonian fluids, compressible and incompressible flow, shock structure, kinetic theory, classical transport, turbulence.
CPHY 565: Physics of Surfaces. 3 credits
Fundamentals of physical methods for studying the structures, composition, vibrational and electronic properties of solid surfaces, including the verification of principles in laboratory experiments.

CPHY 570: Radiation Physics. 3 credits
Radioactivity, interaction of electromagnetic radiation with matter, radiation quantities and units; x-rays, gamma rays, neutron activation, interaction of charged particles with matter, stopping power, range-energy relations, counting statistics shielding, dosimetry, waste disposal, critical prevention, radiation biology and ecology.

CPHY 585-586: Applied Quantum Mechanics I and II. 6 credits
Application of quantum mechanical principles to the solution of selected problems in atomic, molecular, nuclear and solid-state physics.

CPHY 601-602: Departmental Seminar. No credit
Required of all graduate students in the Department.

CPHY 603: Thesis or Non-Thesis Research. Variable credits
Designed to assist students in the development and writing of the thesis or the non-thesis research project.

CPHY 604: Thesis or Non-Thesis Research Project Consultation. 1 credit
Designed for students who are in the final stage of thesis writing or non-thesis research project writing, which requires minimal supervision and assistance.

CPHY 605: Optical Fiber Measurements I. 3 credits
Introduction to the hands-on experience needed to master the basic concepts and laboratory techniques of optical fiber technology; includes a wide range of applications in both optical communications and sensors, using both multimode and single-mode fibers.

CPHY 606: Modern Optical Measurements II. 3 credits
Continuation of Optical Fiber Measurements I with emphasis on more complex measurements and calibration on topics such as polarization-maintaining fibers, communication sources and detectors and communication systems.

CPHY 607: Advanced Optics. 3 credits
Surveys topics in advanced optics such as electromagnetic wave scattering and propagation in unperturbed, perturbed and nonlinear dielectric media. Prerequisite: CPHY 504 (Modern Optics).

CPHY 610: Philosophy of Science. 3 credits
Treatment of ontological, epistemological, and methodological presuppositions underlying physical theory and experiment; problems of demarcation, verification and evolution of scientific knowledge; social implications of scientific research.

CPHY 615: Special Topics in Physics. 3 credits
Special topics of current interest such as general relativity, quantum field theory, scattering theory, elementary particle theory, astrophysics, etc.

CPHY 620: Introduction to Atmospheric Sciences. 3 credits
Dynamics of atmospheric processes; spectroscopy of atomic and molecular species; photodynamics and photokinetics of photochemical processes; instrumental techniques, including infrared, atomic emissions, and atomic absorption.

SYSTEMS SCIENCE PH.D. DEGREE PROGRAM
(No new applications accepted effective Spring 2004. Courses in this program will be phased-out by May 2007.)
Thomas W. Cole, Jr. Research Center for Science and Technology Room 3037, Telephone: 404-880-6885

PROGRAM DESCRIPTION
The Systems Science doctoral degree program at Clark Atlanta is an interdisciplinary Ph.D. degree program with concentration options in computer science, engineering, mathematics, and physics. The doctoral dissertation must cut across at least two of these concentration options. The program is a significant step for increasing and retaining minorities in these fields, and will provide a vehicle for increasing graduate enrollment participation in science, mathematics, engineering and technology (SMET) at Clark Atlanta University (CAU). The thrusts and strengths in research of the current SMET programs are in the computational, theoretical and experimental research areas. Given the relatively large number of active, young, and dynamic researchers within the CAU SMET programs, the establishment of the Ph.D. degree program represents a national beacon, illuminating the road towards the attainment of advanced degrees in the mathematical and physical sciences, and engineering disciplines. This new program is part of the strategic priorities of CAU and would enhance significantly CAU’s national mission of offering advanced degree opportunities to underrepresented minorities in SMET.

The program is an interdisciplinary Ph.D. degree program built around traditional basic and applied research programs in the computational, engineering, mathematical, and physical sciences with an emphasis on exploring methods and perspectives developed in areas broader than those investigated by traditional science fields. The doctoral program combines two core intellectual elements: 1) computational sciences and 2) experimental sciences. Students work within an interdisciplinary cluster consisting of representatives from the basic and applied sciences,
although only one faculty member assumes full responsibility for the dissertation advisement. Other faculty advisors may come from the concentration of the student as well as across the disciplines of engineering, mathematics, physics and computer science. Where it is needed, advisors are pulled from other disciplines. Such a dissertation panel intensifies the development of a well-balanced perspective on the part of the student regarding the pursuit of basic research tempered by an understanding of its application. The program is in a unique position to attract many underrepresented minority students because CAU is the only HBCU in the metropolitan Atlanta area to have a graduate component to its computer science, engineering, mathematics, and physics programs. The diversity and flexibility of the research in theoretical, computational and experimental sciences carried out by departments involved in the Systems Science Ph.D. degree program help to produce new types of urban scientists and engineers trained to be proficient in the modeling of diverse practical problems. Such problems include the modeling of vehicular and pedestrian traffic analysis and the control, monitoring, and analysis of environmental pollution.

ADMISSION REQUIREMENTS

Students who enter the Systems Science Ph.D. degree program must meet the general requirements of the University and the School of Arts and Sciences. Students admitted must have a bachelor’s and/or master’s degree in the mathematical and natural sciences or engineering. In addition they should have broad-based experiences in computational, theoretical and/or experimental sciences. Applications to the program may be made through the academic departments involved or the program director. The Office of the Director in consultation with the academic departments and the Dean’s Office makes the admission decisions to the program.

LIST OF REQUIRED COURSES

Core Courses which all Systems Science Ph.D. degree candidates must take are:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CSYS: 701</td>
<td>Overview of Systems Sciences</td>
<td>4</td>
</tr>
<tr>
<td>CSYS: 702</td>
<td>Scientific Computing and Database Management</td>
<td>4</td>
</tr>
<tr>
<td>CSYS: 703</td>
<td>System Optimization</td>
<td>4</td>
</tr>
<tr>
<td>CSYS: 704</td>
<td>Statistical Methods and Design of Experiments</td>
<td>4</td>
</tr>
</tbody>
</table>

All Systems Science Ph.D. degree students must take at least 22 credit hours outside the department of concentration that includes the required core courses listed above.

To earn the Ph.D. degree in Systems Science, a student must take a minimum of 40 credit hours of graduate courses, including all the Systems Science core courses (16); two or more of the advanced departmental elective courses required for specialization in one of the major areas of concentration; at least one elective outside the department; and pass the qualifying examination for admission into candidacy. In addition, a minimum of 18 hours of dissertation research resulting from original research conducted under the supervision of the major advisor and the Dissertation Committee must be submitted and defended. Thus, together with the course work, a minimum of 58 credits is required for the Systems Science Ph.D. degree.

Additional courses may be required of a student at the discretion of the student’s dissertation committee. Students who enter the doctoral program with a Master of Science degree may have up to 21 hours of the doctoral degree core courses waived at the discretion of the Department. All students must complete a minimum of one (1) year as a supervised teaching assistant.

AVAILABLE RESOURCES FOR PROGRAM SUPPORT

Most of the resources required for the program are in place within the SMET-related departments in the School of Arts and Sciences under the Associate Dean for Science, Mathematics, Engineering and Computer Technology. The research centers in the Departments involved in the program have the necessary infrastructure to support the program.

CORE COURSE DESCRIPTIONS

CSYS 701: Overview of Systems Sciences. 4 credits
Qualitative and quantitative concepts of systems science; introduction to the analysis of large systems with applications; study of modeling and dynamics of systems; identification, and controllability, operational methods; and optimization.

CSYS 702: Scientific Computing and Database Management. 4 credits
Introduction to general scientific computing; numerical methods with applications; study of basic and advanced database concepts as they apply to object-oriented database systems.

CSYS 703: System Optimization. 4 credits
Advanced modeling with networks and graphs; linear and nonlinear programming with applications; integer programming; combinatorial optimization; and applications of perturbation methods.

CSYS 704: Statistical Methods and Design of Experiments. 4 credits
Distribution theory, estimation, data reduction and best estimation, tests of hypothesis, regression and analysis of variance, aspects of multivariate analysis, and statistical experimental design and analysis.

CCIS 507: Computer Graphics. 3 credits
Hardware and software organizations for graphics; special databases, multidimensional transformations and introduction to vector graphics. Prerequisites: CCIS 123 and 572.

CCIS 509: Information Systems Simulation and Modeling. 3 credits
Discrete even simulation using simulation tools. Topics include simulation of queuing and inventory systems and modeling of time-sharing and other systems. Prerequisite: consent of the department.

CCIS 511: Data Communications. 3 credits
Introduction to data communications techniques, data link control, multiplexing and communication networking. Prerequisite: CCIS 225.

CCIS 513: Local Area Networks. 3 credits
Study of design and analysis techniques for local area networks. Topics include polling, random access and ring networks and medium access control protocols. Prerequisites: CCIS 572 and CMAT 321.

CCIS 515: Computer Networks. 3 credits
Study of computer networks design and hardware/software considerations, including layered (OSI) and hierarchical (DOD) approaches. Prerequisites: CCIS 511, 472 and 473.

CCIS 517: Graph Theory and Algorithms. 3 credits
Introduction to graph theory and graph algorithms, including concepts in trees, circuits, connectedness, planarity, network flows, and assignment and transportation problems. Prerequisite: CCIS 471.

CCIS 523: Human-Computer Interface. 3 credits
Study of human factors involved in interaction with computers. Topics include terminal emulation, split-screen technology, menu-driven input, command-line processing and response-time considerations. Prerequisite: Consent of the department.

CCIS 527: Distributed Systems. 3 credits
Study of design, implementation and management of distributed systems, including protocol issues above the network layer of the ISO hierarchy, naming, security, reliability, resource sharing and remote execution. Prerequisite CCIS 515 and 473.
CCIS 671: Algorithm Design and Analysis.  3 credits
Study of algorithm design and analysis techniques. Topics include designing algorithms for sorting, order statistics, set manipulation, graphs, fast Fourier transforms and mathematical manipulations. An introduction to NP completeness theory. Prerequisite: CCIS 471.

CCIS 672: Computer Organization.  3 credits
Advanced study of logical organization of functional components of computers, including processors, control units and memory. Topics also include interconnection networks, memory hierarchies, array and pipeline machines. Prerequisite: CCIS 472.

CCIS 673: Operating Systems Design.  3 credits
Advanced study of major issues in operating systems including resource management, concurrent programs and duality of operating systems. Prerequisite: CCIS 473.

CCIS 674: Database Design.  3 credits
Advanced study of database design including data models, relational interfaces, relational database design, query optimization, crash recovery and concurrency control. Concepts are reinforced via design projects. Prerequisite: CCIS 474.

CCIS 675: Artificial Intelligence.  3 credits
Advanced study of problem solving, theorem proving, knowledge representation, expert systems, learning and natural language processing. Prerequisite: CCIS 475.

CCIS 676: Theory of Programming Languages Design.  3 credits
Study of features of modern programming languages and issues of modular, concurrent, functional, logic and object programming. Topics also include exception handling and software reuse. Prerequisite: CCIS 476.

CCIS 681: Computability Theory.  3 credits
Introduction to computability theory including recursive function theory, Turing machines and self-modifying programs. Prerequisites: CCIS 221 and 471.

CCIS 683: Algorithms for Parallel Computers.  3 credits
Study of parallel algorithms and architecture. Topics include design and analysis of parallel algorithms for sorting, searching, graphs, mathematical manipulations and numerical problems. Prerequisites: CCIS 671 and 672.

CCIS 687: Intelligent Machines/Robotics.  3 credits
Cohesive study of intelligent machines involving computers, robots and sensor systems and experiments with robots and computers. Prerequisite: CCIS 675.

CCIS 689: Knowledge-Based Systems.  3 credits
Study of expert systems development and rule-based programming. Topics include knowledge representation, utilization and acquisition. Prerequisite: CCIS 675.

CCIS 702: VLSI Design.  3 credits
Study of VLSI systems design, emphasizing quantitative characterization, analysis and computer techniques. Prerequisite: CCIS 701 or graduate standing.

CCIS 600: Ph.D.  18 credits

COURSE DESCRIPTIONS: ENGINEERING CONCENTRATION

CEGR 690: Experimental Methods.  3 credits
Experimental methods and techniques, uncertainty analysis, data acquisition from models. Presentation of experimental methodology and basic instrumentation used in science and its calibration and use, accuracy, error, and uncertainty in experimental measurements.

CEGR 691: Materials for Design.  3 credits
Properties, behavior, and selection of materials for practical design applications. Topics include the behavior of metals, ceramics, polymers, and composites. In this class, fundamentals of the design process are applied to analyze, design and/or select materials/components which are commonly used in the design of systems. Understanding and practicing how to design and use such materials/components for more complex design and system integration tasks.

CEGR 692: Teaching Practicum.  3 credits
Supervised teaching for doctoral students in science. Discussion of teaching techniques, course and curriculum design, and student evaluation methods and criteria. Students may, in some instances, prepare and present lectures under the supervision of a faculty member.

CEGR 630: Communication Systems.  3 credits
This course covers issues related to the design of tethered and wireless communication systems. These issues include the design of the transmitter and receiver, evaluation of the channel capacity, source and channel coding techniques and modulation techniques.

CEGR 631: Signal Processing.  3 credits
The course begins with a review of basic signal processing techniques such as convolutional filters, fast Fourier transforms and analysis of random signals. The course then focuses on applications such as signal detection, array processing, pattern recognition and speech processing. Advanced and emerging signal processing techniques such as spectral analysis, wavelets and hidden Markov models that support these applications will be discussed.
CEGR 632: Image Processing. 3 credits
This course begins with a discussion of multidimensional signal processing such as convolution and fast Fourier transforms. The course will then cover image processing applications such as enhancement, restoration, pattern analysis and compression. Applications using advanced techniques such as wavelets, super-resolution, neural networks and fuzzy logic will be discussed.

CEGR 633: Adaptive Systems. 3 credits
This course begins with a review of random stochastic processes. The second part of the course covers linear FIR adaptive filtering techniques such as the least mean square (LMS) algorithm, the method of least squares, subspace methods and recursive least-squares estimation. The final part of the course will touch on estimation theory and Kalman filtering.

CEGR 730: Control Systems. 3 credits
This course will cover the analysis and design of control systems. The course will begin with a review of Laplace and z-transforms and state-space equations. The rest of the course will investigate using feedback system responses, stability analysis, root locus behavior and frequency response analysis for control applications.

CEGR 731: Advanced VLSI Design. 3 credits
The course will provide an advanced treatment for the design, analysis and testing of VLSI systems. The course begins with a review of MOS, nMOS and CMOS gate technologies. The second part of the course will cover software tools to aid in development. Issues relating to circuit characterization, fan-out, optimization and clocking constraints will be discussed.

CEGR 733: Parallel System Design. 3 credits
This course covers the implementation of algorithms using either distributed memory or shared memory models. Examples of these models include the message passing interface (MPI) and OpenMP libraries. The design of specific parallel systems for different applications will be discussed. These applications include computational fluid dynamics, computational structural mechanics, computational chemistry and materials science and signal and image processing.

CEGR 734: Sensor Technology. 3 credits
The course will cover the characterization of the behavior of sensors and the interpretation of their responses. Sensors of interest include radar, infra-red, electro-optic and acoustical sensors. The first half of the course will survey the physics behind the operation of these devices. The second half of the course will focus on processing techniques to extract information from the sensors. Medical, remote sensing, robotic and military applications will be discussed.

CEGR 791: Computational Fluid Dynamics (CFD). 3 credits
In this course, the governing equations of fluid flow will be derived from conservation laws. Both, the compressible and incompressible fluids will be considered.

The Finite Difference (FD), Finite Volume (FV) and Finite Element (EM) methods will be introduced and applied to solve the governing equations. Emphasis will be given to the Finite Element Method (FEM). Students will be responsible for developing and applying various CFD tools to solve 3D real-world applications. Prerequisite: Differential Equations, Fluid Mechanics, and C or Fortran Programming language.

CEGR 732: Robotics. 3 credits
Aspects of robotics design and engineering including overview of robotic manipulators and intelligent systems design are covered. The kinematics, dynamics, and control of robots are considered. Topics covered include homogeneous transformations, forward and inverse kinematics, Lagrange’s equations of motion, Newton’s equations of motion, linear feedback control (PID controllers), and nonlinear controllers. Other topics include electronic realization of control elements and compensations, ideal and real PID, elements of digital control theory: sampling theorem, z-transform and digital filters. Review of computer interfacing, power amplifiers, sequential logic, encoders, and motor control is provided. The latter part of the course deals with the integration of robotic elements into a system through the use of simulation and modeling techniques.

CEGR 602: Finite Element Analysis. 3 credits
The fundamentals involved in conventional finite element method with applications in fluid flow, mass transport, solid mechanics and structures are covered. Topics include domain discretization, interpolation and shape functions, element derivation and types, element stiffness or property equations, assembly procedure, boundary conditions, solution methods for the algebraic equation system, applications in heat transfer, fluid flow, and stress analysis. The interpretation of results of finite element analysis and its visualization will be covered. Element type selection and validity of FEM models will also be covered. Students will write and test their own finite element code through individual subroutine construction.

CEGR 701: Modeling and Simulation. 3 credits
Modeling and analysis of deterministic and probabilistic systems, as well as discrete and distributed parameter systems, are covered. Topics include review of continuous (time driven) and discrete (event driven) system simulation methods, simulation languages and their design, man-machine interface considerations, object-oriented methods, visual data representations, front-end and back-end processors, and computer animation of simulation output. Linear graph theory is used to model the topology of 2-d and 3-d systems of rigid bodies connected by mechanical joints, springs, dampers, and actuators. Other topics include: review of kinematics, dynamics and graph theoretic (GT) methods; GT representation of two-dimensional components and systems; formulation and solution of governing system equations; extension to three-dimensional mechanical systems with flexible bodies and mechatronic components; application to kinematic and dynamic analysis of mechanisms, robotic manipulators, vehicles and satellites. Coverage includes complex nonlinear systems, systems with uncertainty and robust systems design issues.
CEGR 792: Systems Design Clinic. 3 credits
Course encompasses the theory, methods and mathematics of engineering systems design. Topics include systems modeling and analysis, graph theoretic models, state space formulations, time and frequency domain solutions, applications to engineering systems including coverage of theoretical constructs such as: transformers, transducers and amplifiers and nonlinear components from a variety of disciplines. Examples will include electro-mechanical, thermo-hydraulic, and mechanical-hydraulic systems. Course covers finite difference methods as they are applied to boundary value problems in solid mechanics, heat transfer analysis, solutions of systems of higher order differential equations, and structural and thermal analysis. Fundamentals of intelligent systems design using tools of computational intelligence and soft computing are covered. These include fuzzy logic, neural networks, genetic algorithms and other hybrid techniques such as neuro fuzzy systems and fuzzy-generated algorithms.

CEGR 610: Failure Theories of Engineering Systems. 3 credits
Several failure concepts and theories of failure are introduced. Analysis of failure of engineering systems and the characteristics of failure surfaces and failure modes are covered. Fracture, yielding, buckling; creep, low stiffness and failure due to durability issues of moisture and temperature are presented.

CEGR 620: Engineering Economics. 3 credits
Presentation of a clear concept of the economics principles and methods applied in engineering processes and operations. Emphasis is placed on economics in the process industries and design work. The various costs involved in industrial processes, capital investments and investment returns, cost estimation, cost accounting, optimum economic design methods, and other economics topics are covered qualitatively and quantitatively.

CEGR 670: Chemical Reaction Engineering. 3 credits
Advanced study of chemical kinetics and mechanisms in complex homogeneous and heterogeneous reaction systems. Design of chemical reactors for such systems. Examples drawn from different applications, including heterogeneous catalysis, polymerization, combustion, biochemical systems and materials processing.

CEGR 671: Chemical Engineering Thermodynamics & Fluid Properties. 3 credits

CEGR 770: Transport Phenomena and Applications. 3 credits
Advanced theory and applications of momentum, mass and energy transport. Unified treatment of heat transfer, mass transfer and fluid mechanics emphasizing scaling concepts in formulating models and analytical methods for obtaining solutions. Topics include conduction and diffusion, laminar flow regimes, convective heat and mass transfer, and simultaneous heat and mass transfer with chemical reaction and phase change.

CEGR 771: Advanced Materials Engineering. 3 credits
Advanced concepts in materials engineering and the application of these principles directed towards materials used in various engineering systems such as electronics, magnetic, electro-optic, chemical, nuclear, structural and thermal systems.

CEGR 750: Environmental Systems Engineering. 3 credits
Advanced environmental engineering issues associated with water, air and land pollution. Topics include air and water quality issues, hazardous wastes, risk assessment, groundwater contamination, global climate change, ozone depletion, acid deposition, and sustainable technologies.

CEGR 701: Departmental Seminar. 3 credits
Research seminars presented by students engaged in thesis work in the systems science program with concentration in engineering. Other speakers may include departmental faculty and invited guests.

CEGR 751. Structural System Stability. 3 credits
Stability problems in beams, columns, frames and arches designed with traditional and advanced composite materials. Cyclic buckling and impact strength. Stability design applications to buildings, bridges and offshore platforms.

CEGR 750. Intelligent Material Systems. 3 credits
Integration of microsensors and actuators into engineering systems for in-situ monitoring of structural integrity are introduced. The concepts of intelligent material systems are fully covered, and advantages and limitations of various smart materials are discussed. Applications include integrity monitoring of military and civil infrastructure.

CEGR 651. Transportation Systems. 3 credits
Transportation planning; highway traffic operations; intelligent transportation systems; transportation infrastructure management; environmental considerations during transportation planning.

COURSE DESCRIPTIONS – PHYSICS CONCENTRATION

CPHY 501: Classical Mechanics. 3 credits
Dynamics of particles and rigid bodies; the Lagrangian and Hamiltonian formulation; Poisson brackets, Hamilton-Jacobi Theory, classical scattering theory, and theory of small oscillation.
CMAT 643-644: Operations Research I and II. 3 credits
Techniques for analytical formulation of decision problems, including linear programming, convex programming, dynamic programming, queuing models, replacement models, and stochastic processes.

CPHY 515-516: Quantum Mechanics I and II. 6 credits
Nonrelativistic quantum mechanics; representation of dynamical variables as operators or matrices; theory of angular momentum; motion in a centrally symmetric field; perturbation theory; identical particles and spin; theory of classic collisions; semiclassical treatment of radiation.

CPHY 520: Thermodynamics and Statistical Mechanics. 3 credits
Reviews of first, second and third laws; irreversible processes; microcanonical, canonical and grand canonical ensembles; the density matrix; Bose and Fermi systems. Kinetic theory and the Boltzmann transport equation.

CPHY 531-532: Mathematical Methods I and II. 6 credits
Vector analysis, orthogonal curvilinear coordinates; the calculus of variations; functions of a complex variable; ordinary and partial differential equations hypergeometric functions; orthogonal functions; integral transform methods; Green's functions and integral equations.

CMAT 523: Complex Variable I. 3 credits
Theory and applications of functions of a complex variable; topics include analytic functions, contour integration, harmonic functions, conformal mapping, and analytic continuation.

CMAT 601: Probability Theory and Stochastic Processes I. 3 credits
Probability theory, including central limit theorem and ergodic theory. Also included is the study of stationary processes, independent increment processes, and Gaussian processes.

CMAT 607: Introduction to Numerical Methods. 3 credits
Study of numerical algorithms for the solution of algebraic, differential and integral equations, including error analysis.

CMAT 608: Advanced to Numerical Methods. 3 credits
Study of advanced techniques of numerical analysis, including finite difference and finite element approximations for elliptic and parabolic equations. Also included are various functional analytic techniques.
The Department of Sociology and Criminal Justice offers two graduate degrees: the Master of Arts in Sociology and the Master of Arts in Criminal Justice.

**Sociology Program**

**ADMISSION REQUIREMENTS**

The Department of Sociology admits applicants whose previous academic preparation in general education, humanities, social sciences, and natural sciences gives promise of completion of a course of studies leading to the Master of Arts degree.

**Degree Requirements**

In addition to the general requirements of Clark Atlanta University, a candidate for the degree of Master of Arts in Sociology must complete a minimum of twenty-seven (27) semester hours of course work, and a thesis (3-6 hours) included in the 27 hours are required core courses (18 hours):

- CSCJ 501 Classical Theories in Sociology and Criminology
- CSCJ 502 Contemporary Theories in Sociology and Criminology
- CSCJ 503 Research Methods I
- CSCJ 504 Research Methods II
- CSCJ 505 Statistics I
- CSCJ 603 Statistics II

A minimum of nine (9) hours of coursework from the following electives:

- CSCJ 520 Urban Society and Culture
- CSCJ 521 Population and Society
- CSCJ 531 Social Psychology
- CSCJ 547 Sociology of Development
- CSCJ 553 Criminology and the Criminal Justice System
- CSCJ 555 Medical Sociology
- CSCJ 559 Deviant Behavior
- CSCJ 562 Social Stratification
- CSCJ 563 The Family
- CSCJ 564 Gender Roles and Society

---

**DIVISION OF SOCIAL SCIENCES**

**SOCIOLOGY AND CRIMINAL JUSTICE ADMINISTRATION**

Oglethorpe Hall - Room 219
Telephone: 404-880-6659/404-880-8688

COURSE DESCRIPTIONS: MATHEMATICAL CONCENTRATION

**CMAT615/6: Nonlinear Optimization.** 3 credits
Analytical and numerical treatment of finite dimensional nonlinear programming; Computational aspects of constrained extremum problems; current developments.

**CMAT643: Operations Research.** 3 credits
Mathematical programming, gaming, complexity, polynomial algorithms: transportation and network problems, theory of inventory, application to engineering and finance problems, nondeterministic problems.

**CMAT 605: Partial Differential Equations.** 3 credits
First order equations and the method of characteristics. Classification of second order equations, Laplace’s equation, the heat and wave equations and their solutions.

**CMAT 607/608: Numerical Methods.** 3 credits
Approximation, quadrature, Newton’s method, roots of polynomials, finite difference methods for partial differential equations including elliptic, parabolic, and hyperbolic equations.

**CMAT609: Introduction to Control Theory.** 3 credits
The calculus of variations, Hamilton Jacobi Theory and the Pontryagin Maximum Principle, sufficiency theory.

**CMAT 621/2: Real Analysis.** 3 credits
Measure theory and Lebesgue integration, Banach spaces, linear operators, Hahn Banach Theorem, open mapping and closed graph theorems.

**CMAT 523/4: Complex Variables I, II.** 3 credits
Theory and applications of functions of a complex variable; topics include analytic functions, contour integration, harmonic functions, conformal mapping, and analytic continuation.

**CMAT 541/2: Applied Mathematics I, II.** 3 credits
Study of various techniques of applied mathematics, integral and differential operators, spectral methods, basic equations of mathematical physics, Poisson, heat and wave equations.

**CMAT 601/602: Probability and Stochastic Processes I & II.** 3 credits
Measure-theoretic probability, conditioning, notions of convergence, characteristic function, central limit theorem, Markov chain, ergodic theory, stationary processes, independent increment processes, Gaussian processes.
Passing of the reading examination in French, German, or Spanish; or passing a noncredit course in computer science (CMAT 503).

Completion of a thesis based upon a topic approved by the Department.

Completion of such written and/or oral examinations outside of course requirements as may be deemed appropriate by the faculty.

Criminal Justice Program

The Criminal Justice Program offers a two-year Master’s degree in the study of crime and the administration of criminal justice systems. Emphasis is placed on the development of professional skills required for positions of responsibility and leadership in criminal justice service. The Program offers a variety of courses with supervised field work for a well-balanced and comprehensive educational experience. The Program is tailored for preservice as well as in-service students.

ADMISSION REQUIREMENTS

Candidates seeking admission to the Program of Criminal Justice Administration must meet the general requirements of the University and of the School of Arts and Sciences. Students must have taken the Graduate Record Examination Aptitude Test and should have a broad-based background in the social and behavioral sciences. Applicants must have a grade point average of 3.0 in their area of specialization. The undergraduate major should include at least one course in criminal justice theory. At the discretion of the department chair, deficiencies in the above areas may be removed by other course work in the graduate program.

DEGREE REQUIREMENTS

1. The minimum requirements for the Master of Arts degree in Criminal Justice are thirty-six (36) semester hours with:

   The satisfactory completion of the following core courses consisting of twenty-seven (27) hours:
   
   CSCJ 501 Classical Theories in Sociology and Criminology
   CSCJ 502 Contemporary Theories in Sociology and Criminology
   CSCJ 503 Research Methods I

2. Passing a written comprehensive examination consisting of Criminal Justice Theory and Research Methods.

   A passing evaluation of this examination must be obtained within three (3) attempts. The student must have completed a minimum of twenty-seven (27) semester hours and have a cumulative grade point average of 3.00 before receiving eligibility to take the examination.

   NOTE: The following courses consisting of fifteen (15) semester hours must be among the twenty-seven (27) completed hours for examination eligibility:
   
   CSCJ 501: Classical Theories in Sociology and Criminology
   CSCJ 502: Contemporary Theories in Sociology and Criminology
   CSCJ 503: Research Methods I
   CSCJ 505: Statistics I
   CSCJ 518: Delinquency and Juvenile Justice System

Plan for Master of Arts in Criminal Justice

First Year

1st Semester (9 credit hours)

Completion of all conditional requirements – if applicable
CSCJ 501: Administration of Criminal Justice
CSCJ 504: Research Methods
CSCJ (Elective*)
COURSE DESCRIPTIONS

SCJ 500: Administration of Criminal Justice. 3 credits
The course examines the decision-making guidelines of police, juvenile justice, court and correctional agencies. Issues and problems in regard to the application of these guidelines are also reviewed.

SCJ 501: Classical Theories in Sociology and Criminology. 3 credits
The course covers classical contributions of August Comte, Herbert Spencer, Emile Durkheim, Karl Marx, and Max Weber among others, and examines classical, neoclassical, and psychological theories of crime.

SCJ 502: Contemporary Theories in Sociology and Criminology. 3 credits

SCJ 503: Research Methods I. 3 credits
Covers the general field of research methodology including an overview of the research techniques and procedures used in surveys, comparative studies, field studies, and experiments.

SCJ 504: Research Methods II. 3 credits
Covers sociological application of specific research methods: conceptualization, designing, measurement, construction of scales, testing for validity and reliability of responses, and other measures. (Prerequisites: SCJ 503)

SCJ 505: Statistics I. 3 credits
A survey of descriptive statistical methods and tools used to analyze data and to quantify the data into usable information; designed as a general review as well as an introductory course in social statistics.

SCJ 507: Law Enforcement Administration. 3 credits
Covers the role of law enforcement agencies, resource allocations, law enforcement policies, and its relation to the total criminal justice system.

SCJ 516: Judicial Process: Court Systems. 3 credits
An overview and analysis of the legal transactions involved in the accusation, arrest, adjudication, and disposition of criminal offenders.

SCJ 517: Correctional Systems. 3 credits
A study and analysis of correctional institutions, including historical development, trends, alternatives and changes in the field of corrections.
SCJ 518: Delinquency and Juvenile Justice System. 3 credits
A study of analysis of the nature, extent, patterns and causes of juvenile delinquency; and the accusation, arrest, adjudication, and disposition of juvenile offenders.

SCJ 519: Practicum. 3 credits
A planned, supervised program of research, observations, study and work in selected criminal justice and other social agencies.

SCJ 520: Urban Society and Culture. 3 credits
Examines the relationships among environmental justice, violence, and environmental crime in cities. Case studies will be used to describe, explain, and analyze the impact of these relationships on urban life. Connections between city and culture provide the base for discussions on the social and cultural environment.

SCJ 521: Population and Society. 3 credits
Introduction to the study of population and its interactions with other aspects of society. Examines demographics, resources and environment, population trends, family structure and the status of women, and the future of population growth.

SCJ 526: Selected Topics Seminar in Sociology & Criminal Justice. 3 credits
Discussion of major topics in the administration of justice, including protests in contemporary society, theories of prejudice and discrimination, social justice in a planned society, police corruption, police labor management problems, and prison survival.

SCJ 531: Social Psychology. 3 credits
Examination of data, theory, and methodology currently utilized in a focus on the systematic study of the nature and causes of human social behavior.

SCJ 547: Sociology of Development. 3 credits
Historical and theoretical perspectives on development and underdevelopment, the global economic order and the challenge for today's underdeveloped countries; technology, agriculture and industry, education, public administration, role of women, and population growth.

SCJ 553: Criminology and the Criminal Justice System. 3 credits
Presentation of current data, theory, methodology, and practice relevant to study of criminal behavior and administration of justice.

SCJ 555: Medical Sociology I: Health, Illness and Intervention Systems. 3 credits
Examines health, illness, intervention systems and the contributions of social and behavioral sciences to understanding these systems. Also examines issues of disease and ethnicity, health disparities, social demography of health, epidemiology, alternative medicine, health care deliver, and international health among other topics.

SCJ 557: Medical Sociology II: Aging and Dying. 3 credits
Seminar focused on contributions of social and behavioral science studies of aging and dying. (SCJ 555 is NOT a prerequisite for this course.)

SCJ 559: Deviant Behavior. 3 credits
Attention to studies of mental disorder, addictive disorders, crime and delinquency, and other social anomalies in contemporary society.

SCJ 562: Social Stratification. 3 credits
Presentation of data, theory, and methodology of social mobility and internal division of societies based on race, class, gender, and age.

SCJ 563: The Family. 3 credits
A review of the American family; its heritage, contemporary forms, functions, challenges, and future projections.

SCJ 564: Comparative Gender Roles. 3 credits
A review of the significance of gender in social stratification, particularly as an intersection with race/ethnicity and class.

SCJ 565: Sociology of Education. 3 credits
Presentation of data, theory, and methodology of systems in education; includes analyses of formal and informal systems of learning throughout the lifespan.

SCJ 571: International Criminality, National Security & Terrorism. 3 credits
A study of the various forms of international crime with an emphasis on terrorism, focuses on the policies and methods used by governments to protect their national interests.

SCJ 575: Cultural and Social Anthropology. 3 credits
Presentation of data, theory, and methodology on human diversity and the role of anthropology. Focus on social institutions across the world including family, education, religion, and the economic/political sector. Also examines language, kinship, gender, ethnic conflict, and global relations in the context of culture, socialization, and social organization.

SCJ 579: Cultural and Ethnic Relations. 3 credits
Presentation of data, theory, and methodology in the study of relations between groups which differ in race/ethnicity and/or culture as seen in international as well as domestic perspective.

SCJ 580: Environmental Racism. 3 credits
Examines the impact of institutional racism and health polices, industrial practices, governmental regulation and rule-making, enforcement, and overall quality of life in communities of people of color. Also examines the nexus between environmental protection and civil rights, the impact of the environmental justice
DEPARTMENT OF POLITICAL SCIENCE  
Knowles Hall, Third Floor  
Telephone/Fax: 404-880-8718/8717

Department Purpose

The purpose of the Department of Political Science is to provide a program of graduate study for students who wish to become professional political scientists. The graduate curriculum begins with facts and knowledge of the political experiences of black people in the U.S. and expands out to the world in search of a universal understanding of global political experiences. The contradictions of the U.S. and other political-economic systems are analyzed from an interdisciplinary perspective that promotes deepened theoretical understanding and a search for alternatives, which will produce desired social changes. At the graduate level, special attention and focus are directed to the less developed and the commonalities of the plight of oppressed people therein. The department seeks to carry out its program through a pattern of human relationships, which stress openness, honesty, and a cooperative spirit.

Admission Requirements

The Graduate Program in Political Science leads to the degrees of Master of Arts and Doctor of Philosophy. Students beginning graduate work in the department should have completed an undergraduate major in political science—approximately twenty-four (24) hours—with an overall “B” average. Consideration may be given to other applicants whose academic preparation in related social sciences suggests that they are capable of successfully pursuing the Master of Arts degree in Political Science.

The above are minimal requirements for consideration for admission and the fulfillment of these requirements does not, alone, assure admission.

Requirements for the Master of Arts Degree in Political Science

For the Master of Arts degree, the department requires that students complete a minimum of twenty-four (24) graduate hours of course work and a thesis. An additional six (6) graduate hours are given upon completion of a Master’s thesis. An oral examination covering the thesis and courses taken by the student is the final degree requirement. Two (2) courses, Blacks and the American Political System and Scope and Methods of Political Inquiry, are required of all students pursuing the Master of Arts degree in Political Science. Both courses must be completed with a grade of “B” or better, prior to approval and acceptance of a student’s proposal to form an M.A. Thesis Committee. Students who earn a grade of “C” or below in either of these required courses must arrange to retake them at their very earliest convenience.
Preliminary Examination

This comprehensive examination must be passed prior to admission to candidacy. Students must complete a set of four (4) written comprehensive examinations in subfields of their choice, and a formal oral examination based upon the responses submitted during the written examinations. The seven political science subfields from which students may select their area specializations include:

- African Politics
- Comparative Politics
- International Politics
- Public Administration
- Theory and Methodology
- U.S. Government and Politics, and
- Urban Politics

Students are permitted two (2) attempts at passing their preliminary examination. Failure to pass the exam will result in dismissal from the Ph.D. Degree Program.

Dissertation

All candidates for the Ph.D. degree must complete a scholarly analysis and presentation of a significant political research problem. As a preliminary phase of this process, each student must fully constitute a dissertation committee, and submit and orally defend a dissertation prospectus that outlines the methodological procedures and theoretical framework that will be employed in completing the research related to the chosen problem. All drafts submitted for review must adhere to the guidelines and standards for format and style set forth and adopted by the Department of Political Science, the School of Arts and Sciences, and the Office of Graduate Studies.

Final Examination

The final examination for Ph.D. degree candidates entails an oral defense of the dissertation. Members of the candidate’s formal dissertation committee, as well as the chair of the department and interested faculty and students are invited to attend this oral defense.

POLITICAL SCIENCE CURRICULUM

The political science curriculum is organized around the political experience of black people in America and throughout the world. Listed below are course descriptions for graduate-level offerings in the Department arranged by subfields.
CPSC 500: Departmental Seminar. Noncredits
A weekly meeting of all members of the Department set aside for exchange of ideas among the participants; guest lecturers are frequently invited. Required of all majors.

AFRICAN POLITICS

CPSC 572: International Relations of African States. 3 credits
Examination of relations among African states and their role in Third World and International politics.

CPSC 590: African Political Institutions. 3 credits
Comparative study of central, regional and local institutions of government and administration in contemporary Africa. Prerequisite: CPSC 591.

CPSC 591: Government and Politics of Modern Africa. 3 credits
Contemporary government and politics of the states of Africa, providing exposure to African political culture and its historical background, and to political trends and ideologies.

CPSC 595: Seminar in African Politics. 3 credits
In-depth study of one or more important issues in contemporary African political analysis, with either a one-country focus or a comparative perspective; topics vary from semester to semester. Prerequisites: CPSC 591 and consent of instructor; may be taken twice for academic credit.

CPSC 596: Politics in Southern Africa. 3 credits
Analysis of the struggle of black people of Southern Africa against imperialism and settler colonialism and for liberation; examination of the South African state’s internal and external strategies of apartheid maintenance together with relations of the neighboring black states with the white minority rulers and the liberation movements. Prerequisites: CPSC 591, or consent of instructor.

CPSC 598: African Political Economy. 3 credits
Analysis of the social basis and the orientation of the politics and administration of economic and social change in postcolonial Africa, with emphasis on the ideologies of socialism and the realities of neocolonialism, dependence, and capitalist development. Prerequisite: CPSC 591.

COMPARATIVE POLITICS

CPSC 529: Comparative Political Systems. 3 credits
Survey of political structures, institutions, ideologies, interest groups and governmental systems; analysis of decision-making processes, political conflicts and change, and group interaction; examination of models of political systems.

CPSC 530: Government and Politics of Latin America. 3 credits
Examination of Latin American political institutions and political forces, with special attention to role of the military and the church and the legacy of European and U.S. exploitation.

CPSC 531: Politics in Developing States. 3 credits
Examination of political processes in developing countries; problems arising in transition from traditional societies to modern industrial states examined to describe typical patterns of political change.

CPSC 532: Political Institutions of China. 3 credits
Examination of contemporary politics in the People’s Republic of China pre-1949 political history, socialist goals and Chinese society, structure and function of political institutions and organizations.

CPSC 534: Comparative European Government. 3 credits
Cross-national analysis of political institutions and political behavior in Eastern and Western European nations.

CPSC 535: The Politics of Revolutionary Change. 3 credits
Analysis of ideas which generate fundamental change, leadership and movements which organize change and examination of their successes and/or failures.

CPSC 536: Comparative Political Parties. 3 credits
Examination of selected party systems, including single and multiparty systems, Marxist and non-Marxist systems, and systems in industrial and nonindustrial states.

CPSC 537: Government and Politics of the Caribbean. 3 credits
Examination of political processes in Caribbean states with special emphasis on political problems arising in transition from colonial status to independence.

CPSC 538: Seminar on Asian Politics. 3 credits
Survey of political processes within and interrelationships between major nations of Asia; focus on China, India, and Japan.

CPSC 539: Third-World Women and Development. 3 credits
History, status and role of Third-World women in development, governmental policies and practices toward women as well as movements and activities of Third-World women examined.
CPSC 540: The Politics of the Multinational Corporation. 3 credits
Study of impact of MNCs on the international system and national politics and economics, particularly in the Third-World; special emphasis on the issues of development, dependency, sovereignty and control.

CPSC 541: Politics and Education. 3 credits
Examination of role of education in creation and maintenance of a political culture and role of politics in the creation and philosophy of education structures; the relationship between political education and political participation.

CPSC 542: Seminar on Comparative Politics. 3 credits
Designed for advanced students concentrating in Comparative Politics; focus on readings and research on selected topics and problems in comparative politics.

INTERNATIONAL POLITICS

CPSC 533: Chinese Foreign Policy. 3 credits
Analysis of Chinese capabilities, intentions and strategies in world affairs since 1949; examination of institutions in foreign policy making and implementation; use of instruments of foreign policy in achieving Chinese goals.

CPSC 570: International Relations. 3 credits
Analysis of interlocking factors of geography, population, race, nationalism, and economics as fundamental forces in national power; study of diplomatic, ideological, imperialistic and military rivalries in the contest for world power.

CPSC 571: Japanese Politics and Foreign Policy. 3 credits
Survey of contemporary Japanese politics, government and foreign relations; focus on post-World War II period.

CPSC 573: United States Foreign Policy. 3 credits
Analysis of formation and execution of foreign policy; focus on role of domestic forces and governmental institutions in policy making and contrasting interpretations of U.S. foreign relations.

CPSC 574: Third-World Nations and International Politics. 3 credits
Role of policies, actions and techniques of Third-World nations in the international area analyzed for trends and continuities.

CPSC 575: European Foreign Policies. 3 credits
Analysis of foreign policies of nations of Eastern and Western Europe with special attention to past and present colonial policies toward Third World nations.

CPSC 576: Military Power in International Relations. 3 credits
Military power as a technique to achieve goals in the international arena; special attention to contemporary warfare and wars of liberation.

CPSC 577: International Organizations. 3 credits
General development of world organizations; principles, structures, methods, and operation of international governmental institutions; special attention to the United Nations and related agencies.

CPSC 578: Colloquium on International Politics of Asia. 3 credits
Analysis of Asian politics, comparative foreign policies, and international relations; focus on foreign relations of indigenous nations and role played by great powers.

CPSC 579: Politics of International Trade. 3 credits
Identification and analysis of the political forces, which influence commerce among nations; special attention to trade relations between industrial and non-industrial nations.

THEORY AND METHODOLOGY

CPSC 543: Political Theory. 3 credits
In-depth analysis of major schools of thought in the field of political theory from the classical period to the present.

CPSC 560: African-American Political Thought. 3 credits
Analysis of categories of black political thought; emphasis on meaning of theory related to black political thinking.

CPSC 569: African Political Ideas. 3 credits
Survey course and resource mechanism designed to (1) identify political thinkers on the African continent and research their ideas, and (2) analyze works of major continental political thinkers of the contemporary era.

CPSC 571: European Foreign Policies. 3 credits
Analysis of foreign policies of nations of Eastern and Western Europe with special attention to past and present colonial policies toward Third World nations.
CPSC 506: Black Political Parties.  3 credits
The rise and development of separate black political entities examined historically and contemporarily; attention is focused on types of black parties and the rationale for their organization and development.

CPSC 507: Politics of Rural United States.  3 credits
Analysis of political trends and movements in rural America.

CPSC 508: Seminar in Southern Politics.  3 credits
Examination of Southern politics in state, nation, and the international arena; the approach is systematic and comprehensive, with focus on blacks in the region.

CPSC 509: The United States Presidency.  3 credits
Analysis of the powers and organization of the U.S. presidency, with attention to power-gathering, domination of the legislative branch, and manipulation of the people.

CPSC 510: The Congressional Process.  3 credits
Analysis of the U.S. Congress, especially the internal structure, power uses, pressure politics, executive relations, constituency relations and intra-Congress conflicts.

CPSC 511: American Federalism.  3 credits
Survey of the origins, institutions and operation of federalism in the United States; the nature of this structure and its consequences are examined in relationship to minorities.

CPSC 513: American Political Process.  3 credits
Survey of ideas, personalities and relevant ideologies that have evolved out of American political culture and practice.

U.S. GOVERNMENT AND POLITICS

CPSC 502: Government and Business.  3 credits
Critical analysis of the relationship between group pressures on government and public policy affecting business; role of administration in formation of policy problems, and experiences of federal agencies operating in business fields.

CPSC 503: Public Opinion and Propaganda.  3 credits
A study to identify and explain public opinion; to describe how and why people react in social situations, and to consider the role of public opinion and propaganda in contemporary society.

CPSC 504: Techniques of Political Control.  3 credits
Examination of the tools used by power holders to control society, with special attention to the condition of African-Americans in the United States.

CPSC 505: Political Parties.  3 credits
Explores the types, the nature and the different structures of political parties in America and abroad; theories about political parties are also explored.
CPSC 517: Women in Politics Seminar. 3 credits
Survey of the role of women as political activists and office holders on the international, national and local levels, with emphasis on the participation of minority women in U.S. politics.

CPSC 548: U.S. Constitutional Law. 3 credits
Study of the law of the United States Constitution through an analysis of lower federal court cases, Supreme Court cases, and other primary and secondary material.

CPSC 550: The Judicial Process. 3 credits
Introduction to the function of the judicial process in the U.S. political system, with special attention to the politics of the judicial process.

CCPSC 551: The Constitution and Civil Liberties. 3 credits
Study of the judicial protection of rights and liberties under the Bill of Rights, and the Thirteenth, Fourteenth and Fifteenth Amendments.

CPSC 552: Seminar in U.S. Government and Politics. 3 credits
Explores contemporary issues and problems in American government and politics.

CPSC 553: Blacks and the American Political System. 3 credits
Assessment of the position of blacks in the political system of the United States, with special attention to alternative political strategies for the present political epoch.

CPSC 554: State and Local Politics. 3 credits
Examination of state and local political institutions; tools of political participation thoroughly analyzed; entrance of blacks into state and local politics assessed.

URBAN POLITICS

CPSC 512: Black City Politics. 3 credits
Comparative assessment of the impact of the ascendancy of black elected officials in specified American cities; analyses of the mechanics which brought blacks to power, problems blacks experience in exercising power, and impact of black leadership on the delivery and quality of city services.

CPSC 518: Seminar in Urban Problems. 3 credits
A rotating topic seminar involving in-depth exploration of problems common to major urban centers; topic will be announced each semester.

CPSC 519: Urban Politics. 3 credits
Survey of dilemmas, limitations and potentialities of urban political activity in America exposes students to various approaches to the study of urban politics and assessment of impact of blacks upon political activity of contemporary urban centers.

CPSC 520: Politics of Public Finance. 3 credits
Basic concepts and modes of government financing, especially those of local government, with attention to implications for units of government under black political authority.

CPSC 522: Urban Political Movements. 3 credits
Examination of political organizations seeking to create basic changes in public policy of various urban centers and review of goals, strategies and methods of these organizations and their impact upon the urban landscape.

CPSC 523: Atlanta City Politics. 3 credits
Survey of the political system in Atlanta with focus on resources, strategies and tactics of black and white actors in shaping Atlanta’s politics, programs and developing political institutions.

CPSC 525: Political Demography and Urban Change. 3 credits
Analysis of impact of population shifts and other demographic factors upon urban change; special emphasis upon black migration patterns and resulting public policy.

CPSC 526: Approaches to the Study of Urban Politics. 3 credits
Examination and critique of various conceptual schemes as tools for analyzing urban political development and review of major theoretical works purporting to explain urban political phenomena.

CPSC 640: Independent Research. 3 credits
Designed to give students opportunity for advanced research in such fields and on such topics as may be agreed upon between the individual and the instructor. Students are permitted to take only one (1) Independent Research.

CPSC 701: Thesis Consultation. 1 credit

CPSC 705: M.A. Thesis Research. 3 credits

CPSC 801: Dissertation Consultation. 1 credit

CPSC 805: Dissertation Research. 3 credits
COURSE DESCRIPTIONS

CPAD 501: Public Administration - Survey of the Field. 3 credits
Study of basic principles and practices of public administration in the U.S.; focuses on organizational issues, administrative processes, administrative ethics, decision-making and problem solving.

CPAD 502: Organization Theory and Bureaucratic Behavior. 3 credits
Emphasis on organizational dynamics in modern public organizations; classic and contemporary organizational theory; organizational linkages, human behavior in organizational settings.

CPAD 503: Research Methods. 3 credits
Traditional research techniques introduced; research design and preliminary analysis presented; also research ethics and methods of formal preparation and presentation of reports.

CPAD 504: Research Data Analysis. 3 credits
Provides an understanding of quantitative as well as qualitative techniques for analyzing research data on public programs and administrative problems. Explores the relevancy of quantitative and qualitative analysis to problems administrators face in public agencies. Students will learn to make appropriate use of applied research in decision-making and will utilize computer programming in support of statistical analyses.

CPAD 505/CECO 520: Economics for Public Administrators. 3 credits
Designed to provide public administrators with fundamental economics background necessary to understand and implement policy; topics include fiscal and monetary policy, government regulation of the private sector, the federal budget and local fiscal problems.

CPAD 506: Public Budgeting and Finance. 3 credits
Examination of public sector budgeting; special emphasis on federal budget practices and procedures; unified budgets; national income accounts; budget cycle; executive and legislative roles in the budget process.

CPAD 507: Formulation of Public Policy. 3 credits
Emphasizes the moral, ethical and competitive nature of policy formulation. Contemporary models of policy analysis explored; students required to analyze development of selected public laws from inception to enactment.

CPAD 508: Human Resource Management. 3 credits
Develops understanding of and competencies in strategic human resource policies, methods and techniques as organizational management functions.
CPAD 509: State and Local Government Finance. 3 credits
Detailed study of activities and approaches to public fiscal management at state and local levels; examination of capital budgeting, debt management, cash flow, taxation and forecasting.

CPAD 510: Program Design, Implementation and Evaluation. 3 credits
Techniques for designing programs and implementing new programs within existing organizations are explored; methods of evaluation of program operations and achievement of primary and secondary objectives are introduced.

CPAD 511: Applied Urban Management. 3 credits
Application of management concepts to operations of urban units of governments; emphasis on performing management tasks and use of techniques for interacting with diverse interest groups in the urban setting.

CPAD 512: Internship. 3 credits
A minimum of twelve (12) weeks in an approved, supervised internship is required.

CPAD 513: Independent Study. 3 credits
Offered by special arrangement with faculty in areas approved by the Department.

CPAD 514: Public Management. 3 credits
Focuses on managerial practices in government at all levels. Cases are used to study public management.

CPAD 515: Comparative Administration. 3 credits
Cross-national examination of selected public bureaucracies, analysis of concepts, issues and problems of development administration in Third-World countries.

CPAD 516: Fundamentals of Social Policy. 3 credits
Focuses on the basics of social policy in the U.S. with discussions on the role of government and contributions of policy sciences to social policy development.

CPAD 517: Labor-Management Relations. 3 credits
History and current state of collective bargaining in the public sector explored; laws and practices affecting collective bargaining in the public sector are examined. Critical labor-management relations issues are analyzed in the context of workforce development and organizational effectiveness.

CPAD 518: Strategic Human Resource Planning. 3 credits
Emphasis is on depth analysis of human resource planning and development for organizational needs, planning tools, techniques and methods are presented; particular focus on succession planning and strategic human resource planning.

CPAD 519: Development Administration. 3 credits
Explores evolution of theories and principles of development administration from initial focus of institution-building in the 1960s to basic human needs approaches of the 1970s to current emphasis on capacity-building within the context of international development organizations.

CPAD 520: International Administration. 3 credits
Examines the proliferating number of governmental and nongovernmental organizations in the international system with emphasis on the United Nations organizations and United States Overseas programs. Issue areas such as personnel and staffing policies, as well as the role and impact of development administration and international organizations in today's interdependent global village are covered.

CPAD 521: Principles of Community and Economic Development. 3 credits
Introduction to national planning and decision-making process as well as methods and techniques frequently employed in developing plans, projects and programs to achieve community and economic development goals in urban areas.

CPAD 522: Development Finance. 3 credits
Focuses on the centrality of government-initiated financial/budgetary activities and instruments commonly used to finance infra-structural development; also examines existing problems of financial management practices and budget approaches to overall financial capacity of less developed countries.

CPAD 523: Seminar: Contemporary Problems in Urban Management. 3 credits
Current trends and new concepts in solving problems in managing the urban environment; alternative modes of service delivery are explored.

CPAD 524: Seminar: Public Policy Formulation and Analysis. 3 credits
Discussion and analysis of selected issues and policies; impact of selected policies a central focus.

CPAD 525: Seminar: Topics in International Administration and Development Management. 3 credits
Examines selected topics in international and development administration; emphasis on developing conceptual tools for analysis and resolution of problems relating to administration and management of societal changes and development.

CPAD 526: Seminar: Compensation Management. 3 credits
Concepts theories, developments and practical applications in the compensation management field are presented. Characteristics and design of compensation plans are evaluated based on their cost and effectiveness, as well as the return on the organizations’ investment.
CPAD 528: Seminar: Human Resources Management. 3 credits
Modern practices and techniques in management of human resources are presented for discussion and analysis. The expanded functions of human resource management are highlighted.

CPAD 529: Paper Research. 3 credits

CPAD 530: Paper Consultation. 1 credit

CPAD531: Seminar: Contemporary Problems in Community and Economic Development 3 credits
Focuses on a discussion of some of the major issues/policies in the field of community and economic development with an emphasis on identifying creative solutions. Innovative practices in various communities are highlighted as “models” for potential replication.

INTERNATIONAL AFFAIRS AND DEVELOPMENT
(No new applications accepted effective Spring 2004. Courses in this program will be phased-out by May 2007.)
Oglethorpe Hall, Room 321
Telephone: 404-880-6666 or 404-880-6674

History
Atlanta University and Clark College demonstrated historically a longstanding interest in international affairs, an interest that has been intensified since the consolidation of these two institutions to form Clark Atlanta University in 1988. Faculty from both previous institutions studied and worked abroad, and both institutions contributed to the advancement of developing nations through admitting international students into degree programs and through short-term training of personnel, particularly from Africa, Asia and Latin America. In 1983 Atlanta University created the Institute for International Affairs and Development (IIAD), supported by the Ford Foundation. The IIAD provided graduate-level courses in international affairs and coordinated and facilitated international research, training, and symposia. Subsequently, the IIAD was divided into a training and technical assistance office and a graduate academic program. The program is structured to address the profound changes that are occurring in the world, most notably the increasing economic interdependence and emergence of global problems requiring multilateral solutions. To succeed in this environment, students in international affairs must combine a broad interdisciplinary knowledge of international relations with regional familiarity, foreign language proficiency, and analytical and methodological sophistication. The DIAD also recognizes the importance of class and gender in the study of international affairs and encourages incorporating analyses of both in all areas of study.

MISSION

The mission of the Department of International Affairs and Development (DIAD) is to provide a professional education that adheres to the highest standards of scholarship and that is relevant to contemporary problems in international affairs. The primary purpose of the DIAD is to produce graduates, particularly those of African descent, who will be prepared to exercise leadership in international affairs and development in the public and private sectors, including international public service, business, banking, journalism, teaching, and research. Another purpose is to stimulate and enhance throughout the Atlanta University Center an awareness and knowledge of the importance of cross-cultural, international, and global affairs.

The Departmental academic program begins with a common interdisciplinary core curriculum dominated by the "diplomatic sciences" (International Politics, International Law and Organizations, Diplomatic History, and International Economics) and an emphasis on analytical policy planning and methodological skills, after which students choose topical (international economics and business, international development and social change, or international politics and diplomacy) or regional (Africa or the Caribbean) fields of concentration. The curriculum is structured to address the profound changes that are occurring in the world, most notably the increasing economic interdependence and emergence of global problems requiring multilateral solutions. To succeed in this environment, students in international affairs must combine a broad interdisciplinary knowledge of international relations with regional familiarity, foreign language proficiency, and analytical and methodological sophistication. The DIAD also recognizes the importance of class and gender in the study of international affairs and encourages incorporating analyses of both in all areas of study.

ADMISSION REQUIREMENTS FOR THE MASTER OF INTERNATIONAL AFFAIRS AND DEVELOPMENT DEGREE

Graduates from accredited colleges or universities with majors in the social sciences, the humanities, business administration, or other relevant fields are eligible for admission. Candidates must have a minimum undergraduate grade point average of 3.0 and should have a basic knowledge of economics and statistics and at least one year of French, Spanish, Arabic or another major international language at the college level. Students are admitted twice a year (Fall and Spring semesters).

CANDIDACY REQUIREMENTS FOR THE MASTER OF INTERNATIONAL AFFAIRS AND DEVELOPMENT DEGREE

Candidates for the Master’s degree must complete 48 credit hours, demonstrate competency in a major foreign language, and either defend a thesis or pass a comprehensive examination.
COURSE AND CREDIT HOUR REQUIREMENTS FOR THE MASTER'S DEGREE

Candidates for the Master's degree must complete satisfactorily 48 hours of course work (16 courses), or 42 credit hours (14 courses) if they elect to prepare a Master's thesis, for which 6 credit hours are given. In addition to taking the 24 credit hours (8 courses) required to complete the core curriculum, Master's degree students take at least 15 credit hours (5 courses) in their chosen field of concentration. Remaining credit hours may be in electives or cognate courses. The student must pass each of the courses in the core curriculum with a grade of “B” or better, and maintain a cumulative GPA of “B” (3.0) or better throughout the program.

CORE CURRICULUM AND FIELD OF CONCENTRATION FOR THE MASTER'S DEGREE

The core curriculum consists of 24 credit hours (8 courses). A student should pass the core courses before taking courses in a field of concentration. A full-time student would take 4 courses per semester, or 8 courses (the core curriculum) during the first year. After passing the core curriculum, each student in the Master's program selects one field of concentration. The DIAD offers four fields of concentration: (1) International Economics and Business; (2) International Development and Social Change; (3) International Politics and Diplomacy; and (4) Area Studies (focusing on Africa or the Caribbean).

LANGUAGE REQUIREMENTS FOR THE MASTER'S DEGREE

The foreign language requirement must be satisfied before a candidate for the Master's degree can defend the thesis or take the Master's comprehensive examination. Candidates are required to pass a written and oral examination in French, Spanish, Arabic, or (subject to the approval of the Chairperson) another major foreign language widely used in international communication. The written examination consists of a translation from the international language into English and a dictation in the international language. Students take the oral proficiency examination after the successful completion of the written examination. Students may take language courses in order to prepare for the language proficiency examination, but credits earned for such courses do not count towards the course hours required for graduation. The test of language competency is administered and evaluated by the Department of Foreign Languages.

MASTER'S THESIS OR MASTER'S COMPREHENSIVE EXAMINATION

Candidates for the Master's degree have the option of preparing and defending a thesis or passing a comprehensive examination. Students may elect to prepare a Master's thesis (worth 6 credit hours). An acceptable thesis consists of a scholarly presentation (written and oral) of a research project addressing a problem decided in consultation with the thesis advisor. Students who do not select the thesis option are required to pass a written examination on the core curriculum and on their chosen field of concentration prior to graduation.

ADMISSION REQUIREMENTS FOR THE DOCTORAL (PH.D.) DEGREE

Graduates with a Master's degree from accredited colleges or universities with majors in the social sciences, the humanities, business administration, or other relevant fields are eligible for admission. Candidates must have a minimum grade point average from their Master's program of 3.0 (“B” average) and should have a basic knowledge of economics and statistics and at least one year of French, Spanish, Arabic or another major international language at the college level. Students are admitted twice a year (Fall and Spring Semesters).

CANDIDACY REQUIREMENTS FOR THE PH.D. DEGREE

Candidates for the Doctoral degree must complete 72 credit hours, demonstrate competency in a major foreign language, pass a doctoral preliminary examination, and defend a dissertation.

COURSE REQUIREMENTS FOR THE PH.D. DEGREE

The Ph.D. program requires that a student complete successfully 72 credit hours of course work and dissertation. Candidates for the Ph.D. degree must complete satisfactorily 60 hours of course work (20 courses), inclusive of credit hours earned during the previous Master's program. In addition to taking the 24 credit hours (8 courses) required to complete the core curriculum, students in the Ph.D. program take at least 30 credit hours (10 courses) in two chosen fields of concentration, with a minimum of 9 credits (3 courses) in each field. Remaining credit hours may be in electives or cognate courses. The student must pass each of the courses in the core curriculum with a grade of “B” or better, and maintain a cumulative GPA of “B” (3.0) or better throughout the program. Students will be credited with another 12 credit hours (for a total of 72) upon the successful completion and defense of the doctoral dissertation.

CORE CURRICULUM AND FIELD OF CONCENTRATION FOR THE PH.D. DEGREE

The core curriculum consists of 24 credit hours (8 courses). A student should pass the core courses before taking courses in fields of concentration. A fulltime student would take 4 courses per semester, or 8 courses (the core curriculum) during the first year. After passing the core curriculum, each student in the Ph.D. degree program selects two fields of concentration. The DIAD offers four fields of concentration: (1) International Economics and Business; (2) International
COURSE LOAD REQUIREMENTS

The full-time course load is twelve (12) graduate credits. No student may enroll in more than twelve (12) credits during any semester without the approval of the Chairperson. Students must earn a grade point average (GPA) of “B” or better in all courses to remain in good academic standing. A “C” grade in a graduate level course is not considered to be a passing grade.

FINANCIAL AID

The DIAD awards a small number of full- and partial-tuition fellowships to students enrolled in the program. Awards granted annually by the Department are made available on the basis of scholastic achievement, financial need, and potential for making a contribution to the field of International Affairs and Development. In addition, other financial assistance is available through Clark Atlanta University's Office of Student Financial Aid. Federal and State funds administered by this office generally are in the form of loans or work/study employment, and eligibility is based upon need. Students interested in applying for such financial assistance must submit an application form, income tax returns, a financial aid transcript, and a need analysis form (FAF). The deadline for submitting applications for financial aid is March 1.

Chinese Studies Program

In 1997, Clark Atlanta University launched a Chinese Studies Program, which is administered by the DIAD in cooperation with other departments in the School of Arts and Sciences. This Program offers a minor at the undergraduate level and a minor field of concentration at the graduate level. A graduate student seeking a minor field of concentration in Chinese Studies must seek approval from his or her Department. Courses in Chinese Studies offered by the School of Arts and Sciences may be taken by students in any school with the permission of their respective advisor and the relevant Dean or Department Chairperson.

Core Curriculum

Course Descriptions

CIAD 500: International Politics. 3 credits

Studies the origin, nature, and structure of the world system, as well as the interaction of states and nonstate actors in terms of conflict and cooperation within that system. Reviews theories of international politics developed to understand the dynamics of these interactions.
CIAD 503: Diplomatic History. 3 credits
Examines the political and diplomatic interactions among states in various regions of the world since the Congress of Vienna of 1815 until the end of World War II in 1945.

CIAD 504: Critical Issues in International Affairs and Development. 3 credits
Surveys the current international system with a focus on critical issues relating to international affairs and development. Topics include, but are not limited to, security, conflict, health, environment, communications and technology.

CIAD 505: International Law and Organization. 3 credits
Studies the general principles and practice of international law (law of Treaties, Diplomatic practice) and provides an overview of selected areas of international law, human rights law, environmental law, economic/trade law, and law of the seas. Also examines the origins, principles, theory, structure, and function of international organizations.

CIAD 506: International Perspectives on Gender, Race, and Class. 3 credits
Explores the issues of gender, race, and class across time and cultures. Concentrates on their intersection and the role of the state in exacerbating or alleviating inequities.

CIAD 514: Research Methods. 3 credits
Explores theories and methods of scientific research in the social sciences, incorporating statistical analysis, computer databases, and graphs. Topics covered include the development of problem identification, formulation of testable hypotheses, and use of empirical techniques.

CIAD 520: International Economics. 3 credits
Introduction to the theories of international trade using the theory of supply and demand. Topics include the theory of comparative advantage, the gains from trade and the impact of trade on income distribution.

CIAD 521: International Trade and Development. 3 credits
Examines relevant development theories/models, and tools for analyzing and gaining an understanding of development issues and trade strategies. Specific areas include the impact of fiscal and monetary policies on trade and development, trade and price policies on economic welfare, and international cartels on domestic and world prices.

INTERNATIONAL POLITICS AND DIPLOMACY

Course Descriptions

CIAD 601: Theories of International Relations. 3 credits
Studies the various theoretical approaches used to explain inter-state relations and the interaction between states and nonstate actors in the global system. Emphasis on balance of power, pluralism, game theories, and regime analysis.

CIAD 607: United States in World Affairs. 3 credits
Examines the role of the United States in international affairs from 1945 to the present, focusing on the cold war and its aftermath as well as American inter-state relations around the world.

CIAD 619: Turbulence in World Politics and Conflict Resolution. 3 credits
Studies the range of international tensions from prewar turbulence through low intensity conflicts to full scale war and the strategies aimed at the avoidance of or the peaceful settlement of disputes through the use of early warning, preventative diplomacy, good offices, mediation, arbitration, and the use of interpositionary forces.

CIAD 700: Multilateral Diplomacy. 3 credits
Studies the structure of selected multilateral organizations and the politics of negotiation and decision-making in the United Nations and other such institutions. Examines the role of regional and political groups in this process. Case studies will be used to demonstrate the parliamentary nature of multilateral diplomacy.

CIAD 701: Peacekeeping and Humanitarian Intervention. 3 credits
Examines the legal and political framework for the use of peacekeeping forces by the United Nations since 1945 using case studies. Focuses on the recent role of peacekeeping forces, peace making, and peace building for international affairs.

CIAD 702: Global Communications and Technology. 3 credits
Analyzes the impact of rapid technological change for international affairs with an emphasis on communications technology. Considers the repercussions for financial markets, commercial transactions, and also discusses innovations in other fields.

CIAD 703: International Environmental Policy. 3 credits
Studies the environmental impact of fossil fuels and the policies pursued by governments to reduce pollution. Discusses the role of nonstate actors in raising awareness on a range of environmental issues, from deforestation to global warming to the reduction in plant and animal species.

CIAD 704: Ethnicity and Political Conflict. 3 credits
Studies the rise of ethnic particularism, particularly in the post cold war period and the resulting internal and inter-state conflicts. Examines irredentist and secessionist movements such as have occurred in Somalia and Zaire, as well as the “ethnic cleansing” practices in Bosnia-Herzegovina.
CIAD 705: International Strategic Arms Limitation. 3 credits
Studies nuclear weapons and the effort to end nuclear proliferation, the development of strategic arms doctrines, as well as the power of the US and the former Soviet Union. The earlier debate over disarmament and arms control and the SALT treaty will be examined, as well as current efforts to stem the flow of arms and reduce military expenditures in developing countries.

CIAD 706: Science and Technology in International Affairs. 3 credits
Analyzes the impact of science and technology on the conduct of international affairs. Emphasis on telecommunications technology, the emergence of the electronic war and the implications of biotechnology on agricultural development.

CIAD 707: Human Rights and International Law. 3 credits
Surveys the functions and techniques of international human rights organizations, such as the relevant bodies in the United Nations, the Organization of American States and the European union, as well as standards setting activities. Examines civil, political, economic and social rights, as well as the rights of minorities and indigenous peoples.

CIAD 708: Ethics in International Politics. 3 credits
Examines the evolution of morality in international affairs with a special focus on such issues as behavior during military conflict, actions of intelligence agencies, corruption in international economic transactions and other issues of social justice.

CIAD 800: Advanced Seminar in International Politics and Diplomacy. 3 credits
Studies special topics in international politics and diplomacy. Permission of the instructor is required.

International Economics and Business

Course Descriptions

CIAD 622: International Trade Theory and Policy. 3 credits
Studies the theory of comparative advantage, the gains from trade, trade and income distribution, international factor mobility and the relationship between growth and trade.

CIAD 623: International Monetary Theory and Policy. 3 credits
Covers international monetary policy and its implications for macroeconomics. Investigates balance of payment adjustment mechanisms including fiscal and monetary exchange rate policy.

CIAD 624: Regional Economic Integration: Theory and Practice. 3 credits
Covers theories of integration and the emergence of regional trading blocs. Analyzes several cases of regional economic integration across the globe. Topics include: regional institutional arrangements; prospects for regional organizations; cross-border effects of national economics and political policies.

CIAD 709: International Financial Institutions. 3 credits
Covers international cooperation in the financial and monetary sphere a la Bretton Woods’ model. Analyzes the structure and functioning of international financial institutions, including the regional development banks.

CIAD 710: The Political Economy of North-South Relations. 3 credits
Covers theories of north-south political economic and trade relations. Includes the topics geopolitical trade patterns of the cold war, and the dynamic and fluid trade and development challenges of the post cold war era (WTO, UNCTAD, etc.).

CIAD 711: Multinational Corporations in the World Economy. 3 credits
Covers the emergence of multinational corporations and their expansion after World War II and their current impact on development and world trade. Studies the factors that create a favorable investment climate, as well as investment codes, export processing zones and free trade areas. Examines efforts to establish codes of conduct for multinational corporations.

CIAD 712: International Financial Transactions. 3 credits
Studies the international flow of capital, international payments mechanisms and the impact of stock markets. Discusses the implications of fluctuating exchange rates, currency speculation and swaps.

CIAD 801: Advanced Seminar in International Economics and Business. 3 credits
Studies special topics in international economics and business. Permission of the instructor is required.

International Development and Social Change

Course Descriptions

CIAD 641: Theories of Economic Development and Social Change. 3 credits
Explores theories about economic development, social change, modernization and dependency. These range from the classics (Marxism, Protestant ethic, and stages of growth) to modern theories.

CIAD 642: Gender Issues in Development. 3 credits
Studies the importance of gender, especially the contribution of women, to the development process. Analyzes constraints to the economic empowerment of women and strategies to include women more equitably in the development process.
CIAD 643: Financing International Development. 3 credits
Studies the methods (aid, trade and investment) of financing development with a special emphasis on the evolution of priorities and modalities of international development assistance policies. Examines the impact of conditionality and the use of debt swaps.

CIAD 714: Environment, Energy Resources and Sustainable Development. 3 credits
Explores the relationships among the environment, energy resources and development in developing countries. Reviews the evolution of international concern about environmental protection, the pollution resulting from both poverty and industrialization, the role of the International Commission on Environment and Development and the issues outlined in Agenda 21 of the UN Conference on Environment and Development.

CIAD 715: Rural Development. 3 credits
Analyzes rural communities, the quality of rural life, the intersectoral complexity of poverty and hunger, and the importance of improving food security in the Third World. Emphasizes the dynamism and contributions of rural men and women and the importance of local involvement in all phases of the development process.

CIAD 716: International Health and Population Policies. 3 credits
Studies the evolution of international health and population policies and the role of the World Health Organization and other institutional actors. Reviews programs for chronic and epidemic maladies.

CIAD 717: Democracy and Development. 3 credits
Studies the theoretical and empirical relationship between democracy and development and the evolution of recent democratization movements around the world.

CIAD 718: Education, Manpower Policies and Development. 3 credits
Explores the relationship between education policies, manpower development and economic growth. Examines issues such as technical and vocational education, mother tongue instruction and sectoral manpower development through a comparative analysis of education policies in developing countries.

CIAD 719: Refugees, Displaced Persons & International Migration. 3 credits
Analyzes the differences between forced and voluntary migration and the situation of refugees and other displaced persons. Reviews current debates about international immigration and immigration policies, and examines how humanitarian assistance is (and should be) provided to people in times of disaster.

CIAD 720: Humanitarian and Disaster Assistance. 3 credits
Explores the evolution of the international community’s response to disasters and humanitarian crises since World War II. Studies the mandates and functioning of the institutions involved, particularly, the International Red Cross, the United Nations Disaster Relief Organization (UNDRO) the UN machinery for coordinating relief operations, as well as the program of the United States Agency for International Development. Discusses questions concerning new norms of intervention following the humanitarian intervention in Somalia.

CIAD 721: United States Foreign Assistance Policies. 3 credits
Studies the evolution of foreign assistance policies and programs after 1945 with an emphasis on the role of the United States. Examines Congress, special interest groups, and others participating in the process. Compares U.S. programs with those of other nations as well as the United Nations system.

CIAD 722: United Nations Development System. 3 credits
Studies the evolution of the United Nations system programs of technical assistance from the Expanded Program of Technical Assistance (EPTA) through the creation of the United Nations Development Program (UNDP) and the changes in the tripartite system involving UNDP, the specialized agencies and recipient countries in the 1990s. Discusses the initial decision to accord capital investment functions to the Bretton Woods institutions and authorize only technical assistance activities for the UN system.

CIAD 723: Managing Development Programs. 3 credits
Studies the administration of development programs in donor and recipient countries. Reviews issues of coordination, efficiency and accountability, as well as the evolution of development priorities from the focus on major infrastructure in the late fifties, to basic human needs in the 70s, to the present emphasis on human development and capacity building.

CIAD 724: Project Planning, Management and Implementation. 3 credits
Studies the project cycle of problem identification, appraisal, design, implementation, monitoring, and evaluation. Examines case studies of projects.

CIAD 802: Advanced Seminar in Development and Social Change. 3 credits
Studies special topics in development and social change. Permission of the instructor is required.

Area Studies

A. Africa

Course Descriptions

CIAD 660: Peoples and Cultures of Africa. 3 credits
Studies the peoples and cultures of the African continent, early migration patterns, belief systems, lineage and descent systems, patterns of social interaction, traditional political systems, and literary and artistic expressions.
B. Caribbean

Course Descriptions

CIAD 680: Peoples and Cultures of the Caribbean. 3 credits
Studies the people and cultures of the islands in the Caribbean and the impact of the diverse colonial heritage of the Caribbean on belief systems, patterns of social interaction, literary and artistic expression and migration.

CIAD 681: Political Economy of the Caribbean. 3 credits
Examines the economic development of the Caribbean from slavery through the period of colonialism and mercantilism to the postindependence economies. Studies contemporary economic issues such as tourism, transportation and linkages with the European Union.

CIAD 682: Regional Integration in the Caribbean. 3 credits
Explores the various attempts to forge closer economic cooperation among Caribbean states. Studies the special ties among the Organization of Eastern Caribbean States (OECS) and the structure and functioning of the Caribbean Community (CARICOM).

CIAD 683: Conflict and Mediation in the Caribbean. 3 credits
Explores the various attempts to forge closer economic cooperation among Caribbean states. Studies the special ties among the Organization of Eastern Caribbean States (OECS) and the structure and functioning of the Caribbean Community (CARICOM).

CIAD 661: Africa in World Politics. 3 credits
Examines the role of African states in the global system. Assesses the impact of African states in multinational organizations such as the EU-ACP, the United Nations, Bretton Woods institutions and the GATT. Focuses on a select number of African issues that have had international implications, such as apartheid in South Africa, the Congo crisis of 1960, sahelian droughts, Unilateral declaration of independence in Southern Rhodesia and the humanitarian intervention in Somalia.

CIAD 662: Economic Development in Africa. 3 credits
Studies the challenges of economic development in Africa, the impact of colonial rule on the economies of African states, intra-African trade, investment in Africa and the development of the informal sector. The impact of debt and structural adjustment programs, as well as the emergence of regional economic cooperation, will also be examined.

CIAD 725: Conflict and Mediation in Africa. 3 credits
Studies the complex emergence of conflicts in Africa. Assesses the role of agents and agencies in mediation, military intervention and peacekeeping. Examines policies and prospects for enduring conflict management and mediation strategies in Africa.

CIAD 726: Regional Integration in Africa. 3 credits
Studies the evolution of integration efforts in Africa since Kwame Nkrumah’s call for a united Africa in the late fifties. Among the groups to be discussed are the Council of the Entente, East African Community, SADCC, South African Customs Union, Preferential Trade Area and ECOWAS.

CIAD 727: Modern African History. 3 credits
Examines the historical development in the diverse regions of Africa since the eighteenth century through the period of colonial rule to the beginning of the nationalist period after World War II.

CIAD 729: Francophone Africa. 3 credits
Studies French penetration and colonial policy and nationalist movements in former French territories. Examines the postindependence period and France’s evolving political, economic, and military relations with Francophone Africa.

CIAD 730: Lusophone Africa. 3 credits
Focuses on Luso-African history and politics before and after the liberation wars. Analyzes the realities of continuing internal conflicts, peace and mediation, and the emergent social and political governance processes in the region.

CIAD 803: Advanced Seminar in African Affairs. 3 credits
Examines special topics in African affairs. Permission of the instructor is required.
CIAD 736: Political Economy of the English-Speaking Caribbean. 3 credits
Explores the evolution of the economies of the English-speaking Caribbean from the slavery period to the contemporary ties of Caribbean States to the British Commonwealth and the European Union. Discusses the special role the English-speaking Caribbean played in African nationalist and pan-Africanist movements.

CIAD 737: Labor and Migration in the Caribbean. 3 credits
Examines the problems of labor, employment and migration in the Caribbean. Covers the political activism of labor unions and their role in the nationalist movement.

CIAD 738: History of the Caribbean. 3 credits
Covers the history of the Caribbean from 1942 to 1945. Examines the shifting territorial linkages with European countries resulting from continental wars, the period of slavery, slave rebellions and the involvement of the Caribbean islands in the two world wars.

CIAD 804: Advanced Seminar in Caribbean Affairs. 3 credits
Examines selected topics in Caribbean affairs. Permission of the instructor is required.

C. China

Course Descriptions

CIAD 439/539: Political Economy of the Pacific Rim. 3 credits
Studies the evolution of the economies of the countries of the Pacific Rim since 1945. Special focus on factors contributing to the phenomenal economic development in Japan, Taiwan, Singapore, South Korea, and Hong Kong.

CIAD 443/553: Political and Economic Development of Modern China. 3 credits
Studies the internal political and economic development and the foreign contacts of China from the nineteenth century, through the period of the Republic in 1911, and the revolution in 1949 to the present.

CIAD 452/552: Inter-State Relations in Asia. 3 credits
Examines the inter-state relations in the Asian political system during the twentieth century, taking into account the emergence of Japanese power, the end of colonial rule, as well as the impact of East-West tensions and the nonaligned movement on the region.

Other World Regions

Course Descriptions

CIAD 740: Japanese Politics and Foreign Policy. 3 credits
Studies the political development of Japan from 1868 to the present. Considers Japan’s emergence as a regional power and its rise to economic preeminence since 1970.

CIAD 741: Politics of the ASEAN States. 3 credits
Explores the political development and inter-state relations of the Association of Southern Asian Nations (ASEAN) countries since 1945, as well as their changing policy priorities from military security to sustained economic growth.

CIAD 742: Politics of South Asia Since 1945 - India, Pakistan and Bangladesh. 3 credits
Examines the emergence of the nationalist movement in India, the partition and the creation of Pakistan, as well as the subsequent emergence of Bangladesh as a separate nation. Discusses the political, social, and economic problems of independent India, Pakistan and Bangladesh, as well as the ongoing conflict over Kashmir.

CIAD 744: From the European Community to the European Union. 3 credits
Examines the evolution of European integration after World War II to the present. Discusses the intellectual and political contributions of Jean Monnet, the European Coal and Steel Community, the Rome Treaty and the emergence of the EEC and its transformation after Maastricht into the European Union. Examines the implications of the dissolution of the Soviet Empire in 1989 on the EEC.

CIAD 745: Human Rights in the Global System. 3 credits
Studies the legal, political and social dimensions of the modern human rights movement and its implications from international affairs. Case studies will illustrate contemporary debates over the hierarchy of rights, the linkage between individual rights and national interests and the role of non-governmental organizations working in the human rights field.

CIAD 746: East-West Relations Before and After the Cold War: 1945 - Present. 3 credits
Studies the end of cohesion of the allied powers after World War II, the emergence of the cold war, and the regional and global competition between the US and the Soviet Union through 1990. Case studies will illustrate the dynamics of east-west competition. Covers the close economic and political cooperation between the U.S. and the Soviet Union beginning in 1990.
CIAD 747: From the Soviet Union to the Community of Independent States. 3 credits
Covers the political development of the former Soviet Union from the 1917 revolution to Perestroika and Glasnost and the resulting dissolution of the USSR into a series of independent states. Special attention will be paid to the recent challenges of the transition to democracy and a free market economy.

CIAD 748: Political and Economic Transition in Eastern Europe. 3 credits
Studies political and economic developments in eastern Europe since 1945. The differential responses to Soviet hegemony will be discussed as well as the challenges facing the transitions to democracy and free market economies after 1989.

CIAD 749: Politics of the Middle East. 3 credits
Examines the background and the protracted conflict in the Middle East from the time of the Balfour Declaration to the present. Studies the creation of Israel in 1946, the successive Arab-Israeli wars, the efforts to resolve the Middle East conflict prior to and after the Camp David Accords and relations among pivotal Arab states.

CIAD 750: Government and Politics in Latin America. 3 credits
Studies the political development of Latin American states from 1850 to present. Analyzes the transitions from military rule to democratic governance. Discusses the impact of the Monroe Doctrine on U.S. hemispheric politics.

CIAD 751: Regional Security Organizations. 3 credits
Assesses the development of regional security organizations (OAS, OAU, and the Arab League) and military alliances (NATO, SEATO, and the Warsaw Pact) in the twentieth century. Examines the relationship between United Nations peace and security functions and those of regional organizations through selective case studies.

GENERAL
Course Descriptions

CIAD 525: Internship. 3 credits
An approved and supervised position with an international orientation. Minimal requirement of 240 hours of work.

CIAD 640: Independent Research. 3 credits
Opportunity for student to conduct individual research. The field and topic of research must be mutually agreed upon by the student and instructor. A student is permitted to take this course only once during the Master’s program.

CIAD 705: Thesis Consultation. 1 credit
Opportunity for students to receive minimal advice, guidance, and assistance from faculty during the final stages of writing and editing the Master’s thesis.

CIAD 706: Thesis Research. 3 credits
Opportunity for students to receive advice, guidance, and assistance from faculty during the stages of designing and conducting research for the Master’s thesis.

CIAD 805: Dissertation Consultation. 1 credit
Opportunity for students to receive minimal advice, guidance, and assistance from faculty during the final stages of writing and editing the Ph.D. dissertation.

CIAD 806: Dissertation Research. 3 credits
Opportunity for students to receive advice, guidance, and assistance from faculty during the stages of designing and conducting research for the Ph.D. dissertation.
SCHOOL OF BUSINESS
ADMINISTRATION

OFFICE OF THE DEAN
101 Wright Hall
Telephone: 404-880-8454

SCHOOL HISTORY AND ACCREDITATION

Business Administration at the University reaches back through several decades. It was recognized early by school personnel and students that effective instruction in the business areas would be a vital cornerstone for progress of those the institution sought to serve. The first A.B. degree in Business Administration was offered at the former Clark College in 1931, and a separate School of Business Administration was established at the former Atlanta University in 1946. These two historically black institutions were pioneers in offering business undergraduate and graduate degrees in higher education. In the early years, about one-fourth of all MBAs awarded to black students in the country came from Atlanta University. Meanwhile, the undergraduate program at Clark College continued to grow and soon became the largest department on campus. Both programs are accredited by the Southern Association of Colleges and Schools, and in 1973 the MBA Program was accredited by the American Assembly of Collegiate Schools of Business (AACSB - International). The accreditation was renewed in 1985. In July 1989, the two programs merged. In 1995 the undergraduate program received initial accreditation and the graduate program was reaffirmed.

MISSION STATEMENT

The mission of the School of Business Administration is to provide undergraduate and graduate business education by integrating scholarship and business experience in innovative educational programs. Such programs require developing and exchanging innovative ideas and problem-solving skills. At the School of Business Administration, educational programs contribute to the continuous development of leaders dedicated to promoting economic growth in an environment of fairness, integrity, and cultural diversity. By stressing interdisciplinary educational programs and intellectual contribution, the School of Business Administration strives to be in the vanguard of business education and the acquisition of new knowledge. The cultural environment fosters continuous exchanges of ideas, access to faculty and facilities, pursuit of independent interests, and a desire to serve academic and business communities. The School is committed to integration and balance in teaching, intellectual contribution, and service.

TEACHING OBJECTIVES

T-1 To educate students in analytical, ethical, social, and human aspects of business issues and decision making as required by international business communities.

T-2 To stimulate the desire to learn through a variety of teaching methodologies.

T-3 To pursue interdisciplinary learning opportunities with a diversity of colleges, universities, and business organizations.

T-4 To augment written and oral communication and microcomputer skills of the students.

T-5 To enhance faculty teaching skills and knowledge of business practices.

INTELLECTUAL CONTRIBUTION OBJECTIVES

IC-1 To promote intellectual contributions that improve educational processes and provide insight into business analysis, practice, and policy.

IC-2 To encourage interdisciplinary intellectual contributions.

IC-3 To emphasize quality of intellectual contributions more than quantity.

IC-4 To evaluate long-term impact of intellectual contributions instead of their immediate acceptance.

SERVICE OBJECTIVES

S-1 To promote active involvement of the business community in educational programs in order to expose students to real-world business issues and practices.

S-2 To encourage faculty, staff, and students to become involved in business community activities, such as internship, consulting, continuing education, and public service.

S-3 To support faculty and staff interactions with diverse communities, including academic institutions and associations.

S-4 To interact with government and not-for-profit agencies on matters of public policy that affect national and international business communities.

S-5 To encourage faculty and staff to assume constructive roles in the processes of educational policy formation, school and university service, and student life.
CULTURAL OBJECTIVES

C-1 To provide opportunities for faculty, staff, and students to search for solutions to major social problems, such as racism, sexism, age discrimination, and economic deprivation through scholarly intellectual contribution and service to international business communities.

C-2 To encourage qualified African-American students to pursue careers in university academics and to aspire to obtaining doctoral degrees in business disciplines.

C-3 To promote an atmosphere for continuous improvement in all activities at the School of Business Administration.

C-4 To continuously search for opportunities to solicit and integrate advice and opinions of business leaders into academic curricula and programs.

Degrees Offered:
Master of Accounting
Bachelor of Arts/Master of Arts Dual Degree in Accounting

Master of Business Administration
Master of Arts in Economics

Areas of Concentration:
Accounting
Decision Sciences/Information Systems
Finance
Marketing

MBA Program Admission

Graduates of colleges and universities accredited by a regional accrediting agency are eligible to be considered for admission. The following must be submitted before the Admissions Committee will review an applicant’s file:

- A complete application form (application deadline is April 1).
- A nonrefundable application fee of $40.00 ($55.00 for international students, money order or cashier’s check only).
- A current resume.
- Essays describing (1) career objectives, (2) reasons for selecting CAU’s MBA, and (3) personal strengths and areas where improvement is desired. Essays should be limited to 500 words each.

- Results of the Graduate Management Admission Test (GMAT) reported directly from the Educational Testing Service.
- Official transcript from every college and university attended, covering all prior course work (to be sent directly to the University by each school).
- Three letters of reference (to be sent directly to the Office of Admissions by the writer).
- If students’ native language is not English, they must demonstrate competency in English on the Test of English as a Foreign Language (TOEFL).
- Evaluation interviews while encouraged are not required for admission consideration. The Admissions Committee reserves the right to request an interview to better evaluate applicants.

International students once notified of eligibility for admission must send tuition and fees for one year, or evidence of government scholarship to the Office of Admissions at Clark Atlanta University. Subsequently, an admission letter and a Form I-20 will be issued.

DEFERRED ADMISSION
Deferred admission may be recommended by the Admissions Committee, or it may be requested by applicants. Under this policy, admission is granted for a subsequent year, and no further application is required.

REQUIREMENTS FOR THE MBA DEGREE
In addition to the general requirements of the University for the master’s degree, completion of sixty (60) semester hours of graduate study is required for the Master of Business Administration degree. The sixty (60)-hour requirement consists of forty-two (42) hours of required core courses and eighteen (18) hours of elective course work. Of the eighteen (18) hours of elective courses, twelve must be in the area of concentration and six (6) outside of it.

Up to six (6) hours of graduate course work, completed prior to admission to the MBA Program, may be considered for transfer credit and applied toward the sixty (60)-hour requirement. A grade of “B” or better must have been earned in the course(s) in question and the course(s) must be equivalent in content and character to CAU’s MBA courses. Requests for consideration of transfer credit must be submitted in writing to the Office of the Dean.

REQUIREMENTS FOR THE WORKING PROFESSIONAL MBA DEGREE
In addition to the general requirement of the University for the Master’s degree,
Students take twelve (12) hours of electives in their area of concentration and six (6) of free electives in the graduate programs.

ACCOUNTING DEPARTMENT  
Wright Hall, Room 201B  
Telephone: 404.880.8480

DEPARTMENT PURPOSE

The School of Business Administration at Clark Atlanta University confers (1) the Bachelor of Arts in Accounting and the Master of Arts in Accounting dual degree and (2) the Master of Arts in Accounting degree. Graduating students in Business Administration are prepared to pursue advanced studies at the doctoral level and professional careers in business. Graduating students with a major in Accounting obtain a practical and theoretical knowledge of accounting preparing them for successful careers in public, private, and government accounting.

DUAL - DEGREE PROGRAM IN ACCOUNTING
BACHELOR OF ARTS IN ACCOUNTING AND MASTER OF ARTS IN ACCOUNTING DEGREES

The Dual-Degree program in Accounting leads to the simultaneous award of the Bachelor of Arts in Accounting and the Master of Arts in Accounting degrees. The two degrees will be awarded on the basis of 150 semester hours. Completing the Dual-Degree program in Accounting will satisfy the 150 semester hour requirement in most states and territories in order to apply for admission to the unified Certified Public Accountants (CPA) examination. As soon as possible, candidates for admission to the CPA examination are strongly advised to verify any additional courses required by their desired state or territory of certification.

In order to be admitted to the Dual-Degree program in Accounting, the student must (1) have a minimum cumulative undergraduate grade point average of 2.5 on a four (4) point scale, (2) complete the Graduate Management Admissions Test (GMAT) with a minimum score of 400, and (3) be admitted to the program by the beginning of the undergraduate senior year. Students are required to attain minimum grades of “C” in all undergraduate Business Core courses, all required undergraduate accounting courses, MAT 209, Mathematics for Decision Makers and MAT 210, Calculus, ENG-C 105, English Composition I, ENG-C 106, English Composition II, and all graduate courses. Also, students are required to attain a minimum cumulative grade point average of “3.0” in all graduate courses for award of the Master of Arts in Accounting degree.

Sample Plan of Study

The following sample plan of study illustrates how required and elective courses can be arranged for students pursuing the Dual-Degree Program in Accounting. This is a suggested plan of study, not a mandatory one. However, students must adhere to all program requirements and course prerequisites.

SCHOLARSHIPS

Merit-based scholarships for the first year of study are open to students with outstanding admission credentials. The number of university funded scholarships available is limited. In addition, a limited number of corporate scholarships with varying award amounts are available. Deadline for these merit-based scholarships is April 1.

PLACEMENT

The School’s Office of Career Planning and Placement offers students the opportunity to explore and prepare for a wide variety of business opportunities. This office advises students on resume preparation, development of interviewing skills, and a wide variety of personal and professional development issues. Through its organized programs, the placement process schedules corporate receptions, information sessions, and on-campus interviews for students. Approximately 60 major firms recruit on campus. Students are able to see the spectrum of business opportunities and to present their strengths and make informed choices regarding careers.
Freshman Year

First Semester: Semester Hours (17)
CENG 105 English Composition I 3
CGED 100 First-Year Seminar I 1
CMAT 209 Mathematics for Decision Makers 3
CBIO 101 Biological Science and Lab 3
CSTA 101 Fundamentals of Speech 3
CSOC 105 Culture and Society 3
or
CPSC 106 Political and Global Issues 3
CPED 101 Physical Education 1

Second Semester: Semester Hours (16)
CENG 106 English Composition II 3
CGED 101 First-Year Seminar I 1
CMAT 210 Calculus 3
CPHY 102 Physical Science and Lab 3
CCIS 100 Information Technology and Computer Applications 3
CPSY 211 General Psychology 3

Sophomore Year

First Semester: Semester Hours (18)
CHIS-C 201 U.S., Africa and World I 3
CECO 251 Principles of Macroeconomics 3
CMFL 201 Foreign Language 3
CBUS 207 Principles of Accounting I 3
CENG-C 201 World Literature 3
CPHI XXX Philosophy Elective 3
or
CREL XXX Religion Elective 3

Second Semester: Semester Hours (16)
CHIS-C 202 U.S., Africa and World II 3
CECO 252 Principles of Microeconomics 3
CMFL 202 Foreign Language 3
CBUS 208 Principles of Accounting II 3
CBUS 295 Leadership and Professional Development I 1

Junior Year

First Semester: Semester Hours (16)
CBUS 303 Intermediate Accounting I 3
CBUS 305 Cost Accounting 3
CBUS 313 Business Statistics 3
CBUS 330 Legal, Social & Ethical Aspects of Business I 3
CBUS 341 Business Finance 3

Second Semester: Semester Hours (15)
CBUS 395 Leadership & Professional Development II 1
CBUS 304 Intermediate Accounting II 3
CBUS 308 Accounting Information Systems 3
CBUS 340 Principles of Management 3
CBUS 331 Legal, Social & Ethical Aspects of Business II 3
CBED 325 Business Communications 3

Senior Year

First Semester: Semester Hours (16)
CBUS 335 Principles of Marketing 3
CBUS 405 Auditing 3
CBUS 426 Individual Income Tax 3
CBUS 460 Production and Operations Management 3
CBUS 495 Leadership and Professional Development III 1
Graduate Elective 3

Second Semester: Semester Hours (15)
CBUS 465 Advanced Accounting 3
CBUS 485 Business Policy 3
CBUS 427 Business Income Tax 3
CHUM XXX Humanities Elective 3
Graduate Elective 3

Fifth Year

First Semester: Semester Hours (12)
CSB 6618 International Accounting 3
CSB 6620 Cost Management Systems 3
CSB 6621 Current Accounting Theory and Practice 3
Graduate Elective 3

Second Semester: Semester Hours (12)
CSB 5606 Advanced Auditing 3
CSB 5690 Fund Accounting 3
CSB 6623 Advanced Accounting Information Systems 3
Graduate Elective 3

The Chairperson of the Accounting Department is the student advisor for the Dual-Degree in Accounting program. Students are encouraged to select graduate electives from the other business disciplines of Finance, Marketing, Management, Economics, and Decision Sciences as well as from the Computer Information Systems discipline. Graduate courses, which substantially duplicate courses required for entry into the program (e.g., CSB 6600, Financial Accounting and CSB 6610, Managerial Accounting), will not be approved as graduate electives for the Dual-Degree in Accounting program.
MASTER OF ARTS IN ACCOUNTING PROGRAM

This program leads to the award of the Master of Arts in Accounting degree. The Master of Arts in Accounting degree requires 30 semester hours. Successfully completing the Master of Arts in Accounting degree will allow students with an undergraduate degree in Accounting or the equivalent to satisfy the 150 semester-hour requirement in most states and territories in order to apply for admission to the unified Certified Public Accountants (CPA) examination. As soon as possible, candidates for admission to the CPA examination are strongly advised to verify any additional courses required by their desired state or territory of certification.

In order to be admitted to the Master of Arts in Accounting program, applicants must have completed (1) the Graduate Management Admissions Test (GMAT) with a minimum score of 400 and (2) an undergraduate degree in business from an accredited college or university with a minimum cumulative undergraduate grade-point average of 2.5 on a four (4) point scale, which includes or has been supplemented by the following Clark Atlanta University courses or their equivalent:

- CBUS 303, Intermediate Accounting I
- CBUS 304, Intermediate Accounting II
- CBUS 305, Cost Accounting
- CBUS 308, Accounting Information Systems
- CBUS 405, Auditing
- CBUS 426, Individual Income Tax
- CBUS 427, Business Income Tax
- CBUS 465, Advanced Accounting

Deficiencies in meeting these course requirements must be made up without credit in the graduate program. Any undergraduate courses that are prerequisites for graduate courses must be completed without graduate credit for admission to the course in question. Students must complete all graduate courses with a minimum cumulative grade point average of 3.0, including eighteen (18) semester hours of required courses and twelve (12) semester hours of graduate electives.

Sample Plan of Study

The following sample plan of study illustrates how required and elective courses can be arranged for students pursuing the Master of Arts in Accounting degree. This is a suggested plan of study, not a mandatory one. However, students must adhere to all program requirements and course prerequisites.

The Chairperson of the Accounting Department is the student advisor for the Master of Arts in Accounting program. Students are encouraged to select graduate electives from the other business disciplines of Finance, Marketing, Management, Economics, and Decision Science as well as from the Computer Information Systems discipline. Basic courses, which substantially duplicate courses required for entry into the program (e.g., CSB 6600, Financial Accounting and CSB 6610, Managerial Accounting), will not be approved as graduate electives for the Master of Arts in Accounting program.

DESCRIPTIONS OF GRADUATE ACCOUNTING COURSES

CSB 5606: Advanced Auditing. 3 credits
A one-semester course introducing theoretical, conceptual, practical, and traditional elements for conducting attestation engagements, internal auditing, operational auditing and compliance auditing. Prerequisite: CBUS 465: Advanced Accounting with a minimum grade of “C.”

CSB 5690: Fund Accounting. 3 credits
A one-semester course introducing basic concepts and techniques of fund accounting with reporting and management problems of not-for-profit organizations and governmental bodies. This course is not open to undergraduates majoring in Accounting who have not been accepted to the Dual-Degree Program in Accounting. Prerequisite: CBUS 304: Intermediate Accounting II with a minimum grade of “C.”

CSB 6600: Financial Accounting. 3 credits
A one-semester course involving intensive study of financial accounting principles and concepts to provide quantitative information, primarily financial in nature, about economic entities useful in making business decisions. Prerequisites: None. Not open to Dual-Degree in Accounting and Master of Accounting students.

CSB 6610: Managerial Accounting. 3 credits
A one-semester course involving intensive study of management accounting principles and concepts to provide information, primarily financial in nature, about economic entities useful in making business decisions. Prerequisite: CSB 6600: Financial Accounting with a minimum grade of “C.” Not open to Dual-Degree in Accounting and Master of Accounting students.
CSB 6611: Intermediate Accounting I. 3 credits
A one-semester course introducing the conceptual framework of accounting, financial statements, current assets, fixed assets, long-term investments, liabilities, owners’ equity, and special problems in income determination and reporting. Prerequisite: CSB 6610, Managerial Accounting with a minimum grade of “C.”

CSB 6612: Intermediate Accounting II. 3 credits
A one-semester course introducing the conceptual framework of accounting, financial statements, current assets, fixed assets, long-term investments, liabilities, owners’ equity, and special problems in income determination and reporting. Prerequisite: CSB 6611, Intermediate Accounting I with a minimum grade of “C.”

CSB 6618: International Accounting. 3 credits
A one-semester course introducing major issues in International Accounting with reference to influences of different environments and their impact on the setting of international accounting standards. This course includes comparison of GAAP in selected major economies and a review of harmonization efforts of international accounting standards by the IASC, EC, OECD and the UN. Prerequisite: CBUS 465: Advanced Accounting with a minimum grade of “C.”

CSB 6620: Cost Management Systems. 3 credits
A one-semester course introducing principles of cost-systems design. Using a case-study approach, cost management systems from actual businesses are described in detail. Students analyze, discuss and present cost-management issues for measuring business performance and for strategic decision making on pricing, product mix, process technology and product design. Students also learn how to identify the symptoms and root causes of cost-system failures. Prerequisite: CBUS 305, Cost Accounting or CSB 6610: Managerial Accounting with a minimum grade of “C.”

CSB 6621: Current Accounting Theory and Practice. 3 credits
A one-semester course including an intensive study of current accounting theory and practice as embodied in current literature and in the official pronouncements of the American Institute of Certified Public Accountants (AICPA), the Financial Accounting Standards Board (FACSB) and the Securities and Exchange Commission. Prerequisite: CBUS 465: Advanced Accounting with a minimum grade of “C.”

CSB 6623: Advanced Accounting Information Systems. 3 credits
A one-semester course including an intensive study of the design, development, implementation, operation, and maintenance of accounting information systems as a subset of business’ management information systems. Prerequisite: CBUS 308, Accounting Information Systems with a minimum grade of “C.”

CSB 6610: Managerial Accounting. 3 credits
A one-semester course introducing the conceptual framework of accounting, financial statements, current assets, fixed assets, long-term investments, liabilities, owners’ equity, and special problems in income determination and reporting. Prerequisite: CSB 6610, Managerial Accounting with a minimum grade of “C.”

CSB 7600: Special Problems in Accounting. 3 credits
A one-semester course including discussions of selected issues in Accounting. Prerequisite: Permission of the instructor.

MBA for Working Professionals (MBAWP) Accounting Courses

CSB 8610: Financial Accounting. 1.7 credits
A one-trimester course involving intensive study of financial accounting principles and concepts to provide quantitative information, primarily financial in nature, about economic entities useful in making business decisions. Prerequisites: Acceptance to the Working Professionals Master of Business Administration degree program.

CSB 8621: Financial/Managerial Accounting. 2.3 credits
A one-trimester course involving intensive study of financial and management accounting principles and concepts to provide information, primarily financial in nature, about economic entities useful in making business decisions. Prerequisite: Acceptance to the Working Professionals Master of Business Administration degree program and CSB 8610, Financial Accounting with a minimum grade of “C.”

CSB 8632: Managerial Accounting. 1.7 credits
A one-trimester course involving intensive study of management accounting principles and concepts to provide information, primarily financial in nature, about economic entities useful in making business decisions. Prerequisite: Acceptance to the Working Professionals Master of Business Administration degree program and CSB 8621, Financial/Managerial Accounting with a minimum grade of “C.”

DEPARTMENT BACKGROUND
The Department offers core courses in the areas of Economics, Quantitative Methods, Operations Management and Information Systems for the MBA Program. The courses offered by the Department emphasize relevant and useful instruction, research, and service. Focus is on applications of quantitative techniques and information technology for managers and small business entrepreneurs.

The courses listed below fit in as indicated in the Master of Business Administration Program. 60 hours are required for MBA degree.

MBA CORE COURSES
(REQUIRED FOR ALL MBA PROGRAM STUDENTS)
CSB 5510: Introduction to Information Systems. 3 credits
Overview of information processing techniques and equipment and their impact on the organization; exposes software consideration and provides opportunity for learning a programming language.

CSB 5512: Macroeconomics. 3 credits
Focuses on aggregative economics, magnitudes of output, employment, investment, savings and money supply aspects of the economy.

CSB 5513: Microeconomics. 3 credits
Focuses on the decision processes of consumers and firms and examines their interaction in the marketplace.

CSB 6510: Statistical Analysis for Business and Economics (Same as CECO 600). 4 credits
Studies use and application of descriptive statistics, probability, statistical inference, analysis of variance, simple regression, multiple regression and design of experiments.

CSB 6512: Production and Operations Management. 3 credits
Develop ability to recognize, analyze, and solve typical problems of production and operations in manufacturing and service sectors. Topics include forecasting, TQM, JIT, allocation of scarce resources, strategic capacity planning, facility location, facility layout, CPM, PERT, inventory control for independent demand, MRP, and supply chain management. Prerequisite: CSB 6510.

Elective Courses. (Four courses required for Decision Sciences area of concentration in MBA Program. Open to other MBA students as electives.

CSB 6515: Systems Analysis and Design. 3 credits
The design and specification of computer-based management information systems; analysis of various systems evaluation techniques, examination of existing systems, new or modified designs, comparisons of software features and problems of computer security; emphasis on management usage of systems, including examination of overall organizational impact of system installation. Prerequisite: CSB 5510.

CSB 6517: Computer Applications in Decision Sciences. 3 credits
Designed to introduce the students to theories and applications on optimization and simulation as tools for solving business problems, using software packages which are widely used in industry. Prerequisite: CSB 6510.

CSB 6519: Database Management. 3 credits
Examines the basic features of data management, systems; definition and overview, design considerations, data description and data manipulation, physical storage of a database, security and query languages. Prerequisite: CSB 5510.

CSB 6523: Business Forecasting Methods. 3 credits
Develops a conceptual framework of business forecasting methods. Students have hands-on experience with applications of a wide range of forecasting techniques to real-world business problems, using software packages.

CSB 7500: Special Problems in Decision Sciences. 3 credits
Prerequisite: permission of instructor.

MBA courses for Working Professionals (WPMBA)

CSB 8510: Statistical Analysis I. 1.5 credits
Use and application of descriptive statistics, probability, statistical inference, and analysis of variance.

CSB 8514: Information Systems I. 1 credit
This course is an intensive survey of technologies used to support selected aspects of electronic commerce and enterprise resource planning.

CSB 8520: Statistical Analysis II. 1 credit
Studies use and application of simple regression, multiple regression, and design of experiments.

CSB 8524: Information Systems II. 1 credit
The purpose of this course is to illustrate the importance of determining information system requirements for all management levels by developing an understanding of the differences between various types of computer based information systems (CBIS). Emphasis is on information systems support for management decision-making and competitive advantage.

CSB 8531: Production and Total Quality Management. 1 credit
Define the terms Quality, SQC (SPC), and TQM. Provide an overview of continuous process improvement (Kaizen) and various tools designed to control and monitor the process. Discuss process control chart, Deming’s PDCA cycle, cost of quality, process capability, six sigma standard, Taguchi method, Pareto diagram, and Ishikawa diagram. Compare and contrast the criteria for Deming Prize, Malcolm Baldrige Quality Award, and ISO 9000 series and ISO 14000 series.

CSB 8540: Accounting Information Systems Analysis and Design. 1.7 credits
The design and specification of computer-based management information systems; analysis of various systems evaluation techniques, examination of existing systems new or modified designs, comparisons of software features and problems of computer security; emphasis on management usage of systems, including examination of overall organizational impact of systems installation.
The Economics Program leads to the B.A. and M.A. degrees in Economics. The Master of Arts degree in Economics offers the opportunity to engage in study of contemporary economic issues. The curriculum also provides an innovative approach to the study of orthodox theories. Provisions are made to develop knowledge and understanding of urban affairs and economic development, not only from the traditional point of view, but also from that of minority people and developing countries of the Third World. Attuned to current problems of American and world economies, the Program should be of interest to students who wish to pursue graduate study in economics that is current, meaningful, and fulfilling.

ADMISSION REQUIREMENTS
The Department follows the general admission requirements of the University. However, applicants for the Master of Arts degree in Economics are required to have an undergraduate major in economics or a related field and have demonstrated ability to participate in graduate study. Proficiency examinations are given in intermediate macroeconomics and microeconomics prior to admission if these courses were taken five years prior to enrollment. Students who earn a grade lower than a “B” are required to repeat these courses.

DEGREE REQUIREMENTS
In addition to the general requirements for the Master of Arts degree as specified in the University’s catalog, students are required to fulfill the following:
1. An approved sequence of courses that comprise at least twenty-seven (27) hours.
2. Eighteen (18) hours of core requirements (with a grade of “B” or better).
3. Nine (9) or fifteen (15) hours of additional course work.
4. A thesis and an oral examination on it. Six (6) credit hours are awarded upon completion of the thesis; or
5. A comprehensive examination after completing an additional six (6) credit hours in lieu of the thesis and thesis examination. Students are given two chances to pass the comprehensive examination.
6. A cumulative GPA of 3.0 or above.

Students who earn less than a B average by the end of the first semester are placed on probation during their second semester. If by the end of the second semester students fail to have an average of “B” (3.0), they are dismissed from the Program. However, they may petition the Department for readmission.
Students enrolled in the Department for more than four years may be asked to take a theory proficiency examination in economics (macro and micro) and statistics. Depending on the performance, they may be asked to retake one, two or all three courses (not on the exam).

REQUIREMENTS FOR GRADUATION

Students pursuing the M.A. degree are required to take the core courses: CECO 500, 501, 550, 570, 600, 601, 602.

In addition, students must complete three courses (with thesis) or five courses (with no thesis). These courses must be approved by the student’s advisor(s).

Core Curriculum (Required)
(Courses are three credit hours unless otherwise noted.)
CECO 500: Advanced Macroeconomic Theory
CECO 501: Advanced Microeconomic Theory
CECO 550: Mathematical Analysis for Economists I
CECO 570: Research Methodology
CECO 601: Econometrics I
CECO 602: Econometrics II
CCIS 503: Business Application Tools

Area Courses Include:
(For complete listing, see Course Descriptions.)

Quantitative Economics
CECO 555: Mathematical Economics II
*CECO 600: Statistical Analysis
*CMAT 501: Calculus and Linear Algebra
CMAT 643: Operations Research I
CSBA 6512: Production and Operations Management
CSBA 6523: Forecasting
*May be taken only to fulfill prerequisites.

Economic Development
CECO 512: Economic Development
CECO 513: International Economics
CECO 517: International and Regional Economic Order
CECO 518: Seminar/Topics in Economic Development

Urban Economics
CECO 505: Public Finance
CECO 510: Urban Economics
CECO 511: Seminar/Topics in Urban Economics

Suggested Plans of Study

First Semester: 9 hours
CECO 500: Advanced Macroeconomics
CECO 550: Mathematical Analysis
CECO 601: Econometrics I

Second Semester: 9 hours
CECO 501: Advanced Microeconomics
CECO 602: Econometrics II
* One (1) course (from area courses)

Third Semester: 9 hours
CECO 570: Research Methodology
* Two (2) courses (from area courses)

Fourth Semester: Variable Credit
Thesis Research and Consultation (CECO 801 and 805); two (2) approved courses, and preparation for comprehensive examination.
* Must be approved by the student’s advisor.

Course Descriptions

CECO 500: Advanced Macroeconomic Theory. Fall, 3 credits
An advanced treatment of theories of aggregate economic analysis; addresses critical questions such as determination of national income, employment, distribution of income, inflation, and cyclical behavior. Prerequisite: CECO 315, or consent.

CECO 501: Advanced Microeconomic Theory. Spring, 3 credits
Analyzes the theory of consumer behavior and production and the pricing mechanism in competitive and noncompetitive markets. Prerequisite: CECO 316, or consent.

CECO 504: African-American Political Economy. 3 credits
Investigates the economic history on African-Americans; analyzes historical and contemporary impact of economic policies on African-American people. Prerequisite: Principles of Economics or consent.

CECO 505: Public Finance. 3 credits
Analyzes the effect of government expenditure and taxation on resource allocation, economic stabilization, and income distribution at national, state and local levels. Prerequisite: CECO 315 or consent.
CECO 509: Monetary Theory and Policy. 3 credits
Studies monetary and fiscal policies as mechanisms of aggregate demand management; primary considerations involve the level of prices, interest rate, and aggregate money supply. Prerequisites: CECO 500, consent.

CECO 510: Urban Economics. 3 credits
Explores in detail the structure and growth of urban economy and examines the city as part of the national economy; analyzes theories of decision-making which explain the location of businesses and households within and between urban areas. Prerequisites: CECO 316, 369, or consent.

CECO 511: Seminar/Topics in Urban Economics. 3 credits
Explores topics such as economic determinants of urban spatial structure, public and private decisions on firms and consumers location choices, and transportation. Prerequisite: CECO 510.

CECO 512: Economic Development. 3 credits
Studies theories of economic development and investigates relevant economic models and analytical tools for analyzing and gaining understanding of development issues; also discusses policies and contemporary problems of developing countries. Prerequisite: CECO 324, or consent.

CECO 513: International Economics. 3 credits
An analysis of theories of international trade, balance of payment problems and current issues in commercial policy. Prerequisites: CECO 315, CECO 316, or consent.

CECO 517: International and Regional Economic Order. Fall, 3 credits
Analyzes global economic and political relations between developed and developing countries. Topics include theories of integration, economic and political cooperation, regional trade and development, and the level of activity within a region. Prerequisite: CECO 512, CECO 513, or consent.

CECO 518: Seminar/Topics in Economic Development. 3 credits
Investigates specific issues and approaches to economic development. Analyze international, regional and county-specific research reports utilizing current theoretical and analytical tools. Prerequisite: CECO 512 or CECO 517.

CECO 520: Economics for Nonmajors. 3 credits
Designed to provide students with the fundamental economics background necessary to understand and implement policy. Macro and Micro theories are developed in examining the impacts of markets and government policy on the economy.

CECO 530: Seminar in Labor Economics. Fall, 3 credits
Discusses formal models of labor demand and supply; investigates wage and labor market discrimination, segmented markets, labor processes, and trade union theories. Prerequisites: CECO 315 and 316, or CECO 365.

CECO 531: Seminar/Topics in Labor Economics.
Explores labor-related topics including the theoretical and empirical investigations of equalizing differences in the labor market, investment in human capital, and the problem of imperfect markets. Prerequisite: CECO 530.

CECO 550: Mathematical Analysis for Economists I. Fall, 3 credits
Develops skills that translate economic and business problems and relationships into mathematical terms. Prerequisite: CECO 308, or consent.

CECO 555: Mathematical Analysis for Economists II. 3 credits
Objective is twofold: 1) to render a systematic exposition of certain basic mathematical methods, and 2) to relate these to various types of economics analysis in such way that the mutual relevance of the two disciplines is exposed. Prerequisite: CECO 550.

CECO 570: Research Methodology. 3 credits
Explores theories and methods of scientific research in economics and related social sciences. Steps for problem identification, formulation of testable and meaningful hypotheses and empirical techniques of analysis are studied. Prerequisite: consent.

CECO 600: Statistical Analysis for Business and Economists. Fall, 3 credits
(Same as CSB 6510). Studies the use and application of descriptive statistics and statistical inference, including probability, sample survey, and simple linear regression models and violations of the basic assumptions. Prerequisite: undergraduate statistics.

CECO 601: Econometrics I. Spring, 3 credits
Develops concepts and applications of statistical methods to economic and managerial problems, including multiple regression and forecasting, and simultaneous equations. Prerequisite: CECO 600 or consent.

CECO 602: Econometrics II. 3 credits
Studies the construction, estimation and testing of economic models. Prerequisite: CECO 601.

CECO 801: Thesis Research. Fall, Spring, Summer, 3 credits
Designed to assist students in the development and writing of the thesis.

CECO 805: Thesis Consultation. Fall, Spring, Summer, 1 credit
For students who are in the final stage of their thesis writing, which requires minimal supervision and assistance.

NOTE: Seminar/Topic courses require permission of the student's advisor and the instructor, and may be taken as an independent study provided the prerequisites are fulfilled.
Advanced Undergraduate Courses
Approved 400-level courses may be taken for graduate credit (i.e. in addition to the Requirements for Graduation):

FINANCE DEPARTMENT
Wright Hall, Room 200
Telephone: 404-880-8640

Department Purpose

The finance curriculum is designed to provide students with tools required for careers in financial management in corporations, financial services industry, and not-for-profit organizations. Course offerings at graduate level include required courses for all students enrolled in the School of Business Administration and elective courses for students concentrating in the finance area.

Course offerings at the graduate level are designed to equip the students with the breadth of knowledge required to become effective financial analysts and managers in a rapidly changing global economic environment.

All MBA students are required to take the Financial Management course (CSB 5410) as part of the MBA curriculum. MBA students with a concentration in finance are required to take the Corporate Finance (CSB6416) in addition to a minimum of three additional finance electives from the list of electives described in this section. 60 hours are required for the MBA degree.

The Departmental course offerings are listed below:

Graduate Courses: (For admitted graduate students only)
MBA Core Course (Required for all MBA Program students)

CSB 5410: Financial Management. 4 credits
Provides broad exposure to financial issues useful to general management in an increasingly global multidisciplinary environment; enables students to develop useful approaches in analyzing risks and financial returns in a variety of business situations, and the process of reaching the optimum decision from their analysis. Topics include financial forecasting, working capital management, valuation, short-term financing, capital structure planning, and capital investment decisions. Prerequisite: SB 6600

Elective Courses in Finance

CSB 6411: International Financial Management. 3 credits
Introduces the process of financial management in the international context; extends analysis of the financial management course to include effect of inter-
national forces on foreign investment and cash flows and develop strategies which the financial manager can use for effective management. Topics include study of International capital markets, Country Risk Analysis, Foreign exchange market, derivative instruments and risk management, financing international trade and capital budgeting in an international context. Prerequisite: SB 5410.

CSB 6413: Capital Markets and Investment Banking. 3 credits
Examines role of investment banking firms in the capital acquisition process, from the points of view of security issuing firms and institutional and individual investors active in capital markets. Topics include the security issuance by both corporate and not-for-profit organizations, and the role of the investment bank in corporate restructuring and corporate control contests. Prerequisite: SB 5410.

CSB 6414: Management of Financial Institutions. 3 credits
Examines the role or financial institutions in the financial system; with special emphasis on depository financial institutions. Study of the different types of financial institutions that include Investment Banks, Insurance companies, Pension Funds, Commercial Banks and Savings and Loans. Analysis and discussion of the changing regulatory environment, the performance of financial institutions in this environment, asset-allocation decisions, asset-liability management, international operations and the international financial system, asset securitization and other contemporary topics in financial services. Teaching method include lectures, cases and problem solving. Prerequisite: SB 5410.

CSB 6415: Real Estate Finance. 3 credits
Focuses on techniques of analyzing and financing real estate investments. Topics include sources of funds, financing instruments, role of various financial institutions and the regulatory environment. Prerequisite: SB 5410. Students with a concentration in Finance may only take one real estate course to satisfy the Finance concentration requirement. Any other real estate course will be counted as a general MBA elective.

CSB 6416: Corporate Finance (Formerly Management of Financial Resources). 3 credits
Examines the long-term asset selection and allocation policies of corporations. Coverage includes advanced topics in Capital Budgeting, Leasing, Valuation of corporate assets, applications of options in Corporate Finance and interaction of investment and financing decisions. Teaching methods include case analysis, lectures and a term project. Computer usage required. Prerequisite: SB 5410. This is a required course for all MBA students with a concentration in Finance.

CSB 6417: Security Analysis and Portfolio Management. 3 credits
Development and implementation of evaluative techniques of security analysis and portfolio management utilizing case analysis, lectures and problem solving. Securities analyzed include stocks, bonds, convertibles, asset-backed bonds, options and mutual funds. Examines risk and return characteristics in a portfo-
CSB 6419: Commercial Lending. 3 credits
Focius on development of skills necessary in designing loan contracts and other issues in credit analysis. Topics include loan pricing, syndication, private placements, project finance and loan workout situations. Lending to a variety of industries and businesses will be examined. Prerequisite: SB 5410.

CSB 6420: Real Estate Investments. 3 credits
Advanced treatment of materials in SB 6415; looks at theory and practice of equity investments in real estate assets, with emphasis on commercial properties. Topics include impact of leverage, taxes, securities regulation, REITS, joint ventures and public underwriting of real estate investments. Prerequisite: SB 5410. Students with a concentration in Finance may only take one real estate course to satisfy the Finance concentration requirement. Any other real estate course will be counted as a general MBA elective.

CSB 7400: Special Problems in Finance. 3 credits
This special topics course provides an opportunity for an in-depth study of selected contemporary topics in finance, outside of the regular finance curriculum. The course can be repeated for course credit for different topics. Prerequisite: permission of the instructor or SB 5410.

MBA for Working Professionals (MBAWP) Finance Courses
CSB 8420: Financial Management I. 1.7 credits
This course is the first of a two-part required (core) Financial Management course for the MBAWP program. Consequently, the course is designed to provide all MBA students (regardless of intended concentration) the basic finance skills required for them to function effectively as general managers in an increasingly global multidisciplinary environment. The course introduces students to the different areas of corporate finance and in particular those topics that are essential and indispensable to all business students. The treatment of all areas is based on ensuring that students have a conceptual understanding of the theory and the application of these concepts to realistic situations for the purpose of decision-making in the major areas of business. This second part covers topics in valuation, the trade-off between risk and return (including the CAPM), capital budgeting and cost of capital estimation.

CSB 8440: Financial Markets. 1.7 credits
This course primarily prepares students for an understanding of the financial markets, instruments and institutions that exist around the world. The course provides an in-depth study of money and capital markets and the management of financial institutions. Topics include an introduction to the various types of Financial assets, Financial markets and Financial Institutions; Regulation of the Financial Markets; Financial Innovations: Derivative Markets: Futures, Options and Swaps; and Interest Rate Determination. This MBAWP elective course requires that enrolled students have completed the First-Year Accounting course and Financial Management course with passing grades, in addition to all first year MBAWP core courses.

CSB 8451: Corporate Finance I. 1.7 credits
This course is the first part of a two-module series on Corporate Finance. The objective is to study the major decision-making areas of Corporate Finance. Emphasis will be placed on the long-term asset selection policies of non-financial corporations under conditions of certainty and uncertainty. The first module focuses on advanced topics and applications in cost of capital, capital expenditure analysis, leasing, and valuation analysis.

CSB 8461: Corporate Finance II. 1.7 credits
This course is the second part of a two-module series on Corporate Finance. The objective is to study the major decision-making areas of Corporate Finance. Emphasis will be placed on the long-term asset selection policies of nonfinancial corporations under conditions of certainty and uncertainty. The second module topics include applications of options in Corporate Finance, corporate restructuring, capital structure, long-term financing tactics and methods of cash distributions. This second module requires a comprehensive valuation project.

CSB 8452: Portfolio Management. 1.7 credits
Development and implementation of evaluative techniques of security analysis and portfolio management utilizing case analysis. Securities analyzed include stocks, bonds, convertibles, asset-backed bonds, derivative securities and mutual funds. Examines risk and return characteristics in a portfolio management context. Emphasis on equilibrium pricing models, performance measurement, valuation models, and investment strategies. Teaching methods include case analysis and discussion.
CSB 8462: Financial Strategy and Policy. 1.7 credits
This course is an advanced, though brief, treatment of corporate financial strategy and policy. This course is an integral part of the Finance curriculum in the MBA for Working Professionals; it is the final module in a sequence of finance electives. In that respect, it is the capstone course in Finance. The objective of this course is to integrate the knowledge and skills from the different subdisciplines of finance (investments, corporate, markets and banking) in the context of financial policy and strategy in financial and nonfinancial corporations. Topics include corporate restructuring and the formulation and implementation of corporate financial strategy. The case method is used throughout this module. A term project is required. Prerequisite: Financial Management 1 and 2, Corporate Finance- Module 1 and 2.

CSB 8463: Competitive Strategy. 1.3 credits
This is a course in competitive economics – a combination of economics and strategy. The course provides a basic understanding of the concepts, language and analytical tools in order to enhance decision-making in business in a competitive global environment. We will focus on decisions that firms should make and the factors that constrain and determine these choices. The course develops the tools of microeconomic analysis using the concepts of business policy, industrial organization, organizational behavior, strategic management, marketing, accounting and finance to achieve the goals set by the management in a macroeconomic environment.

CSB 8465: Global Business and Finance. 1.3 credits
This course covers the financial systems and processes used by multinational corporations, international companies and all businesses engaged in cross-border trading, and foreign business activities, including foreign units engaged in manufacturing. The course investigates and analyzes global transactions and the flow of funds from global commerce. In addition, students learn the use of hedging strategies to minimize the risks associated with global business operations.

CSB 8515: Economic Analysis. 1.5 credits
An introduction to microeconomic analysis from a practical business perspective. Topics covered include supply and demand equilibrium, the principles of consumer choice, profit maximization, the effects of subsidies, price discrimination, price ceilings and floors and government regulation. The course provides a context for subsequent study of industry and corporate strategy.

MANAGEMENT DEPARTMENT
Wright Hall, 200-B
Telephone: 404-880-8453

DEPARTMENT BACKGROUND
The Management Department offers curriculum and instruction in the forms of work that all managers must perform - planning, organizing, staffing, motivating, and controlling. The objective is to provide students with the knowledge necessary for being an effective manager in the private and public enterprise sectors.

The courses listed below meet the requirements for the Master of Business Administration Programs.

GRADUATE COURSES
(FOR ADMITTED GRADUATE STUDENTS ONLY)

MBA CORE COURSES
(REQUIRED FOR ALL MBA PROGRAM STUDENTS)

CSB 5709: Managerial Communications. 3 credits
Designed to increase knowledge of verbal, nonverbal and written communications that take place in an organization; grammar applications; effective letter writing, memorandum construction; preparation of executive summaries and proposals; individual and group oral presentations; and related office cases and exercises are emphasized. Prerequisite: first year’s core courses.

CSB 5710: Organizational Behavior. 3 credits
Emphasis on developing understanding and knowledge of organizational behavior and human performance in the organization setting.

CSB 5712: Legal, Social and Ethical Aspects of Business. 3 credits
Study of basic legal concepts and procedures as well as basic principles pertaining to fundamental business transactions; cases used to identify the effect of laws on business policy decisions; social and ethical aspects of business are also described.

CSB 6710: Business Policy. 3 credits
Development of students’ ability to integrate their knowledge of various functional fields of business; it approaches the field of policy-making and administration from a top-management point of view. Prerequisite: first year’s core courses.

Elective Courses (Open to all MBA students)
CSB 5711: Management of Organizations. 3 credits
Fosters student's ability to analyze, understand, and design organizational systems; focus on organizational design as a managerial tool for influencing individual behavior; special attention on structure, the selection process, performance, appraisal, control systems, and reward practices as means for affecting human behavior in organizations. Prerequisite: CSB 5710.

CSB 6711: Research and Reports. 3 credits
Designed to increase knowledge of analyzing business problems and preparing and reporting solutions to them through formal and informal reports and oral representations. Identifies business research problems; reviewing the literature; collecting data; investigating and analyzing practical cases in business and industry; applying proper statistical treatment to data; writing reports; and making formal presentations.

CSB 6712: Industrial and Labor Relations. 3 credits
Study of the history and development of organized labor, collective bargaining, and government's role in management-labor relations; consideration of the interaction of management and labor in relation to the bargaining process.

CSB 6718: Personnel Management. 3 credits
Aids students in understanding current theories and emerging practices in developing a sound personnel program in today's organizations. Prerequisite: CSB 5710.

CSB 6715: Theories of Organizations. 3 credits
Covers major theories relevant to the structures and functions of organizations and the behavior of individuals and groups within them. Prerequisite: CSB 5710.

MBA Courses for Working Professionals (WPMBA)

CSB 8731: Organizational Behavior/Leadership. 1.3 credits
Topics include motivation, values, attitudes and job satisfaction, group dynamics, personality, conflict, managing diversity, decision, perception, etc. The overall objective of this course is to improve the skills you need to become a more effective manager. Organizational behavior, commonly referred to as OB, is an interdisciplinary field dedicated to better understanding and managing people at work. The three basic levels of analysis in OB are individual, group, and organizational. To be an effective manager, it is essential that you have practical knowledge that spans all three levels of organizational behavior.

CSB 8741: Leadership. 4 credits
Students will investigate the leadership tasks, which face managers in companies with worldwide operations. Initially, students will identify the forces of global change and the strategic challenges, which they present to managers. Subsequently, students will examine the leadership characteristics required to manage global operations in a changing environment.

CSB 8745: Business Legal Issues/Business Ethics. 1.3 credits
Study of basic legal concepts and procedures as well as basic principles pertaining to fundamental business transactions; cases used to identify the effect of laws on business policy decisions; social and ethical aspects of business are also described.

MARKETING DEPARTMENT
Wright Hall, 201-C
Telephone: 404-880-8463

Department Background
Marketing is the vital component of organizations that work to promote exchanges that satisfy customers while helping to attain organizational goals. Marketing offers required core courses for the bachelor's and MBA degree programs, and in each it offers an area of concentration that is selected by a substantial number of students.

Department Purpose
The Marketing Department offers relevant and useful instruction, research, and service. As the vital link between customer and firm, marketing in an organization helps guide the selection of goods and services produced, the establishment and maintenance of effective and efficient means of distribution, the pricing process, and promotional systems, which include advertising and sales. The Department's objective is to join sound concepts and marketplace realities so that students will have strong preparation for rewarding marketing positions and capacity for advancement in marketing organizations. The courses listed below fit in as indicated in the Master of Business Administration Program.

MBA Core Courses (required for all MBA Program students)

CSB 5210: Marketing Management. 3 credits
From the perspective of the marketing manager, texts, readings, actual cases, and marketing-plan developments used by the student to approach problems of planning and competitive analysis, policies and strategies, decision making, and social responsibility in marketing. Producing an actual marketing plan.

CSB 6219: International Business. 2 credits
Survey course concerned with study of global business environments as they affect the competitive advantage of international companies. Students are exposed to the diversity and complexity of international business relations. The emphasis will be on providing tools necessary to evaluate and take advantage of international business opportunities--digitization, ethical, and environmental emphases.

Elective Courses (Four required for marketing area of concentration in the MBA Program. Open to other MBA students as electives)
CSB 6200: Marketing Strategy. 3 credits
Case and literature studies employed to provide the basis for the understanding of marketing strategy, its implementation, and control functions. Preparation of a marketing plan is required; emphasis is on the application of controllable variables in marketing; (required for marketing concentration). Prerequisite: SB 5210.

CSB 6210: Marketing Research and Information Systems. 3 credits
Behavioral sciences provide framework for understanding descriptive and analytical marketing research procedures. Basic orientation to use of statistical techniques and structure and uses of marketing information systems by business and industry included. Prerequisite: SB 5210. Experience writing research paper using SPSS to analyze database.

CSB 6211: Distributive Systems in Marketing. 3 credits
Examines the evolution, development, and dynamics of strategic distribution channel utilization and competition; logistical methods from product to consumer are included. Prerequisite: SB 5210.

CSB 6212: Advertising and Promotion Management. 3 credits
Focus on building advertising campaigns in a global setting that reflect integration of advertising management philosophy and current industry trends. Development and execution of a comprehensive advertising campaign reflecting a comprehensive plan of personnel organization, creativity, media, research, budget; coordination is required. Prerequisite: SB 5210.

CSB 6213: Consumer Behavior. 3 credits
Treatment of consumer buying behavior as a decision-making process involving perceptions, attitudes and behavioral characteristics; by understanding the buyer's environment, shows how marketing effort may influence and alter purchase behavior. Prerequisite: SB 5210.

CSB 6214: Industrial Marketing. 3 credits
Study of activities specifically related to industrial and commercial goods and services, which supply a derived-demand market from a managerial perspective; forecasting, planning and strategy are included. Prerequisite: SB 5210. Digitization, ethical, and environmental emphases.

CSB 6215: International Marketing. 3 credits
From the standpoint of international managers, texts, cases, and research papers used to present the international process of planning and executing marketing programs worldwide. International trade theories are critically examined. Digitization, ethical, and environmental emphases.

CSB 6216: Dynamic Cases in Marketing. 3 credits
Seminar employ current complex cases for analysis and integration of the various marketing functions. Prerequisite: SB 5210.

CSB 6217: Sales Management. 3 credits
Covers recruiting, training, motivating, compensating and evaluating sales personnel; it reflects target marketing to territorial allocations, control functions, setting of personal sales targets, and feedback process. Prerequisite: SB 5210.

CSB 6218: Brand and Product Management. 3 credits
Study of management of existing products and development of new ones; considers new product strategy, concept generation and screening, launch and post-launch controls, and abandonment. Prerequisite: SB 5210.

CSB 7200: Special Problems in Marketing. 3 credits
Independent-study course requiring pragmatic research. Prerequisite: permission of instructor.

MBA Program for Working Professionals
(Required for all MBA students)

CSB 8210: Marketing Management. 1.7 credits
From the perspective of the marketing manager, texts, readings, actual cases, and marketing-plan developments used by the student to approach problems of planning and competitive analysis, policies and strategies, decision making, and social responsibility in marketing. Producing an actual marketing plan.

Elective Courses (Four required for marketing area of concentration in the MBA Program. Open to other MBA students as electives)

CSB 8212: Advertising and Promotion Management. 1.7 credits
Focus on building advertising campaigns in a global setting that reflect integration of advertising management philosophy and current industry trends. Development and execution of a comprehensive advertising campaign reflecting a comprehensive plan of personnel organization, creativity, media, research, budget, coordination is required. Prerequisite: SB 5210.
CSB 8230: Consumer Behavior. 1.7 credits
Treatment of consumer buying behavior as a decision-making process involving perceptions, attitudes and behavioral characteristics; by understanding the buyer's environment, shows how marketing effort may influence and alter purchase behavior.

CSB 8261: Global Marketing. 1.7 credits
From the standpoint of international managers, texts, cases, and research papers used to present the international process of planning and executing marketing programs worldwide. International trade theories are critically examined. Digitization ethical, and environmental emphases.

CSB 8262: Sales Strategy. 1.7 credits
 Covers recruiting, training, motivating, compensating and evaluating sales personnel; it reflects target marketing to territorial allocations, control functions, setting of personal sales targets, and feedback process.

CSB 8251: Brand and Product Management. 1.7 credits
Study of management of existing products and development of new ones; considers new product strategy, concept generation and screening, launch and post-launch controls, and abandonment.

SCHOOL OF EDUCATION

OFFICE OF THE DEAN
Clement Hall, Room 208
Telephone: 404-880-8505

SCHOOL HISTORY
The Graduate School of Education of Clark Atlanta University, established in 1944, provides educational study and advanced learning in three areas of professional practice: counseling, exceptional education and psychological studies, educational leadership, and curriculum. For more than half a century, commitment to the development of professional leadership has been a central and motivating focal point. The first professional degrees were granted in 1945 when 13 Master of Arts and 32 Master of Education degrees were conferred. Since that time, societal changes, greater demands for competent leadership, and expanding educational horizons have compelled a continuous reassessment of purposes.

The mission of the School of Education is: to serve urban schools and communities and to improve learning for P-12 students by preparing graduates who are critical thinking change agents, conducting research on critical educational issues, and providing service to African-Americans and members of other historically excluded groups.

PROGRAMS OF STUDY
The School of Education offers programs of study leading to the degree of Master of Arts through its three departments: Counseling, Exceptional Education and Psychological Studies, Curriculum, and Educational Leadership. The Master's of Arts in Teaching (M.A.T) is also offered in the Curriculum Department. The Specialist and Education Doctorate degrees are offered only in the Department of Educational Leadership.

Degree candidates may study in any of the following fields: Administration and Supervision, Counseling, Early Childhood Education, Middle Grades Education, Secondary Education (English, Mathematics, Broad Field Science, Broad Field Social Science and Exceptional Student Education) and the following P-12 Programs (French, Spanish, Music, Health and Physical Education). Specific course information for each Program may be obtained from the Department chairs. The school occasionally may suspend admission to certain programs. Applicants should check with the Dean for the status of programs.

ADMISSION REQUIREMENTS
Applicants must meet the general requirements of the University, the School requirements which follow, and requirements of the individual Departments as outlined in the appropriate sections of the catalog.
Students who do not register every semester during their course of study will have to reapply to the University for admission.

**MASTER'S DEGREE**

Unconditional admission is granted to students who
1. hold an undergraduate degree from an accredited institution,
2. have a minimum GPA of 2.6 on undergraduate work,
3. present a minimum composite score of 650 on any two of the three papers of the General Test of the Graduate Record Examination, and
4. offer an undergraduate record showing sufficient preparation in general studies and a major which is supportive of the Program area of application.

**SPECIALIST IN EDUCATION DEGREE**

Applicants seeking admission to the Education Specialist Program must meet the following criteria:
1. hold a master's degree from an accredited institution of higher education,
2. have earned at least a 3.0 GPA in the most recently completed degree program,
3. present a minimum composite score of at least 700 on any two papers of the GRE General Test,
4. hold fifth-year certification in the program area of application,
5. have at least three years of successful school experience, and
6. show evidence of leadership potential.

**DOCTORAL DEGREE**

Applicants seeking admission to the Doctorate of Education Program must meet the following criteria:
1. hold an approved master’s degree from an accredited institution of higher education.
2. have earned at least a 3.0 GPA on the most recently completed degree program.
3. have an undergraduate record showing sufficient preparation in general studies and a major supportive of the program area of application.
4. present a minimum composite score of at least 750 on any two papers of the GRE General Test.
5. show evidence of leadership potential.

All applications must be accompanied by a Statement of Intent, a resume, and three recommendations (two from present or former professors in the candidate’s last degree program and one from a supervisor in the applicant’s professional field), as well as transcripts and test reports.

**Requirements for Special Students**

Special students must satisfy the requirements established by the special programs in which they register. This includes requirements for admission, participation, completion of programs, and fees. Special students interested in meeting state certification requirements must complete a planned program for certification in the program area and pass Praxis I and/or II (as required by program area). Students may not transfer more than twelve (12) semester hours completed in a nondegree program to a degree program.

**GENERAL PROGRAM REQUIREMENTS**

All students in Master’s degree programs must satisfy the communications skills requirements in their first semester of matriculation. Students must register for SED 500: Communications Skills, to satisfy this requirement.

**SED 500: Communications Skills.** Each Semester, 0 credits

Students receive analysis of their reading and writing skills; identification of problem areas, practice in improvement in problem areas, tutoring in general test-taking skills. The communication skills exam is administered once in the fall semester and once in the spring semester. Successful students are exempted from the remainder of the course.

All Master’s degree students in the School of Education must take and pass the prescribed communications skills examination as a requirement for graduation unless exempted from the exam per the requirements listed in the School of Education Policy Manual.

**Advanced Programs**

**Master’s Degree Requirements for Candidacy**

Minimum requirements for admission to candidacy in the master’s degree program are listed below:

1. Completion of departmental credit hour requirements as described in planned programs and departmental manuals.
2. Satisfactory completion of all communications skills requirements.
3. Satisfactory completion of the comprehensive examination.

**Specialist in Education Degree**

Minimum requirements for admission to candidacy in the specialist degree program are listed below:
Doctoral Degree

Minimum requirements for admission to candidacy in the doctoral degree program are listed below:

1. Satisfactory completion of a minimum of 80 percent of the approved program of study for the degree.
2. Demonstrated competence in the use of research tools as required by the department.
3. Satisfactory completion of the comprehensive examination.
4. Submission and successful defense of a proposal for dissertation research.

ADVANCED DEGREE REQUIREMENTS

Master's Degree Requirements

To meet requirements for the completion of the master's degree, candidates must:

1. Satisfactory completion of an approved program of study of at least thirty (30) semester hours. Some programs may require more.
2. Maintain a grade point average of 3.0 on all graduate work attempted, as well as in the field of specialization.
3. Complete all program requirements within five (5) calendar years of the date of initial enrollment.

Specialist Degree Requirements

Minimum requirements for the completion of the Education Specialist degree are:

1. Satisfactory completion of an approved program of study of at least thirty (30) semester hours.
2. Maintain a grade point average of 3.0 on all graduate work attempted, as well as in the field of specialization.
3. Completion of all degree requirements within five (5) calendar years of the date of initial enrollment.

Doctoral Degree Requirements

Minimum requirements for the completion of the doctoral degree are:

1. Satisfactory completion of an approved program of study of at least sixty (60) Graduate semester hours (at least two thirds of which have been earned at CAU).
2. Maintain a grade point average of 3.0 on all graduate work attempted, including the field of specialization.
3. Completion of an approved residency as defined in the University's most recent Graduate Catalog.
4. Completion of all degree requirements within five years of admission to candidacy and within ten (10) years of the initial date of enrollment.

TRANSFER CREDITS

Master's degree program may accept up to one-fourth of the maximum required semester hours in a given program; however, individual schools or departments may have additional limitations. Transfer credit is accepted at the discretion of the department chair. Credits can be no older than five (5) years at the time of admission to the degree program. At the specialist and doctoral levels up to six semester hours may be accepted into the degree programs.

COURSE LOAD REGULATIONS

No student may enroll in more than nine (9) graduate hours per semester without approval of the Department chairperson and the Dean.

COUNSELING, EXCEPTIONAL EDUCATION AND PSYCHOLOGICAL STUDIES

Clement Hall, Room 301
Telephone: 404-880-8516/404-880-8508

The Department of Counseling, Exceptional Education and Psychological Studies offers programs leading to Master of Arts degrees in School Counseling, Community Counseling, and Interrelated Special Education.

The curricula of the department are designed to develop competency in teaching and counseling, stimulate original research, and serve the educational enterprise with creative scholarship and effective practice.

ACADEMIC DEGREES

School Counseling and Community Counseling Programs

Admission Requirements
Exceptional Student Education Programs

Programs in Exceptional Student Education are offered for the Master of Arts degree in Interrelated Special Education and for post-baccalaureate certification in learning disabilities, behavior disorders, and mental retardation/intellectual disabilities. Also, endorsements are offered in several program areas.

Master of Arts in Interrelated Special Education

The Master of Arts degree in Interrelated Special Education is designed to prepare students for school counseling positions in public or private elementary, middle, or secondary schools. At the completion of the program, graduates are eligible for State of Georgia Certification in School Counseling. The curriculum of this program meets the standards of preparation as set forth by the Professional Standards Commission-State of Georgia (PSC) and the National Council for Accreditation of Teacher Education (NCATE).

Degree Requirements

1. Minimum of 48 semester credit hours, including 100 clock hours of practicum and 600 clock hours of internship experience in a school setting;
2. Grade of B or better in all core courses;
3. Minimum cumulative GPA of 3.0;
4. Satisfactory completion of the Communications Skills requirement; and
5. Satisfactory completion of the departmental Comprehensive Examination.

Master of Arts in Community Counseling

The Master of Arts degree in Community Counseling is designed to prepare students for professional counseling positions in a variety of community settings, including community mental health agencies, mental health hospitals, juvenile justice agencies, and substance abuse treatment facilities. The curriculum of this program is aligned with the basic requirements for licensure as a Professional Counselor in Georgia and qualifies graduates to take the National Board of Certified Counselor’s Examination.

Degree Requirements

1. Minimum 48 semester credit hours, including 100 clock hours of practicum and 600 clock hours of internship experience in a community setting;
2. Grade B or better in all core courses;
3. Minimum cumulative GPA of 3.0;
4. Satisfactory completion of the Communications Skills requirement; and
5. Satisfactory completion of the Comprehensive Examination.

Course Descriptions: Counseling and Psychological Studies

Note: The Department of Counseling, Exceptional Education, and Psychological Studies is responsible for the following undergraduate service courses: CCPS 301 and CCPS 398.

CCPS 301: Educational Psychology. Fall, Spring, 3 credits

An examination of the biological, social, cultural, cognitive, and psychological factors that influence adolescent growth and development.

CCPS 398: Adolescent Psychology. Fall, 3 credits
CCPS 501: Introduction to Counseling. Fall, Spring, 3 credits
Provides a philosophical orientation to the counseling profession. Addresses the characteristics of effective counselors, nature of the therapeutic relationship, and processes of counseling. Activities are both didactic and experiential in nature.

CCPS 502: Helping Relationship Skills. Spring, 3 credits
Provides a broad understanding of the philosophic foundations of the helping processes necessary for building therapeutic relationships, including cross-cultural counseling theories and their applications. Students will develop intrapersonal and interpersonal relationships through practice as well as counseling skills and techniques essential for fostering effective helping relationships. Prerequisite: CCPS 501 and CCPS 504.

CCPS 503: Human Growth and Development. Fall, Spring, 3 credits
Provides an overview of the biological, psychosocial, and cognitive aspects of human growth and development across the life span.

CCPS 504: Theories of Counseling. Fall, 3 credits
Examines major theories of counseling with respect to the major assumptions and the therapeutic relationship. Emphasis on points of convergence and divergence, strength and weakness, as well as the applicability of theories to all populations. Prerequisite: CCPS 501.

CCPS 505: Group Counseling. Fall, 3 credits
Examines the meaning, function, types, and principles of the group approach to counseling, including the dynamics of group interaction, leadership, role-playing, personal development in groups, and the influences of the group processes on individual development. Prerequisites: CCPS 501, 502

CCPS 506: Career Counseling. Spring, 3 credits
Trains students to obtain, organize, integrate, utilize and evaluate the relevance, quality, and reliability of educational and occupational information. Prerequisite: CCPS 501.

CCPS 507: Research and Measurement. Fall, Spring, 3 credits
Covers the fundamentals of the research tools employed by scholars when they conduct education research. Subject matter includes library resources, types of research, review of research methodologies, measurement instruments, data collection and analysis procedures, proposal preparation and report writing.

CCPS 508: Individual and Group Appraisal. Spring, Summer, 3 credits
Provides a broad understanding of group and individual educational and psychometric theories and approaches to appraisal, data and information gathering methods, validity and reliability, psychometric statistics, factors influencing appraisals, and the use of appraisal results in counseling and consulting.

CCPS 509: Counseling Diverse Populations. Fall, 3 credits
Examines the psychological, sociological, and anthropological principles and research in the understanding of cultural diversity in American society. Emphasis is on knowledge, skills, and self-awareness of the counselor in providing mental health services to a diverse population.

CCPS 510: Professional, Ethical and Legal Applications. Fall, 3 credits
Emphasis on professional, ethical and legal issues associated with human services. Analyzes the function of ethics in the profession and the study of legal rights, duties, and liabilities of human service practitioners. Prerequisite: 501.

CCPS 512 Behavioral Statistics. Spring, 3 credits
Emphasizes use of statistical techniques to describe, compare and predict probable trends in large and small samplings of data.

CCPS 520: Organization and Administration of Guidance and Counseling Services. Fall, Spring, 3 credits
Focuses on the role of the school counselor in the development, implementation, and evaluation of a comprehensive developmental guidance program, as well as the counselor’s involvement in leadership within the school setting with respect to the school’s curriculum, system goals, and equity issues. Prerequisites: 501, 502, 503, 504, 505, and 506.

CCPS 521: Elementary/Middle School Counseling. Fall, 3 credits
Focuses on counseling theory and practice; developing, implementing, and evaluating guidance and counseling services; the referral process; developing, implementing, and evaluating intervention strategies; and parental involvement and other community resources related to the academic success of elementary and middle school learners. Prerequisites: 501, 502, 503, 504, 505, and 506.

CCPS 522 Secondary School Counseling. Spring, 3 credits
Focuses on counseling theory and practice; developing, implementing, and evaluating guidance and counseling services; the referral process; developing, implementing, and evaluating intervention strategies; and parental involvement and other community resources related to the academic success of secondary school learners. Prerequisites: 501, 502, 503, 504, 505, and 506.

CCPS 530: Community Counseling. Fall, 3 credits
Provides a theoretical framework that focuses on meeting the counseling needs of identified target populations in a programmatic fashion. Prevention, crisis intervention, consultation and community-based interventions will be presented as well as needs assessments, goal formulation, intervention design and program evaluation. Prerequisites: 501, 502, 503, 504, 505 and 506
CCPS 532: Counseling Couples and Families. Fall, 3 credits
An advanced counseling course designed to increase knowledge of family systems, theory, and structure in order to effectively assess, conceptualize and treat family issues. Prerequisites: 501, 502, 503, 504, 505 and 506

CCPS 533: Counseling Children and Adolescents. Spring, 3 credits
Provides an overview of childhood and adolescent development from various theoretical perspectives, as well as the assessment and treatment of emotional disorders prominent in childhood and adolescence.

CCPS 535: Abnormal Psychology and Diagnostic Systems. Fall, 3 credits
Provides an overview of abnormal psychology and trains students to assess psychological conditions according to the Diagnostic and Statistical Manual of Mental Disorders.

CCPS 537: Employee Assistance Program Counseling. Summer, 3 credits
Focuses on the role and function of counselors in the workplace in providing helping services for employees and their families.

CCPS 540: School Counseling Internship I. Fall, Spring, 3 credits
Supervised field placement of students. Prerequisites: 520, 521, 522

CCPS 541: School Counseling Internship II. Fall, Spring, 3 credits
Continuation of supervised field placement. Prerequisite: 540.

CCPS 542: Community Counseling Internship I. Fall, Spring, 3 credits
Supervised field placement of students. Prerequisite: 530

CCPS 543: Community Counseling Internship II. Fall, Spring, 3 credits
Continuation of supervised field placement. Prerequisite: 543.

CCPS 585: Thesis. Fall, Spring, 3 credits
Research-oriented project for students electing to write a thesis. Prerequisite: Approval of department chairperson.

CCPS 590: Master's Advisement. Fall, Spring, 1 credit
Maintains status of students for preparation and administration of comprehensive examination. Prerequisite: Approval of department chairperson.

CCPS 677: Independent Study in Counseling. Fall, Spring 1 credit
Independent study of a specific topic of interest to the student in the area of counseling under the guidance of a departmental faculty member. Prerequisite: Approval of both the faculty member and the department chairperson.

Exceptional Education

COURSE DESCRIPTIONS

CEDS 425: Introduction to Exceptional Education. Spring, Summer, Fall, 3 credits
This course is designed to introduce undergraduate students to problems of children with intellectual, physical disabilities or emotional limitations and to diverse programs to meet their needs. Emphasis is given to definitions and characteristics of exceptional children and youth with particular attention to the educational service delivery systems that infuse technology designed to meet the special learning needs of exceptional children. Special permission is required to take a distance learning course.

CEDS 571: Nature and Characteristics of Preschool Children with Disabilities. Summer Workshop, 3 credits
The content of this course includes the following: Nature and characteristics of preschool children with disabilities, working with families in culturally diverse environments providing parent training, consolation, collaboration, and communication, etc., with other professionals and agencies. Prerequisites: CEDS 580, 578, 579, or equivalent certification in Early Childhood Education/Elementary Education.
CEDS 572: Curriculum and Methods of Teaching Children with Preschool Disabilities.  
Summer Workshop, 3 credits
Innovated curricula, technologies and appropriate instructional planning of pre-school children with disabilities, behavior management, assessment, intervention strategies for children 0-5 years and program evaluation. Prerequisite: CEDS 578, 579, 580 or prior teaching experiences.

CEDS 573: Internship in Preschool Disabilities.  
Summer (150 Contact Hours), 3 credits
Directed observation and participation with young children in PK-primary programs. Course may be repeated (3-6 semester hours). Completion of CEDS 571/572 (Students must register for their area of concentration plus weekly seminar CEDS 606.)

CEDS 575: Student Teaching in Exceptional Education.  
Spring, Summer, Fall (9 weeks field experience, 360 clock hours), 9 credits
Provides competence and performance-based experience in working with children and youth with disabilities in an approved exceptional education site. This course, or its equivalent, is required of all students seeking degrees and/or endorsements. This is the initial field experience in exceptional education. Prerequisites: satisfactory completion of all prerequisite course work (Students must register for their area of concentration plus weekly seminar CEDS 606.)

CEDS 576: Cultural Diversity.  
Spring, 3 credits
Focuses on issues pertinent to cultural diversity (race, ethnicity, gender, religion, etc.) and the ramifications of diversity for education.

CEDS 578: Behavior Management.  
Spring, Summer, 3 credits
Studies treatment of behavior problems related to adjustment and instructional management of children and youth in home, school, and community settings.

CEDS 579: Psycho-Educational Evaluation.  
Fall, 3 credits
Examines issues (nonbiased assessment, reliability, validity, etc.) related to the assessment of individuals with disabilities. Students will also conduct assessments of students with learning difficulties.

CEDS 580: Psychology of Exceptional Children.  
Spring, Summer, Fall, 3 credits
Studies characteristics, development, and education of exceptional children.

Summer, Fall, 3 credits
Considers types, nature and causes of intellectual disabilities; examines the educational and psychological implications of the intellectually disabled and the impact on the family. Prerequisites: CEDS 578, 579 and 580.

CEDS 582: Methods and Materials for the Intellectually Disabled.  
Summer, Fall, 3 credits
Studies acquisition of skills in the identification, selection and preparation of materials for teaching intellectually disabled children review, demonstration and preparation of programs and examines appropriate curriculum content for Pre-K-12/Adulthood. Prerequisites: CEDS 578, 579, 580 and 581.

CEDS 583: Career and Vocational Assessment.  
Spring, 3 credits
Examines and utilizes specific career and vocational assessment techniques with individuals and groups. Examines tests for assessing job and career preferences of exceptional students as related to IDEA, ADA, transition to adulthood, and collaboration.

CEDS 584: Diagnosis and Assessment in Exceptional Education.  
Spring, 3 credits
Provides a review of a variety of assessment techniques and standardized evaluation tools for program planning purposes and applied 20th-century approaches. Examines and utilizes specific Diagnostic/Remedial and Writing education evaluations techniques with individuals and groups. Prerequisites: CEDS 580 (one Nature and one Methods course or provisional certification).

CEDS 585: Development Problems in Speech and Language.  
Spring, 3 credits
Studies the nature and causes of deviations from normal speech and language development. Provides instruction and demonstration in area of speech and language instruction for children/youth with disabilities.

CEDS 586: Practicum for Teachers of the Intellectually Disabled.  
Fall (160 clock hours, 8-week field experience), 3 credits
Supervised teaching experience with intellectually disabled. Prerequisite: CEDS 579, 580, 581 and 582 (Students must register for their area of concentration plus weekly seminar CEDS 606.)

CEDS 587: Methods, Materials and Curriculum for Learning Disabilities.  
Summer, (workshop), Fall, 3 credits
Provides experiences in developing, selecting, and evaluating curriculum, methods and materials for children with learning disabilities.

Summer, Fall, 3 credits
Examines the possible etiologies, theories, and academic and social-emotional characteristics regarding individuals with learning disabilities.
CEDS 596: Practicum for Teachers of Children with Behavioral Disorders.  
**Fall (160-clock hours, 8-week field experience), 3 credits**  
Supervised practicum with children with emotional behavioral disorders.  
**Prerequisites:** CEDS 579, 580, 589 and 595. (Students must register for their area of concentration plus weekly seminar CEDS 606).

CEDS 597: Internship for Teachers of Children with Behavioral Disorders.  
**Spring, Summer (400-clock hours, 10-week field experience), 3 credits**  
Supervised internship in programs for children with behavioral disorders.  
**Prerequisites:** CEDS 579, 580, 595 and 596. (See Handbook.) Emphasis on accountability/competence and performance based education. (Students must register for their area of concentration plus weekly seminar CEDS 606).

CEDS 598: Methods, Material and Curriculum for Behavioral Disorders.  
**Summer, Fall, 3 credits**  
Provides experience in developing, analyzing, evaluating, and implementing methods and materials used with students diagnosed as Behavioral Disorders.  
**Prerequisites:** CEDS 601 (Summer Workshop/Staff Development Workshop).

CEDS 599: Internship for Teachers of the Intellectually Disabled.  
**Fall (400-clock hours, 10-week field experience), 3 credits**  
Supervised internship in programs for students with intellectual disabilities (MID, MOID, SID, PID)  
**Prerequisites:** CEDS 579, 580, 581, 582 and 589. (Students must register for their area of concentration plus weekly seminar CEDS 606.) (See Handbook.)

CEDS 600: Curriculum for Exceptional Children.  
**Spring, 3 credits**  
Experiences in evaluating curriculum for exceptional children, with an emphasis on examining effective teaching strategies and materials for use in the inclusive classroom.

**Summer, 3 credits**  
Provides understanding of the psychology and characteristics of the gifted; also provides understanding of the gifted who are culturally different or atypically handicapped within the overview of exceptionality (Summer Workshop or Staff Development Workshop).

CEDS 602: Curriculum and Methods of Teaching the Gifted.  
**Summer Workshop, 3 credits**  
Provides experiences in developing, analyzing and evaluating the curriculum, methods and materials used with the gifted.  
**Prerequisites:** CEDS 601 (Summer Workshop/Staff Development Workshop).
CEDS 603: Practicum for Teachers of Gifted Children and Youth.  
**Summer Workshop, 3 credits**
Supervised practicum with gifted children emphasizing identification, testing and writing prescriptive programs for the gifted. **Prerequisites:** CEDS 601 and 602.

CEDS 604: Internship for Teachers of Gifted Education.  
**Summer Workshop, 3 credits**
Supervised teaching experience with gifted children. **Prerequisites:** CEDS 601, 602 and 603.

CEDS 605: Diagnostic Reading for Teaching Reading.  
**Summer, Fall, 3 credits**
Principles, strategies, causes and methods of teaching and diagnosis of reading problems/difficulties for exceptional students (K-12). Provides a balance between inclusive theories and practices. Satisfies Georgia special requirements. **Prerequisites:** CEDS 578, 579, and 580.

CEDS 606 Seminar for All Students Enrolled in Practicum, Internship and Student Teaching.  
**Spring, Summer, Fall, 0 credits**
Students discuss issues, trends and challenges related to teaching exceptional students. Emphasis is placed on the application and comparison of theory with actual field experiences at various levels.

CEDS 637: Current Issues and Trends in Exceptional Education.  
**Fall, 3 credits**
Reports and analyzes literature and research in exceptional education; application and comparison of theory with actual field experiences and selected topics in exceptional education.

CEDS 639: Organization, Administration and Supervision of Exceptional Classes.  
**Spring, 3 credits**
Explores establishing and maintaining exceptional education programs from a problem-solving and analysis viewpoint; advanced seminar for school personnel with emphasis on instructional and organization techniques for the 21st century.

CEDS 642: Career Development for Exceptional Children and Youth.  
**Spring, 3 credits**
Studies career programs and transitional issues for individuals with disabilities.

CEDS 643: Counseling Families of Exceptional Children and Youth.  
**Spring, 3 credits**
Examines collaborative counseling role of special educators and the techniques for facilitating intellectual, emotional and social growth of individuals with disabilities.

CEDS 666: Thesis/Project Writing.  
**Summer, Fall, 1 or 3 credits**
Preparation and presentation of the thesis outline and completion of a thesis or project under the supervision of a faculty advisor.

CEDS 667: Thesis Advisement/Project Writing.  
**Summer, Fall, Spring, 1 or 3 credits**
Prerequisites: CEDS 666 and satisfactory completion of the comprehensive examination (may be repeated).

CEDS 677: Independent Study.  
**Spring, Summer, Fall, 1 or 3 credits**
Independent research under the direction of an advisor; advanced registration only with Departmental approval in an identified course of study (may be repeated only twice).

CEDS 694: Directed Research.  
**Spring, Summer, Fall, 1 or 3 credits**
Studies and projects solutions for major operational problems. Provides guidance in the preparation and completion of the proposal for the Ed.S. thesis or project. Students must propose, implement and infuse human technological changes. Students must adhere to APA standards and guidelines.

CEDS 695: Internship for Education Specialist in Exceptional Education.  
**Summer (150-clock hours), 3 credits**
Supervised internship to develop and strengthen competencies as supervisory personnel.

CEDS 698: Legislative and Legal Aspects in Exceptional Education.  
**Fall, 3 credits**
Examines legislation, federal regulations, constitutional law, and litigation which impact on the lives of individuals with disabilities.

**CURRICULUM DEPARTMENT**  
Clement Hall, Room 101  
Telephone: 404-880-6334  

(Effective Spring 2005 M.A. and M.A.T. programs are discontinued)

The Department of Curriculum offers graduate programs leading to the Master of Arts and the Master of Arts in Teaching degrees. Students should clarify their degree declaration with their faculty advisors. The Master of Arts in Teaching (M.A.T.) degree qualifies students for receiving teacher certification at the initial level. The Master of Arts (M.A.) degree is designed for the certified teacher or the education professional who is currently working in a setting that does not require state certification. Students in the M.A. program who wish to be certified may need additional courses and/or field experiences in order to become eligible for teacher certification by the state. And additional course work may be required for students whose academic preparation has been in an area different from the area in which the student is seeking the Master of Arts degree.
Letters of recommendation should be from a professor of the applicant’s most recent degree program, and a recent employer, or an alumnus of the program or from an education stakeholder. In addition, a statement of intent should indicate how the program will assist the applicant in meeting his/her professional goals.

Have earned a minimum 2.6 GPA on undergraduate work. Candidates may meet this requirement by taking one course at the graduate level in each of the following four areas: computer science, policy studies, information resources, and technical writing, and earn a cumulative GPA of 3.0. These courses may be taken at the undergraduate and/or the graduate level. If taken at the graduate level, where relevant to the graduate program, no more than two of these courses may be used to satisfy program requirements.

Present a minimum composite score of 650 on any two parts of the Graduate Record Exam (GRE) General Test.

Offer an undergraduate record showing sufficient preparation in general studies and a major supportive of the program area of application.

Document a personal background consistent with state certification requirements (those seeking certification).

**DEGREE REQUIREMENTS (Minimum of 30 hours for all degrees)**

Students seeking teacher certification must pass or be exempt from all relevant examinations required for certification by the state of Georgia, currently Praxis I and Praxis II. Because programs in the Department of Curriculum must be responsive to state certification requirements, students should contact the department to receive a copy of the most recent approved program.

**Completion of one of the following courses of study:**

The Master of Arts degree in Early Childhood Education enhances the teachers’ knowledge, skills and dispositions for teaching children in grades P-5. It is also designed for other professionals in education related fields.

The Master of Arts degree in Middle Grades Education is designed for individuals teaching grades 4-8. Teachers focus on at least two (2) areas of content for the middle grades from among science, mathematics, social studies, and language arts.

The Master of Arts degree in Secondary Education allows for special preparation in English, mathematics, science, and social sciences. Students are supported in their teaching at secondary (grades 7-12) or postsecondary levels.

**ADMISSION REQUIREMENTS**

Students must meet the general requirements of the University and the School of Education.

- All candidates admitted to advanced programs in the School of Education must hold an undergraduate degree from an accredited institution.

- Candidates must submit the application, undergraduate and graduate higher education transcripts, GRE test results, resume, three letters of recommendation, statement of intent.

- Candidates seeking initial teacher certification must pass or be exempt from Praxis I.

- These documents must reflect that the candidates possess high levels of intellectual functioning, effective communication skills, critical thinking proficiency, strong commitment to P-12 education, and dispositions supportive of multicultural education and learning in urban schools.

CEDC 571 Physics for Secondary School Teachers
CEDC 572 Chemistry for Secondary School Teachers
CEDC 573 Biology for Secondary School Teachers
CEDC 510 Earth Systems Science (3)
Two courses selected in the student's specialty area:
CBIO 506 Cell Biology (3)
CBIO 508 Developmental Biology (3)
CCHE 532 Organic Synthesis (3)
CCHE 551 Biochemistry (3)
CPHY 501 Classical Mechanics (3)
CPHY 503 Electrodynamics (3)
CCIS 500 Applications Software (3)
Any graduate level course selected in consultation with the student's advisor (3)

The Department of Curriculum also offers programs leading to certification, the postbaccalaureate certification program.

The Curriculum Department Postbaccalaureate Certification Program leads to eligibility for teacher certification by the State of Georgia. It does not lead to a degree. This program is designed specifically for those who already have an undergraduate degree. Students entering this program usually have a wide variety of undergraduate academic backgrounds. Some students already have most of the courses they need for eligibility for certification in the area in which they chose to teach, while others may have almost none. For this reason, each student's program is highly individualized and is determined in consultation with the Coordinator of the Program after admission.

Initial teacher certification programs are offered in the following areas:
- Early Childhood Education
- Middle Grades Education with a dual concentration in two of the following areas: Language Art, Science, Mathematics or Social Studies*
- Secondary Education with a concentration in English, Social Studies, Mathematics, and Science*
- P-12 Certification in the area of Health and Physical Education, Music and Foreign Language.*

Each program area is aligned with the course content program standards as articulated in the approved teacher education programs offered through the Department of Curriculum.

* Effective Spring 2005 these programs are discontinued.
ADMISSION REQUIREMENTS
Admission to the postbaccalaureate nondegree, certification program requires the following:

1. A baccalaureate degree from an accredited institution with a grade point average of not less than 2.5. Some programs may vary from this requirement in keeping with PSC guidelines.
2. Submission of official transcripts.
3. Submission of at least three letters of recommendation: One must be from a professor in the applicant's most recent degree program; the other should be from applicant's current or former supervisor or employer or from a program alumnus and/or community education stakeholder.
4. Submission of passing scores on the Praxis I test of basic skills. This requirement will be waived for applicants who meet the exemption criteria for Praxis I established by the Georgia Professional Standards Commission.
5. Completion of application package for admission to the University.
6. Resume and statement of intent.
7. Documentation of a personal background consistent with state certification requirements.

Program Planning. Postbaccalaureate students must meet all course and field experience requirements specified in particular teacher education programs. Even though they already have a bachelor's degree, students in postbaccalaureate programs may also be required to satisfy certain general education and/or subject matter major requirements—some of these requirements are deemed important by particular programs with the Department of Curriculum at Clark Atlanta University; others are deemed important by the Georgia Professional Standards Commission. Putting together a “Planned Program” also becomes the contract between the baccalaureate student and the Department.

Retention Criteria. Once admitted to a particular teacher education program, a postbaccalaureate student is expected to maintain a specified (3.00) grade point average. If a student’s GPA drops below this level, he or she may be denied enrollment to restricted courses until the GPA reaches the approved level.

COURSE DESCRIPTIONS

CEDC 501: Psychology of Early Childhood. Fall, 3 credits
Examines theories of behavior and development in young children.

CEDC 502: Curriculum Planning for Early Childhood Education. Fall, 3 credits
Curriculum development for preschool and primary grades. Attention given to the role of child development theories as a basis for curriculum planning.

CEDC 503: Methods of Teaching in Early Childhood. Spring, 3 credits
Exploration and demonstration of methods of teaching young children.

CEDC 504: Curriculum Planning for the Middle Grades. Fall, 3 credits
Explores basic principles and practices in curriculum planning and their application in the middle grades. CEDC 505 may be taken concurrently.

CEDC 505: Methods of Teaching in Middle Grades. Fall, 3 credits
Facilitates creative approaches to teaching in grades 4-8. Builds upon and extends middle level educators’ instructional knowledge and experiences to improve students’ learning in urban settings. CEDC 504 may be taken concurrently.

CEDC 506: Teaching Science: P-4. Fall, 3 credits
Explores the science curriculum and content, National Science Education Standards and instructional strategies appropriate for early childhood grades. Focuses on science process skills for the young child and on the major scientific concepts appropriate for this level. Laboratory and technology activities are included.

CEDC 507: Teaching Science: 4-8. Fall, 3 credits
Explores the science curriculum and content, National Science Education Standards and instructional strategies appropriate for development of scientific concepts and principles for children in the middle grades. Laboratory and technology activities are included.

CEDC 508: Physical Science for the Middle Grades. Fall, 3 credits
Advanced concepts about physical systems, atomic theory, periodicity, energy, electricity, heat, sound and light. Laboratory and technology activities are included.

CEDC 509: Biology for Middle Grades. Spring, 3 credits
Examines common topics at the advanced level for middle grades including living matter, genetics and heredity and evolution. Laboratory and technology experiences are included.

CEDC 510: Earth Systems Science. Spring, 3 credits
The study of earth systems and changes in relation to astronomy, physical geology, meteorology and oceanography. Laboratory and technology experiences are included.

CEDC 512: Teaching Mathematics: P-4. Fall, 3 credits
Study of the mathematics curriculum, techniques and resources for teaching mathematics in the early grades; focuses on readiness skills in number sense and structure, operations, estimation, computation, and equivalent representations.
analyzes research and theoretical frameworks upon which the concepts are based. Practices which support these concepts are observed and examined, and activities engaging students in the application of these practices are undertaken in the field. Corequisite: CEDC 530P.

CEDC 530P: Clinical Observation and Evaluation. Spring, 0 credits
Two hundred (200) hours clinical observations of instructional strategies as practiced in the field. Corequisite: CEDC 530.

CEDC 532: Trends, Issues and Approaches in Early Childhood Education. Fall, 3 credits
Takes reading/language arts content for early childhood and places it in a curriculum framework of developmentally appropriate teaching/learning activities for the young child. Assessment strategies recommended for determining young children's performance are explored. Corequisite: CEDC 532P.

CEDC 532P: Practicum in Pedagogy and Content. Fall, 0 credits
Two hundred (200) hours observing and assessing pedagogy and content in the Early Childhood classroom. Corequisite: CEDC 532.

CEDC 534: Critical Advanced Reading/Language Arts for Early Childhood. Fall, 3 credits
Focuses on content and concepts for reading and language arts P-5 emergent literacy; the comprehensive process in beginning reading; thinking and reading; vocabulary acquisition and word analysis strategies; and writing conventions, concepts and processes.

CEDC 535: Critical Advanced Integrated Science and Mathematics for Early Childhood. Fall, 3 credits
Effective instructional approaches and implementation strategies for the integration of elementary content standards that are culturally responsive and developmentally appropriate for the active involvement of elementary students in problem solving, mathematical reasoning, computation and communication. The course will present the integrated application of instructional strategies and technology that create and sustain successful learners.

CEDC 536: Capstone Content for Early Childhood Education. Fall, 3 credits
Student will participate in the advanced study of reading, math, science, social science, the arts, and physical education. A literature review and analysis of a selected philosophical or practical aspect of curriculum, assessment, or instructional technique relating to grades P-5 will be required. The relevant research in the capstone will be merged with the action research course. A videotape and computer-generated pictures that demonstrate the implementation of the action research may become a part of the portfolio to demonstrate the students’ understanding of the selected content area and problem.
CEDC 538: Trends and Issues in Middle and Secondary School Curriculum. Fall, 3 credits
This course is designed to explore the past decade of reform and major curricular dilemmas in middle and secondary education; the effects of ethnic and culturally diverse curriculum content on student achievement; and creating new curricular paradigms for high achievement for all developmental levels. Technology resources are used for research and documenting results. Corequisite: CEDC 538P.

CEDC 538P: Clinical Observation and Evaluation. Fall, 0 credits
Two hundred (200) hours observing and assessing instructional practices in Middle Grades and Secondary classrooms. Corequisite: CEDC 538.

CEDC 540: Integrated Language Arts/Reading and Social Studies for Middle Grades. Spring, 3 credits
An integrated multidisciplinary curriculum must be able to expand the learner’s potential for inquiry through a variety of sign systems such as languages, arts, music, dance, drama, architecture, etc., which humans created to mediate the world. The goal of this integration is to activate learners’ multiple intelligences and to make learners readers, critical thinkers, and problems solvers for the increasingly diverse multicultural society.

CEDC 546: Middle Grades Integrated Standards-Based Content Capstone Course. Spring, 3 credits
A study of middle-level content that focuses on a variety of models for integrating the curriculum. Emphasis will be placed on various models for integrating the curriculum in order to be responsive to the transitional needs of the early adolescent. Corequisite: CEDC 546.

CEDC 546P: Practicum. Spring, 3 credits
Two hundred (200) hours analyzing, evaluating, and reflecting on instructional practices in Middle Grades classrooms. Corequisite: CEDC 546P.

CEDC 551: Research, Design and Evaluation in Education. Spring, 3 credits
The introduction of concepts, ideas, methodology, and issues related to the research process. It will include both qualitative and quantitative research design and the evaluation processes in education (Web-enhanced).

CEDC 552: Action Research Seminar. Spring, 0 credits

CEDC 553: Educational Research Practitioner’s Paper. Fall, 3 credits
This course is the continuation of CEDC 552 Action Research Seminar. The Action Research Plan developed in EDC552 is implemented at the field school site, analyzed, and a publishable manuscript is written to be sent to a refereed educational journal. Analysis of the data collected through qualitative/quantitative measures is performed. An Action Research thesis is a requirement for fulfillment of this course.

CEDC 561: Secondary/Postsecondary Curriculum Planning. Spring, 3 credits
Presents tasks involved in design and implementation of curricula for the high school and postsecondary institutions.

CEDC 562: Methods of Teaching in the High School and College. Spring, 3 credits
Addresses major instructional approaches, techniques and strategies used in senior high school and college. Students apply these approaches in the respective content area.

CEDC 563: Social Science in the Secondary School and College. Fall, 3 credits
Focuses on the function of social science in secondary education and on methods and materials for teaching.

CEDC 564: English in the Secondary School and College. Spring, 3 credits
Involves study of the materials and modern methods in teaching English.

CEDC 567: Calculus for Secondary Schools. Spring, 3 credits
A comprehensive study of instructional strategies, materials, and modes for teaching/learning limits, differentiation, and integration. The focus is on instructional media and technologies for teaching concepts through real-world applications based on computer and calculator problem-solving platforms.

CEDC 568: Geometry for the Secondary School Teacher. Spring, 3 credits
Involves methods, materials, and technology for teaching Euclidean and Non-Euclidean geometry. Prerequisite: College algebra content knowledge or departmental approval.

CEDC 569: Mathematics in the Secondary School and College. Fall, 3 credits
Involves overall curriculum objectives, structure, and materials for mathematics in secondary schools and colleges; examines standards-based techniques for instruction, assessment and technology for teaching algebra, geometry, calculus, statistics and probability in diverse student environments. Prerequisite: Completion of all mathematics courses in the program or departmental approval.

CEDC 570: Science in the Secondary School and College. Fall, 3 credits
Examines standards-based science secondary and college level curriculum. Investigates philosophy, issues and trends in science education. Learning theories and methods are explored, as they relate to science teaching in biology, physics, chemistry and earth systems science. Technology activities are included.
CEDC 571: Physics for Secondary School Teachers. Fall, 3 credits
Focuses on the physics of real solids, liquids, surfaces, and classical mechanics. Laboratory experiences are included.

CEDC 572: Chemistry for Secondary School Teachers. Spring, 3 credits
Study of chemistry concepts, theories and principles at an advanced level appropriate for teaching Advanced Placement Chemistry. Lab and technology activities are included.

CEDC 573: Biology for Secondary School Teachers. Spring, 3 credits
Study of biological theories, principles and concepts at the advanced level appropriate for teaching Advanced Placement Biology; molecules and cells, heredity and evolution, organisms and populations. Laboratory, multimedia and other technology activities are included.

CEDC 574: Integrated Mathematics and Science Instruction Using Technology. Spring, 3 credits
The study of standards-based instructional approaches and materials for mathematics using concepts and principles in general science, biology, chemistry, and physics as the platform for teaching; incorporates the use of graphing calculators, personal computers, and access to the World Wide Web. Prerequisite: Completion of all mathematics and science courses.

CEDC 575: Integrated Mathematics and Science Instruction Using Technology. Spring, 3 credits
The study of standards-based instructional approaches and materials for mathematics using concepts and principles in general science, biology, chemistry, and physics as the platform for teaching; incorporates the use of graphing calculators, personal computers, and access to the World Wide Web. Prerequisite: Completion of all mathematics and science courses.

CEDC 576: Reading Instruction for Content Area Teachers. Spring, 3 credits
Focuses upon selection and application of appropriate reading skills to reading material used in content areas and considers techniques of evaluating comprehensibility and comprehension of materials used in school subjects.

CEDC 591: Internship – P-12 Education. Fall, Spring, Summer, 9 credits
Provides cooperative guidance and supervision by University and local educational agency personnel for students as they assume the responsibilities of instructor in an educational setting.

CEDC 595: Internship - Early Childhood Education. Fall, Spring, Summer, 9 credits
Provides cooperative guidance and supervision by University and local educational agency personnel for students as they assume the responsibilities of instructor in an educational setting.

CEDC 596: Internship - Middle Grade Education. Fall, Spring, Summer, 9 credits
Provides cooperative guidance and supervision by University and local educational agency personnel for students as they assume the responsibilities of instructor in an educational setting.

CEDC 597: Internship - Secondary Education. Fall, Spring, Summer, 9 credits
Provides cooperative guidance and supervision by University and local educational agency personnel for students as they assume the responsibilities of instructor in an educational setting.

CEDC 598: Independent Study. Fall, Spring, Summer, 3 credits
Directs student inquiry into theoretical and practical interests of students; contractual arrangement with professor. Prerequisite: Permission of professor.

CEDC 599: Thesis Writing. Fall, Spring, Summer, 3 credits
Directs student preparation and presentation of a thesis proposal and completion of a thesis.

EDUCATIONAL LEADERSHIP
Clement Hall, Room 201
Telephone: 404-880-6015

The Educational Leadership program at CAU enjoys a highly regarded tradition of preparing leaders for urban school systems and, in recent years, has been recognized as one of the leading programs for the awarding of doctorates in education to African-Americans. The mission of the Department of Educational Leadership is to prepare educational leaders as critical agents of social and educational change for the creation of a democratic and just urban society. Leadership roles
DEGREES OFFERED

The department offers graduate degree programs at the master’s, specialist and doctoral levels. In addition, nondegree programs for initial certification in educational leadership, instructional supervision, and special education administration are available.

Master of Arts Program. The master’s program is designed to provide basic preparation in administration and prepare students for initial certification. This program requires 30 semester hours for completion and provides an introductory foundation of prescribed courses.

Specialist in Education Program. The specialist program is designed to provide advanced training to instructional leaders at all levels. This program requires thirty (30) semester hours for completion and provides for application and synthesis of basic concepts in instructional leadership.

Doctorate in Education Program. This program requires a minimum of sixty (60) semester hours beyond the master’s in administration and supervision and emphasizes both theoretical studies and application. Fundamental to the aims of the doctorate is the development of skills in educational research, program evaluation and policy studies. An appropriate master’s degree is required for admission to this program.

CANDIDACY REQUIREMENTS FOR THE DOCTORAL DEGREE

A student is formally admitted to candidacy for the doctoral degree when all prerequisites are met. For admission to candidacy for the doctoral degree, students must demonstrate that:

At least, eighty (80) percent of approved course work has been completed with an overall GPA of at least 3.0;
Research skills requirements have been met;
Written comprehensive examination has been passed, and
A dissertation prospectus has been approved.

Degree Requirements

Master’s Degree
Satisfactory completion of an approved program of study of at least thirty (30) semester hours of course work.

Doctoral Degree
Satisfactory completion of an approved program of study of at least sixty (60) semester hours. A minimum grade point average of 3.0.

Satisfactory completion of a comprehensive examination. Candidate must be in good standing and must have completed a minimum of forty-eight (48) credit hours in order to qualify for the examination.

Certification. Students seeking certification must complete the graduate admissions application and fulfill requirements for admission to the master’s program. Certification in a teaching or service field is a prerequisite to admission. Students seeking certification must take the number of hours designated by certification requirements. The Department has three certification endorsement programs: Educational Leadership, Instructional Supervision and Director of Special Education. Courses completed for certification may not be applied to a degree in leadership.

Nondegree. Graduate students enrolled in other departments of the School of Education or other schools at the University must submit documentation verifying approval of the departmental academic advisor for pursuit of certification and/or cognate studies. These courses may not be applied to a degree in leadership.
ADMISSION REQUIREMENTS

Evidence of leadership potential as documented by resume, recommendations and statement of intent.

Letters of recommendation must be current and should be completed by recent supervisors and/or academic advisors. The statement of intent must provide responses to a series of questions about change agentry and urban schools.

CATALOG COURSE DESCRIPTIONS

CEDA 500: Introduction to Educational Administration and Supervision.
Surveys the field(s) of educational administration and supervision, introduces basic theories and principles of administration and supervision.

CEDA 510: Curriculum Planning for Educational Leaders.
Focuses on the comprehensive curriculum development process and emphasizes leadership skills required for implementation and evaluation of the curriculum. Field-based activities are integral parts of the course.

This course provides an overview of the school system business administration. The course helps the student of educational leadership in urban schools to explore and understand the issues of efficiency and equity in educational resources management.

CEDA 525: Technology and Information Systems.
Through this course, students will advance their knowledge of the personal computer and software utilization tailored for management of school data. Prerequisite: Computer Literacy.

CEDA 530: School/Community Relations.
Examines principles and practices for improving urban school and community relationships with emphasis on the local school site.

CEDA 535: Educational Policy and the Law.
Provides a comprehensive review of legal structures and foundations of the American public school system. Students will understand the policy context governing the administration of public schools.

CEDA 560: Practicum for the Master's Degree.
Provides opportunities at local school sites to synthesize and apply knowledge over two semesters in diverse educational settings. The field experience requires 218 contact hours including scheduled reflective seminars.

CEDA 590: Educational Tests and Measurements.
This course examines methods used to measure and evaluate student progress and how the information gathered through these processes can be used to inform decisions about students, programs and activities.

CEDA 599: Research for School Improvement.
This course will guide students through basic research skills needed to locate and evaluate educational research and the utilization of their skills to solve problems that arise in the school setting through the application of action research.

CEDA 600: Administration of the Urban School System.
Spring, Alternate Summers, 3 credits
Reviews contemporary administrative and organizational models at the system level in American public schools and considers their impact on urban school policies and practices.

CEDA 601: Strategic Planning for Systemic Reforms.
Fall, Alternate Summers, 3 credits
Introduces students to the concept of systemic school reform and the challenges facing educational change initiatives. Considers methods and issues of planning large school interventions.

CEDA 608: Macro Educational Planning.
Occasional, 3 credits
Explores application of planning models and instruments for development of system level facilities, services and programs.

CEDA 610: Administration and Supervision of the Instructional Program
Fall, Alternate Summers, 3 credits
Focuses on teaching/learning process and provides the administrator knowledge, skills and attitudes in supervising the curriculum and instructional program. A primary emphasis is on improvement of instruction in urban schools. Direct support of teacher, group development, professional development, curriculum development and action research will be emphasized.

CEDA 612: Student Personnel Administration.
Fall, Alternate Summers, 3 credits
Studies student personnel problems in public schools.

CEDA 614: Staff Personnel Administration.
Spring, Alternate Summers, 3 credits
Studies principles and practices needed in recruitment of personnel and maintenance of school personnel programs.

CEDA 620: Economics of Educational Equity.
Fall, Alternate Summers, 3 credits
Provides analysis of pervasive equity issues facing urban schools. In-depth consideration of economic and financial challenges of ensuring equity for all students.
CEDA 630: Community Educational Leadership.  
**Spring, Alternate Summers, 3 credits**
Introduces students to the theory and practice of community education and the role of education in urban community development.

CEDA 660: Advanced Practicum.  
**Fall, Spring, Summer, 3 credits**
Provides a variety of field-based experiences for education specialist and doctoral candidates over two semesters in diverse settings at school districts, state education departments or higher education. The field experience requires 218 contact hours including scheduled reflective seminars.

CEDA 690: Systematic Evaluation.  
**Fall, Alternate Summers, 3 credits**
Evaluates school-level organizational units and instructional programs through application of social system model of organization and planning instruments.

CEDA 699: Research Methods in Organizations.  
**Fall, Spring, 3 credits**
Examines methods of researching problems in organizations and develops instruments for measurement of variables in school organizations.

CEDA 709: Seminar in Strategic Leadership.  
**Spring, 3 credits**
Utilizing social systems theories, students will examine the issues of systemic change in educational organizations. They will review relevant literature, formulate research questions and design frameworks for interpretation and analysis.

CEDA 719: Seminar in Instructional Leadership.  
**Fall, 3 credits**
Students will examine school reform issues from the perspective of curriculum and instructional leadership. They will review relevant literature, formulate research questions and design frameworks for interpretation and analysis.

CEDA 729: Seminar in Organizational Leadership.  
**Fall, 3 credits**
Utilizing the perspective of transformational leadership, students will examine organizational behavior and the problems of organizational change. They will review relevant literature, formulate research questions and design frameworks for interpretation and analysis.

CEDA 730: Politics of Urban Education.  
**Fall, Alternate Summers, 3 credits**
Examines effects on educational policies of political behavior at national, state, local and institutional levels with particular focus on implications for urban schools.

CEDA 735: Educational Policy Analysis.  
**Spring, Alternate Summers, 3 credits**
Develops a framework for analysis and decision making in education policy, analyzes selected issues of current significance and introduces students to educational policy research methodology.

CEDA 739: Seminar in Political/Community Leadership.  
**Spring, 3 credits**
Analyzes issues of leadership and governance as they relate to the larger political, social and cultural context of urban schools. Students will review relevant literature, formulate research questions, and design frameworks for interpretation and analysis.

CEDA 790: Quantitative Research Methodology in Education.  
**Fall, 3 credits**
Students will learn how to construct a variety of quantitative research designs, identify and use appropriate statistical tools and techniques, analyze, interpret and report research results using narrative, tabular and graphic forms. Prerequisite: Computer Literacy.

CEDA 795: Qualitative Research Methodology in Education.  
**Spring, 3 credits**
Helps doctoral students to develop theoretical framework from which qualitative inquiry emerges. Aims, assumptions, methods and strategies of qualitative research are addressed.

CEDA 791: Directed Research.  
**Fall, Spring, Summer 3 credits**
Develops competencies in designing and developing research proposals. (Elective)

CEDA 990: Doctoral Advisement.  
**Fall, Spring, Summer, 3 credits**
Maintains status of students for preparation and writing comprehensive examination and/or prospectus or for making corrections of dissertation after final defense. Prerequisite: Approval of Department Chair.

CEDA 995: Dissertation Research.  
**Fall, Spring, Summers, 3 credits**
Provides guidance on research for and writing of the dissertation. Prerequisites: Satisfactory completion of all required courses and the comprehensive examinations. Minimum six (6) hours required.

CEDF 550: History of Urban Education.  
**Fall, Alternate Summers, 3 credits**
Through the disciplinary lens of history, the course reviews the major forces that have shaped, and continue to shape, the modern school system in the United States. Particular focus will be directed at the urban setting.

CEDF 553: Schooling and the Urban Community.  
This course seeks to cultivate and then encourage the utilization of a sociological lens to examine our urban societies, our communities and our schools.

CEDF 557: Education and Global Development.  
This course provides opportunities for educational leaders to understand the relationship between educational systems, economic and political structures.
CEDF 614: Futures Research and Educational Policy.
Examines the relationship between education and the social order from and through the perspective of futurism.

CEDF 653: Education for Social Development.
Explores effects of factors in education on social mobility, political value formation and social problems of youth. (IDH)

CEDF 654: Education and Urban Development.
Explores the social context of urban education, the development and expansion of concentrated poverty in central city schools, and the research on the relationship between poverty and educational performance. Students study coordinated services for children and families and models for institutional collaboration.

SCHOOL OF LIBRARY AND INFORMATION STUDIES
(ALL PROGRAMS IN THE SCHOOL OF LIBRARY AND INFORMATION STUDIES PHASED-OUT MAY 2005.)

OFFICE OF THE DEAN
Trevor Arnett Hall, Room 300
Telephone: 404-880-8697

The School of Library and Information Studies was established in 1941 primarily to prepare African-American librarians, but the School has always encouraged and enrolled students from all ethnic backgrounds. Its first Dean was Dr. Eliza Atkins Gleason, the first African American to earn a Ph.D. in Library Science. The School's program is the only one in the State of Georgia that is accredited by the American Library Association.

MISSION
The mission of the Clark Atlanta University School of Library and Information Studies is to continue its sixty-year history of educating library and information professionals who are culturally diverse and able to serve successfully in libraries and information centers throughout the world.

In order to achieve this mission, the School has established the following goals:

1. To maintain a planning process involving School, University and professional constituencies that is aimed at continuous assessment and refinement of the School's efforts to achieve its mission, goals, and objectives.
2. To identify, recruit and enroll a highly qualified and diverse group of students who possess the desire and potential for success in the library and information professions.
3. To provide a curriculum which includes basic knowledge of print and nonprint resources, fundamental management of various types of libraries and their mission, awareness of service needs of all segments of the society, and awareness of professional growth opportunities through continuing education, organizational affiliations, research, and scholarship.
4. To retain a competent and diverse Faculty who are excellent teachers and researchers, and whose commitment to service moves the School toward accomplishment of its objectives.
5. To provide and maintain both traditional and technologically advanced resources and facilities that support teaching, research and service activities within the School.
6. To maintain an administrative structure that is adequate in levels of competence and numbers to provide leadership that will enhance...
program development, establish fiscal policies and procedures that support program objectives, and maintain the School as an integral yet distinctive academic unit within the University.

Toward achievement of these goals, the following objectives have been established as educational results for graduates of the master’s degree program:

1. To maintain mechanisms which allow the School to plan and evaluate its programs on a continuous basis.
2. To maintain an administrative team that possesses the skills necessary to manage the School's fiscal and academic planning.
3. To graduate library and information professionals who, by their successful completion of the course of instruction, demonstrate the ability to work in the library and information profession.
4. To maintain support systems, facilities, and instructional resources which enhance each student's educational experience.
5. To maintain a faculty whose accomplishments in teaching, research and service reflect current trends in library and information studies and are consistent with the mission, goals and objectives of the University and the School.
6. To maintain a climate in which Faculty may participate fully in developing the intellectual content of the education program.
7. To produce graduates who understand current issues, trends and projections, technological advances, and the principles of research methods for design, implementation and analysis of data in library and information studies and other relevant fields.
8. To graduate professionals who understand the power of knowledge and the intellectual, cultural and philosophical foundations of libraries, school media and information centers, and the information needs of a rapidly changing multicultural, multiethnic and multilingual global society.
9. To instill in students an awareness of the importance of organizational affiliations, professional ethics, and the need for continuing education.
10. To produce graduates who demonstrate in-depth knowledge and understanding of philosophical and theoretical principles, functional areas, management and practices of libraries, school media and information centers.

**DEGREE PROGRAMS**

The School offers a Master of Science in Library Service degree and postmaster’s Specialist in Library Service degree.

**Admission Requirements for the Master’s Degree**

Graduates of colleges and universities accredited by a regional or general accrediting agency are eligible for admission. This degree program does not require prior undergraduate study in library/information studies. The School’s admission requirements for the master’s degree are:

1. A bachelor’s degree from an institution of approved standing.
2. Three recommendations, including references from former professors or employers, giving evidence of the applicant’s potential for pursuing graduate studies and a career in the library/information profession.
3. Minimum undergraduate grade point average of 2.5 on a 4.00 scale. For applications with grade point averages below 2.5, consideration for admission may be given to a higher grade point average in the undergraduate major, to a higher grade point average in graduate study, or to library/information center or related occupational experience.
4. A written statement of professional intent.
5. A minimum score of 500 on the Test of English as a Foreign Language (TOEFL) for international students.
6. An interview with applicants may be requested by the School.

At the time of application an applicant may request for transfer credit a maximum of six semester hours of graduate study previously earned in library/information studies. Graduate hours may be transferred only from a school of library/information studies whose program is accredited by the American Library Association. Transfer credits must conform to the requirements listed in this catalog under General Requirements for the Master’s Degree. Persons who already have earned a master’s or higher degree in other areas may request a reduction of not more than six hours in the thirty-six (36) hours required for the Master of Science in Library Service degree. In no instance will course reductions total more than six (6) credit hours, and all core/required courses must be completed.

Persons who desire to take courses for enrichment, for transfer, or for certification are admitted to the School of Library and Information Studies on a nondegree basis. Such students must apply and meet all the admission requirements before being accepted into the master’s degree program. Students in their junior and senior years in the undergraduate colleges within the Atlanta University Center may enroll in the 400-level courses in the master’s degree program with approval from the Office of the Dean of the School of Library and Information Studies and the Dean of Undergraduate Studies.

**REQUIREMENTS FOR THE MASTER’S DEGREE**

1. Completion of thirty-six (36) hours of course work approved by the Dean of the School of Library and Information Studies.
2. The residency requirement of the University must be met.
3. The Communications Skills requirement of the University must be met.
4. A thesis is optional and yields six (6) hours credit.
5. Knowledge of a modern foreign language, which may be met by one of the following:
   (a) Transcript evidence of six semester hours of college level work in a modern foreign language;
   (b) Passing a University noncredit course for graduate students in a modern foreign language;
   (c) Passing the University examination in a modern foreign language.
6. Students must file for candidacy no later than the third week of the semester or summer session in which they expect to complete the requirements for the degree. The Communications Skills and Foreign Language requirements must have been completed prior to the dates indicated in the University Calendar for filing for candidacy during any semester or summer session. Admission to candidacy is upon recommendation of the Dean of the School and the certification of the University Office of Records and Registration.

THE SPECIALIST DEGREE PROGRAM

The Specialist Degree Program is designed as a formal continuing education experience for persons who hold the master's degree in library/information studies. This sixth-year program, which is planned with students in terms of their individual career goals, provides opportunities for updating knowledge and skills, strengthening an area of specialization, and redirecting career goals in library and information services. Courses are selected and the research project is performed in consultation with a faculty advisor appointed by the Dean of the School.

ADMISSION REQUIREMENTS FOR THE SPECIALIST DEGREE

Admission requirements for the sixth-year Specialist degree Program are:

1. A master’s degree in librarianship from a library school whose program is accredited by the American Library Association.
2. A minimum grade point average of 3.00 on a 4.00 scale for graduate work in librarianship.
3. Three recommendations from Library School faculty and/or library/information center supervisors who are acquainted with the applicant's ability must be submitted.
4. At least three (3) years of professional library/information center experiences.

REQUIREMENTS FOR THE SPECIALIST DEGREE

1. Completion of thirty (30) hours beyond the master's degree in library/information studies distributed as follows:
   (a) Twelve (12) hours (four courses) in the School of Library and Information Studies;
   (b) Twelve (12) hours (four electives) selected from course offerings of the School of Library and Information Studies or any other school of the University;
   (c) Six (6) hours for completion of a research project.
2. An oral examination in defense of the research project.
3. The Communications Skills requirement of the University must be met.
4. Knowledge of a foreign language which may be met by one of the following:
   (a) Transcript evidence of six (6) hours of college level work in a foreign language;
   (b) Passing a University noncredit course for graduate students in a modern foreign language;
   (c) Passing the University examination in a modern foreign language.
5. Students must file for candidacy no later than the third week of the semester or summer session in which they expect to complete the requirements for the degree. The Communications Skills and Foreign Language requirements and the research project must have been completed prior to the dates indicated in the University Calendar for filing for candidacy during any semester or summer session. Admission to candidacy is upon recommendation of the Dean of the School and certification of the Office of Records and Registration. Student may complete the Specialist degree program in two years. All requirements for this degree must be satisfied within six (6) years of the date of matriculation in the Program.

FINANCIAL ASSISTANCE

The School of Library and Information Studies awards sponsored scholarships and fellowships to entering students based on three criteria: (1) demonstrated financial need; (2) previous academic performance; and (3) potential for success in graduate study and as a library/information professional. All applicants for financial assistance must complete a Departmental Financial Aid Application and the Free Application for Federal Student Aid (FAFSA) and have the results sent to the Financial Aid Office. In addition, applicants for School-based financial aid must submit a copy of the Student Aid Report (SAR) to the SLIS Office of the Dean.

SCHOLARSHIPS

The Virginia Lacy Jones Scholarship. The scholarship was established at the University in 1982 by friends and alumni in honor of Dr. Jones, Dean Emerita, who served as Dean of the School from 1945 to 1981. The $1000.00 scholarship may be awarded annually to a student in the master's degree program who exemplifies the high standards that Dr. Jones demonstrated during her 41 years as a faculty member and Dean. Specifically, the candidate must have been enrolled for at least one semester, successfully completing nine or more hours in this program and maintaining a grade point average of 3.60 or higher.
The H.W. Wilson Scholarship. This scholarship is donated by the H.W. Wilson publishing company on a rotational basis to library schools with master's degree programs accredited by the American Library Association.

The Mary Rayford Collins Library Service Scholarship. This scholarship was established at the University in 1983 by the family and friends of Mrs. Collins to contribute to the support of individuals from Mississippi who are interested in making a significant contribution to librarianship.

The Casper L. Jordan Scholarship. This scholarship was established in 1997 by friends and alumni in honor of Mr. Jordan who served as an Associate Professor in the School from 1968 to 1978. The amount of the scholarship may vary and is awarded to students in the master's degree program who have completed one semester of study and who are in good standing. Candidates for the scholarship must have a grade point average of 3.5 or higher.

The Hallie Beachem Brooks Memorial Fund Scholarship. This scholarship is offered periodically in honor of Hallie Beachem Brooks who served the School for more than four decades.

FELLOWSHIPS

The School of Library and Information Studies is allocated a limited number of fellowships which are awarded to students based on the criteria outlined for Scholarships. Applicants may be considered for these awards upon completion of the Departmental Financial Aid Application and the FAFSA.

ASSISTANTSHIPS

The School of Library and Information Studies offers a limited number of graduate assistantships to students in the program.

INTERNSHIPS

An important facet of education for the library/information profession is the opportunity to translate theoretical considerations into practical applications. To implement this objective, the School sponsors internships as an integral part of the master's degree program, offering three credit hours toward the degree. Past internships have been arranged with the Atlanta Public School System, the Coca-Cola Company, IBM, the Martin Luther King, Jr. Center for Nonviolent Social Change, the E.O. Lawrence Livermore Laboratory (Livermore, California), the Georgia Power Company, AT&T, Chrysler Corporation, Time, Inc., the Carter Presidential Library, CNN, the Salvation Army Officers Training School and Kennesaw State University Library. The School also promotes students’ participation in post-degree internships, such as those at the National Library of Medicine, the Library of Congress and the University of Michigan Residency Program, which are offered on a national competitive basis for one- or two-year periods following graduation from the master's degree program.

PLACEMENT

The School maintains a placement service for its graduates, aiding them in securing positions during their professional careers. The School receives a large number of job requests for its graduates from libraries and other information agencies throughout the country. The Placement Services of Clark Atlanta University are also available to students.

COURSE DESCRIPTIONS

SLIS 510: Libraries, Information and Society. 3 credits
This course serves as the introduction to the library/information profession. It examines objectives and principles of the profession; historical and future trends; ethical, technological, and social issues; and the functions of various types of libraries and information organizations. Core course.

SLIS 520: Collection Development and Management. 3 credits
Principles governing development and maintenance of collections of information resources; theoretical and practical bases for selecting and acquiring materials; retrospective, current and future selection tools; structure of the commercial and noncommercial publishing industry; copyright law; and intellectual freedom issues. Core course.

SLIS 521: Production of Instructional Media Materials. 3 credits
Emphasizes local production of instructional media materials; a “hands-on” laboratory course. This course is required for certification as a media specialist.

SLIS 522: Selection and Utilization of Educational Media. 3 credits
Identifies criteria and methods for the selection, utilization and evaluation of educational media materials. This course is required for certification as a media specialist.

SLIS 530: Organization of Information. 3 credits
Examines basic principles of bibliographic control of library/information records. In addition, it fosters an understanding of the function and formats of catalogs. Bibliographic utilities (e.g., OCLC and SOLINET), MARC, AACR2, DDC, Library of Congress Classification System and Library of Congress Subjects are also covered. Core course.

SLIS 540: Information Resources and Services. 3 credits
This course introduces students to the history, philosophy and development of reference services; evaluates print and electronic reference resources; and explores the functions of information services and the ways in which reference work is conducted. Core Course.

SLIS 640: Ethnic Materials for Children and Young People. 3 credits
Study and critical evaluation of literature for children and young adults rooted in the cultures of the Native Americans, Hispanic Americans, African-Americans, and the Asian Americans. Students develop skill in selecting and evaluating, and for using multicultural materials in both print and non-print formats. Prerequisite: SLIS 540 or 541.

SLIS 641: Online Resources and Services. 3 credits
Intensive study of concepts and techniques of professional literature searching; analysis of evaluation of computerized bibliographic files; planning and management of computerized search services in an information environment. Indexing, thesauri construction and retrieval effectiveness in relationship to user requirements are given special attention. Prerequisite: SLIS 440.

SLIS 642: Government Information Resources and Policy. 3 credits
Introduction to US Government information resources with particular emphasis on public access issues to print and electronic publications identification, acquisition, organization and use of government information resources. Consideration of selected information resources of state and international bodies such as United Nations (UN) and European Union (EU). Prerequisite: SLIS 440.

SLIS 643: Information Resources and Services for Afro-American Studies. 3 credits
Examines the specialized print and electronic resources and services that support research and study related to the black experience in the United States. Some attention is given to resources and services related to Blacks in other parts of the Western hemisphere. Prerequisite: SLIS 440.

SLIS 644: Information Resources in the Humanities. 3 credits
An inquiry into the scholarly communication system in the humanities. Study of the print and electronic resources in the fields of religion, philosophy, visual arts, music, and literature. Prerequisite: SLIS 440.

SLIS 645: Information Resources and Services in the Social Sciences. 3 credits
Examines print and electronic bibliographic and reference resources for the disciplines in the social sciences and the consideration of the role of library/information professionals in meeting the information needs of researchers and practitioners. Prerequisite: SLIS 440.

SLIS 646: Information Resources and Services in Science and Technology. 3 credits
Introduction to information resources and services in science and technology, including primary and secondary publications, electronic databases, user needs and communication patterns within the scientific community. Prerequisite: SLIS 440.

SLIS 647: Law Librarianship. 3 credits
Introduction to the profession of law librarianship; the print and electronic source materials of the law with emphasis on primary authority, indexes and finding aids which are used in the legal profession. Prerequisite: SLIS 440.

SLIS 648: Information Resources and Services in Business. 3 credits
Objectives include an understanding of key business concepts and the resources that support business research in academic, corporate and public library environments; experience with electronic information from commercial services and free bed sites; awareness of trends in business service delivery. Prerequisite: SLIS 440.

SLIS 649: Information Resources and Services in Health Sciences. 3 credits
Introduces medical librarianship as a profession and examines the use and application of medical reference tools and modern access systems. Analysis of medical literature, retrieval systems and centers, and remote bibliographic sources through interactive terminals are studied. Prerequisite: SLIS 440.

SLIS 661: Archival Management. 3 credits
Introduction to basic principles and techniques of the management of archival materials and repositories; includes the historical development of archival institutions. Prerequisite: SLIS 410, or approval of instructor.

SLIS 663: School Media System Supervision. 3 credits
Introduces students to the leadership and management concepts, skills, and strategies required for this position and examines and evaluates the structure, services, and functions of school media system supervision and its relationship to the school system organization. Prerequisite: SLIS 463.

SLIS 670: Advanced Topic in Library and Information Technology. 3 credits
This course provides the student with in-depth exposure to concepts and issues related to the application of computer technology to library and information service above and beyond what is covered in SLIS 571. SLIS 670 addresses relational database concepts and design, the creation of database-driven WEB sites, and WEB-site management in the context of libraries. The class also reviews the digital library field and explores issues related to that arena (such as Dublin Core and other metadata topics, digital preservation, and digital rights management) from the perspectives of both creators and users.

SLIS 750: Directed Research. 3 credits
An approved systematic research project that is supervised by an SLIS faculty member. Required for the Specialist degree. Credit is awarded upon completion of the research project. Open to students pursuing the Specialist degree. Specialist Degree Students only.
Whitney M. Young, Jr., School of Social Work

Office of the Dean
Thayer Hall
Telephone: (404) 880-8548

The School of Social Work was founded in 1920 as the Atlanta School of Social Work, and incorporated under the laws of the State of Georgia in 1925. Membership in the American Association of Schools of Social Work was granted in 1928, making the School the first Historically Black School of Social Work to be accredited in the world, and the first School of Social Work in the State of Georgia. The School has maintained accreditation since 1928. In 1952, The American Association of Schools of Social Work changed its name to the Council on Social Work (CSWE). In addition to being accredited by the Council on Social Work Education the School, as a unit of the University, is also accredited by the Southern Association of Colleges and Schools. The Atlanta School of Social Work was incorporated with Atlanta University in 1947 and was named the Atlanta University School of Social Work. In 1988 when Clark College and Atlanta University consolidated, the School became Clark Atlanta University School of Social Work. The School celebrated its 80th year in October 2000 when it was re-named the Whitney M. Young, Jr., School of Social Work.

Mission

The mission of Whitney M. Young, Jr., School of Social Work is to advance the aims of the profession through education for excellence in social work practice. The School seeks to educate students to be creative, responsible social work professionals committed to the search for solutions to problems of poverty, social and economic injustice, sexism, racism, and other forms of oppression in society while preserving the heritage of African-American people. The School is committed to the core values of the profession, including the promotion of social justice; a responsibility to serve oppressed, at-risk members of society; a strong commitment to changing inequality and oppression based on race, gender, age, class, sexual orientation, and disability; appreciation of individual and cultural diversity; client rights to self-determination; the capacity of clients to grow and change; and the responsible application of professional values and ethics in practice. A liberal arts foundation provides the base upon which the professional self is shaped.

The School implements its educational mission through its baccalaureate, master's and doctoral degree programs, as well as through its program of continuing education. In support of the School's curriculum renewal and the development of the profession, the School maintains relationships of mutual respect with its alumni, affiliated agencies, other local, state and national agencies and professional organizations. The School's mission undergirds and reaffirms the mission of the University which is to preserve and disseminate the heritage of African-American people.

SLIS 780: Independent Study  3 credits
Independent study in a specialized area of librarianship by advanced students under the supervision of an SLIS faculty member. Prior approval by the advisor and the dean is required.

SLIS 781: Internship  3 credits
Seminar and practicum of supervised observation and practice in a library or information center. Students gain experience in a wide variety of functions. Students maintain journal of systematic observation and are assigned appropriate readings and other assignments. Prerequisite: Completion of core courses.

SLIS 782: Seminar  3 credits
An in-depth study of a current issue in the field of library and information science. The specific topic of each individual offering of SLIS 782 is announced prior to registration. Prerequisite(s) will be announced for each seminar.
American people and “the shaping of graduates who are productive, creative, socially and economically responsible citizens in a dynamic global society and who are themselves committed to the search for solutions to the problems of racism, sexism, age discrimination, economic deprivation, and other forms of oppression.”

The School’s mission is operationalized through the BSW goals cited in the Undergraduate Catalog, five Ph.D. program, and seven MSW program goals. The seven MSW program goals are to:

1. educate students for excellence in advanced clinical professional social work practice;
2. promote students’ capacities for critical thinking and self-reflection;
3. prepare students for practice with oppressed, at-risk, and diverse populations;
4. prepare students to evaluate, understand and apply research to social work practice;
5. educate students in the application of professional values and ethics to practice;
6. promote the ability to add to and disseminate social work knowledge for the profession; and
7. maintain collaborative relationships with other Clark Atlanta University schools, other institutions of higher education, affiliated agencies, other local, state and national organizations and professional associations in the interest of the School and the profession.

**MSW Program**

The MSW Program seeks to advance the aims of the profession through education for excellence in advanced clinical social work practice. The program offers two specializations: Child and Family and Health/Mental Health. The Child and Family Specialization has a Subspecialty in School Social Work. Both specializations utilize ecological and systems theories as a base and draw upon other theories, including developmental and life stage theories. Three major integrative themes undergird the curriculum: Afrocentric Perspective, Humanistic Values, and Autonomous Social Work Practice Roles. The MSW Program is offered in three plans of study:

<table>
<thead>
<tr>
<th>Plan of Study</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>The two-year, full-time Plan of Study</td>
<td>(59 Semester Credit Hours)</td>
</tr>
<tr>
<td>The three-year, part-time Plan of Study</td>
<td>(59 Semester Credit Hours)</td>
</tr>
<tr>
<td>The Advanced Standing Plan of Study</td>
<td>(38 Semester Credit Hours)</td>
</tr>
</tbody>
</table>

**Admission**

Applicants for admission to the two-year, full-time Plan of Study or the three-year, part-time Plan of Study must:

- be a graduate of an accredited four-year college or university;
- have a baccalaureate degree that reflects a broad liberal arts base to include:
  1. fifteen (15) semester credit hours in the social, behavioral or psychological sciences;
  2. three (3) semester credit hours in human biology;
  3. three (3) semester credit hours in the humanities or mathematics.
- have a GPA of 2.5 on a 4.0 scale based on official college or university transcript;
- submit an application to the University’s Office of Admissions no later than March 15 for enrollment in the beginning cycle of the two-year, full-time or three-year part-time Plan of Study, both of which start in August;
- submit three letters of recommendation;
- submit an autobiographical statement;
- submit Graduate Record Examination (GRE) Score which must have been received within the past five years; and
- pay a nonrefundable application fee.

Applicants seeking admission to the Advanced Standing Plan of Study must:

1. Have a BSW degree from a school of social work accredited by CSWE;
2. Have a GPA of 3.0 or better on a 4.0 scale;
3. Submit an application to the University’s Office of Admissions no later than March 15 for enrollment in the beginning cycle of the Advanced Standing Program which starts in June;
4. Submit three letters of recommendation;
5. Submit an autobiographical statement;
6. Submit Graduate Record Examination (GRE) Score which must have been received within the past five years; and
7. Pay a nonrefundable application fee.

The MSW program does not give credit for life experiences or previous work experiences.

**Financial Aid**

The School awards a limited number of partial tuition scholarship based on scholastic achievement and financial need. In addition, there may be special projects that provide grants and/or traineeships on a competitive basis. To receive federal, state or institutional financial aid at CAU, a student must complete an application for federal student aid. The Federal School Code is 001559. One can apply for a federal loan through the internet. The internet address is: www.FAFSA.ed.gov. The priority deadline for submission of the Financial Aid Application is April 1. Information about financial aid can be obtained by contacting:
CSSW 500A: Autonomous Social Work Practice I.  3 credits
This is the first of two required courses in the method sequence that provides the foundation for all practice courses in the curriculum for two year full time and three year part time students. Framed in a generalist perspective, the course examines social work practice as both a method and process for intervention with micro systems (individuals, families and small groups). It includes fundamental ethical practice principles and concepts, values and skills used by social workers. Primary attention is given to the application of practice components with micro systems where the goal is to achieve an optimal level of social functioning within the context of client’s problems. Autonomous Social Work Practice – Matrix Roles – Humanistic Values, and the Afrocentric Perspective are linked to the ecological system and strength perspectives. Students must be enrolled in CSSW 600A HBSE I and Field Practicum CSSW 501 A.

CSSW 501A: Concurrent Field Practicum I.  3 credits
Field Practicum I provides students with a supervised field experience in an agency setting using generalist social work skills. Students apply foundation knowledge, skills, values and ethics to practice. The practicum focuses on skill development, the nature of social systems, and the integration of social work theory and practice.

CSSW 585: Research Methods I - (Web-Enhanced Course).  3 credits
This is an introductory course on applied methods at the graduate level. The course is a comprehensive overview of the methods used to evaluate the efficacy of individual-level, group-level, and program-level social service interventions. The topics include sampling, measurement, design and procedures as they relate to single systems design, program evaluation, and basic research. Issues of reliability and validity provide the framework through which empirical research and original studies are critiqued. The major methodologies, both quantitative and qualitative, are considered. The implications of research in social work are explored as they impact issues of human behavior, policy and practice. Prerequisites: None.

CSSW 600A: Human Behavior and the Social Environment I.  3 credits
This foundation course focuses on oppression, poverty, various types of racism and inequalities, how these forces have been institutionalized in our society, how they impact diverse communities, organizations, groups, and shape the behaviors and development of children and adolescents. The course introduces the ecological systems perspective for understanding human development in contemporary context and individual identity development within the family and groups and the life span. The Afrocentric perspective and humanistic paradigm will be the lens through which these issues will be addressed. Content will focus on processes of oppression, cultural pluralism, biculturalism, integration, acculturation and assimilation. The theories discussed will correspond and provide support to the first semester practice course-CSSW 500A: Autonomous Social Work Practice I.

CSSW 700: Social Welfare Policy and Services.  3 credits
This course is the first of two policy sequence courses and is designed to assist students in acquiring knowledge of the history of America’s response to the needs of the poor and oppressed, including legislative policies and the development and role of the social work profession. Special attention is focused on general social problems, children, family and health issues, program services and structures, and beginning skills for analyzing social welfare issues.

CSSW 500B: Autonomous Social Work Practice II.  3 credits
This course is the second required foundation course in the practice sequence for full time tow-year students and part-time three-year students. The course builds upon CSSW 500A with a focus on generalist social work practice with groups and expands with emphasis on organizations and communities. This course, like Autonomous Social Work Practice I, continues the conceptual framework of the ecological systems perspective, (the client system in context of reciprocal relationship with their environment), and incorporates the Autonomous Social Work Practice roles, the humanistic value system, and the Afro Centric Perspective. Primary attention is given to assessment and intervention with organizations and communities (mezzo and micro systems). Prerequisites: CSSW 501A, 600A.

CSSW 500C: Clinical Practice with Children, Adolescents, Adults, Families (Advance Standing Students Only).  3 credits
This is the first practice course for Advanced Standing Students. The course makes the assumption that these students enter the graduate program with competencies in the requisite knowledge, values and skills from a generalist social work perspective. It is expected that such competencies will enable the students to transition into advanced practice content areas. The course builds upon and extends social work practice models, methods, and processes for work with children, adolescents, adults, and families in different settings who present with a range of problems. Attention is given to models of assessment and interventions with each of these client systems. The concept of social functioning is used to inform problem identification, assessment and intervention. Students enrolled in this course will prepare to select a specialization area in health/mental health or child and family. Students who select the child and family specialization can also select school social work as a subspecialty.
CSSW 501B: Concurrent Field Practicum II. 3 credits
Field Practicum II is a continuation of CSSW 501A. The practicum experience focuses on skill development, the reciprocal nature of social systems, application of ethics to practice and the integration and application of social work theory to practice. Prerequisite: CSSW 501A: Field Practicum I and CSSW 500A: Autonomous Social Work Practice I.

CSSW 600B: Human Behavior and the Social Environment II. 3 credits
This course continues to expand understanding of individual growth and development over the life cycle begun in CSSW 600A. It focuses on young and middle adulthood, families, later adulthood and aging with special attention to biological, cognitive, social, psychological and spiritual issues. Attention is paid to how communities, organizations, groups, poverty, oppression, discrimination and racism impact development.

CSSW 600C: Human Behavior and the Social Environment III. (Advanced Standing Students Only). 3 credits
This is the first Human Behavior and Social Environment course for Advanced Standing Students. The course reviews content on oppression, discrimination and poverty along with other factors as they affect communities, organizations, groups. Students will then integrate their understanding of human development issues that affect individuals, families, groups as they interface with communities, organizations, groups.

CSSW 586: Research Methods II (Statistics) (Web-Enhanced Course). 3 credits
This course is an introduction to applied research statistics designed to develop skills in data analysis and statistical software computer usage for social work research and practice. The course focuses on: 1) computing and interpreting descriptive statistics, i.e. frequency distributions, graphic representations, measures of central tendency and dispersion; and 2) bivariate statistical procedures, such as chi-square, t-tests of group means, and One-way ANOVA. An applied research project is the primary vehicle by which students will demonstrate their mastery of course content. Prerequisite: CSSW 585: Research Methods I.

CSSW 588: Advanced Research Methods (Advanced Standing Students). 3 credits
This course focuses on the application of research methods and statistics. The content assumes that the student has a basic understanding of research methods. There are two course objectives: 1) students will develop skills in conceptualizing, designing, conducting and writing for social work research and practice; and 2) students will develop skills in data analysis and statistical software computer usage. There are three broad areas covered in the course: 1) application of research methods; 2) computing and interpreting descriptive statistics, i.e. frequency distributions, graphic representations, measures of central tendency and dispersion; and 3) bivariate statistical procedures, such as chi-square, t-tests of group means, and One-way ANOVA. An applied research project is the primary vehicle by which students demonstrate their mastery of course content. Prerequisite: Research Methods Course.

CSSW 709: Differential Policy Analysis. 3 credits
This course builds on CSSW 700 and is designed to assist students in developing conceptual, analytical, and political skills necessary to improve existing social policies, defeat policy initiatives incongruent with social work values, or establish new policies. Each student selects a social welfare policy or policy issue in his/her area of specialization at the local, state, or federal level for analysis and advocacy action. Prerequisite: CSSW 700: Social Welfare Policy and Services.

CSSW 502A: Field Practicum III. 3 credits
This practicum provides students with advanced practice experience to sharpen the translation of theoretical constructs that undergird the students’ specialization. Critical knowledge regarding skills, values and ethics is reinforced. Prerequisites: CSSW 501A and 501B: Field Practicum I and II and CSSW 500A and 500B: Autonomous Social Work Practice I and II.

CSSW 601: Psychopathology. 3 credits
This course covers the description, classification, evaluation and diagnosis of the adult psychiatric disorders described in the Diagnostic and Statistical Manual of Mental Disorders (DSM-IV). Additionally, personality development theories are drawn upon to further promote students’ understanding of assessment and treatment interventions.

CSSW 598: Thesis/Conceptual Paper or CSSW598A Practice-Based Research. 4 credits
This four-semester credit hour course covers two semesters (two-semester credit hours per semester). It is a formal, rigorous research study conducted as partial fulfillment of the master’s degree under the direction of a faculty supervisor.

CSSW 503A: Social Work Practice with Children and Families. 3 credits
This course is designed for students who have completed the first-year foundation courses and have selected the Child and Family Specialization. Building upon CSSW 500A and CSSW 500B, this course examines clinical assessment and interventions with children and their families. The course covers theoretical issues and practical techniques used in social work interventions with children and their families. Issues such as conducting an assessment, developing a treatment alliance, understanding family dynamics including resistance, worker’s use of self, and termination will be explored. Work with parents and collaterals will be viewed as an integral part of clinical intervention with children.

CSSW 503B: Social Work Practice in Health/Mental Health Settings. 3 credits
This course is designed for students who have completed the first-year foundation courses and have selected the Health/Mental Health Specialization. Building...
upon CSSW 500A and CSSW 500B, this course focuses on understanding the contextual and conceptual framework of social work practice in health/mental health settings and the development of skills for practice in acute medical settings, public health agencies, mental health settings, and long-term care facilities. An effort is made to provide an understanding of the complexities inherent in the application and use of clinical interventions in different health care settings and systems of health care delivery. Value and ethical conflicts inherent in clinical practice in health care are considered, with special attention to issues related to women, minorities, at-risk populations, and the poor.

CSSW 502B: Field Practicum IV. 4 credits
Field Practicum IV is a continuation of CSSW 502A. It provides advanced clinical practice experience that undergirds the student’s specialization. Prerequisites: CSSW 501A, 501B, 502A: Field Practicum I, II, and III and CSSW 500A and 500B: Autonomous Social Work Practice I and II.

Electives

CSSW 506: Program and Organizational Development for Clinical Practice. 3 credits
This course provides students with advanced knowledge and understanding of organizational needs and identifies strategies and models for achieving these needs. Select organizational development models are examined to determine their applicability to social service agencies.

CSSW 508: Brief Interventive Methods. 3 credits
This course examines the theory and practice of brief treatment methods, including crisis intervention. It focuses on the basic phases of time-limited treatment and provides selection criteria, assessment procedures, goal setting, techniques of intervention, and termination approaches with individuals, families and small groups. Prerequisite: All foundation practice courses.

CSSW 510: AIDS: Psychosocial Issues and Intervention. 3 credits
This course provides critical information on practice, prevention, education, intervention methods and models of care for working with people with HIV/AIDS. Additionally, the course focuses on the AIDS population as an at-risk group. Prejudice, legal, spiritual, ethical, and other issues that confront social workers in clinical practice with AIDS persons are addressed.

CSSW 511: Intervention Strategies with Children and Adolescents. 3 credits
This course provides advanced knowledge and specialized skills for practice with children and adolescents who experience developmental issues and a range of psychosocial problems and social injustices. It examines practice issues relevant to culturally diverse children and adolescents, especially African-American and Latino children and adolescents. The course emphasizes the importance of understanding resiliency and strengths in making assessments and interventions in various treatment settings: schools, child welfare agencies, and juvenile justice systems.

CSSW 512: Intervention Strategies with Adults and the Aged. 3 credits
This course is designed to integrate theories and practice skills for effective clinical work with the elderly and their families. Attention will be paid to the significance of the older person’s history, various losses experienced including how to deal with grief and mourning, as well as understanding behaviors within their environmental context. The provision of concrete service delivery and case management as well as individual, family and small group treatment approaches will be addressed.

CSSW 513: Child Abuse and Neglect. 3 credits
This is an elective practice course located in the Child and Family Specialization. It is concerned with the abuse and neglect of children within a family system and how these patterns are perpetuated. It examines societal injustices faced by children, particularly children of color, and explores strategies for addressing these injustices. Core objectives of the course are to: 1) explore research findings on the prevalence of factors that contribute to child abuse and neglect; 2) offer in-depth knowledge about the types and causes of child abuse; and 3) provide knowledge of and skills in investigation, assessment, case management, treatment approaches, prevention and methods of evaluation at the macro and micro levels. Prerequisites: First-year foundation courses.

CSSW 514: Group Processes in Social Work Practice and Administration. 3 credits
This course offers an overview of the use of groups in social work practice. The early sessions focus on understanding task groups. The balance of the course focuses on treatment groups and the role of the worker in planning and conducting group treatment sessions. Lectures, group demonstrations, role-playing, and film are among the classroom activities.

CSSW 517: Community-Based Health Care. 3 credits
This course provides, to a multidisciplinary student group, the opportunity to analyze health problems in a given community. Emphasis is placed on access and barriers to health services, the role and function of multidisciplinary teams, community needs assessment and interventions, and policy advocacy for change. Students work as teams in a select community. They engage in fact-finding activities that lead to a presentation of recommendations for improved community health to state and local legislators.
CSSW 518: Community Health Promotion and Disease Prevention. 3 credits
This course builds on CSSW 517 and provides the knowledge and skills needed to conduct a health promotion activity in an assigned community. Using the Precede/Propede Model of Health Promotion, students plan, develop, and implement an intervention to address a community health problem identified in CSSW 517. Prerequisite: CSSW 517.

CSSW 520: Family Therapy. 3 credits
This is an advanced clinical social work practice course designed to increase students' knowledge and skills for intervening with families. The course engages students in: 1) exploring the development of family therapy and the dimensions of family treatment in social work practice; 2) using major models of family therapy for assessment and intervention; 3) identifying key family processes to include belief systems, individual family roles, and individual communication patterns and dynamics; and 4) identifying major research findings in family therapy.

CSSW 521: Supervision and Consultation in Clinical Practice. 3 credits
This course provides concepts and principles of supervision and consultation. Attention is given to emerging trends and practices in supervision, staff development, personnel utilization and assessment. The course explores the history, roles, techniques and practices involved in the supervisory process. The course is designed for the experienced student who desires and expects to become an agency supervisor within the next few years, and to assist practicing supervisors to develop additional competencies. Attention is given to issues of clinical supervision and licensure.

CSSW 522: Public Health Social Work Practice. 3 credits
This course prepares social work students for advanced practice in the area of public health with a focus on disease prevention. Students are introduced to the historical development of public health practice, current public health issues, policies and procedures, research, assessment, and intervention strategies. Professional values and ethics are promoted as a foundation for helping students accept the differences in health behaviors related to ethnicity, gender, race, culture, socioeconomic status, at-risk status, and sexual orientation. Students are exposed to content on humanistic values, Afrocentric perspective, and autonomous social work practice matrix roles as they relate to public health in social work.

CSSW 603: African-American Families. 3 credits
This course examines historical and contemporary forces impinging upon African-American families to include disadvantaged status, racism and poverty, and the resultant survival strategies f these families. The Afrocentric perspective in conjunction with ecological-social systems theories is used. Attention is given to historical, economic, cultural and psychological factors that impact African-American families. Strengthens that exist in black families are acknowledged to include: adaptability of family roles, strong kinship bonds, a strong work and achievement ethic, and strong religious orientation.

CSSW 606: Alcoholism and Drug Dependency. 3 credits
This course examines psychosocial, cultural, physiological, political and economic roles that influence the use and abuse of alcohol and substances by diverse groups. Students are taught how to screen for alcohol and drug problems and how to evaluate the patterns, context, and consequences of alcohol and drug-taking behaviors. Students are introduced to 12-step programs, individual family assessment and intervention, and skills training for alcohol and drug abusers.

CSSW 609: Emotional Disorder of Children and Adolescents. 3 credits
This course is designed to explore a range of factors, situations, and experiences that contribute to the development and progression of emotional disorders in children and adolescents. In addition to formal diagnostic DSM-IV criteria, and an understanding of developmental issues, a strengths approach, supported by both Afrocentric and ecological perspective, is used.

CSSW 706: Law and Social Work. 3 credits
This course is designed to provide students with a basic analysis of social work as it interfaces with the law. It is not designed to turn professional social workers into lawyers, but rather to make encounters with lawyers and the legal system less mysterious and more beneficial to the client population. At the conclusion of this course, the student should be able to recognize how federal and state court systems operate, attain a level of confidence with respect to court testimony, understand the value of effective social work advocacy, develop cognizance of professional licensing and practice issues, and use basic legal terms and legal library resources.

CSSW 609: Emotional Disorder of Children and Adolescents. 3 credits
This course is designed to explore a range of factors, situations, and experiences that contribute to the development and progression of emotional disorders in children and adolescents. In addition to formal diagnostic DSM-IV criteria, and an understanding of developmental issues, a strengths approach, supported by both Afrocentric and ecological perspective, is used.

CSSW 707: School Social Work. 3 credits
This is an advanced policy/practice required core course for the School of Social Work subspecialty. The course examines the scope of school social work; analyzes the impact of federal and other policies on schools as educational and socialization systems; explores influences of diverse ethnic/racial and oppressed student/parent population groups on schools and school responses by schools; and provides for increased differential clinical social work skills and roles, intervention models, interdisciplinary team work, and home-school-community approaches in school social work practice. Prerequisite: first year foundation courses.

CSSW 800: Independent Study 1, 2, or 3 credits
An independent study is a one semester individualized course that is arranged between an individual faculty member and a student on a specific topic of interest to the student and that meets academic and professional requirements of the MSW Program. Permission of both the Chair of the MSW Program and the instructor is required.

The Progressions in the MSW Program of Study are as follows:
Two-Year, Full-Time Plans of Study

Full-time study is defined as registration for completion of no less than nine (9) semester credit hours. The average number of semester credit hours carried by full-time students if fifteen (15).

First Year – Fall Semester
500A  Autonomous Social Work Practice I  3
501A  Field Practicum I  3
585  Research Methods I  3
600A  Human Behavior and the Social Environment I  3
700  Social Welfare Policy and Services  3

Spring Semester
500B  Autonomous Social Work Practice II  3
501B  Field Practicum II  3

Ph.D. PROGRAM IN SOCIAL WORK POLICY PLANNING AND ADMINISTRATION AND SOCIAL SCIENCE

Thayer Hall, Suite 9
Telephone (404) 880-8311 or 880-6834

Established in 1983, the Ph.D. Degree Program at Clark Atlanta University Whitney M. Young, Jr., School of Social Work prepares individuals for careers in teaching, research, social policy analysis, human service management, and organizational development. The program seeks to increase the number of African-American and other underrepresented ethnic minority social work leaders at the doctoral level.

The mission of the program is to implement a set of interdisciplinary teaching and learning experiences that will lead to the development of competent and motivated leaders in the global human enterprise. The program provides teaching and learning in two areas: 1) core courses in social policy, human service management/administration, organizational development, and research methods and statistics; and 2) courses in a cognate area that students select from the graduate schools within the University and Atlanta University Center to include the Schools of Business Administration, School of Education, School of Arts and Sciences, and Morehouse School of Medicine Master of Public Health Program.

Since the inception of the program in 1983 examples of the most popular cognate areas have been:

**School of Business**
Business Administration

**Education**
Educational Leadership

**Arts and Science**
- Computer Science
- Criminal Justice
- International Affairs and Development
- Morehouse School of Medicine
  - Public Health

**Admission Requirements**

The Doctoral Program invites applications from experienced social workers who hold the Master of Social Work Degree and show evidence of outstanding professional competence, academic excellence, capacity to conceptualize and clearly articulate ideas and career interests in advanced social work practice, education, and research. Upon completion of the MSW program, students must acquire three years of postmaster’s professional social work experience to meet the eligibility criteria for making application for admission to the Ph.D. program.

**Application Requirements and Deadline**

All application materials are due no later than March 15th for admission to the academic year which begins in August. The following materials are to be submitted to the University’s Office of Graduate Admissions:

1. Official transcripts from all colleges and universities attended;
2. Graduate Record Examination (GRE) scores taken within the last five years;
3) Three letters of reference, including one from a person in a position to judge the applicant's potential to conduct research at the doctoral level; and

4) a written declaration of intent that should address the following:
   a. Describe your professional social work experiences and explain how these experiences have shaped your interest in doctoral social work education.
   b. Discuss specific area(s) in which you desire to strengthen your skills and knowledge and/or develop new skills, knowledge and competencies.
   c. Indicate the career goals you envision upon completion of the Ph.D. degree program.
   d. State your reasons for applying to Clark Atlanta University Whitney M. Young, Jr., School of Social Work as the institution to pursue your doctoral education.

Degree Requirements

1. Completion of a minimum of sixty-nine (69) semester credit hours which includes the core curriculum courses, cognate courses, required elective courses, and a dissertation;
2. Cumulative grade point average of 3.0 or above;
3. Demonstration of competency in computer technology; and
4. Reading competency in one foreign language, preferably Spanish or French

Ph.D. Curriculum

The curriculum is a planned three-year (3) program that requires satisfactory completion of sixty-nine (69) semester credit hours. The curriculum is divided into core, cognate, elective courses and a dissertation. Core curriculum courses are required during the first and second years. The third year is primarily devoted to the completion of cognate, elective courses. After all course work is satisfactorily completed, one must take and pass qualifying examinations prior to beginning work on the dissertation.

Ph.D. Course Descriptions

CSSW 900: Independent Study. 1, 2, 3, credits
An independent study is a one-semester individualized course that is arranged between an individual faculty member and a student on a specific topic of interest to the student and that meets academic and professional requirements of the Ph.D. Degree Program. Permission of both the Director of the Ph.D. Degree Program and the instructor is required.

CSSW 901: Historical Analysis of Social Welfare and Professional Social Work Practice. 3 credits
This course examines the growth of social welfare and social work as social institutions in American society.

CSSW 902: Social Welfare and Professional Social Work Policy Planning and Development. 3 credits
This course creates awareness of sequential policy development on several levels, as well as fosters understanding of administration procedures, techniques and interventions that may be employed in the implementation of policies and programs.

CSSW 910: Descriptive and Inferential Statistics. 3 credits
This course provides in-depth understanding of descriptive and inferential statistics that enable students to master the procedures of statistical analysis as used in the field of social work.

CSSW 911: Evaluative Research and Multivariate Statistics. 3 credits
This course provides dual focus; the major focus is on application of advanced research methods for the evaluation of human service programs; the secondary focus is on use of multivariate statistics and microcomputers in evaluation and planning.

CSSW 912: Research Methodology in Social Work Planning and Administration. 3 credits
This course covers aspects of research methodology for social work planning and administration including: problem formulation, conceptual and operational definitions of variables, theory and literature selection, design, data analysis and data presentation; emphasis is placed on experimental and quasi-experimental designs and research for administration and computer applications in the analysis and presentation of data.

CSSW 913: Doctoral Seminar I. 3 credits
This course analyzes current issues in the field of social work administration, planning and research; a framework for analyzing new developments, trends and projections in the field is provided through the use of selected topics.

CSSW 914: Doctoral Seminar II. 3 credits
This course is open to students who have completed core requirements and have selected a defined area for dissertation research. The course is a continuation of CSSW 913 and promotes the development of individual research projects using critical feedback from students and faculty.

CSSW 920: Organizational Development. 3 credits
This course prepares students to understand and work effectively in existing and newly designed organizations. Students examine competing organizational designs and new and traditional organizational forms and structures. Recognizing that organizations are organic, living systems, the roles, competencies and interpersonal skills required of managers and leaders who seek to develop more effective and efficient human service organizations are explored in-depth.

CSSW 921: Planned Change in Complex Organizations. 3 credits
This course examines: (1) language of complex organizations; (2) organization theory (theory of bureaucracies); (3) knowledge and data on recent studies of complex organizations and suggests implications for social change and social policy regarding complex organizations in the area of human service delivery with special attention to organizations serving persons of color.

CSSW 930: Critique and Analysis of Managerial Theories. 3 credits
This course provides a critique and analysis of various administrative and managerial theories, principles and concepts. It establishes a framework for assessing the potential applicability of selected managerial theories in human service agencies.

CSSW 931: Administration in Human Service Organizations. 3 credits
This course builds on CSSW 930 and is designed to help students strengthen their managerial skills and acquire new skills that will enable them to function more competently as managers, and administrators of human service organizations.

Assistant Professor, English  
School of Arts and Sciences  
Ph.D., University of New Mexico

Leummim Yao  
Assistant Professor, Mathematical Sciences  
School of Arts and Sciences  
Ph.D., University of Illinois at Urbana-Champaign

Zelealem Yiheyis  
Assistant Professor, Economics  
School of Business Administration  
Ph.D., University of Manitoba

Cedric Young  
Instructor, Music  
School of Arts and Sciences  
M.M.E., Alabama State University

James Young  
Professor, Curriculum  
School of Education  
Ph.D., University of Massachusetts
Equal Opportunity
Affirmative Action Policy

Clark Atlanta University is an equal opportunity/affirmative action employer. The University provides equal employment opportunities to all faculty, staff, students and applicants without regard to race, color, religion, sex, age, national origin, marital status, physical handicap, military or status as a Vietnam veteran in compliance with applicable federal and state law that pertain to nondiscrimination. Such action shall include, but is not limited to, employment, promotion, demotion or transfer; recruitment or recruitment advertising; lay-off or separation; rates of pay or other forms of compensation and selection for training programs.

Clark Atlanta University is committed to provide equal educational opportunity for all qualified student applicants and enrolled students without regard to race, sex, religion, color, national origin, age, physical handicap, military or marital status. This commitment to equal opportunity includes recruitment, admission, access to and usage of facilities, counseling and testing, financial assistance, placement, and curricular programs and activities.

INSTITUTIONAL ACCREDITATION

Clark Atlanta University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools (1866 Southern Lane, Decatur, Georgia 30033-4097; telephone 404-679-4501) to award the Bachelor's, Master's, Specialist, and Doctor's Degrees.
