*NOTE: SGP is a measure of student growth for core state-tested subjects. A growth percentile can range from 1 to 99. SGPs are produced for the Georgia Milestones (grades 4-12 reading/ELA, math, science, and social studies) and EOCs. The grand mean of SGP performance for all tested courses taught by the teacher (MeanGP) is used in calculating the Student Growth rating. There are four SGP rating levels: Level 1: MeanGP <30; Level 2: MeanGP >30 and <40, Level 3: MeanGP >40 and < 65; Level 4: MeanGP > 65. Level 3 is expected for proficiency.*

ENROLLMENT: To provide context for the Cohort Default Rate (CDR) data we include enrollment data (students enrolled at any time during the year) and a corresponding percentage (borrowers entering repayment divided by that enrollment figure). While there is no direct relationship between the timing of when a borrower entered repayment (October 1 through September 30) and any particular enrollment year, for the purpose of these data, we have chosen to use the academic year ending on the June 30 prior to the beginning of the cohort year (e.g., FY 2015 CDR Year will use 2013-2014 enrollment).
